west side of the drift at station No. 90 to extend southwest, in which case, it should be prospected in that direction; also, as this flasure is a very strong and well mineralized one, and should produce ore in the lower levels, as it has been done in the tunnels above, there is a north and south flasure be-yord station No. 95 in the east cross-cut on the 400 level, which at some future date should be prospected, both north late should be prospected, both north and south.

conclusion I wish to say that I believe you have the making of an ex-

SWANSEA GOES HIGHER.

Stock Sold Up to a Balf Dollar a Share Today.

The sales of the forenoon on the mining exchange aggregated \$2,055, representing the transfer of 10,400 shares of stocks.

si stocks. Swansea continued to advance and did not stop until it hit 50 cents a share, raising 5 cents during the call. There is still considerable mystery concerning the movements of this stock and there seems to be little doubt expressed among the talent that a deal has been consummated whereby it will enable the marketing of the product of the mine upon an extensive scale again. Mammoth started out with a sale of 100 ahares marked up at 1.22%, which was followed by a slight decline. Tonopan stocks were active in the bidding, but only 100 shares of Montana-Tonopan were brought out, the stock bringing were brought out, the stock bringing 1.50 a share.

the balance of the week. In speaking of Jerome, he stated that there is considerable activity in the copper camp just now.

Boston & Gold Mountain Election

At a meeting of the stockholders of the Boston & Gold Mountain Mining company, held in Richfield last Saturday, the old board of directors was re-elected as follows: H. G. Weal of Se-vier, Almon Robinson of Fillmore, B. S. ment at an early date. Manager G. D. B. Turner is expected home from his European trip early in July. gagement of the well known and suc-

vier, Almon Robinson of Fillmore, B. S. Young of Marysvale, C. G. Goldbranson, R. M. Keen and A. B. Williams of Richfield, and W. Milton Farrow of Washington, D. C. The directors elect-ed the following officers: H. G. Weal, president; C. G. Goldbranson, vice pres-ident: B. S. Young, secretary, and R. M. Keen, treasurer. The appointments of representatives by Messrs. Keen and Goldbranson while east were ratified and the reports of the eastern represen-tatives to date were approved. tatives to date were approved

RICH GOLDFIELD STRIKES.

Roy Ridge and Uire B. Curtis Secure a Jumbo Lease.

The most valuable carload yet ship-ped from the January went out this week, and will net the company \$25,000 or more, says the Gol/field News. Every portion of the mine is looking well, but a 2-foot streak found in the 112-foot level, it is said, will nearly equal in value the bonanza ore of the Kernick & Bowers' lease on the Jum-bo. The development of this streak 'will be watched with interest. Uri B. Curits and Roy Ridge have taken a lease on 300 feet of the Jumbo, including the Harvey shaft, which is down 100 feet and in the drifts from which rich ore has been opened up. The most valuable carload yet ship-

which rich ore has been opened up. Curtis and Ridge will install a gasoline holst and will start a new working shaft, which will afterwards be connected with the old one. They will put on all the men room can be found for. Sid Carey is in charge.

ONTARIO HOIST.

Supt. Rood Awaiting Instructions Concerning Rebuilding.

Supt. Rood of the Ontario company, Maps of the Monroe canyon electric nower project in Sevier county, are besuper today what would be done to-wards the rebuilding of the holsting plant destroyed by fire yesterday, de-clared he had not received instructions from the eastern offices of the coming prepared by Engineer J. C. Brecken for filing in the office of the state en-gineer. Thomas Brown is the promoter of the project, which contemplates the furnishing of light and power to the towns of Monroe, Elsinore and Rich-field. Mr. Brown has on his power site a head of 480 feet in a distance of

Undoubtedly, some of the machin-ery will not be entirely ruined, but it will be several days before it will be known, what parts will be of service again

AT THE NAILDRIVER.

Connections Have Been Made Between The Old and New Workings.

Manager C. L. Rood, of the Nalldriv Manager C. L. Rood, of the Nation's-er Mining company, returned from Park City last evening with the information that connection with the old workings had been made on the 550-level of the new shaft workings, and that a good preast of ore is now exposed. It re-
