Dodge is here upon one of his periodical trips he affirms that there is no significance Chicago, Jan. 9 .-- May wheat opened to be attached to his visit. The Midland at 77% to 78, advanced to 78%, but re-acted to 77%@%. officials, who are his guests, have come After recovering to 78%, May whea broke to 77%, and closed weak at 77% over the line upon a short junketing

The latter officials this morning went up to Ogden, while Col. Dodge remained in town, and for a portion of his time was closeted with General Superinten. dent A. E. Welby, Engineer Yard, and Superintendent Hayward of the Utah Power & Electric Light company, when the topic of consultation was the pro ected shops, which are to be erected in in Salt Lake City provided that the City Council passes favorably upon the franchise as prayed for by the Rio Grande Western,

Colonel Dodge this morning expressed imself as being gratified with the outook for the granting of the franchise closing the streets affected in the neigh borhood of Sixth West and Fourth South, and promised that Just as soon as it were possible after the City Coun-I had granted the necessary ordinance that work would be pushed on the erecion of the shops and the power plant He states that \$150,000 has been appropriated for the work, but in his opinion the undertaking will cost more than that sum before it is finally finished. Col. Dodge is of the opinion that beyond the above big project and the gen-

ral improvements associated with an ap-to-date railroad, in keeping with the times, that there will be no further big indertakings in the way of extensions f trackage on the Rio Grande Western

MAY AFFECT SALT LAKE. Decision of the Interstate Commerce

Commission in an Important Case.

According to an Associated Press dispatch to the "News" the inter-state commerce commission yesterday hand-ed down a decision of importance to every shipper in the west, and one which, if adhered to, will have the effect of solving the much vexed question in regard to the discrimina-Receipts, 7,000. Weak to lower. Native on in the rates on freight from East to Salt Lake, Unfortunate opinions and decisions of the intetate commerce commission in the pas have been more or less disregarded when they came in violent conflict with he aims and endeavors of any line af ected. Just how this decision will affect Salt Lake and her trade interests will be watched with great interest. yorkers, 5.07\\(\phi\)\(\phi\)5.12\\(\phi\); pigs, 4.85\(\phi\)5.05.
Sheep—Receipts, 2.000. Steady, Lambs, The dispatch, bearing the date line o Washington, January 8, says:

The interstate commerce commission today, in an opinion by Commissione Prouty, announced its decision in the case of George J. Kindel and the ver chamber of commerce against the Atchison, Topeka & Santa Fe Railway company and others. The case in-volves the legality of greater freight charges to Denver than to San Fran-cisco from the Missouri river and points east; greater freight charges from Denver than from the Missouri river and points east to San Francisc greater freight charges to Denver than to the Missouri river and points east from San Francisco; greater greater freight charges from Denver than from an Francisco to the Missouri river

and points east. Water competition, the opinion says, txes the rate between New York and an Francisco, and all carriers, in pursuance of their own interests, have recognized the desire of Chicago and Missouri river points to do business on the Pacific coast, and for that reasen have given to Chicago and points on the Missouri river a rate in no case higher, and in many cases lower, than

Stains at New York.
The commission says if these rallroids have carried the rate which was ter competition fixes 1,400 miles from the Atlantic seaboard they must not stop there. Neither the desire to do business nor the right to do business ceases with the Missouri river. Dendemand the same treatment which its

rival cities have received. It is held by the commission that the rates complained of are in violation of the burth and third section of the act to rigulate commerce, and that as a matter of general application, rates at Denver to or from the east, or to and rom the Pacific coast, ought not to be higher than those between San Fran-cisco or other Pacific coast terminals and the Missouri river on points east. In the case of eastbound traffic, the carries' contentinon that the rate of sugar might be higher to Denver than to the Missouri river is sustained, a being found that the commissions gov erning the traffic are different when it is carried to Missouri river points than

when t stops at Denver.

The commission also decides that Denveris not entitled, by reason of its being marer San Francisco, to a lower rite than that in force from the Missour river.

ANOTHER STORY.

Traveling Freight and Passenger Agents to be Given Walking Papers. Chicago Jan. 8,-The Record tomor-

row will say: The financial powers rallway systems of the nation are re perten to be planning one of the big-American railroad operations. toryed, represented the State in the foregoing cases, which was his first ntention is to dispense with the vasi traveling passenger and ly engaged in the solicitation of business for the lines. Should the plan be arried out t means the discharge of here than 5,000 men, and the annual aving of hillions of deliars to the carrying companies will be the result. The intention of the railroads to bring sult of the reent big deals engineered by J. Pierpont Mergan, James J. Hilt, John D. Rocketeller and others.

Northwestern from Omaha to Denver. It is stated authoritatively that con-struction engineers are making an overand trip, starting from Valetine, Neb. which is regarded as the preliminar; tip to placing surveyors in the field narrow gauge road extending north-ast from Denver to the Scranton coa mines, which some time ago was re-ported to have been sold to the interests presenting the Rock Island, Elilett O. puncan, who is heading the party of ngineers, is credited with the state-nent that the line will run through Nebraska in a nearly direct southwester-ly direction, crossing the Burlington at Hydenis and the North Platte at Osh-Sidney and the South Platte river at arden, Colo. The country through hich the proposed line would pass is ree from any engineering difficulties to sheak of, and the road could be con-structed at a cost of about \$8,000 per

Montreal, Jan. 9 .- T. G. Shaughnessy, president of the Canadian Pacific rail road, who has just returned from a R, was interested in James J. Hills onsolidation of the Northern Pacific and the Chicago, Milwaukee and St. Paul and other roads to secure a new ranscontinental line. The story that company have put up large amounts of money, he said, to insure the sucame to the men whose names were mentioned, as a surprise. I have known for some time past,

e president of the Great Northern o doubt the statement made by Mr. ogers, the managing director of the ive merely resulted in a contract un-er which the Great Northern is to take tons of coal a day, is quite correct But in view of the fact that the coal company is unable now to meet anything like the requirements of the railway companies, the smelters and other coal consuming industries of British Columbia, a proposition to divert such a large additional tonnage nension. It is to be hoped that if the coal company has made any such conract for the shipment of coal to the 'nited States, it will not take effect is sufficient to supply Canadian wants.

Rates to Inauguration.

Chicago, Jan. 8 .- The Tribune says: Western roads have agreed to make a rate of one fare plus \$2 for the round trip to Washington and return for the inauguration of President McKinley on March 4th. Tickets at this rate will be sold on February 28th and March 1st and 2nd from the Western and on February 27th, 28th and March lst from points west thereof, but no tickets will be sold to reach eastern gateways before March 1st. Tickets will be good to return until March 8th.

New York, Jan. 9 .- A year ago when became evident that the affairs of the Third Avenue Railroad company were tast approaching a critical stage, Henry Hart, who developed the road and held a majority interest, pledging with Jas R. Keen, R. J. Batche and Co., several others, 25,000 shares of the company's stock as security for a loan of \$2,500, 000, it was agreed by the syndicate which made the loan to hold the stock \$200,000. Mr. Hart got his \$2,500,000 and proceeded in his efforts to rebuild the falling fortunes of his property, but the stock dropped to \$50 a share, and

For a long time it was thought Hart would not be able to redeem the stock, but it is announced he has finally succeded in buying back the entire 2 shares. The stock, it is said, will be

SPIKE AND RAIL.

There are several other minor debts.

ENGLAND'S LARGE CABINET.

Official Work Done by Committees Assigned to Special Subjects. Criticisms continue to be passed on the unwieldiness of a cabinet of twenty members, says a London cor-respondent of the Cardiff Western Mail. As a matter of practical politics the number does not matter now it has beome an accepted practice that there hould be a committee of the cabinet for ealing with specific subjects, Every mportant government department now represented in the cabinet by its ondonderry has completed the representation. It was impossible that so able and distinguished a man as Lord Londonberry should be in the govern. the same time it was an anomaly that ostoffice, which had oftener than not en represented in the cabinet, should ignored, whereas, comparatilvely

their chiefs in the cabinet. Proposals many there are for reducing the num-ber of cabinet ministers. The most drastic are to leave out the respective ministers of the local government beard, board of trade, board of agriculture and Scotch office and the rd chancellor of Ireland.
