

MALEVOLENT PLOT TO RUIN BANKER

Black Hand. Following Bomb
Outrage. Starts Run On
Italian Bank.

INSTITUTION IS SOLVENT.

Notice Posted on Window Makes Peculiar Announcement Respecting Causes for the Closing.

New York, March 24.—A malevolent plot, relentlessly worked out by members of the Black Hand, declare the police, in defiance of the authorities pressing hard upon their track, ended dramatically today in a run of depositors and the suspension of the bank of Pasquale Pati, an Italian banker on Elizabeth street, and his flight from the city in fear of death, threatened by the Black Hand because he recently shot and killed Francesco Pelletro, one of their alleged members, who had demanded money under the pain of killing the banker and his family.

STARTED BY BLACK HAND.

Three thousand depositors clamored loudly at the Pati bank today for their savings and, in the excitement a run was started on the bank of P. Acetoli & Son, across the street from the suspended institution, and caused it to shut its doors. The two banks were small private institutions. The run on the Pati bank, the police charge, was engineered by the Black Hand as a revenge on Pati, who was yesterday acquitted by the coroner's jury of having killed Pelletro. When the run was at its height, police reserves were rushed to the district to quell the fast rising disorder.

BANK IS SOLVENT.

Plastered on the window of Pati's bank the most remarkable notice of a suspension probably ever posted was read by hundreds after the bank closed its doors. It read:

"I will suspend payment for two weeks. I am compelled to leave town, as I have received threatening letters and people have attempted to take my life. There are no fears of your losing your deposits. Beside cash, I own 60 houses in New York, and have them insured for \$100,000, and can pay everybody. I will resume in two weeks. (Signed)

"PASQUALE PATI & SON."

ECHO OF BOMB INCIDENT.

Six weeks ago a dynamite bomb shattered the front of the Pati bank. Three weeks ago Francesco Pelletro entered Pati's bank with drawn revolver and demanded money after threatening to kill the banker and his son, Salvatore, who were in the bank. Pati and his son drew revolvers and in the fusillade of bullets, Pelletro fell dying. The flood of Black Hand letters did not cease. Yesterday three strange men entered the bank and threatened not only to kill Pati and his family, but to burn his home and destroy his business. The men darted out of the bank before Pati could summon the police. Late last night a servant at the Pati home in Brooklyn discovered several men prowling around the house, and a quantity of oil-soaked rags were found placed against the building in several places. A small run on the Pati bank was started yesterday when rumors began to circulate about Pati. There were 200 depositors in line when the bank opened today, and within an hour the line of depositors grew to 3,000. Pati's relatives quickly decided upon suspension, and the doors were closed and the notice of suspension posted. The whereabouts of Pati is not known.

WILLIAM KENT MAY RUN FOR SENATOR

San Francisco, March 24.—William Kent of Kentfield, Marin county, the millionaire who has just given a valuable tract of land with a forest of redwoods to the government for a national park, announced here last night that he has received many letters from Chicago friends asking him to become Republican candidate for United States senator in Illinois. He was formerly an alderman of Chicago, and still retains his residence and considerable business interests there.

Mr. Kent will leave for Chicago in a few days to confer with his friends over the matter.

ALDRICH WANTS ACTION ON CURRENCY MEASURE

Washington, March 24.—Upon the conclusion of Senator La Follette's speech on the Aldrich currency bill, in the senate today, a plan was decided upon by which Senator Aldrich will tomorrow move to take up the bill and bring it to a consideration until it has been disposed of.

Mr. Aldrich asked for unanimous consent to dispose of the bill before adjournment Thursday, but to that proposition Senator La Follette objected on the ground that he feared debate would be curtailed by such a procedure. The colloquy which resulted in Mr. Aldrich's announcement followed the conclusion of the third and last installment of Senator La Follette's speech in opposition to the Aldrich bill.

This is the day of the gentle in medicine. Cascarets have supplanted physics. They act in a natural way, not with harshness.

Most of our dull days are due to inactive bowels. Nearly all of our minor ills could be avoided by a little candy Cascaret.

Also, half of our greater ills. Isn't it foolish to suffer, when there is such a pleasant way to avoid it?

Cascarets save the hours. They save the time that we waste if we are not at our best. They bring good cheer. For the blues and ill temper rarely occur when the bowels are properly helped.

They make the breath sweet, the complexion clear, the eyes bright. All this for ten cents per week.

In the old days, people let matters run until they needed a large dose of physic. Then they took something severe—like castor oil, salts or cathartics. That meant abuse to the bowels. These are the days of the gentle and natural—the days of Cascarets. Carry a box always with you. For the right way to take them is one at a time—just as soon as you need it.

Cascarets are candy tablets. They are sold by all druggists, but never in bulk. Be sure you get the genuine, with CCC on every tablet. The price is 50c, 25c and

TO EXTERMINATE EXPENSIVE PESTS

Mr. Scott of Kansas Wants Congress to appropriate \$500,000.

Washington, March 24.—In explaining the provisions of the agricultural appropriation bill, Mr. Scott of Kansas, in the house of representatives today, called attention to the ravages of the brown tail moth and the Texas cattle tick. The former, he said, were rapidly destroying the groves and forests of the New England states, while the Texas tick had been one of the greatest pests known. The tick, he declared, was responsible for the quarantine line which for nearly 20 years had stretched across the country from one ocean to the other. The annual cost of maintaining that line to different states and the nation was hardly less than \$500,000. That, however, he said, was the smallest item inflicted upon the country by the cattle tick.

"The presence of the tick," he said, depreciates the price of every head of cattle below the quarantine line, while it deprives the northern states of the market they would otherwise find in the southern states for their high-grade stock.

The loss to the north could not even be guessed at, but he estimated the annual loss suffered by the states south of the line could not be less than \$40,000,000. He therefore said that it needed no argument to justify a most liberal appropriation from the federal treasury for eradicating these two pests, and the committee had recommended \$250,000 in each case.

Port au Prince, March 25.—The attitude of the Haytien government is daily becoming more conciliatory apparently with the intention of accelerating the departure of the foreign warships from this port. Five officers, the last remaining prisoners among those arrested on March 1 were released Tuesday morning and restored to duty.

The government has also withdrawn its objection to the embarkation of the refugees in the foreign legations at Port au Prince.

dit's Victim.

Helena, Mont., March 24.—Sheriff James Webb of Yellowstone county was shot and killed this morning on the Musselshell about six miles from Billings, by William Byckfound, a horse thief, wanted in Wyoming.

His relentless pursuit of stock thieves made him many enemies, and his life was often threatened.

VICTOR EMANUEL SEEKS WILLIAM'S WISE COUNSEL

Rome, March 25.—King Victor Emmanuel left for Venice last evening where he will meet the German emperor.

The Giornale d'Italia in concluding comments on the visit of the German emperor says that the German crown prince ran the same danger as the duke of the Abruzzi; that is he fell in love with an American girl. "Perhaps," adds the paper, "the emperor will be able to communicate to King Victor Emmanuel a method of avoiding this kind of American danger."

STEAMER CORWIN TO TAKE AUTOS TO SIBERIA

Seattle, Wash., March 25.—L. H. Gray, manager of the steamer Corwin, which sails for Nome, May 10, and which enjoys the distinction of being the first boat into the northern port for the last six years, has received a wire from the representative of the three leading automobiles in the New York-to-Paris race asking for reservations for the men and machines on the vessel. They want to charter the steamship for a trip from Nome to the Siberian coast and this Mr. Gray has agreed to. He says that ice on the Siberian coast breaks up earlier than on the American side owing to strong currents and is forced northward into the arctic, instead of south as on the east shore. He expects to land the automobiles in Siberia early in June.

CORONER'S JURY DECLARES CHIEF SHIPPY JUSTIFIED

Chicago, March 24.—A coroner's jury tonight declared Chief of Police Shippy and J. E. Foley, his driver, to have been justified in killing Averbach, the young Russian Jew who attacked the chief in his home recently. The verdict was rendered after a short deliberation following an exhaustive inquiry into the circumstances surrounding the shoot-

ing. More than a score of witnesses were examined, chief among whom were Olga Averbach, Chief Shippy himself, his son Harry, who is recovering from an all but fatal shot through the chest, and other members of the chief's household. The verdict, after a perfunctory recital of the jury's finding as to the cause of Averbach's death, read: "From the testimony presented we, the jury, believe that said shooting was justifiable and exonerate said George M. Shippy and James Foley from blame."
