Effort to Have One of Dreadnought Class Stricken Out, Fails.

APPROPRIATED. \$96.000.000

Crumpacker Believes the Philippines Are Sword of Damocles Hanging Over Republic.

Washington, Feb. 15,-The house, after a highly interesting debate today, passed the naval appropriation bill which carries, in round numbers, \$96,-000,000. Mr. Burton (Ohio) made an unsuccessful effort to strike out the provision for an additional battleship of the Dreadnought type. His amendment was voted down-114 to 146. Speeches on the amendment were made by Mr. Burton and Kitchin, North Carolina; Slayden, Texas; Crumpacker, Indiana; Hull, Iowa; Sulzer, New York; Waldo, New York: Weeks, Massachusetts; Longworth, Ohlo; Grosvenor, Ohio, and

Longworth, Ohlo; Grosvenor, Ohio, and Foss, Illinois. Speaking in support of his motion, Mr. Burton called attention to the in-evitable tendency of advancing civili-zation toward peace, the unitring en-deavors of nations not involved in con-flict to prevent war between other countries between which controversies arise. He spoke of the growth of arbi-tration as a means of settling disputes, and the intolerable burden of main-taining armies and navies. He said that in the United States in recent years the expenditure of the military and navel establishments had grown to be five times as great as in 1887, only 20 years ago.

and naval establishments had grown to be five times as great as in 1887, only 20 years ago. Mr. Burton deprecated the war talk in regard to the Japanese, and con-trasted the size of the two navies of the two countries, showing that with ships now under construction the Upited Stacs navy would be nearly two-thirds larger than that of the Japanese, and at present a half larger. The United States, of all the nations of the world, he said, should take the lead in the move for a limitation of armaments. "No nation on the globe is threaten-ing us. No nation on the globe will think lightly of engaging in war with us," said Mr. Burton. "In England to-day, king, prime minister, parliament and the great majority of the people are ready and anxious to stand with us in a movement for the limitation of armament. Greatness does not coa-sist in the strength of the government, but in the happness and the opportuni-ty of each individual citizen. a thing

sist in the strength of the government, but in the happiness and the opportuni-ity of each individual citizen, a thing far preferable, far more to be desired, than the triumphs of war or the empty glories of imperial dominion." Mr. Crumpacker (Indiana) favored the big ships for the protection of the Philippines. "I believe," he said, "the Philippines are the sword of Damocles hanging over the head of this republic," and he contended that they impose a re-sponsibility which we should be pre-pared to-meet in the right way. Considerable interest was aroused by Mr. Longworth (Ohio), who said that while very generally he relied on the good judgment of his colleague (Mr. Burton), in this particular case he was obliged to disagree with him, and "yield to the optinion of a higher au-thority especially." He proceeded as though the opinion of that "higher authority" agreed with his own. Mr. Suizer supported the recommen-

of that "higher authority agreed with his own. Mr. Sulzer supported the recommen-dation for two battleships, offering an amendment that one be built at the New York navy yard. The chairman of the appropriations committee, Mr. Tawney of Minnesota, supported the Burton amendment on the ground of economy. He did not share Mr. Burton's dream of world supported in Economy. He did not share Mr. Burton's dream of world peace by international arbitration, but he thought the United States was al-

COAL LANDS.

Bill to Embody President's Recommendations is Decided Upon.

Washington, Feb. 15.-A bill conform-ing in a measure to President Roose-veit's recommendation for the leasing of coal lands by the government rather than for their sale, was decided upon today by the house committee on public

today by the house committee on public lands. Last Wednesday the committee re-ported a bill, which was widely at va-riance with the suggestions made in the president's message on coal lands sent to Congress the same day. The com-mittee was unaware of the message until afer it had reported the bill, and Representative Lacey, the chairman, suggested a reconsideration. The committee today added a leasing clause to the bill but no agreement could be reached on such a general leasing plan as the president desires. The bill, as amended, authorizes the president to lease any coal lands with a royalty of not more than 2 cents a ton and provides that the lands may be withdrawn from entry after they be withdrawn from entry after they are leased, but not before. The amount to be leased to any one person is lim-tied to 2,560 acres. President Roosevelt wanted all coal

regardless of whether it be leased or not, but the general withdrawal is strongly opposed by western members, who are not willing to have any more land go into government reserves.

CALIFORNIA ORANGE CROP IS JEOPARDIZED.

Los Angeles, Cal., Feb. 15.—The or-ange crop in southern California, which is now maturing and being picked for the market, is jeopardized to some ex-tent by the shortage of refrigerator cars on all railroads. OKLAHOMA BILL CONSIDERED.

OKLAHOMA BILL CONSIDERED. Washington, Feb. 15.—The Oklahoma railroad consolidation bill introduced in the senate by Mr. Werner was consid-ered today by the senate committee on Indian affairs. Judge L. F. Parker represented the railroads. He was questioned closely by Senator La Foliette, who took the posi-tion that the bill would permit a con-solidation in violation of the Sherman law and the principles laid down by the supreme court in the Northern Se-curities case. He declared that there was an effort to get the bill through before Oklahoma sent senators here to oppose its passage.

The bill permits the 'Frisco system to absorb the St. Louis. San Francisco & New Orleans Rallroad company, the st. Louis & Oklahoma City Raliroad company, the St. Louis, Oklahoma & Southern Raliroad company and the Oklahoma & Western Raliroad com-

WHY WE CURE where others fail: Our methods are up-to-date. We thoroughly understand our business and apply all our knowledge and skill on every case we undertake. We fulfill our promises and net-er accept a case unless we believe we can cure it. We study the pecal-iar mature of every individual case and treat the causes, not symptoms. We teach our patients how to help get well—what to eat and drink during the course of treatment and what to avoid. Coupled with the fact that we have the most complete and perfectly equipped office in Suit Lake makes our statements rationally reasonable. If you are in doubt, call and see us, a few minutes' talk will cost you nothing and may be the means of restoring you to health. As to terms: Our large practise enables us to cure for less money than the average so called specialists—and you see the results before yon are required to pay us. HOURS—9 a. m. to 5 p. m. A BRAVE CONDUCTOR. Carl Barnes Saves Twenty Passengers From Possible Death.

From Possible Death. Silverton, Colo, Feb. 15.—Twenty passengers, including one woman, in the south-bound passenger train on the Gladstone & Northern railroad, were saved from injury and possibly death today through the bravery and presence of mind of Conductor Carl Barnes. A mile from Silverton the rear coach broke loose and began to run back down the steep grade. The passengers, panic stricken, rushed in a body for the platform, but Conduc-tor Barnes restrained them and as-sisted them, one by one, to jump off the rapidly moving ear. sumed the delicate task of selecting the 12 jurors who will decide whether Steve Adams shall be hanged for the alleged murder of Fred Tyler, the timber settler, or shall be declared not guilty of this crime and taken to southern Idaho to stand trial there for the alleged con-spiracy that led to the assassination of ex-Gov. Steunenberg. How important may be the personnel of the jury in de-ciding this verdict is recognized not only by the attorneys but by the people of Wallace, and it is freely predicted that in this mining town it would be decidedly difficult to secure a jury which will cast a solid dozen votes of "guilty" in spite of such evidence as the state is believed to possess. In the trial of Steve Adams today for murder, Judge Woods gave the state permission to add the name of witness W. E. Hopkins to the information in spite of the protests of the defense. Jack Simpkins was ruled off the jury on the ground that he is a member of the Western Federation of Miners, which is paying for the defense. The jury was completed this after-noon.
