WANT INSURANCE DEPT.

Underwriters Propose to Ask Legislature to Pass Necessary Act.

A new insurance department, separ ate from the office of the secretary of state, may be a creation of the next legislature. It was considered by the ast legislature but a number of combeting plans were submitted, and in the incup of favorites for each a situation was created in which all progress was blocked.

That the fight will be renewed in the text session is regarded a certainty n both insurance and political circles. The insurance men have no hostility to state inspection at the present time. is they value both the state's endorsement and its protection from "wildcat" competition The Board of Fire Underwriters and

Life Underwriters," said Secy, of State Tingey today, "will probably come beore the legislature asking for the new department. WHAT GERMANY DEMANDS,

Berlin, Nov. 5.-The view point of Germany in the Casabianca difficulty was explained officially by the foreign office this morning with the express desire that it be cabled to the United States in order to clear up any existing doubt.

"All we demand," said an official of the foreign office. "is a simple expres-sion of regret from France for the vioence employed against the German consular office at Casablanca, an ex-pression such as would be demanded by any nation whose officials had been subjected to attack. Unless this is forthcoming there would be no object in continuing further negotiations. We canot permit this point to be submit-ted to arbitration, for we regard it as a point of national honor that such regret should be expressed.

"We do not desire that the French of ficials concerned be reprimanded, that French soldiers be punished or the doption of any measures of discipline whatever

'Concerning the other points of the difference we are prepared to arbitrate. We acknowledge that some things might have occurred on the German side which could have been avoided, while France also must admit, from side, that unnecessary acts were committed.
