SPECIAL BUSINESS NOTICES.

READ, PONDERS, AND BE WISE.

Housekeepers should bear in mind that of all the different Baking Powders in market, none have stood the test of a strict chemical analysis like Dooley's Yeast Powder.

Dooley's Yeast Powder contains no ingredients but such as are healthful and chemically pure.

This insures uniform success in the making of rolls, biscuits, &c., which inferior articles do not. Manufactured and sold at wholesale by Dooley & Brother, 69 New Street, New York, and at retail by grocers generally.

THE TRUTH.—In the whole United States there is not a baking powder or flavoring extract that is so valuable, so positive, so effective in producing the most elegant and healthful bread and biscuits, the most delicious cakes, pastries, ice cream, &c., as Dr. Price's justly celebrated Cream Baking Powder and True Flavoring Extracts, Almond, Lemon, and Aromatic flavors.

Try them and you will be delighted with their true qualities, and find that they are far superior to anything in their line.

MR. J. B. BOOTH, Agnes Booth and Mr. Joseph Wheelock as "King John," "Constance," and "Faulconbridge," in the drama of "King John" at the Theatre to-night.

LAST APPEARANCE OF AGNES BOOTH, in "Eileen," on Monday night.

NEVER GIVE UP!—If all the cases in which HALE'S HONEY OF HOREHOUND AND TAR has cured Incurable and apparently fatal coughs, could be made known, every consumptive in the land would take heart and commence, in hope, a course of this most wonderful preparation. Physicians who have exhausted the list of pulmonary, without benefit, recommend it as a last resort, and even in the most extreme its effects are astonishing. But it should be the first resort, not the last. It is impossible for any disease tending to consumption to retain its hold, if met in the early stages with this powerful vegetable remedy.

For Chicago, New York, Boston, Philadelphia and all points East.

The best route by all odds is the old and popular Chicago and North-western route. Mr. H. Davis, at White & McCormick's Bank, will sell you tickets by this route, and give you all information. ds 1y

DR. C. W. HIGGINS. Dear Sir,

I hardly remember when I have felt as well as now; the nervous, depending feelings are gone, and I feel more like enjoying life. Had it not been for your medicine, I believe I would still have been dragging myself around with no energy, and entertaining gloomy, desponding thoughts. I shall do all I can to induce my female friends, of whom I have many, who are diseased as I was, to apply to you. I feel very thankful for the cure, having taken your medicines only two months I can say I feel perfectly well.

Mrs. BRADY.

Miner's House, Alta City, Little Cottonwood, Nov. 19, 1874.

"A Drop of Joy in Every Vein."

FLEMINGTON, Huntington Co., N. J., June 26, 1874.

Dr. R. V. FERRIS, Buffalo, N. Y.:—Dear Sir, I am a happy heart that I pen these lines to you, in knowledge that you and your Golden Medical Discovery and Purgative Pellets are doing me good.

Three months ago I was broken out with large ulcers on my face, body, limbs and face. I procured your Golden Medical Discovery and Purgative Pellets, and have taken them, and today I am in good health, all those ugly ulcers having healed and left my skin in a natural healthy condition. I thought at one time I could never be cured. Although I can but poorly express my gratitude to you, yet there is a drop of joy in every word I write. God's blessing rest on you and your wonderful medicine in the humble prayer of

Yours truly,

JAMES O. BELLS.

When a medicine will promptly cure such terrible eating ulcers and free the blood of the virulent poison causing them, who can longer doubt its wonderful virtues? Dr. Ferris, however, does not wish to place his Golden Medical Discovery in the catalogue of quick patent nostrums by recommending it to cure every disease, nor does he recommend it but what he does claim is this: that there is but one form of blood disease that it will not cure, and that disease is cancer. He does not recommend his Discovery for that disease, yet he knows it to be the most searching blood cleanser yet discovered, and that it will free the blood of every kind of other known blood poisons, be they animal, vegetable or mineral. The Golden Discovery is recommended by him to cure the worst forms of Skin Disease, all forms of Blisters, Pimples and Eruptions, also all Glanular Swellings, and the worst forms of Scrofulous and Urethral Eruptions, Leucorrhoea, and other parts, and all Scrofulous cases of the Bones, as White Swellings, Fever Swellings, Hip Joint and Spinal Swellings, all of which belong to Scrofulous diseases.

THE EVENING NEWS.

Saturday, Nov. 29, 1874.

LOCAL AND OTHER MATTERS.

THE THERMOMETER 49 degrees F. in the shade, at 1 p.m. to-day. Some Clouds.

Meetings.—Religious services in the various Ward meeting-houses to-morrow afternoon and evening, at the usual hours. The home missionaries are expected to preach according to appointments published in the News of Monday.

Resume on Monday.—The grand jury have not been in session since Wednesday, and will not resume until Monday.

Improving.—We learn, by dispatches received in this city to-day from St. George, that President Young's health is still improving.

Missionaries to the British Isles.—Elders Edward Bailegrove, Wm. L. Binder, Robert Hogg and George L. Farrell expect to start for Liverpool on the morning train of Wednesday, December 9th.

Tipped Over.—Last evening, in crossing a bad place on South Temple Street, Mr. B. H. Schettler's buggy was tipped over. Luckily the gentleman was not hurt.

Gone East.—Hon. A. O. Smoot, Mayor of Provo, left this city this morning, per rail, on his way to Philadelphia. His business is to purchase several thousand dollars worth of machinery to render the Provo Woolen Manufactory more complete.

Dull November.—Much has been said of dull and gloomy November and its sad and melancholy days, but any people who have had a pleasant November to enjoy than the present one here, have much to be thankful for.

"Facts and Fancies."—This is the subject of a lecture, to be delivered in the Fourteenth Ward Assembly Rooms on Monday night, by Mr. John Morgan, under the auspices of the "Young People's Literary Association," of that ward, commencing at 7 o'clock. The public will be admitted free.

Celery.—Brother Charles F. Williams, of the 4th Ward, sent some bunches of celery to the office this morning, which, for general excellence, throws all the California stuff we have seen in this market completely into the shade, being larger, more tender and flatter flavored.

Benefit Concert.—On Tuesday night a mixed entertainment, musical and dramatic, will be given in the schoolhouse of the 6th and 6th wards, for the benefit of Elder W. L. Binder, previous to his leaving to go on a mission to England. The combined talent of the wards already named and the 16th Ward will participate in the performance.

Sunday School Benefit.—Brother James T. Wilson informs us that there was a concert, under the supervision of Brother William L. Ball, in the 2nd Ward school house, on Wednesday night, for the benefit of the Sunday school of that ward. The house was filled to overflowing and the songs, recitations, and dialogues were creditably rendered.

A Disclaimer.—The young man who was pummeled by a Scotch woman the other night, in the 8th Ward, says that part of the account of the affair, which states that he wanted to marry her daughter is a mistake. He says he never wanted to do that. He called and wished us to state so.

The Temple.—T. P. Thomas, foreman of the mason work on the Temple, sends us the following:

"Work on the temple walls has closed for the season, 38,000 cubic feet of rock having been laid during the summer and fall. To insure perfect adhesion and system with which the work is conducted, reflecting the highest credit on Brother T. O. Angel, the architect, it may be said that not a single stone, of the 38,000 feet above mentioned, after having been prepared according to the directions given, had to be altered the least particle when raised to its place on the building. The Temple walls are now sixteen feet from the basement, and begin to present an imposing appearance, and judging by the manner in which the work is being done I have no doubt that, when completed, the Temple will be one of the handsomest and most substantial structures on this continent."

Gone to Washington.—This morning, Hon. George C. Cannon, delegate to Congress from Utah, left this city for Washington, to resume his labors in the National Legislature, as the representative of the people of Utah. He carries with him the good feelings, wishes and confidence of the thousands of constituents by whom he was elected, and who congratulate themselves on the failure of an unscrupulous clique to rob them of an honest and industrious representative.

Mr. Cannon's bonds to the Third District Court, we believe, require his appearance in court at the December term, with understanding, however, that the indictments against him will not be called up for trial until the March term.

Totally False.—It will be seen by a St. Louis dispatch that Manuelito and other Navajo chiefs are on their way to Washington, and it is stated that among other objects of their visit to the Capital is that of obtaining redress of the government for the murder of three of their number last summer by "Mormons," who were trying to found a colony in Arizona. This way of abusing the misdeeds of other people upon the "Mormons" is an old dodge, by far too common, and is frequently made to appear very thin, as in the case in question. The Indians alleged to have killed last Winter in Grass Valley, by a

Former Arrested.

BALTIMORE, 28.—Edward Hawkins was arrested to-day for forging the name of James V. Ketchum, collector at Philadelphia, to a check for \$2,000.

The Storm at Tusculum.

CINCINNATI, 28.—The Times special says that a gentleman from Tusculum states that Sunday's tornado was most disastrous in its effects upon the surrounding country: houses were unroofed, fences blown down in every direction, and that large trees were torn from the ground and were carried miles, crushing cabins and outhouses as they went. After leaving Tusculum the wind went west a distance of five miles without damage; then, descending again, it continued its destruction, blowing away scores of cabins and killing four persons. In Tusculum the loss will be half a million dollars, nearly every building in the place was more or less damaged. Provisions are giving out, and there are upwards of four hundred destitute and homeless people.

The ruins of the residence of State Senator Moore were removed after the storm. Mrs. Moore was found on the bed with two heavy timbers lying across her body, and two children under her, dead, crushed out of shape. John Hodgkins, his wife and four children were all found crushed to death. The house of Mrs. Winslow was blown down and she was found killed by a heavy warble; the house was valued at \$40,000. All told, the loss of life for the tornado will be less than sixty, and fully as many wounded.

Killed by a Boiler Explosion.

The boiler of a portable saw mill, near Cambridge, Ohio, exploded Thursday, killing two men and wounding two others.

Quashed and Overruled.

ST. PAUL, 28.—Judge Hall, of the Court of Common Pleas, quashed a writ of habeas corpus against State auditor McMillan for malfeasance, and overruled the demurrers to the rest, on which the defendant must plead.

Postal Revenue.

WASHINGTON, 28.—The report of the Postmaster-General says the complete revenue for the year ending June 30, 1874, was \$24,598,568, the expenditures \$23,126,414. The estimated expenditures for the year ending June 30, 1875, are \$26,764,084, the total estimated revenue \$29,148,156, leaving a deficiency to be appropriated out of the general treasury of \$7,615,578. These estimates do not include the appropriations for steamship service, and stamps, amounting to \$2,068,500.

The Wool Trade—Sunday Transactions.

NEW YORK, 28.—The committee appointed by the Chamber of Commerce to consider the wool tariff revision, the establishment of a uniform duty of twenty per cent ad valorem, as being calculated to yield sufficient revenue to the government and to relieve the wool growers of the numerous and vexatious impediments of the present law.

The protest against Sunday theatricals, addressed to the police commissioners, and asking the enforcement of the laws prohibiting such amusements, is published, signed Edwin D. Morgan, John L. Giesco, Jonathan S. Wood, Wm. E. Dodge, and several hundred other prominent citizens.

The Strike.

There is no change in the longshoremen's strike; both men and steamship companies are obstinate. All the steamships to sail to-day did so at the appointed time, except the Italian steamer, City of Montreal, which holds over till Tuesday.

Dead—Decision by Chief Justice.

White Sulphur Springs, N. M., Nov. 28.—A Catholic Priest—Military Reports, &c.

CHICAGO, 28.—S. C. Coan, better known by his stage name of S. C. Coan, died at the residence of his brother, J. C. Coan, on Thursday, Nov. 27, at 10 o'clock. He was at the time of his death on the professional staff of the English Opera House.

A Washington special says that the Supreme Court of the U. S. has just rendered an important decision in the case of the Indians in Wisconsin, where one of two Indians had disposed of a quantity of pine logs.

The Indian agent on behalf of the Wisconsin Indians, who had been to recover the logs, on ground that the lands and timber belonged to Indians in their tribal relation, and that the Wisconsin Indians, in a long communication to the Commissioner of Indian Affairs, complained that the Wisconsin Indians were attempting to establish a hierarchy among those Indians, and to reduce them to a state of vassalage; that they were to be made the subjects of a school system and were to be possible way of expressing and imposing upon the Indians. The agent particularly explains that these people are not Americans but Indians, and that they differ entirely from the American brethren.

The committee on appropriations have just completed the war department bill, in which they have closely followed the bill of last year, the army bill is still to be maintained at \$25,000,000. The deficiency in the war department estimates for this year. The Secretary has received the annual reports of all the commissioners of divisions and departments, and is now questioning, so far as it depends on military operations, has been made. Under the wise and vigorous administration of General Crook the few Apaches who obstinately refused to submit to the necessary restrictions have been hunted down and killed, and General Crook thinks that if the Indian reservations in Arizona are now properly managed and kept to work, furnished with seeds and implements, and their present interest in agriculture encouraged, no further trouble need be expected, and they will gradually become self-supporting. The business of the department has been conducted in a very economical manner with due regard to economy and the general interest of the public service. I take pleasure in renewing my previous commendation of
