"Publish the good news that hereafter no Utah teams will be taxed here, through the efforts of Messrs. Bishop and Sabin, myself and friends, thanks being due to Bishop and Sabin. Regards.
"J. H. DUPAIX."

STRAW BIDS PLAYED OUT.—The following, of interest to mail contractors, is from a Washington paper—

"The Postmaster General has issued the following: 'The Postmaster General fears that a large number of mail routes awarded under recent lettings have fallen into the hands of straw bidders. They will commence the service so as to insure the return of their certified checks which they were required under the law to deposit with their bids, as security that they would not execute their contracts and then become failing contractors. In such cases temporary service must be promptly contracted for during a period not exceeding six months. Heretofore such failures have almost uniformly resulted in putting the service in the hands of the old contractors on the routes, who were ready with their stock to perform it, and at such prices as they might dictate.' Anticipating the recurrence of these failures after the 1st of July next, at which time the new service will commence, the Postmaster General now announces that in every case of failure on an important route he will give notice of it through the press dispatches, and withhold a contract for temporary service until others besides the old contractors shall have an opportunity to offer to do it."

KILLING THE GRASSHOPPERS.—The Omaha Herald has the following on this important subject—

"From experiments tried in Colorado, Kansas, Missouri and Minnesota it has been demonstrated that the grasshoppers can be successfully fought. In this state the same experiment has been tried with great success. Only a day or two since the Lincoln Journal contained an account of the saving of eighty acres of grain by the use of ten gallons of kerosene oil. If the farmers in the vicinity where they appear, give up in despair as soon as they appear, of course they will lose their crops. The way is to get out all the forces possible and go at them with a vengeance. Use all the successful weapons that have been employed, such as fire, water, ditches, rollers, etc., and above all work hard and fast to drive off and kill all the pests that can be reached. Continue this work for a few days and even nights, and your crops may be saved."

CRITICIZING JUDGES.—An eastern paper has the following on a somewhat ticklish subject—

"GALVESTON, via New Orleans, June 9.—The following is the conclusion of Judge Morrill's opinion in the contempt case to-day:
"As no act is criminal whose intent is not such, therefore, unless the intent in this case was the obstruction of justice on the part of publishers, the laws of the United States were not thereby violated. The publishers have unrestricted liberty to apply any epithets to the Judge of the Court without being in contempt for so doing, and no further or other proceeding connected herewith will be had in this court."

Rich and Poor.

It has often been said that in the Oriental countries wealth has scarcely ever an honest source. There, if a man is rich, the presumption is that either he or his father was an extortioner or an oppressor, or, lacking the audacity or energy requisite to qualify him for the role of a robber, he must have possessed the sordid meanness of a miser. *Omnis dives aut iniquus est aut haeres iniqui*—"Every rich man is either a rascal or the heir of a rascal"—was the declaration of St. Jerome, who was also speaking of the condition of

"A Nimble Sixpence Better than a Slow Shilling."

STAPLE AND FANCY DRY GOODS
EMPORIUM.
W.M. JENNINGS, SONS & SADLER.
We are receiving daily from the East and West, a Complete Assortment of DRY GOODS AND GROCERIES.

society in the East. The famous author of "Utopia; or, the Kingdom of Nowhere," thought that the grasping and oppressive disposition of the wealthy classes was not exclusively a characteristic of the Orientals. On the contrary, he insisted that the same traits were found in the England of his day. He described the whole system of society around him as "nothing but a conspiracy of the rich against the poor," a conspiracy which was carried out by controlling legislation and shaping it for the benefit of wealthy monopolists. "The rich," he said, "are ever striving to pare away something further from the daily wages of the poor by private fraud and even by public law, so that the wrong already existing is made still greater by means of the law of the State." Again he says: "The rich devise every means by which they may in the first place secure to themselves what they have amassed by wrong, and then take to their own use and profit, at the lowest possible price, the work and labor of the poor. And so, as soon as the rich decide on adopting these devices in the name of the public, then they become law."—Ex.

NEWS NOTES.

Thirteen thousand children attend the public schools in Buffalo, N. Y.

There are no grasshopper ravages in Iowa, and the crops were never in better condition.

In Boston ten thousand children are to be provided for in the arrangements for this summer's excursions. A fund of \$8,000 is to be secured for this purpose.

When a Frenchman speaks disrespectfully of MacMahon he is imprisoned for two months. How happy an American general would be with all that power!

When a man stepped up to a news stand the other day and asked for some lively reading, principally about murders, the clerk promptly handed him a Massachusetts paper.

It is reported in the Troy Times that Mr. James Gordon Bennett will come home before the Fourth of July, with four \$3,000 pointers and some choice thoroughbred horses.

It is feared that the long and useful life of Harriet Martineau is drawing to a close. She is more desponding about herself than she has ever been. The winter has tried her severely.

It's astonishing, says the New Orleans Bulletin, to see how little there is of some ladies in these days of contracted skirts. And it is equally as astonishing to see how much there is of some others.

Messrs. Bliss and Whittle, the revivalists, who have been laboring in Louisville, Ky., are discouraged. The races held there last month were the most successful ever attempted on this continent.

There is a strong tendency in American politics to use the short-haired and plugugly element. No party seems strong enough to willingly antagonize this support, and very few politicians are bold enough to wage war upon it. The gentry referred to usually gravitate toward the strong party, as they scent the plunder from afar off.—S. F. Chronicle.

BOOTS, SHOES, HATS,
Etc., Etc., on hand.
Prices Guaranteed as Low as any House in Town.

CONTINUED TRIUMPH
OF THE
"Chicago Pitts"
THRESHERS & SEPARATORS
AND
LIGHT DRAFT HORSE POWERS.
Threshing, Separating and Cleansing all kinds of Grain and Seeds, without waste or loss of time by Slow Work, and Heavy Draft on the Teams.
Threshermen buy them and Farmers employ them on account of their Reliability and Durability.
FARMERS AND THRESHERMEN LOOK TO YOUR INTERESTS.
BUY THE BEST; THE BEST IS THE CHEAPEST.

The intelligent, first-class, old experienced threshermen, and thrifty well-to-do farmers, buy and employ the "Chicago Pitts." Farmers employ them to thresh their harvest of grain and seeds, and often pay an extra price per bushel to the owners of Chicago Pitts Machines, because they thresh clean out of the heads, separate perfectly out of the straw, save the grain and seeds clean, fit for market, doing the work with the utmost speed, and do not keep a gang of men and teams on their place by reason of breakages, slow work and heavy draft on the horses.

Threshermen of long experience in the business buy them, because the Chicago Pitts is in perfect running order when it leaves the factory, and because of its superior durability and finish in all its parts, may be vigorously operated with the best results. It will thresh as much grain as any good set of hands care about handling, and it cannot be surpassed by any machine in the land, for Lightness of Draft and Good Work.

We have again secured the exclusive agency for the sale of these excellent machines and extras for repairs, for Utah Territory.

One of the Company visited us a few days ago, to ascertain precisely what was wanted in our dry climate, and we arranged with him for enlarged riddles and cleaning functions; also for two wheat riddles for each machine, one of them a fine mesh, to suit the wants of the farmer, for either foul or clean wheat; also for oats, riddles with a finer mesh, and enlarged elevators, on a different principle from the old. Warranted never to clog or choke under any circumstances.

The master wheel of the Horse Power of these machines is cast of a new pattern, much heavier than the old one, and is well banded with wrought iron.

We say, in confidence to our friends, that these light draught and durable Machines have no rival in this dry climate, and we offer them for sale at the very lowest possible living rates, and on easy terms; also all kinds of extras for repairs.

SEND FOR CIRCULARS AND PRICE LIST.

Mill Creek, Salt Lake County.
Our Railroad depot is at Little Cottonwood seven miles south of S. L. City, and one mile east of depot is our place of sale.

AYER'S
CATHARTIC PILLS,
For all the purposes of a Family
Physic,
Curing Costiveness, Jaundice, Dyspepsia, Indigestion, Dysentery, Foul Stomach and Breath, Erysipelas, Headache, Piles, Rheumatism, Eruption and Skin Diseases, Biliousness, Liver Complaint, Dropsy, Tetters, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a Dinner Pill, and Purifying the Blood.
ARE THE MOST congenial purgative yet perfected. Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action; and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases. Most skillful physicians, most eminent clergymen, and our best citizens, send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated, they are easy to take; and being purely vegetable, they are entirely harmless.

Practical and Analytical Chemists.
Sold by all Druggists and Dealers in Medicine.

Ayer's
AGUE CURE,
For the speedy relief of Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Periodical or Bilious Fever, etc., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.
HAS been widely used, during the last twenty-five years, in the treatment of these distressing diseases, and with such unvarying success that it has gained the reputation of being infallible. The shakes, or chills, once broken by it, do not return until the disease is contracted again. This has made it an accepted remedy, and trusted specific, for the Fever and Ague of the West, and the Chills and Fever of the South.
Ayer's Ague Cure eradicates the noxious poison from the system, and leaves the patient as well as before the attack. It thoroughly expels the disease, so that not only Complaints, Rheumatism, Neuralgia, L.D., sentery or Debility follow the cure. Indeed, where Disorders of the Liver and Bowels have occurred from Miasmatic Poison, it removes the cause of them and they disappear. Not only is it an effectual cure but, if taken occasionally by patients exposed to malaria, it will expel the poison and protect them from attack. Travelers and temporary residents in Fever and Ague localities are thus enabled to defy the disease. The General Debility, which is so apt to ensue from continued exposure to Malaria and Miasm, has no speedier remedy. For Liver Complaints, it is an excellent remedy.
