The Utah council, No. 15, Royal and Select Masters (Masons) elected these officers for the following Masonic year, T. L. M. Newton D. Estes; I. D. M. Frank P. Sherwood; P. C. W. Joseph G. N. H. Granilla of Butte is in the city with a view to building a \$25,000 apartment house immediately north of the H. W. Lawrence residence on North Main street. Mr. Granilla believes there is a future in this city for apartment houses, and a local contractor remarks, incident thereto, that this apartment house movement will later be attended by a corresponding movement out of individual residences which will tend to greatly reduce rents, and leave numbers of desirable residences empty, or begging for tenants. The establishment of the apartment house plan of living in this as in other cities, has a marked tendency to weaken, if not reduce the stiffness of landlords in fixing rentals, and landlords who have desirable tenants should do well to try and keep them.

IRRIGATION FUNDS.

Effort of Politicians to Have a Look in on Distribution.

The following recent editorial in the New York Evening Post will be read with interest in this part of the country:

"A feature of the government irrigation projects that is not likely to be discussed at the meeting of the irrigation congress at El Paso, is the attempt of interested politicians to gain control of the distribution of the increasing fund for reclamation work. As the Evening Post's Washington correspondent has pointed out, the Hansbrough bill, providing, among other things, for the placing of all irrigation construction in charge of a 'political engineer,' is likely to be pushed vigorously when Congress meets in December. The specific complaint of politicians like Senator Hansbrough is, of course, that the fund is being distributed among the states, not on the basis of population or political importance, but 'where it will do the most good' according to scientific and expert advice. Such insolent disregard of the theory of Western statesmanship—a vote in exchange for an appropriation and sell experts should not be allowed to spend \$3,600,000 in Nevada, when that state contributed but \$48,000 to the fund, and has just elected a Democratic congressman into the bargain. Republican stump speakers in North Dakota, in the Presidential campaign, called attention to the need for getting back out of the \$3,600,000 contributed to the reclamation fund from the sale of public lands more than the \$1,700,000 judged to be the state's fair share by the engineers in charge. Obviously, if President Roosevelt's faith in a great West developed through irrigation is to be justified, the work must be jealously guarded from the 'political engineer.'"

The above was shown to Attorney Richards and State Engineer Doremus, and both stated that the distribution of the moneys was entirely within the jurisdiction of the secretary of the interior, and that it was only on his requisit that it could be apportioned out. So no matter how much the politicians may rage and the heebers imagine vain things, the money will go just where Congress intended it should, unless the secretary stands in with the political grafters which is not at all likely.

ITALIAN KILLED.

Ton of Rock Fell on Neza Fontana Yesterday Afternoon.

A ton of rock fell on Neza Fontana yesterday afternoon, and crushed the life out of him. He was an Italian laborer aged 42, working in the limestone quarries near Mill Creek, where frequent blasting had loosened large quantities of rock, and the foreman had cautioned Fontana to be careful. The warning, however, failed of effect, and the first thing the foreman knew, the Italian was lying under a fall of rock following a blast. It required some time to extricate the body which was removed to O'Donnell's undertaking establishment. The deceased leaves a wife and four children in Italy. His countrymen will give him burial.

PRINCIPALS' SALARIES.

Resolution Offered at Meeting of the Board of Education.

The long continued attempt of the board of education to agree on a method of raising the salaries of the principals in the city schools, came up for further action at a special meeting of the board of education last night. Maehonah Thomas submitted the following resolution to replace those which have been unfavorably discussed heretofore:

"That the salaries of high school principals shall be determined on individual merit, but the minimum salary paid a high school principal shall not be less than the maximum salary paid a grammar school principal. A high school principal shall, however, be the holder of a state high school diploma, or its equivalent.

"Each principal of a grade school shall receive a salary of \$50, with \$1.50 additional for each teacher under his direct supervision; \$5 shall be added to the monthly salary of any grade principal or teacher in the public school when he becomes the holder of a state high school diploma; provided, however, that no grade principal shall receive more than \$1,000 per annum, unless he shall have had under his direct supervision a corps of 16 teachers or more for a period of two years."

The resolution was referred to the committee of the whole, which is now considering the previously submitted resolutions.

The financial report of the treasurer of the board showed an overdraft of \$102,109.70.

Herb W. Edwards injured.

Herb W. Edwards of Des Moines, Ia., got a fall on an icy walk last winter, spraining his wrist and bruising his knees. "The next day," he says, "they were so sore and stiff I was afraid I would have to stay in bed, but I rubbed them well with Chamberlain's Pain Balm and after a few applications all soreness had disappeared. I feel that this bottle of Pain Balm saved me several days' time, to say nothing of the suffering this ailment is for sale by all druggists."

WHEEL STOLEN.

Second This Week Taken from Outside Deseret News Building.

A "News" carrier, named Heaps, while getting his papers yesterday had his new bicycle stolen. The thief was seen going north on West Temple, but had too good a start to be overhauled. Two policemen were notified and promised to go on a hunt for the culprit. This makes the second wheel stolen during the past week from a "News" employee.

ATTIAS BEFORE DIEHL.

Greek Labor Agent Charged With Practising Medicine Without License.

The case against "Dr." P. G. P. Attias, the Greek labor agent arrested last week on the charge of practising medicine without a license, came up before Judge Diehl yesterday afternoon, and after the testimony was all in, the matter was submitted to the court, who took it under advisement until next Friday, when he will render a decision.

There was quite a large crowd of Greeks in the courtroom during the progress of the hearing, and they appeared to take a deep interest in all that was said and done.

The main witness for the prosecution was John Touraloukis. He testified that on one occasion when he was ill he went to "Dr." Attias for treatment; that the latter prescribed for him and gave him some medicine and charged him \$25, which he paid to Attias. The bottles in question were produced and bore the label of a certain drug store. Attias declared that he did not treat the complainant; that he had left orders for the healing, and for Attias said he got a diploma in Paris and that he practised medicine in Europe, but denied having practised medicine here. He said he had acted as inspector for physicians here, and that is all.

Leon Skirlis, a Greek labor contractor testified that he had left orders with Attias for medicine to be sent to Greeks at Bingham canyon. These were the only witnesses examined, and no arguments were made.

THE SIMPLE LIFE

By Charles Wagner.

President Roosevelt, introducing the Author to a large audience in the Lafayette Opera House, Washington, had this to say about the book:

"This is the first and will be the only time during my presidency that I shall ever introduce a speaker to an audience of the kind. I am more than glad to do it in this instance, because if there is one book which I should like to have read as a tract and also, which is not invariably true of tracts, as an interesting life, by all our people, it is 'The Simple Life,' written by Mr. Wagner. There are other books which he has written of which we can gain great good, but I know of no other book written of recent years, whether here or abroad, which contains so much that we of America ought to take to our hearts as is contained in 'The Simple Life.'"
