

Tuesday, April 26, 1917.

SPECIAL CONFERENCE.

The Latter-day Saints of the Salt Lake Stake of Zion will convene at 10 a. m. in the Assembly Hall, Saturday May 7th, 1917.

Officers and members of the Church will please govern themselves accordingly.

ANOUS M. CANNON,
President of the Stake.

FRAGMENTS.

The Police Court room was a "dry" waste this morning. Not a victim appeared to receive the mild reproof of the Judge.

The party that was to be given in the Fourth Ward on Wednesday evening will be postponed for one week—May 14th—on account of the fatal accident to Brother Corless' child.

The indications are that the U. & N. is liable to lose some of its best men before many days, who will accept positions on the Hawaiian Pacific. Where W. B. Dorrance and S. H. H. Clark are now located—Eagle Rock Register.

Two thousand acres of desert land were died on in the Boise land office yesterday forenoon. One section near Parma, by Salt Lake parties, and two sections on the Boise land office were by the new cause by eastern parties.—Idaho Democrat, April 24.

DEPUTY CANNON says that the statement published in one of the city papers that he would "fire" the next "Mormon" arrested, is incorrect. His remark was to the effect that he would put from on the next man that attempted any trickery when he was put under arrest.

In the case of the United States vs. Geo. Peterson, indicted by the grand jury for unlawful cohabitation and tried in the District Court on Saturday last, the Court instructed the jury to find the defendant not guilty on account of insufficient evidence. The verdict was in accordance with these instructions, and the defendant was discharged.—Evening Chiefman.

The little son of Hiram Rasmussen of the Eleventh Ward, who was so badly burned at the fire a few weeks since, is slowly recovering. Yesterday he walked a few steps, for the first time since the accident occurred. He has suffered intensely, and the wounds on the abdomen and knees are still open.

Address.—We have had quite a number of inquiries for the address of Belva A. Lockwood & Co. It is 619 F Street, N. W., Washington, D. C.

Dry Goods Triumphant.—The salesmen of S. P. Teasdel's store engaged this morning in a friendly game of baseball, the grocery men being pitted against the dry goods men. The former, when tested in their scales, were found to be short weight, the yard sticks getting away with them by a score of 49 to 29.

Acquitted.—Yesterday afternoon the jury in the case of the People vs. Kildridge Tufts, for selling liquor on Sunday, brought in a verdict of not guilty. Mr. Dickinson was perhaps the most surprised person at the verdict, as he considered the evidence conclusive against the defendant. The Court, after hearing the result, remarked that the verdict was a "remarkable" one.

Young Men's Conference.—A conference of the Y. M. I. A. of Salt Lake Stake will be held in the Assembly Hall, in this city, on the evening of Saturday, May 7, commencing at 7:30. At which full attendance is desired and a representation from each association expected. Those associations which have not yet furnished the statistical report, lately called for, are requested to do so immediately.

Court Notes.—Proceedings in the Third District Court to-day: Sarah P. Castle (guardian) vs. Edward Bohn et al.; on trial before the court.

Radolph Pruhs was admitted to citizenship.

United States vs. Ebenezer Woodford; unlawful cohabitation; defendant arraigned and pleaded not guilty.

The People vs. Richard Babbies and Arthur Curtis; crime against nature; each sentenced to three months' imprisonment in the penitentiary.

O. F. Calmer vs. H. H. Halvorsen; by agreement Ben. Sheeks, Esq., was appointed referee.

Babbies and Curtis Sentenced.—This afternoon Richard Babbies and Arthur Curtis, the former 10 years of age and the latter 12, were called in the Third District Court to receive sentence on a conviction of a crime against nature. Mr. Kirkpatrick, who had been appointed by the Court to defend the accused at the trial, made a request, in which Mr. Varian joined, that sentence be suspended. The reasons given for the application were the age of the defendants and the fact that they had already been confined in prison five months. They had promised to reform their lives in future. Mr. Kirkpatrick further stated that the defendant Babbies' mother was a widow and relied on her boy for assistance to gain a livelihood; the father of the boy Curtis had been a Union soldier.

The Court remarked that it thought a suspension of sentence would not be beneficial, and would therefore inflict a light punishment. The Court then gave a short lecture to the boys to impress on them the serious nature of the crime they had committed, and sentenced them to three months in the penitentiary.

HE WANTS TO KNOW

J. R. Crawford, writing from Washington, Utah, on April 17th, says:

"Please answer the following questions through your paper and oblige: I acted as judge of election at this precinct; vouchers were sent to me and properly endorsed, and returned. After some time I wrote to inquire and was informed that the funds had not come but would be on hand soon, and checks sent without delay. After some delay I wrote to the Secretary again and was informed that my check had been sent, but I have not received it. I wrote back in regard to it, but got no reply. The question is, do I lose any money, or do I lose my money? Second—If a letter comes through the mail to the place of delivery with only one cent on it, will it take two cents more before a can get it, or does the postmaster have a right to hold it?"

Most assuredly you do not lose your money, or are not supposed to. Write to the Secretary again, stating what you have written to us, with particulars of date, etc., and if the check has been lost it can be replaced. The government does not expect nor require anyone to work for it for nothing, except as a penalty.

You will have to pay full postage, and when the postmaster has no right to hold your letter.

THE RABBIT FEST.

DIFFERENT MEANS ADOPTED TO PREVENT THEIR DEPREDACTIONS.

The increase of rabbits in some of the southern counties of the Territory has been so great and the resultant destruction to crops so extensive during the past few years that the future outlook for farmers in that region hinges upon the question of whether effective means can be adopted to destroy the rodents or prevent their depredations. The plan of fencing out the pests is being strongly talked of in many places, since the introduction of the sheep-penning combination fence to the Territory, and some settlements will doubtless make a move in this direction soon, as the killing of the rabbits by organized hunting parties means of coping with the pests. And yet to learn of the slaughter to which these animals are subjected in many places at frequent intervals one cannot but wonder that there are any of them left. Shooting the rabbits has been followed up more or less persistently for years, not for mere sport or for a view to utilizing their flesh or fur, but to exterminate them, frequently resulting in many hundreds of thousands being killed. This in one day by an organized party, but during the past year, notably in Millard County, the use of guns has been abandoned in the warfare against them as being altogether too slow, and sticks substituted. The able-bodied men of a settlement turn out in force and surround a large area of country and by gradually approaching the center of the circuit drive the rabbits before them on to a prearranged spot, where they are killed by a flock of sheep, with their pursuers surrounding them so closely as to easily knock over with their sticks such as may try to escape.

Still another plan has been adopted at Hotter, in Millard Co., of late, that of building a large corral from the small entrance to which wigg-like fences radiate to a considerable distance and enable the people to easily herd the rabbits into the corral, where they can be slaughtered at will. The killing of the innocent creatures savors of extreme cruelty to animals, but stern necessity seems to require that something of the kind be done, so sentiment has to be sacrificed to utility.

Official or some other means be found of getting rid of the pest.

DEAD BABE FOUND.

ODGEN CITY HAS ANOTHER HORRIBLE DISCOVERY.

A horrible discovery was made on Elg Street near the depot to-day. The body of a new born babe, nude and ghastly, was found in a patch of lucern near a clump of willows, by a boy. He called the neighbors and information was conveyed to the marshal by Mr. Thomas Purdy.

The body, which is that of a well-developed female child, has hair and finger and toe nails well formed, and there are marks on the head which arouse suspicion of foul play in addition to an attempt to hide the same. Not only this, but a portion of the neck is gnawed away, probably by dogs.

Information was conveyed to the City Hall and steps were taken to notify the coroner. At present nothing is known which will give a clue to the parties connected with this foul affair.—Ogden Herald, April 26.

SAD AND FATAL ACCIDENT.

A CHILD CRUSHED TO DEATH UNDER ITS FATHER'S WAGON.

Just before three o'clock yesterday, while Brother Robert Corless of the Fourth Ward was driving along Third South St., with a heavy load of sand on his wagon, his little five-year-old boy, William Dow, who was riding beside him, was jolted from the wagon by the wheel striking a stone.

Before the father had time to rein up the horses the wheel of the wagon had passed over the breast of the little fellow, literally crushing the life out of him. He lived only long enough to utter a "Oh, pa, oh, pa!" when his innocent spirit took its flight.

The feelings of the agonized father can be more easily imagined than described, as he witnessed the death of his darling child and conveyed his body to the City Hall, where he had only a short time before reluctantly yielded to the pleading of the child and allowed him to accompany his father for a ride.

Of course, everything was done that affection and sympathy could suggest to revive the child, but all in vain; human skill could avail nothing after such a crushing as his body had been subjected to.

The little boy was unusually bright and attractive; he was the pride of his family and a general favorite with other acquaintances, and the grief manifested over the shocking accident among the family connections and neighbors is intense, while the parents are almost inconsolable.

May the comforting influence of the Holy Spirit be as a balm to their stricken hearts and the assurance that they will meet their loved one again afford them strength and consolation in their sad bereavement.

The funeral service over the remains of the little boy will be held at the family residence, 32 W. Seventh South Street, to-morrow (Wednesday) at 10 a. m.

MURDERED BY MEXICANS.

CAJEME, THE YAGUI CHIEF, KILLED BY HIS CAPTORS.

The San Francisco Chronicle of April 23rd contains the following dispatch:

Guaymas, April 23.—The Mexican man-of-war Democrita left last night for the Rio Yaqui, and it is rumored that Cajeme, the Yaqui chief, was taken out of jail at an early hour and sent to the Rio Yaqui, where he will be executed before the eyes of the true.

Great secrecy is kept by the officials as to his whereabouts, and it is said that he was hanged that night at the Guaymas cemetery.

Nogales, A. T., April 23.—Cajeme, the Yaqui chief, was shot yesterday morning at Modano, a small resort about twenty miles from Guaymas, by the Mexican authorities.

No particulars have reached this place at this writing and the Mexican officials here are somewhat reticent. Whether Cajeme had a trial or not is not known, but the supposition is that he did not.

The Canadian war department in its recent annual report places the expenditure consequent upon the rebellion of 1865, at \$2,500,000. This, however, must be merely the cost of mobilization and transportation. The claims presented for supplies furnished the army have not been paid off, and the final footing of the expenses will probably be nearly \$5,000,000.

Mr. Gladstone has given his heart and soul to the home rule movement, and is ready to sink or swim with it. It is necessary, he is willing, that the decision on the question shall be left to the people. The Salisbury minister, however, with its present lack of popularity in Parliament, is not inclined to place its fate in the hands of the masses.

A BAD RUNAWAY.

AN OLD LADY SERIOUSLY HURT.

A disastrous runaway occurred in the Eleventh Ward yesterday afternoon (April 25th). Mrs. Elizabeth Evans, who resides in that locality, was out riding in company with her daughter-in-law and a boy, who acted as driver. The horse took fright at the upper part of B Street and dashed furiously southward. At the corner of Fourth Street the vehicle struck a fence and turned over, throwing one of the ladies and the boy out. Mrs. Evans was dragged a considerable distance under the buggy as the horse rushed eastward. It proceeded a block in that direction the runaway struck Mrs. Elizabeth Nicholson, and she also was dragged some distance and thrown into the Twelfth Ward water seat with the vehicle on top of her. The three who were occupants of the conveyance were not slightly injured, but Mrs. Nicholson, who is 83 years of age, is in a precarious condition. She is hurt on the right side of the head, which is badly contused, and in both wrists and shoulders. Dr. Richards, who is attending her, is, however, more apprehensive of the results of the terrible shock to her system than the local injuries, owing to the great age of the patient.

Editor Deseret News:

We are just entering upon a genuine railroad boom. There are three roads about to be built running through this section of country; one from Albuquerque, N. M., to Durango, Colorado, and perhaps one to Rio, another from Gallup on the line of the A. P. to Cortez, Montezuma Valley, Colorado, thence north to Salt Lake City, with branch running up the Dolores River to Rico, a great silver mining region. A party of engineers are said to be now surveying the line up the river to Rico, in the interest of the road from Gallup.

The D. & G. Railroad Company also have an eye to this matter and already have men in the field running a line from Durango to Rico.

The great Montezuma Ditch & Tunnel Company are pushing ahead their enterprise to divert the water into the Montezuma Valley, where there is some 30,000 acres of choice land ready for settlement, which is already taken up and being improved.

It is a situation in which it is not difficult to see that the parties who will build the road from Gallup. Three of the leading parties who are connected with this enterprise were here a few days ago and left orders for a \$50,000 hotel.

To be built at Cortez this summer, also for work to commence immediately on the road from Gallup. There is a fine opportunity for the outfit of the north who may desire to move south. They can plenty of work for themselves and teams, and thus be able to earn something to enable them to make homes in this vast new undeveloped country. All the country mentioned are being located in this State, and we desire to plant our feet here and maintain ourselves in this region. We have room for 500 families in this great new country, and then not be crowded. We have just had

A FINE RAIN which causes the ranchmen and stockmen to rejoice, the grain is mostly in and will now come in without the irritating frosts are very good for the farmer, as

HIGH PRICES for all kinds of products rule high. Oats, wheat and barley are selling at \$1.00. Butter 40 cents, eggs 23 cents, hay \$30 per ton, number 2 to \$25 per thousand, shingles \$4 per thousand.

We want a miller and a first-class sawyer. If they have means to buy an interest in the first mill and steam saw mill, all the better.

So far as the Salinas are concerned, peace prevails; no trouble from our outside friends. For those who feel the need of more space will come out here and spread abroad upon this land.

For the old time friends of the welfare of Zion, I am your brother, F. A. HAMMOND.

They are in a fair way to have a religious war in Quebec province. The French, who have the inside track in the government, insist that a crucifix shall be set up in every court of justice in the province. To this the Protestants object, as the crucifix has to figure in the administration of oaths. There is likely to be trouble if the legislature passes the bill.
