Merry Times in Store for Stars Of the Cinder Path,

READY FOR SUMMER MEETS.

Champions and Near Champions Busy Preparing for Early Spring Struggles on Track and Field.

This coming summer will be a merry one for the amateur athletes. All over the country they are beginning to train. Already the champions and near-champions are getting ready for the cinderpath struggles that will begin early in May.

Out in California, Ralph Rose, the giant shot-putter, is beginning to work with the hope of beating Coe of Boston

Chill all beneficies in the beginning to work with the hope of beating Coe of Boston and winning back his championship in putting the sixteen-pound shot. In Boston Coe is nard at work. He is about half the California glant's size, but he makes up in nerve and conduton what he lacks in height. Martin's california glant's size, but he makes up in nerve and conduton what he lacks in height. Martin's method height. Martin's condition of the greatest of all western athletes, and championship again. Martin's for the all-round championship again. Martin's hardest opponent will be Garreis, the greatest of all western athletes, and champion of many events in Michigan. To tell the gruth, even Martin Sociadan will have his hands full when he tackness Garreis. This Michigan man is a great sprinter, says Robert Edgreg, and has thrown the discuss within a few inches of Martin's record. He is a first class hamer-thrower and a good shot-putter. As a hurdler he is second only to Kraenz-lein, the old Pennsylvadia champion. But Sheridan's Trenos thing that he hasn't record his limit yet at any of the events he bas completed in. He holds the present all-around point record. When Garreis and Sheridan, two of the greatest weight-throwers that rever lived. When he was 45 he re-broke all of his own hammer throwing records, and they still stand. He is over 50 now, but he still has a winning streak in the Scoth games.

and they still stand. He is over so now, but he still has a winning streak in the Scotch games. Carroll's gives of training for weight-throwing was just the opposite of Coe's. Carroll would not let a drop of cold wa-ter touch his body, while preparing for an avent. E always said that even a quick, cold shower would stiffen his muscles. He liked to train where the sunshine was strong and there was no shade near. When preparing for the big match Car-roll used to go down to Monterey, on the California coast. The weather is not there. He would take his hammers and shots out on the sand beach. Now and then during the day he would put or throw for a little while, and then lie down in the hot sand and fall asleep, letting the sum pour down upon him. If he feit like it when he woke up he would train a little more. The beat and sun-sine made his muscles and his joints supple. The intermittent practise was more effective than any amount of hard plugging. I think myself that Carroll had the best manner of training for weight-throwing or any other athletic stunt. It isn't necessary to tear yourself to pleces in practise.

"COMMY" FIRES FIVE.

The Ax Has Fallen Among White Sox Early in Season.

Early in Season. The ex has tallen among the White Sox arry this season. According to informa-tion from the big league quarters, Presi-dent Comiskey has asked for waivers on Roth, Hart, Towne, O'Neill and Dundon. The selection of this quintet as the vic-tims of the cleaver will cause consider-able surprise, but there are reasons, doubtless, for the old Roman's action. Weiday and Quinlan, the hard hitters from the Western league, are to be kept, Weiday succeeding O'Neill as extra out-fielder, and Quinlan supplanting Dundon as utility infelder. Dundon has been ret-trograding in his haiting for two sea-sons, and is probably due for the minors. O'Neill idd not quite make good, although a valuable man. Milwuakee wants him, and will probably get him. Freeman and Chemey, the new pitchers,

John Montgomery Ward, better known as Johnny Ward, who was captain of the New York baseball team when it defeated the Baltimore Orioles in the famous Temple Cup series in 1884, has been nominated by the Republicans at Habylon, Staten Island, to run for jus-tice of the peace. His Democratic op-ponent is James B. Cooper. After mak-ing a name for himself as a baliplayer, Ward was admitted to the bar and is now praticeing law in New York. He is also one of the begt amateur golf players in this vicinity.

a valuable man. Milwutakee whits him, and will probably get him. Freeman and Cheney, the new pitchers, are to be given a tryout and the Chicago unatieur, Lejune, will hardly be dropped until the team gets home. There will be considerable surprise at the release of the three catchers, but the big chief be-lives that Eddle McFarland is himself egain, and that no team needs better men than Eddle and Billy Sullivan. Hart did not come up to supectations in his two years with the team. Towne, though a great batsman, is said to have a bad arm, and Roth is under some sort of claim by the Milwaukee club. There will probably be some more ar-swinging in the near future and the Cubs are pretty nearly due to receive some chopping.

CHRISTIE-LUND BOUT.

Big Fellows Will do Battle Before Ephraim Fans Tonight.

A fight for a purse of 3500 is scheduled to take place at Ephrai- this evening be-tween Jack Christie and Chris Lund. Both men are reported to be in good shape for the bout and a hard fight is looked for. Lund outweighs Christie about 20 rounds and is much taller, but what Christie Jacks in weight he more than makes up in cleverness. Lund will have a hard time to land on Christie.

SCHEDULE IS MADE UP.

Baseball League for Preps, High School And All Hallows College.

The interscholastic baseball schedule has been completed and is as follows: April 9-All Hallows vs High School. April 15-All Hallows vs U. of P. Preps, April 15-All Hallows vs U. of P. Preps, April 15-All Hallows vs High School.

DED-STILL HAMMELT. Trish athletes have been for some which is such an important element in what is known as "throwing the ham-mer." It is proposed to har certain Ameri-can innovations in the build and construc-tion of the iron. In the future the handle must be a straight steel rod with a wood-it of the iron is the build and construc-tion of the wire rope handles. Among pro-fessionals and aspirapts to porfessional-ism this new order received a mixed re-cords for hammer throwing both in Ens-and and Ireland, agrees with the idea of returning to the old style. "Our fath-ears," he said, "were nature's athletes. We have only mechanical-am artificial lot poking out for some artificial aid to sup-port the hammer. Let it be a hammer, and hot a flying machine. No America more thear 1 do, but from the onmencement I condemed the wire rope andle. It does not give an honest athlete.
