THE advance of "Rationalism," which is the "liberal" name for infidelity, is viewed with alarm by most of the leading minds of the various "Christian" churches, and is freely acknowledged if not feared by the rest. This is plainly perceived in the many discourses aimed at the unbelief of the age, great consternation in the party, and the attempts which are made who, at first, thought the waiter to reconcile the developments of to reconcile the developments of they were assured it was a fact and that John Wlikes Booth was se-theology.
