MINING, BUSINESS AND STOCKS

JESSE KNIGHT NEAR GOLD HILL

Provo Mining Man Interested in Lead, Silver, Copper Property In Deep Creek District.

PELICAN POINT COMPANY

Is Assembling Machinery and Will Operate on Extensive Scale-Proposed New Mill,

Special Correspondence.

Provo, Jan. 28 .- F. N. Millett has returned from Deep Creek, where he has been doing assessment work on some claims owned by himself and Jesse Knight, near Gold Hill, Mr. Millett has brought some fine ore with him rich in lead, copper and silver, and is hopeful of adding another mine to the big string of Mr. Knight's rich hold-

Walter Parkes, manager of the Pelican Point Mining & Development company, is here, making arrangements for supplies and material for the company in its work on the west side of the lake. He reports that two gasoline engines and other machinery is already on the grounds or in transit for use in the erection of the cyanide plant to be built this spring.

The company has secured a ten-acre The company has secured a ten-acra lot on the west shores of the lake, with a good harbor, and intends to put a line of scows on the lake, unless a railroad is built, and ship lime, paint, fron and other material to the railroad on this side for transportation to market. The variety of products contained in the company's big holdings is remarkable. At the company's office is remarkable. At the company's office in this city are samples of graphite, lime, raw and burned, as well as ce-ment of an excellent quality.

ON MINING EXCHANGE.

Tintic Stocks Hold Their Own During Forenoon Sessions of Exchange,

All of the Tintic stocks held their own during the forenoon sessions of the Salt Lake Stock & Mining exchange todoy, and were in fairly good demand. Daly Judge displayed considerable weakness, while Daly found a buyer at \$2.90. Seven Troughs was offered on the open board and sold down to 92 cents, while Nevada Hills remained around yesterday's figures.

The closing quotations and sales were:

Manager Bamberger Has Installed Dick Pelton as Foreman.

The management of the Daly mine at Park City has announced that work is progressing very satisfactorily at that property under the foremanship of Dick Pelton, who was formerly employed as shift boss in the Daly West mine. The shift boss in the Daily West mine. The cave in the avenue through which ore has been taken in the past is being cleared. As soon as this is accomplished, it is said, ore extraction will begin again.

RIGHT IN TOWN.

Big Mines May be Developed Near

Business Section. In the early '80's, says the Park ecord, it was predicted by a thor-In the early '80's, says the Park Record, it was predicted by a thoroughly reliable gentleman of this city, he is since deceased, that some day, probably not in his time, the residents of Park City would see a great hoisting plant on Main street, and that of the camp's great, if not greatest mines, would be found under that thoroughfare. And who now can deny that some time such will be the case. Of late years, the last half-dozen in particular, prospecting and mining operations have been carried on within the city limits, and with encouraging results. In the Clark-Virginia tunnel, whose portal is just off Grant avenue, some very fine ore has been uncovered, not immense bodies of it of course, but enough of it to give rise to the belief that such deposits do exist not so very far away. The Mount Masonic workings show up well, and with more extensive development, it is reasonable to suppose that a shipping proposition might be opened up. The camp's latest sensation, the Uintah-Treasure Hill, is but a very short distance from the townsite limits, and we have heard it intimated that some of our properties which are at present quite regular shippers, have come right into the city and extracted preclous ores. On Main street proper it is known that ore is to be found. Very recently in fact telephone poles on this thorough-fare served as corner posts, and notices of locatin were posted on them. fare served as corner posts, and no-tices of locatin were posted on them. Near the head of Main street ore was found while workmen were digging Near the head of Main street ore was found while workmen were digging foundations for the Lubeck and Stohl homes, and more recently where the new bank building was erected after the fire, a nice streak of ore was found there. A continuation of this was found in the sewer-pipe trench which was dug to Silver creek, and again when the Dewey theater was erected. All of these finds have been made very near the surface and it is erected. All of these finds have been made very near the surface and it is not unreasonable to presume that with further prospecting sensational results might be forthcoming. It would be splendid advertising for the camp, too, and add materially to its prosperity if we could truthfully boast of a "great bonanza in every back yard."

MAY BUILD SMELTERS.

The Bambergers Planning to Have a Plant for Their Own Mines.

A story comes from New York to the effect that the Bamberger mines are to be equipped with smelting facili-ties; that it is not the intention to de-pend on custom plants very much long-er, all of which goes to indicate that something is likely to be done in the way of construction during the present year.

something is likely to be done in the way of construction during the present year.

Simon Bamberger, who is now in New York, is quoted as saying:

"Fifty per cent of our mining profits go to the smelters and the railroads. To offset this I have decided to complete a plan I have had in mind for years. This will insure our freedom from the treatment we have received from the smelting combine in Utah.

"Between the penalities and excessive charges we have always operated at a disadvantage. The time is now ripe for the change contemplated.

"The plant will have at least a daily capacity of 500 tons and will be so constructed as to enable us to put on another 500-ton addition whenever we believe it expedient. The location of the plant is still a matter of conjecture, depending largely upon the concessions we may receive from several districts that are willing to offer us immunity from the injury due to smelter fumes should we decide to build in any particular locality."

NO COPPER STORED.

Story of Metal Dealers' Association Branded as False by Producers.

New York, Jan. 29 .- Representatives of some of the largest copper produc-ing companies having offices in this city, declared yesterday that there was no truth in the allegation made to city, declared yesterday that there was no truth in the allegation made to Atty. Gen. Bonaparte by the Northeastern Metal Dealers' association to the effect that copper is being withheld from the market by a combination of producers. They denied that there was any such combination and declared the situation is a natural one, due to the enormous increase in the demand for copper and the inability to meet the demand.

for copper and the inability to meet the demand.

Some of the copper men said they experience great difficulty in keeping enough copper on hand to meet possible emergencies, such as blockades on the railroads or the going astray of the cars. One said that every pound of copper his mines could produce was sold for months ahead and that he doubted that a carload of copper could be obtained today for immediate delivery. Other proucers said that they had considerable copper in process of refinement, but this occupied several months and as soon as refined it was shipped to customers who had long been awaiting it.

THE MINING CONGRESS.

Much Good Can Come to Mining In-

dustry if Given Proper Support. If every prominent mining operator in this state would take the interest in the organization known as the American Mining compress that is being displayed by John Dern and a few other Salt Lakers this portion of the west would derive much benefit therefrom.

In speaking of the congress and its sims and nurmoses inday Mr. Dern de-In speaking of the congress and its aims and purposes today Mr. Dern declared that since the late meeting of the National Wool Growers' association in this city, he is more firmly convinced than ever that the mining men should ally to the support of the American Mining congress.

"There is no doubt," said he, "that the mining industry should have better recognition from the government and if we can go before our national law making body with our petitions backed by a nowerful organization we are very

if we can go before our national law making body with our petitions backed by a nowerful organization we are very apt to be heard. We ought to have representation in the president's cabinet through the creation of a department of mines and mining with the head of the department a member of the chief executive's official family. The creation of laws to protect the public against illegitimate mining enterprises should be adopted and in many other ways the general welfare of the mining industry can be more carefully safeguarded if the mining operators and those interested directly in mining enterprises will get together in one big association."

Mr. Dern also pointed out how the resources of the state can be spread abroad. At the last session of the Congress, Mr. Dern read a paper, using as his subject "The Mineral Resources of Utah." This paper received wide publication, and he has since received dozens of inquiries from prospective investors. Only during the past week a letter came from a prominent eastern capitalist who is looking for iron and coal lands, and the writer wanted to know more about the deposits of Iron county and if the same could be purchased. Another man wanted to look into the ozocerite lands in southeastern Utah. The foregoing are mentioned as only a few instances of the character of the letters Mr. Dern has received and the most of them have come from men who are prepared to do business.

FROM GOLD SPRINGS.

H. A. Kearns Sees the Jenny Property -New Mill Being Built.

H. A. Kearns, an extensive share-holder in the Jenny Gold Mining com-pany, operating at Gold Springs, Iron county, has returned from an inspection trip. He brought in with him several large chunks of ore which show the presence of free gold in generous quantity. He was accompanied on the trip by James Hordinger of Deadwood, South Dakota.

Mr. Kearns says Manager Short is making good headway with the con-struction of the new mill.

VIRTUE OF FAIRVIEW. Sends in Good News From the Empire State Property.

A letter received today from F. A. Firtue at Fairview, Nev., to Edward McCarrick conveys the information that he has let a contract for 100 feet of tunnel work on the property of the Empire State Nevada property. He adds further that the New Yorker claim contains a very favorable showing of ore. He considers it a mighty good prospect to do some work on.

A strike was made a few days ago on the Golden Boulder property, which is only a short distance from the New Yorker.

BOARD ORGANIZES.

President Pollock Re-elected and Names Various Committees.

Names Various Committees.

The new governing board of the Salt Lake Stock & Mining exchange met yesterday afternoon and organized as follows: President, James A. Pollock: first vice president, R. J. Evans; second vice president, W. J. Browning; third vice president, F. R. Davis; treasurer, G. P. Norton; secretary, James A. Shorten. The followin gchairmen of committees were appointed: Arrangements, G. T. Badger; membership, H. W. Doscher; arbitration, F. R. Davis; listing, R. J. Evans; rules, William H. Tibbals.

The annual meeting of shareholders of the Yankee Consolidated and Blackbird Gold and Copper companies were held yesterday afternoon and boards of directors were chosen to serve during the ensuing year. Both companies are controlled by John E. Dubois and associates of Pennsyl-

The Yankee Consolidated company is operating in the Tintic mining dis-trict. The new board organized by the election of John E. Dubois, president; Charles J. North, vice president; B. N. Lehman, treasurer; who, with H. C. Edwards and F. O. Frick are directors, A. E. Canfield was nam-

are directors, A. E. Canfield was named as secrteary.

The Blackbird company which owns a large domain of valuable mining property in Beaver county and adjoining the Cactus mine will be officered by the following: John E. Dubois, president; Charles J. North, vice president; B. N. Lehman, treasurer, F. O. Frick, secretary; who, with Lorn N. Morrison, M. F. Murray and Frank B. Stephens constitute the board of directors.

MR. SHARP HERE.

President of United States Company Back From California.

Back From California.

William G. Sharp, president of the United States Smeltting, Refining and Mining company, returned to the city last evening from a trip to the Pacific coast where he has been making an inspection of the Mammoth mine and smelter. Mr. Sharp expressed himself as being well pleased with the way things are running. He was accompanied on his return by Fred Lyon, Pacific coast manager for the United States company.

President Sharp states that the matter of moving the company's smelter out of the Salt Lake valley has not been settled.

CONCENTRATES.

Manager J. A. Jacobson of the Ely Resurrection company departed for Ely, Nev., today.

William B. Jeffs, an extensive shareholder in the Columbus Consolidated, has arrived from Michigan.

Development work is going ahead at full blast in the property of the Nail-driver Mining company at Park City. Nevada Douglas is very active on the New York and Boston curbs. The stock sold yesterday up to \$7 a share.

The ore and bullion settlements reported late yesterday by McCornick & Company were: Crude ore and concentrates, \$68,000; base bullion, \$26,000.

DR. SIMPSON'S CASE.

He Expresses Utmost Confidence That He Will be Acquitted.

He Will be Acquitted.

River Head, N. Y., Jan. 29.—Dr. James W. Simpson, a jury to try whom probably will be completed today, expresses the utmost confidence that he will be acquitted of the charge of assassinating his father-in-law. Bartley T. Horner. He was told that his sister, Mrs. Charles Bowman, arrived yesterday and announced that she would remain and do all she could to assist in her brother's defense. Hitherto Simpson has stood alone and almost friendless. His wife and her mother have been hitter against the prisoner since the death of Mr. Horner. That their position has undergone no change since the preliminary invesigation of a year ago when their evidence was largely responsible for the indictament of Simpson, is made clear by the repeated question of the lawyers to the jurors; "Have you any prejudice against a wife testifying ogalost her husband in a case of this kind?

Boston, Jan. 29.—The wool market is quiet with transactions of small size. Purchases are noticeably firm.

PRODUCE.

CHICAGO.

CHICAGO.

Chicago, Jan. 29.—Prices in the wheat market were firm at the opening today and trade was moderately active. The failure of the prediction regarding snow in the southwest and small receipts in the northwest were the chief sources of strength. May opened ½ to ½½½ higher at 78½ and doold at 78½.

The prediction of unsettled weather throughout the corn belt caused some buying of corn by shorts and brought about a firm condition in prices. May opened unchanged to ½ higher at 45% to 45½ and sold at 45%.

The oats pit was very quiet and prices were steady. May oats opened unchanged to a shade higher at 37% 33% sold at 37% and advanced to 38% 38½.

Provisions were dull and prices were because of a 5 to 10 cent decline in live hogs. May pork opened 7½ lower at 16.85; lard 567½ lower at 9.70, and ribs were down 7½ at 9.43½.

The high point for May was 78½. Prices eased off somewhat in the last half hour on realizing, but the close was firm with May up ½½½ at 78½.

Corn—Offerings were light and the market ruled strong until the close. Final quotations were ½ higher than the close yesterday, at 46½.

Cash: Wheat—No. 2 red. 76¼; No. 3 red. 1475; No. 2 hard. 740764; No. 3 hard. 686 75; No. 1 northern, \$2,685; No. 2 do, 74083; No. 3, 75083.

Corn—No. 2, -; No. 2, 42½.

Snow Lying Some Inches on Ground.

San Francisco, Jan. 29.—W. N. Parker, who arrived today from Goldfield brought news of a blizzard raging in Death valley, accompanied by an unprecedented fall of snow. He said:

ALWAYS ASK FOR

HOSTETTER'S

and you choose the best and safest medicine ever compounded for aft-ments of the Stomach, Liver, Kidneys and Bowells, and one that has been fully endorsed by thousands of sickly

HOSTETTER'S

OMAHA.

positively beneficial, deliciously fragrant, gives perfect satisfaction. Ask your

"There are inches of snow at the bottom of death valley, a thing that was never before heard of. I went downinto Ely about two weeks ago and could not get out again for five days, even though I had my own team. You simply could not move. The whole country was snowbound, A family of four-I have forgotten their names—left Lida and started across Death valley for Col. Posep's copper camp. The storm came on and they were not heard of. The fears of their friends were aroused and a party started out to search for them. When I left Friday they had not yet been found."

PROBATE AND GUARDIANSHIP

night, with large selling orders widely distributed throughout the list. Declines were generally confined to small fractions, but Colorado Fuel fell 1%. Reading 1%. Union Pacific a point and Great Northern Ore Certificates, American Car and Pressed Steel Car large fractions.

There was a pretty thorough recovery of the opening losses and many of the favorites, including St. Paul, Great Northern preferred and Amalgamated Copper sold at good fractions above last night. Northern Pacific and Canadian Pacific gained 1%.

Prices wavered uncertainly, going higher than the first hour and then receding. The advance carried Northern Pacific up 1%. Great Northern preferred 1½, and St. Paul and Missouri Pacific 1. The selling which followed centered on Reading and carried that stock down 2%.

Bonds were irregular.

The drive against the market culminated soon after noon and an urgent demand for both accounts followed. Reading recovered all its loss and the market rose to above yesterday's final figures. Amalgamated Copper and Union Pacific rose 1, Alamgamated Copper 1½. Northwestern 1½ and Canadian Pacific 1½.

There were intervals of semi-stagnation Consult County Clerk or respective signers for further information. NOTICE.

In the District Court, Probate Division, County of Salt Lake State of Utah. In the matter of the estate of John R. Park, Deceased. The petition of Samuel W. Stewart, executor of the last Will and Testament of John R. Park, Deceased, (praying that he be authorized and empowered to make and deliver deeds of conveyance for certain easements and rights-of-way to be used perpetually, over, upon and across certain lands situated in the southwest quarter of section

conveyance for certain easements and rights-of-way to be used perpetually, over, upon, and across certain lands sinated in the southwest quarter of section 31, township I north, range I east, Salt Lake meridian, and bounded and described as follows, to-wit:

Commencing at a point 35 feet east and 390.41 feet south of the center of a stone street monument at the intersection of State and First North Streets, Salt Lake City; thence running north 70 deg. east 285.36 feet; north 19 deg. 28 min. east 144 feet; east 61.71 feet; north 29 deg. 40 min. east 28.77 feet; south 29 deg. 40 min. west 25.77 feet; south 20 deg. 40 min. west 25.77 feet; south 20 deg. 40 min. west 25.75 feet; south 26.6 feet to beginning; also commencing at a point 175 feet south, 145 feet north 86 deg. 40 min. 13 sec. east of the center of said stone street monument above mentioned; thence running east 10 feet; south 150.45 feet; south 70 deg. west 10.64 feet; north 160.09 feet to beginning. Sald rights-of-way and easements to be perpetual over, upon, and across said premises; and in consideration of certain rights-of-way for similar purposes to be conveyed to said petitioner has been ser for hearing at 10 o'clock a. m. on Saturday, the 9th day of February, A. D. 1907. at the County Court House, in the Court Room of said Court, City and Count, with the seal thereof affixed, this 29th day of January, A. D. 1907. (Seal) J. U. ELDREDGE, JR., Clerk. By W. H. Farnsworth, Deputy Clerk. Barnard J. Stewart, Attorney. Northwestern 14 and Canadian Pacific 149.
There were intervals of semi-stagnation in the trading, but new buying orders carried prices to a higher level and the selling pressure on the advance became less pronounced. Nothern Pacific got 3 over last hight, Anaconda 4%, Great Northern preferred 3½, St. Paul, Canadian Pacific and General Electric 2, and Atchison and United States Steel 1. Pacific Coast second preferred sold at a decline of 9½.

The market closed active and irregular. Stocks poured on the market again and prices fell back. Reading reacted 3. Pressed Steel Car 1½ and North American 2. Buying orders appeared again at the decline and rallied the market.
