Washington News.

WASHINGTON, 14.—The President to-day received Louis L'Domingues, newly appointed envoy extraordinary and minister plenipotentiary of the Argentine Republic, with the usual courtesies.

It is estimated there will be 50 contested election cases in the House of Representatives for the next Congress.

The Acting Secretary of the Interior holds that cash entries of lands served by first proclamation made after the date of the proclamation, but before its receipt at the local office, are illegal, as the proclamation went into effect from its date and not from its receipt at the local office. The Acting Secretary has referred said entries to a board of equitable adjudication.

Acting Secretary Joslyn has decided the case of Williams vs. heirs of Hodgman at Benson, Minn., in favor of the heirs. It appears that Hodgman made entry on the land of Williams on the ground that Williams died and left his entry incomplete. The Acting Secretary holds that the heirs should be allowed to complete the entry.

For some time past there has been unpleasantness existing between Chief Clarke, of the Revenue Marine, and his deputy, Mr. Treviti, of New York State. Some months ago the deputy made a desperate attempt to succeed his chief, but failed. To-day he decided to supersede his deputy. It is thought quite probable the assistant appointment clerk will be selected to fill the vacancy.

Chief Brooks, of the secret service of the Treasury Department, has received a sample of counterfeit Bland silver dollars, which are being extensively circulated, especially in the west. The coin is very heavily plated, and resists the acid tests unless deeply cut before they are applied. It has a ring similar to the genuine, and is of the exact weight. The officials of the department consider this one of the most dangerous that has yet appeared.

Capt. Geo. T. Olmstead, Jr., has been ordered to Prescott, Arizona, to relieve First Lieutenant F. K. Ward, Tenth cavalry, in charge of the California and Arizona division of the United States military telegraph line. Lieutenant Ward repairs to this city.

Secretary Teller is expected to arrived here to-night. Secretaries Lincoln and Chandler are here.

Acting Secretary of the Interior Joslyn, to-day decided that the statutes restrict a contest against a prior timber culture entry to one who seeks to enter it under the homestead or timber culture laws; in the absence of an application there is no right of contest.

Postmaster General Howe says he has no intention of resigning.

In a decision rendered to-day the Acting Secretary of the Interior holds that a contest for land title instituted by a parent cannot be transferred or inherited by a child even though it should appear that the contest was instituted for the child's benefit.

Commissioner McFarland in a recent decision declared where a person has failed to make an entry to a tract of land through being misinformed of his rights by the local officers, when otherwise entitled to make entry, will be protected by the Department, and lose nothing unless required to do so by the actual demands of the law.

It is believed that some of the aged clerks in the Postoffice Department will be weeded out on the first of the month. Many of them are said to be incapacitated for duty. The *Star* says some removals will also be made because the clerks refused to pay their assessments.

On April 5th the President issued a proclamation reserving from sale certain lands in Wisconsin, which it was thought would be required for reservoir purposes on the headwaters of the Mississippi and St. Croix rivers. The proclamation was based on an engineer's report. From a subsequent report it appears the lands reserved were not required. The President by another proclamation releases the lands embraced in the former.

Sued for Breach of Contract.

NEW YORK, 14.—The suit of Samuel Wilkeson against Henry Ward Beecher was called to-day before Judge Barrett in the Supreme Court. The action is for breach of contract. Beecher contracted with the publishing firm of Ford & Co., in December, 1869, to write a life of Christ. He agreed to write the book within eighteen months, and received for part payment in advance and before signing the contract, $10,000. Wilkeson was partner in the firm, and paid the advance. Since then plaintiff says he has never been able to get the book from Mr. Beecher, nor the $10,000 advanced. The first part was furnished by Ford & Co., some years ago, and was published and circulated. The second part was only partially finished by defendant. Plaintiff alleges that he was put to considerable expense in preparing for printing the book, and sues to recover expenses. When the case was called to-day, both sides were ready. Beecher was present and sat by his counsel, Thomas G. Shearman.

Counsel for defendant moved the dismissal of the complaint, on the ground that it did not state that payment of royalty to the bearer had not been fulfilled, and a statement had not been given him as to the number of books published. Counsel also moved to dismiss the complaint upon the paper itself.

Judge Barrett denied the motion.

A number of papers were then put in evidence.

Raphael's Madonna.

Arrangements have been made for the exhibition in New York of Raphael's celebrated painting, the "Madonna Del Candalbria," loaned by Mr. Butler Johnson, of Great Britain, conceded to be the most important work ever brought to this country.

National League.

The executive committee of the Irish National Land League have advised a reorganization of the League with a view to giving National prestage to the movement.

Baptist Congress.

The Baptist Congress opened in the First Baptist Church, Brooklyn, and continues three days.

Dead.

Geo. A. Osgood, son-in-law of the late Commodore Vanderbilt, died to-day.

Elisabeth, N. J., 14.—Harry Lockwood Grant, aged 25 years, oldest son of the late Orville Grant, and nephew of ex-President Grant, died last night of hemorrhage. He was employed in the New York sub-Treasury.

Yellow Fever.

AUSTIN, Texas, 14.—The Governor modifies his quarantine proclamation regarding Starr county, as official reports are that the cold is not severe enough to destroy the germ of yellow fever at Brownsville and the fever still rages at Mier and Camargo.

Camargo, Mex., 14. — No new cases of yellow fever in twenty-four hours. Weather cold the past two days. Total cases during the epidemic, 1,500; deaths, 158.

Pensacola, 14.—Bright and clear after the morning frost. No new cases of yellow fever, no deaths; the first time this report has been made since the epidemic made its appearance. No apprehension of a renewal, except a too early return of absentees to furnish fresh food for the fever.

Strikers.

ST. LOUIS, 14.—Eighty or ninety puddlers and helpers employed at the Laclede Rolling Mill, have struck against the 10 per cent. reduction made under the agreement between the mill owners and the Amalgamated Iron Workers' Association. All other union men at Laclede will also go out.

Wool.

PHILADELPHIA, 14.—Wool quiet, demand fair. Ohio, Pennsylvania and West Virginia XX and above, 41 @ 44; New York, Michigan, Indiana and Western fine or X and XX 37½, coarse 33 @ 34. Tub washed coarse 33 @ 35; dark earthy clothing coarse 21 @ 22. Pulled super 34 @ 35; other grades unchanged.

Crimes and Criminals.

YANKTON, D.T., 14.—The President finally refused to interfere in the case of the Indian, Brave Bear, and he will be hanged to-morrow about 11 o'clock.

Little Rock, Ark., 14.—News was received to-day of a double tragedy near Tepukalo, Texas, on Saturday night. Chas. Henry, Jr., merchant, after a quarrel with two brothers, named Butler, went home and was pursued by the Butler's following him to a negro cabin, where he had taken refuge, and kicking the door down. Henry had a double-barreled shotgun, and killed both brothers as they crossed the threshold.

New York, 14.—Ex-Indian Agent Tiffany, indicted in Arizona Territory for embezzling money and government property aggregating about $15,000, gave bail in $16,000, to appear at the opening of the U. S. District Court in Tucson, A. T., on the first Monday of February, to plead to the indictment. J. B. Cornell, iron merchant, became his [illegible]

Trenton, N. J., 14.—Ex-Collector of the port of Perth Amboy, Chas. H. Houghton, convicted of transferring false vouchers to the government, is sentenced to pay a fine of $500.

St. Joseph, Mo., 14.—The dead bodies of Joseph H. Hughes and Markes Davis were found on South Sixth Street this morning. They had been gambling and won money from a couple of strangers, named Reed and Shank, with whom they quarreled. Suspicion points to the latter as the authors of the deed.

Condemning Catholicism.

TOLEDO, O., 14.—It is now stated the demonstration which prevented ex-Priest O'Connor from lecturing here Sunday evening, was an organized movement emanating from the Jesuit church here. Mayor Romers instructed the chief of police that O'Connor or any one else must be protected in the right of free speech if the whole police is required.

Railroads and Freights.

MINNEAPOLIS, 14.—No points of fresh interest in the railroad war to-day, save that the Albert Lea route is taking the bulk of the travel by reason of a plain $3 ticket to Chicago, with no rebate incumbrance. The other two lines continue the $5 rate on the rebate plan. It is reported the C. M. & St. P. and the C. St. P. M. & O. have offered the Albert Lea route ten per cent. of the St. Paul and fifteen per cent. of the Minneapolis business, which Mr. Cable declined. A freight war will probably begin Monday.

New York, 14.—At a meeting of the directors of the Nickel-Plate road this afternoon it was decided to admit General Devereaux and Judge Burke, members of the board of directors.

Buffalo, 14.—The Buffalo car company sold the Gilbert car works property in this city amounting to $100,000.

New Orleans, 14.—The steamship *Hanhow*, cleared to-day for Liverpool with 8,713 bales of cotton, the largest cargo ever cleared from this port.

San Antonio, 14.—The New York and Texas Mexican Railway Company purchased 4,000,000 acres of land in Pecos, Tom Green and El Paso Counties for colonies.

New York, 14.—There is no apparent change to note in the freight market.

Chicago, 14. — Commissioner Midgley, of the Iowa Trunk Line Association, issued a circular to-day directing lines in the association to bill no freight to points in Nevada via the Union Pacific unless prepaid to Council Bluffs, and even to receipt with the stipulation that responsibility for its forwarding shall cease at Council Bluffs. This action is taken because the U. P. refuses to make a joint fixed rate to Nevada points. The circular does not affect business to California. The effect of this will be to compel the U. P. to concede the point, or freight will go by the Southern Pacific.

A Canard.

NEW YORK, 14.—The Albany dispatch about a receiver of the Life Insurance Company was a heartless canard, and was promptly denied by this office. No New York paper has the item.

The Inevitable Chinaman.

NEW YORK, 15.—The *Herald* has the following editorial: Our dispatches from San Francisco report a demagogical attempt of the collector of that port to exclude all Chinamen whatever from landing there, whether they are merchants or laborers; but Judge Hoffman is not a demagogue. When the case was brought before the United States District Court, the collector was frustrated and rebuked as he deserved to be. The fact, however, that the chief officer of the Federal revenue service on the Pacific Coast should volunteer to put a gloss of his own upon the Chinese immigration statute with the design of increasing its stringency, is significant of the spirit of the community to which he pandered. Being a politician, he probably counts the rebuke of the court as of slight moment in comparison with the increase of popularity he has gained among the hoodlums. It deserves remark that the Chinese question is rapidly approaching a new phase of which New York merchants will do well to take timely warning. The Pacific coast politicians having bulldozed the Federal Government so successfully in the matter of Chinese immigration are working themselves up to demand supplementary legislation of a prohibitory character at no distant day in the matter of Chinese imports. They asked Congress to forbid the importation of Chinese labor into 38 States, in order to protect three of them—California, Nevada and Oregon, whose united population is much less than that of this city, from Chinese competition on American soil, and Congress yielded to the request and has shut Chinese laborers out of New York because they are unwelcome in San Francisco. Now they are growing fearful that the excluded Chinamen will soon become successful competitors although restricted to working on Asiatic soil, and accordingly they are prepared to petition Congress further to shut Chinese manufactures out of the whole country, New York included. San Francisco newspapers are looking forward to the time when Chinamen will manufacture for themselves, and so cheap that they will not only supply their own markets but ours as well, unless Congress comes to the rescue with protective customs duties which will eclipse many of the extraordinary provisions of the present tariff.

Death and Disaster.

CLEVELAND, 14.—Francis Bradley boss carpenter, is added to those killed by the boiler explosion last evening at the Forest City Iron Works. The corrected list of wounded is as follows: Jenkin Evans, Gus Hanna, Joseph Sidley, David Jones, John Mueller, A. M. Wilson, John D. Jones, Louis Krause, John maloney, Thomas Jones. The coroner is investigating. The boiler was old and had exploded before.

This afternoon a strange accident occurred at the corner of Seneca and St. Clair Streets, where a large block is in process of erection, the walls and flooring being up three stories. A boom derrick, 100 feet high was used to hoist the material. Through the breaking of the shackling of the wire guy, at anchorage as supposed, the derrick toppled, broke about 20 feet from the ground, and fell with a great crash. Three men were on the platform 60 feet from the sidewalk, hoisting a load of about three tons of brick; one jumped, caught the lower guy, and slid safely to the ground; the other two, D. Stoger and W. [illegible] injured that they died shortly afterward. Another man, colored, was instantly killed by the derrick falling on him, and still another laborer was badly injured.

Charleston, 14. — The British steamship *Royal Welsh*, with a cargo of 4,000 bales of cotton for Barcelona, got ashore on the bar this forenoon.

Bradford, Ont., 14—A small horizontal boiler being tested exploded. Charles and William Borbin, aged 13 and 15, were fatally injured.

Bowmanville, Ark., 14.—At a party to-night, Mr. Trimble and daughter, participants, partook of herb tea; all were taken sick; Mr. Trimble and one daughter have already died, and the others are not expected to recover.

Halifax, 14.—Two brothers named Harlan, of Eastport, Medway, were drowned from a fishing boat.

Leavenworth, 14.—Sergeant Beerts of troop L. Fourth Cavalry, United States army, met his death at a house of ill-fame to-night. It is not known whether he was murdered or committed suicide.

Kansas City, Mo., 14.—News is received here of a disastrous wreck on the Alton road this evening, twenty miles east of here. As a construction train was backing up from Grain Valley to Oak Grove it collided with a hand car, on which were four men. The men on the hand car escaped, but the construction train of five or six cars and caboose were ditched and a brakeman named Corcoran and three section men were killed and eight or ten others were wounded. The road is blocked. Further particulars cannot be learned to-night.

New York, 14. — Henry Kuhn, aged 20, of Brooklyn, attempted to kiss Barbara Duichlin, aged 16, Sunday evening. His companion, named Geo. Grover, aged 19, attempted to stop him. Kuhn became enraged and struck Grover. They clinched, and Kuhn was thrown heavily, his head striking a curb stone, he dying immediately.

FOREIGN.

General News.

LONDON, 14.—In the House of Commons Glanstone made a statement regarding Egyptian affairs, which was in effect that the Government thought it necessary to have twelve thousand British troops remain in Egypt, but not for any great length of time. It was proposed to enter into a convention with the Egyptians and have an article of the treaty provide that the cost of maintaining these troops should fall not on Egypt but on England; that when matters were further advanced the question of charge could be raised and settled definitely. He hoped to be able to give such information as would enable Parliament to fully discuss the subject when the estimates were presented. He also hoped soon to be in a position to give information regarding the cost of the expedition.

The Turkish Ambassador to London has informed Lord Granville that the Porte insists upon appointing a special envoy to Cairo during Lord Dufferin's negotiations with the Khedive.

The Australian ship *Minerva* reports that when going into Falmouth she passed a white boat carrying a red flag and having five men in it, 20 miles east of Beachy Head. This was nine hours after the Westphalia collision, and it is supposed to be the missing boat.

A *Times* Berlin dispatch says: The Emperor's speech was saluted with a round of cheers, and especial appreciation greeted the announcement of the intention to abolish the four lowest grades of the class taxes. As constituted to-day, no fraction of the Chamber has an absolute majority, but the conservatives are far stronger than the united liberals and the clericals, who turn the scale by selling their support to the highest bidder.

The *Standard's* Constantinople dispatch says: The English government has informed the Porte of the stoppage of the payment of the surplus revenues at Cyprus, in order to cover the interest debt on the guaranteed loan of 1852 and the ransoms paid the Salonica brigands for two English subjects.

It is reported that Gladstone will assign the chancellor ship of the Exchequer, also that Sir Hugh Childers will leave the war office for the Exchequer, the Earl of Northbrook taking the war office.

The death of Sir Andrew Buchanan, diplomatist, is announced.

Berlin, 14.—The Liberal members of the Prussian Diet are dissatisfied with a passage in the speech from the throne, intimating remission of taxation in the face of a deficit, and the proposal to cover the deficit by a loan, and an attempt to increase the Imperial sources of revenue. The Conservatives are dissatisfied at the amicable tone adopted towards the Roman Curia. The Ultramontanes consider the attitude of the government too indefinite.

The *Germania* to-night says: Friendly relations between the Emperor and the Pope would long since have been established but for the extraordinary powers to deal with questions of the Vatican granted the government by recent legislation.

It is reported that the Russian government has decided to withdraw all embassies and legations in Germany, excepting at Berlin and Stuttgart.

Dublin, 14.—Rumors here are that Delaney, charged with the attempted assassination of Justice Lawson, only feigned to commit the crime in order that, being arrested, he might turn informer in the case of the Phœnix Park murder.

Vienna, 14.—It is reported the Albanian League will petition the Emperor for the speedy Austrian occupation of Albania.

A banquet at Inspalato in honor of the Mayor, ended in a riot between the Slavs. Many were wounded; two killed.

Several newspapers failed to appear on account of the printers' strike. The leading papers appeared to-night having granted the increase asked.

St. Petersburg, 13. — A telegram from Chinook states a prairie fire on the Mongolian frontier has extended seventy square miles and consumed many Cossack outposts and all the villages in its course.

Belgrade, 13. — Gendarmes have captured a band of brigands escaping into Montenegro with a ransom of £200 obtained by a child kidnapped at Krucheratz.

Cairo, 14.—Suleiman, Daoud and Moussa Lake, leaders in the burning and pillaging of Alexandria, recently captured in Candia, have arrived as prisoners.

The sanitary council received a dispatch from the sanitary inspector at Jeddah that the cholera epidemic continues.

The reported agreement between England and France on the Egyptian control is unconfirmed. In the course of the communications was one from the English government on the abolition of the Egyptian control. The proposition was mooted that the president of the public commission should be filled by a Frenchman. No conclusion was arrived at.

The commission of inquiry preliminary to the trial of Arabi Pasha and other leaders, has finally adopted the forms of procedure insisted upon by the English government.
