

SOMETHING NEW.—By reference to the advertisement of Messrs Clinton and Rudy, it will be seen that they have engaged in the marketing business, and propose to deal on more liberal principles, than those hereto to practiced and tolerated in this city. Some change in favor of those patronizing marketing establishments has long been called for, and if the arrangements now proposed be carried out, beneficial results to all concerned may be anticipated. We wish them success, and believe they will be liberally patronized, and if they do not "wax fat" on the "hide and tallow," it will be in consequence of their doing a limited business.

LEGISLATIVE PROCEEDINGS.—The doings of the Legislative Assembly have been somewhat limited, during the past week, and from present appearances there will not be many laws enacted for some days to come. Legislators very generally believe in the observance of the holidays.

SERENADING.—The Military Band of the Volunteers on "the bench," visited the city on Monday evening and serenaded quite a number of our residents. We had not the pleasure of being within sound thereof, but report is very favorable to the musicians.

THEATRICAL.—Will be presented at the Theatre to-night "Old Phil's birthday," to conclude with the laughable farce "The two Polts."

SCIENTIFIC AMERICAN.

The Best Mechanical Paper in the World.
EIGHTEENTH YEAR.
VOLUME VIII.—NEW SERIES.

A NEW volume of this popular Journal commences on the first of January. It is published WEEKLY, and every number contains sixteen pages of useful information, and from five to ten original engravings of new inventions and discoveries, all of which are prepared expressly for its columns.

TO THE MECHANIC AND MANUFACTURER.

No person engaged in any of the mechanical or manufacturing pursuits should think of "doing without" the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which can not be found in any other publication.

TO THE INVENTOR.

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come out, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific Journal of Great Britain, France and Germany; thus placing in our possession all that is transpiring in mechanical science and art in these old countries. We shall continue to transfer to our columns copious extracts from these Journals of whatever we may deem of interest to our readers.

A pamphlet of instruction as to the best mode of obtaining Letters Patent on new inventions, is furnished free on application.

Messrs. MUNN & Co. have acted as Patent Solicitors for more than seventeen years, in connection with the publication of the SCIENTIFIC AMERICAN, and they refer to 20,000 patentees for whom they have done business.

No charge is made for examining sketches and models of new inventions and for advising inventors as to their patentability.

CHEMISTS, ARCHITECTS, MILLWRIGHTS AND FARMERS.

The SCIENTIFIC AMERICAN will be found a most useful Journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to these pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill-owners will be found in the SCIENTIFIC AMERICAN, which information they can not possibly obtain from any other source. Subjects in which farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in agricultural implements being illustrated in its columns.

TERMS.

To mail subscribers: Three Dollars a year, or One Dollar for four months. The volumes commence on the first of January and July. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or Post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit twenty-five cents extra on each year's subscription to prepay postage.
