## WATERWORKS CASE STILL UNSETTLED

Committees Cannot See Eye to Eye With Company and Matter Turned Back to Council.

## LAST DRIVING IN CANYON.

Two Arrests Already Made and Practice Will Be Stopped by Sheriff.

Ogden, July 18.—The meeting held last evening at the county courthouse between representatives of the Improvement League and city council lasted for over two hours. The proposed new franchise to be granted to the Ogden Waterworks company for a period of 25 years, and the one drafted by the waterworks company, were both gone through very carefully. It was believed that a settlement of the litigation and other differences existing between the city and the company had been adjusted, but when the committees began to carefully consider the two franchises they found that there were several quite important differences, so the committees decided to submit the proposition to the city council with the recommendation that they adjust the differences as best they can and then grant the franchise to the waterworks company.

## SUMMONED WITHOUT WARNING

Conrad Bohn Called Hence While in Apparent Good Health.

Without a moment's warning Conrad Bohn was called to the Great Beyond about noon yesterday, at the home of his son, C. E. Bohn, 204 Twenty-third street. Though full of years he had been enjoying comparatively good health. He was sitting in the parlor

Manager, E. A. Larkin, 406 24th St., Telephone 123-K.  
Advertisements for the Daily, Saturday and Semi-Weekly News accepted on the same terms as at the Salt Lake Office.

Circulator, John J. McGregor, 226 Wash. Ave., Ind. Tel. 151. Office with Lambert Paper Co.

Payments for the Daily, Saturday and Semi-Weekly News should be made to the circulator. Delivery made by carrier on the same terms as in Salt Lake.

when he was seized with apoplexy. He was quickly carried to his bedroom, and a physician was summoned, but before he arrived the old gentleman had breathed his last. Mr. Bohn has been a resident of Ogden but a few years, having come here from Winona, Minn., where he had resided for many years and was well known and highly respected. His remains will be taken there for burial. He was born in Germany, Dec. 6, 1828, but came to America when about 25 years of age. He is survived by an aged wife, who in poor health, also several sons and daughters in Ogden.

## WILL STOP FAST DRIVING.

Menace to Life and Limb Will Not Be Tolerated Longer.

Ogden, July 18.—Sheriff Sebring has been having considerable difficulty during the past few weeks, especially on Sundays, through fast driving in Ogden canyon. Last Sunday one accident occurred through two young men driving a horse on the run. They were going at such a rate of speed that they could not turn the horse to one side and other parties driving in the opposite direction were forced to run into a fence to get out of their way. The sheriff and his deputies have been warning young men against such actions, and propose now to arrest and have all fast drivers anywhere in Weber county severely punished. Some serious accidents will surely result from fast driving, especially in Ogden canyon. Two young men were arrested last evening by Deputy Sheriff Wilson and Clark for fast driving in the canyon, who put up cash bail for their appearance in court.

## CHARGED WITH DESERTION.

A complaint has been sworn to in the municipal court by Mrs. Rosella Collins against Orin Colvin, charging him with wilfully and feloniously deserting

his little 18 months old baby boy. The Utah statute provides that "every parent of any child under the age of six years, or any person to whom any such child has been confided, for nurture or education, who deserts such child in any place whatever with intent wholly to abandon it, is punishable by imprisonment in the state prison not exceeding five years or in the county jail not exceeding six months." According to the information furnished the officers, Colvin has for a long time neglected his wife and child, failing to care for them, and that he has now deserted them and gone to Park City in company with other women. A warrant has been placed in the hands of Sheriff Sebring for the arrest of the young man.

## FRY-FARR WEDDINGS.

Winslow Farr, the well known seed merchant, son of Hon. Loren Farr and Miss Clara Fry, a very popular and charming young lady, were granted a marriage license by the county clerk and were married today in the Salt Lake temple. They will make their home on Canyon road.

A license was also granted to Milford A. Wallace, 55, of Garland, and Miss Maggie Burk, 35, of Burden, Kas.

## BRIEFS AND PERSONALS.

Mrs. Amos Sebring, who is seriously ill at her home on Lincoln street, is improved slightly today.

City Councilmen Powers has gone to California on a two weeks' trip. Prof. Nichols has decided to give his concert Saturday evening on Washington avenue, beginning at 7 o'clock instead of Sunday.

Miss Dora Snow, who has been visiting in the east for several weeks, has returned home.

Angus Lochhead, who has been laboring in the Scottish mission, is expected home about Aug. 1.

Peter Erismann, who was burned out in the Ogden fire, has built him a new blacksmith shop near the corner of Washington avenue and Twenty-second street, and opened up for business again.

## THE SMILE

that won't come off, appears on baby's face after one bottle of White's Cream Vermifuge, the great worm medicine. Why not keep that smile on baby's face. If you keep this medicine on hand, you will never see anything else but smiles on his face. Mrs. S.—Blackwell, Okla., writes:

"My baby was peevish and fretful. Would not eat and I feared he would die. I used a bottle of White's Cream Vermifuge and he has not had a sick day since. Sold by Z. C. M. B. Drug Dept., 112-114 Main St."

## SCIENTIFIC MISCELLANY.

So familiar a process as the rusting of iron appears to have been misunderstood. The presence of moisture and oxygen has been regarded as the condition necessary, and the old idea that carbonic acid plays a part has been quite generally discarded. A different view has just been brought before the London Chemical society by Mr. Gerald Moody. In very careful experiments a piece of polished iron was exposed to distilled water and a continuous current of air freed from carbonic acid. The metal continued unharmed at the end of six weeks. When air with the normal carbonic acid was drawn over the sample, however, the bright surface was dulled in six hours and was covered with deep rust in 72 hours.

The bubble fountain is an English scientific novelty said to be capable of blowing 20,000 soap bubbles per minute. Coal gas may be used, and a very striking effect can be obtained at night by firing the gas at the fountain, when the flame will run up the stream of bubbles. Intermittent groups of bubbles are suggested for party practice, as they are cheaper than balls of glass or clay, and their use is more humane than the murder of live pigeons.

Calcium cyanamide, known to the Germans as Kalkstickstoff, is one of the artificial fertilizers that is expected to take the place of Chilean saltpetre and Peruvian guano. It is a compound of calcium carbide with atmospheric nitrogen, and is made by liquefying air, distilling off the oxygen, and introducing the nitrogen into lime and coke at high temperature.

In two years French florists change the violet into a two-foot tree, carrying 25 to 300 flowers throughout the year.

## PARLOUR TIMES FOR CANDIDATES

Prominent Republicans Now Engaged in Chasing Presidential Bee With Assiduity.

## GOOD STORY ON FAIRBANKS.

Operator Who Never Heard of Him—What is Being Accomplished by Reclamation Service.

## Special Correspondence.

Washington, D. C., July 18.—These are parlous times for the Republican candidates for the presidency. Shaw and Fairbanks, Taft and Root and Cannon, are each chasing the presidential bee with assiduity, and with the Democratic nomination practically agreed upon, as it looks now, interest centers in the fight that is being waged in the Republican ranks for the Roosevelt succession. Shaw, while seemingly temporarily out of the running because of the black eye he got in Iowa, is undisturbed by present conditions and is going ahead making friends both north and south, hoping that the lightning will strike in his direction about convention time.

Fairbanks is getting ready to invade the Chautauqua circuit and will lecture on "The Ideal American Citizen," while modestly refraining from mentioning any names.

Root and Taft are busy with affairs of state, but both are making eyes at the Republican jade, hoping to attract the lady of the "cork silk hair."

Speaker Cannon is a candidate for the nomination only in the receptive sense, but his secretary, Mr. L. Wright Bueby, is busily engaged making dates for "Uncle Joe" and by the time the frost is on the pumpkin it is believed that "Burr" Cannon's beam will be launched on behalf of the "plain people."

## FAIRBANKS NOT SO SURE.

Appropos of the Fairbanks candidacy your correspondent is in a position to say that the tall Sycamore of the Washington coast does not regard it as "sure thing" that Shaw is to have the Virginia delegation to the Republican national convention in 1908. It is said that Mr. Fairbanks has several emissaries at work in Virginia all the time, and it is known that he has been especially nice to Virginia Republicans in the course of the past six months or so. Several of them have been entertained at his home and elsewhere in the city. Mrs. Fairbanks showing most consummate tact in her reception of the vice president's friends.

A good story is being told concerning a Virginia friend of the vice president, though the joke may also be construed to reach Mr. Fairbanks himself. Some weeks ago a Virginia Republican who knew Mr. Fairbanks more than casually was invited to come to Washington and take breakfast with him on a certain day. The Virginian, in trying to keep the engagement, found on reaching the Colonial beach, 11 miles down the Potomac, that he could not reach Washington in time to breakfast with the vice president. He wrote a telegram to Mr. Fairbanks, expressing his regrets, and took it into the telegraph office. The operator read the message.

"Say," said the operator, "you've not given any address."

"That's all right," said the other, "everybody knows that man."

"I do not," replied the operator, "who he is."

"He's the vice president of the United States."

"Well, I guess you better put his address on the telegram," replied the operator, and the Virginia Republican was obliged to add Seventeenth and K streets, N. W., Washington, D. C., to the very meager address he had first given.

He now swears that getting people interested in Fairbanks as a presidential candidate is very up-hill work.

## LETTERS LOST IN MAILS.

Nobody ever believes his correspondent who is remiss in answering a letter, when the excuse is given that the letter never came. So few letters, comparatively, are lost in the mails, that an assertion that a letter failed to be delivered is not accepted seriously. Still, in the month of June alone, according to a statement made at the division of dead letters, postoffice department, today, 53,352 pieces of unclaimed mail were received in the month of June. The number received in the same month last year was 74,373, a considerable increase this year.

The total number of letters returned to senders was 106,092. The number of pieces unclaimed was 135,625.

This number of letters received containing money was 6,560, as against 4,736 for the same month last year, but the amount of money they contained was \$5,557.78, as against \$4,646 in the month of June last year, which may indicate that times are better, and each individual who sends money through the mail is able to send a larger sum this year than last.

## ICE TRUST ON THE RACK.

The grand jury, which is probing the so-called ice trust of Washington, has brought to light a rather humorous state of affairs. The jury seems to have established the fact that there are very few if any "independent dealers" in Washington, as all of the so-called "independent" purchase their stock of the American Ice company, which does not seriously deny being a trust. The "independents" have been fighting for years soliciting trade on the ground that to encourage them was to fight the trust. But the grand jury has established the fact that the "independents" are only a myth. Possibly the same state of affairs may exist in other cities, Richmond, for example. The seven drivers of ice wagons arrest-

## LIFE SAVED BY SWAMP-ROOT

The Wonderful Kidney, Liver and Bladder Remedy.

SAMPLE BOTTLE SENT FREE BY MAIL

Swamp-root, discovered by the eminent kidney and bladder specialist, promptly cures kidney, liver, bladder and uric acid troubles.

Some of the early symptoms of weak kidneys are pain or dull ache in the back, rheumatism, dizziness, headache, nervousness, fainting, dropsy, gravel, or calculus, bloating, yellow complexion, puffiness or dark circles under the eyes, suppression of urine, or compelled to pass water often day and night.

The mild and extraordinary effect of the world-famous kidney remedy, Dr. Kilmer's Swamp-root, is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best.

Swamp-root is not recommended for everything, but if you have kidney, liver, bladder or uric acid trouble you will find it just the remedy you need.

Sold in drug stores in fifty-cent and one-dollar sizes. You may have a sample bottle of Dr. Kilmer's Swamp-root and a pamphlet that tells all about it, including many of the thousands of letters received from sufferers cured, both sent free by mail. Write Dr. Kilmer & Co., Binghamton, N. Y., and please be sure to mention that you read this generous offer in the Salt Lake City Daily Deseret News. Don't make any mistake, but remember the name, Swamp-root, Dr. Kilmer's Swamp-root, and the address, Binghamton, N. Y., on every bottle.

ed for giving short weight generally forfeited the collateral deposited for their appearance in court, but two of them preferred to fight. The cases will come up next week. It is the intention of the grand jury to prosecute the ice trust if sufficient evidence is adduced to warrant the institution of a suit. Commissioner Harry L. West is behind the movement to probe the trust, and it would seem that he has made out his case.

## CRITICISM ON E. E. CLARK.

The published report that Edward E. Clark of Iowa, the railway conductors' chief, was slated for one of the new interstate commerce commissioners, has started some notable adverse comment. It is recalled by the critics that Mr. Clark was originally and all the time opposed to railway rate regulation and that he was instrumental in stirring up opposition sentiment among railway employees, that moreover, he conspicuously exerted himself to defeat the measure which Congress passed.

## RECLAMATION SERVICE.

The magnitude to which the reclamation service has grown is somewhat astounding even in these days of remarkable events. The reclamation service was organized four years ago, and during its existence has increased from less than a dozen men to over 400 engineers, carrying on work throughout widely scattered localities in the arid west. Contracts have been let and work is under way involving the expenditure of \$25,000,000, and other contracts are being prepared which will necessitate the expenditure in all of nearly \$40,000,000. There are now working for the contractors about 10,000 men, and the reclamation service has working directly for it over 2,000 men, including day laborers and mechanics. The monthly expenditures aggregate about \$1,000,000, having gradually increased until they are now practically at the maximum. It is not probable that there will be further expansion.

but, on the contrary, a considerable consolidation and reduction of forces as the larger works are completed. The rapid growth of the reclamation service, as indicated by the annual expenditures, is indicated by the fact that in 1903, there were a little over half a million dollars; for 1904, one and one-half millions; for 1905, three and three-quarters millions; and for the year ending June 30, 1906, very nearly eight millions, the greater part of this amount being expended during the months of May and June, when the expenditures reached over a million dollars each.

## UTAH COUNTY TAX LEVY.

Same as Last Year. 7 Mills—Arrest Of Henry Stockman.

Special Correspondence.  
Provo, July 18.—Sheriff Harmon has returned from Stockman on the reservation with Henry Stockman, one of the trustees of the Western Homesteaders' association, under which organization the town has been started. W. H. Gustin of this city has charged Stockman with obtaining money under false pretenses in connection with land transactions, and the case will come up before Justice Noon for preliminary examination. Mr. Stockman, who came to Utah from Chicago about a year ago, claims to be 76 years of age, although he does not look that old; he is feeble health and takes his arrest very hard. He says that he knows of nothing illegal in connection with the Stockman land deals, and that if anything of the kind has taken place it has been through the acts of some of the men associated with him, and from what he says, things have not been running smoothly with the officers of the organization. The local officers claim they have a strong case, although it is probable Mr. Stockman may not be the responsible party. Mr. Stockman says that conditions in the new town are prosperous, and that Salt Lake parties will open a new store there next week.

COUNTY TAX LEVY.  
The following county tax levy has been made by the county commissioners for 1906: General fund, 5 mills; county and school fund, 2 mills. The levy is the same as last year.

## WEDDING BELLS.
