

Now is the time for all mechanics to become great in the kingdom of God; let them become servants to the farmers, and make for them hoes, rakes, scythes, and snaths, forks, broom handles, plows, drags, cultivators, drilling machines, grain harvesters by horse power, threshing machines, fanning mills, screens, potato diggers, and every thing a farmer can use to expedite his labors, even to the portable saw mill for horses to saw his wood, by attaching the same gear used for threshing, and machines for boring or cutting the holes in his fence posts, &c., &c., and as quick as this is accomplished, which should all be done before another winter, so that every farmer, can cultivate more land, and better, and raise more grain than five now can; go to manufacturing every kind of article needed in the Territory, as fast as possible, and don't fear that you will have nothing to eat, for the farmers in turn will want to become your servants, and supply you with flour, and there will be an abundance of it, and you shall have it as cheap as you will furnish the farmers with tools to help raise it, and a little cheaper, for they will want to become your servants and rise above you.

Now is the time for a settlement with the Tithing Office. Annual Conference is close at hand, there is no time to be lost, and all the grain, meat, vegetables, butter, cheese, eggs, and all kinds of eatables, and dues are wanted forthwith, and not only wanted but needed, to prosecute the work you are so anxious to have done without delay, and it is the business of the Bishops, to see that these returns are made from every ward in the Territory before Conference.

It was through obedience to his Father's will, and by following his Father's counsel, that Jesus became a little child, descended below all things, and became a servant to all, that he has attained to his exaltation above all things; and all Saints who would be exalted with him must do as he has done; and all the brethren, who give their Bishop the trouble of calling on them to pay up their tithing, if it be no more than 1-2 dozen of eggs, or 1-2 a pound of butter are exalting their Bishop still higher and higher over them by making him their servant for Christ's sake; therefore if you want to rise to glory everlasting, in God's kingdom, with your Bishop, you will never so much as give him the trouble to ask you whether your tithing is paid to the last farthing; and all Bishops who are prompt and faithful in looking after the things which the brethren ought to look to, but neglect, are adding glory to their crown, in the midst of their brethren which can never be taken from them, and over which those brethren can never rise.

If those brethren who have grain, or eatables, from one bushel to a thousand, which they do not need for their special and immediate benefit, and which they want should bring the greatest possible income, it is their privilege to bring the same to the Lord's Store House, where it may be credited to them as a free will offering, to the Lord, which will produce to them the highest rate of interest possible; or it may be credited to them, to be accounted for at a future day, which will be the second rate of interest; or, they can do any thing else they please with it, but it will only yield to them a third rate, and so on, down to nothing-interest. It will require an immense amount of labor to do what the brethren want done on the Public Works this season, or before harvest, and it requires a proportionate amount of provisions to feed the laborers. The wise will understand how liberality increases riches.

We took up our pen just to call the attention of our readers to an advertisement, but having almost involuntarily written at such length, we dedicate it to the Saints, so that every one may have a chance to become great in our Father's kingdom, for there is wanted three hundred Stone Cutters and Masons, and men enough to tend them, also provisions to feed them and means to pay them, or to balance all necessary expenses, and it is for those who have, to say where this strength and means is coming from.

Common Schools.
We have heard some little complaint about the School Tax of late, and have been requested to publish our views in relation to it.
No one who has read the school laws can doubt the power of the Trustees to assist and collect a tax to build a schoolhouse in their ward or district, and to keep the same in repair. But to impose a tax upon the community to pay the Teacher is unauthorized by law.

When a school house is built and kept in repair by a common tax, bearing an equal ratio to the amount of property that each citizen of the ward or district possesses in said ward, the way is effectually opened and prepared for a school, to go into operation; this done, those who send to school are expected to pay the Teacher themselves, as no others can be required to pay that expense. If this were not the case, whoever might wish to patronize the University or any other select school, would be subject or liable to pay two school bills or taxes which would tend to check the higher branches of education.

We trust the Presidents and Clerks of branches, and Bishops of wards concerned, will remember that returns of the state and situations of their several precincts, will be expected by or before the first day of 6th of April Conference, on the same plan as published last year, when the general Church Recorder was not able to give a general report to the Conference, because returns were neglected in some wards, and branches. Let returns be made according to the pattern.

We have no official report from the Deseret Pottery the past month, but we fear they have been afflicted, some like ourselves, with cold fingers; and we don't wonder much at that, for the Sugar Company have been rolling out the Molasses to a rapid extent, which they could not do without considerable Wood; neither do we wonder that the Sugar Company get the Wood, just now, for they only are once a week the Molasses Company, and both require Wood. We remember the story of the poor boy, who was asked what he would do if he was King? "I would ride the gate all day, and eat slacks and Molasses," was his honest reply. Human nature is the same in all countries and kingdoms, and the people have been so long without a little black-strap and Molasses, just now; so if they have carried all their Wood to the Molasses factory for a few days we don't blame them particularly; and we will try and help them to a gate to ride on, if they will bring us the Wood to make it off; but if our good friends don't do better then they have, by us, for the past two weeks, they may well suppose our ink is frozen in our quill, and the Molasses will soon be gone, and the News gone, and no Wood to make a gate of, and how will they swing then? O! that is easy enough, hand us over the cash, and we will continue, to swing you, "Money answereth all things."

The Historian's new Office has stood about statue quo for the last month, no telling when it will be opened.
Library open on Mondays and Fridays, each week.
TEMPLE EXCAVATION, progressing as well as it can with the help it has. Bro. Woodruff is alive among the workmen.

WEATHER.—The first eight days of March were as mild and pleasant as are often seen in the same latitude in the last of April or 1st of May; and more steady in a clear sky than we ever saw in any latitude, and farming was opening briskly till on the 9th a gentle shower, occasionally began to stop the plow; 10th pretty steady rain a.m. and rain followed by 3 or 4 inches of snow p.m., and night, and great depth in the mountain passes; 11th cool, and freezing; 12th milder and snow melted considerably; 13th comparatively warm, snow nearly gone, very clear sky, and frosty evening.

The Eastern Mail left on the 10th for Ft. Laramie &c., and has not been heard from since.

The Rail Road has been retarded by the weather, 3 or 4 days, March 14th.

We again say look to the stray herd advertisement, and the Sugar Beet Seed, &c., by the Trustee in Trust.

Now is the time to set out fruit and shade trees, if you have not done already; this should have been attended to the 1st inst., during the pleasant weather. Don't be discouraged because you have lost some shade trees on your side walks, hitherto; but set the more, and get in all the fruit trees, of every kind you can decide this point, may guess, according to his ability, who is President. We don't know, and leave all to answer the question to suit themselves. Perhaps we may learn by mail before the year is out.

Who is the President of the U. S.? That's a question we can't answer. One of the California papers reports the election of Genl. Polke, by unanimous vote, except 13 in Mass., and 5 in Vermont. Total for Genl. Scott 13 votes. May be so, we don't know any thing about it. The paper admits it is not official. The New York Weekly Tribune, of Nov. 28th, says "Genl. Polke has been chosen President by a conclusive majority." "And what do we learn by that?" We learn that the Tribune says so, but the Tribune a Whig, or a Democrat, or a Free Soiler, or a Hunker, or &c., or &c., and so on? Any one who can decide this point, may guess, according to his ability, who is President. We don't know, and leave all to answer the question to suit themselves. Perhaps we may learn by mail before the year is out.

The Printers of Deseret held a very pleasant Picnic, in the East wing of the 14th Ward School House, on Tuesday evening last, just enough present to make all things agreeable; and at the same time Bishops of the City were holding their semi-monthly meeting, in the West wing of the same house, which we visited a few moments, but they could not persuade us to stay long, neither can they persuade us to send children to school in such a house.

Reason.—We will give a reason, when the proprietors of said house will give us a good reason why two large doors, (ventilators) have been left open all winter, in the top of that semi-arched room; large enough for a draft furnace to carry off every particle of heat that could be generated by the stove and other means, before one tenth of the scholars had warmed the first two, leaving their feet cold all day. If we had a thousand cords of wood lying idle, we would not give one foot to such a house. Why? Because every foot of wood burned in such a room only makes it the more unhealthy, and the value of health we understand.

Five, Mountain, Ivory Malogany combs, have been manufactured at the comb makers, mentioned in our last.

A new contract for Mail to California is rumored, and the first Mail on said contract went on the 18th inst.

From present appearances, a Mail may be expected to leave this City for California, on the 15th of each succeeding month, but no official notice has as yet been received, concerning the matter.

Vallejo, Capital of California.

We have recently seen a letter from a member of the present, or last legislature of California, who passed through this place some two or three years since, on his way, from which we extract the following: "Vallejo is a dull, muddy, uninviting spot,—the last born of California speculators, by whom it has been dubbed with the degraded title of city. It contains in all, perhaps, one dozen houses of the most meager description;—board rates at the moderate price of from thirty to forty dollars per week. Nothing of importance has transpired during the past week, save the organizing of the House, and the reading of the Governor's Message."

[We have no comments. O! glorious land of gold! Is this your boasted capital, or has your Representative belied you? \$40 per week. More than \$190 per meal for every meal your Representatives eat!—What do you pay them per day? and do they sleep on earth, boards, or bear skins? We wish some one who knows would tell us? or perhaps they may sustain themselves over night, by holding up the tavern sign post, who knows but they thus prove themselves true to their posts? If any one does not, please tell us how all these things are supported. Do you pay common laborers as much as you do Legislators? If you do not, you don't imitate Utah. Do common laborers pay \$1.90 per meal? Mechanics get higher wages than Representatives in Utah; and laborers and Representatives pay the same for board. When will California get out of debt?

Letter from San Bernardino, Feb. 6th, 1853. Wm. Stout to bro. Lyman and Rich, states that a great number have been baptized since they left, some old citizens, some from the Lake, some from San Francisco, and else where, and quite a number have been new members. "My school has prospered first rate since you left," the order of the school is better and better daily, the children disposed to come under better government, and give heed to instruction, and have improved more the last 3 months than all the time previous. Many young men have attended regularly all winter. "I have been lecturing two nights in a week on English Grammar and language generally" [just what all our Teachers ought to do, En.] "to large congregations, assisted by bro. Thomas. The Spanish class reads Spanish well, but have been hindered for books, Isaac Bronson has a book and writes Spanish well, and Wm. Wile translates well into English. From 100 to 115 pupils daily."

Bro. Seely of San Bernardino says, to bro. Lyman and Rich, that bro. Horner (of San Francisco,) writes, that 135 persons have been baptized since they left.

Elder Geo. Q. Cannon writes to his bro. Angus, dated Waukegan, Mani, S. I., Sunday Oct. 3rd 1852. "We have had morning and afternoon meeting to day, and have enjoyed ourselves much, in a large new Meeting House which is nearly completed and expect to complete, for Conference on Wednesday next. The Saints generally are rejoicing, and I feel glad that I am privileged with preaching the truth unto them, it is a glorious privilege and I desire to appreciate it. The work is taking a stand, that it has not heretofore done, and my prayer is that it may spread until the friends of error and priestcraft, shall fear and tremble from one end of these Islands to the other. Meeting Houses have, and are being built at different places, and things are taking a different aspect."

Bro. and sister Perkins, and sister Woodbury have returned as far as San Bernardino.

By Missouri Republican, 16th November, as copied into New Orleans Delta, we learn that Professor Pratt, and the Missionaries with him arrived in St. Louis on the 15th.

Items from San Bernardino.
Feb. 4th, Elder Addison Pratt says to Elder Grouard by letter, "It rained here in torrents in December; and no rain, or but one shower in January. The early sown wheat looks fine, the late will when we have rain. I cannot give any particular news from the Islands. We hear that all the Missionaries that have been sent through to San Francisco, have been sent away from there on their different missions. While writing the above, intelligence arrived from bro. Brown, and brings this unpleasant account, (see report) which I enclose for your journal. It seems they are in a bad fix here, but it is no more than I expected when I left there, for I felt that the French meant to force them to measures."

"A report of the condition of the Saints on the Society Islands, on my leaving as also my arriving at that place."
I arrived on the Island of Tahiti Nov. 10th, 1852 and learned from the President Elder Pratt that on that Island there were a great number of the Tid Mutu brethren from the Island of Ana there in prison on Tahiti. The same day I received a letter from the brethren then in prison, stating that there were thirty eight of them from the Island of Ana. There crime was holding meeting after they were forbidden by the Authorities; they were diligently watched and forbidden to read, sing, or pray. They were then removed to the Public Works in the mountain and engaged in digging a pass, and fed on a small allowance of bread and water. I learned from the sons of those who were prisoners that some of them had been so much abused by whipping, &c., that they were sent to the Hospital. On the 11th, a Schooner arrived from Ana with eight more, six brethren and two sisters, who were also sent to the Public Works, their crime was holding prayer meetings in their dwellings. On the 14th, news came from Ana that the brethren had killed one Priest and a Constable who came to assault them while engaged in family prayer, and it was reported another Catholic Priest was missing and it was supposed he also was killed by the brethren in an unlawful attack. On the 15th, I received a letter from the prisoners in the mountains stating that they were in a miserable condition and wished my advice. I wrote them to be patient, and trust in God, and I would do all I could to benefit them; being myself constantly pursued by two Constables, and constantly watched I could do nothing. On the 26th, I was obliged to leave the Islands by order of the Government; the same day there was an armed Brig sailed to the Island of Ana for the purpose, as was said, of massacring all who would not renounce their religion, it was also said that there was then thirty five in close confinement on that Island."

We presume the above report was dictated by bro. James Brown, when he was so sick he was not able to write.

It is not a little surprising, that a Christian Government like France, should be engaged in such an unholy crusade against Christians, in this enlightened age. It would be to us, had we not witnessed more cruel persecutions, in a more enlightened country, during this same enlightened age of Christian darkness. We will wait patiently, and see whether Napoleon III will tamely set the crowned head of such horrid persecutions. We are not much surprised to hear that a Priest and Constable or two, making a midnight attack, under pretence of law on peaceful citizens, at prayer in their own house, should get their heads cracked. If the Christians of the U. States, were thus attacked at an unreasonable hour, at their family devotions, by wolves in sheep's clothing, Indians, or murderers, would they open their eyes from prayer to see which class their assailants belonged to before they killed them if they had the weapons and power at hand? If they would, they are far more merciful than they were when we knew them, or when we received the last mail from the States. But perhaps they may say, as they often have said, "the Saints believe in being more merciful than we do." Then we have only to say to you, if "the Saints are more merciful," and "the merciful as Jesus said shall obtain mercy," join the Saints at once, and cut off occasion for exposing your hypocrisy, in believing one thing and practicing another; but remember one thing, a God all mercy to one, must be unjust to another, for he would have to leave innocent blood unatoned for.

Let the Saints on the Society Isles, and every where, be prayerful, joyful that they are worthy to suffer for the truth; watchful, careful to give no offence to any man or Government, when they can avoid it without breaking the laws of God, and in his own due time, their heavenly Father will deliver them out of all their troubles; but you must let persecutions have their purifying work, if you would be accounted, martyrs for Jesus.

In the centre of a large loaf; (bride's cake) closely sealed in clean white paper, lying on our table, Baker and Porter unknown, we discovered the following:
MARRIED.
On the 13th inst., by Bishop Silas Richards, Mr. JAMES MCLENNAN, and Miss CATHARINE KIDD, all of Little Cottonwood Ward.
We will be pleased to publish all our young friends on the same terms, when the proper time comes.

CITY ELECTION.
The election for officers of the City Council of Great Salt City, was held at the Council House on Monday, March 7th, at 2 o'clock P. M., when the following officers were unanimously elected by the voice of the people:
Mayor—Jedediah M. Grant.
Aldermen—Nathaniel H. Felt, William Snow, Jesse P. Harmon, Abraham Hoagland.
Councilors—Zera Palspiser, Lewis Robinson, Jerry Clinton, Joseph Horne, William G. Perkins, Harrison Burgess, Enoch Reese, Seth Taft, and Elijah F. Sheets.
EDWARD HUNTER Moderator.
R. CAMPBELL, Clerk.

LYNES.
On the death of Mary Gould, son of Heber C. and Velata Kimball.

BY MISS E. A. SNOW.
I beheld a sweet bud on a tall rose stem
A fair, lovely, bright and beautiful gem
That gracefully deck'd a noble bower:
But where's the bright gem, the sweet rose bud now?

Where's Murray so lovely of human kind
Around whom the affections of all entwined?
O where is the Spirit that gave the charm
Of celestial hue to that earthly form?

He has gone to unite with the royal band
That was his, when he dwelt in the spirit land:
He has gone to assist in the rolling on
Of the work for the great and the glorious dawn.

He has gone to the place of the just to tell
That his friends on the earth have received him well.
Those with whom he has form'd an eternal tie
To unite them again in the worlds on high.
G. S. L. City, August 1852.

80 REWARD.
STRAYED or stolen a short time after the big snow a bay horse about 8 years old, black mane and tail, two or three saddle marks, also a white spot on the upper part of the neck, caused by the collar, one shoe off of one hind foot when last seen about half way between the City and Island; this in flesh.

Whoever will bring the horse or give information where he can be found, to the Subscriber in the 15th Ward, shall have the above reward.
Also wanted, a few 5 acre lots in the big field if they can be had very low and pay easy. Apply soon to H. KIMBALL.

March 19-9-4.

One Chance More.—We will not close the Gallery for ten days or so,—thus affording an additional opportunity to obtain correct likenesses. Embrace it.
CANNON & SMITH.
march 19-9-4.

DIED.
At Nephi, Juab County, February 22nd, 1853, SAMUEL, son of Samuel and Sarah Ann Picforth; aged 3 days.

At Parowan, Iron County, January 23rd, 1853, WILLIAM A. MORSE, aged 66.

Dr. Morse was President of the Council of Health, and the best herbalist known in the Territory; a man ever ready to sympathize with the afflicted, and administer to their wants; respected and beloved by all his acquaintances; a firm believer in the New and Everlasting Covenant, and of the glorious resurrection of the just, the blessings of which he will realize in due time.

COMES, COMES.
THE Subscriber wishes to inform the citizens of Deseret that he is manufacturing coarse and fine combs at his residence in the 4th Ward, and will exchange them for wheat, flour, butter, eggs, &c., &c., on reasonable terms.
The combs can also be had at O. H. Cogswell's, and John Needham's stores.

THE House and Premises consisting of 3 City Lots under good fence, Adobie house, 16 by 40, Adobie stable, 16 by 22 on Emigration street, S. W. corner of the 11th Ward, opposite Cedar posts. The whole premises can be rented for \$3 per month, or bought immediately for \$500, less than cost of the improvements, in cash or stock. An excellent location for Tavern stand.

N. B.—At my place on Little Cottonwood is a 2 year old dark red Heifer and calf, left ear cropt; the owner can get her by proving property, paying charges.
march 5-4.
ANDREW CALHOON.

NOTICE.
IS hereby given to all whom it may concern, that application will be made at the next sitting of the County Court of Great Salt Lake County, by the subscribers, for the exclusive privilege and grant of that tract of country designated as the Cove in Green River precinct, lying on the east side of the big mountain, directly east of what is commonly called Cherry's settlement in Davis County, and the west side of the next great mountain east, where the two big mountains nearly intersect; the waters in the cove forming what we call the west fork of Willow or Canyon Creek, which runs on the east side of the second big mountain, east of Great Salt Lake City on Emigration road, and empties into Weber river; we shall make application for the exclusive right of all the timber, rock, water and grass in said cove from the summit of the mountains around said Cove. And if there is any person that can produce any good sound reason why said privilege should not be granted, they are hereby requested to make the same manifest on or before the sitting of said court.

SANFORD PORTER, SANFORD PORTER, JR., OZIAS KILLBOURN.
march 5-4.

STRAYED.
FROM Dr. Richards' pasture last fall, a red Cow, branded I. E. on the left hip; white spot in forehead. The finder will please leave her with Bishop Hunter and shall be liberally rewarded.
march 5-4.

BROOMS.
I wish to inform the inhabitants of Utah Territory, that I intend to engage in the manufacture of Brooms. I have prepared machinery and intend to raise fifteen acres of Broom Corn this season, and having had experience in the business, for I have made forty thousand for New York City market. I will make a good article of Brooms and Broom Corn, and will sell them from twenty to twenty five cents each, which I think will be cheaper to the inhabitants of the Territory than for them to raise Broom Corn and make Brooms without machinery. I intend to send them to the different settlements in the Territory. In the Tithing Office G. S. L. City, will be supplied of my make after the first of October next.
WM. H. CARPENTER.
Nephi City, March 1st, 1853.
march 19-9-3m.
