GEO. Q. CANNON,

Editor and Publisher,

Salt Lake City, Utah Territory.

Bishop WILLIAM BUDGE is authorized to act as GENERAL AGENT for the *DESERET NEWS* throughout Cache County.

Elder GEORGE FARNWORTH of Mount Pleasant, is appointed GENERAL AGENT for the *DESERET NEWS* and JUVENILE INSTRUCTOR for Sanpete County.

Special Notices.

Burnett's Cocaine for the Hair is unequalled.—*True Flag, Boston.*

Burnett's Florimel is really a wonderful perfume.—*Hartford Courant.*

Burnett's Kalliston for the Complexion is steadily growing in the estimation of ladies as it becomes more generally used.

Burnett's Flavoring Extracts to be obtained must be demanded. Poor subterfuge flavors are plenty.

Whitcomb's Asthma Remedy.—In no case of purely Asthmatic character has it failed.

"THERE'S NO SUCH WORD AS FAIL!"—This is absolutely true in using Dooley's Chemical Yeast Baking Powder, for so perfect is the combination of the ingredients entering into its manufacture, that good biscuits, rolls, or pastry, both light and nutritious, can be made every time. It is always, already, always reliable, and requires but half the quantity of those of ordinary manufacture, and is, consequently, cheaper. For sale in packages to meet the wants of all, by grocers generally.

WHEN every other prescription has disappointed expectation, in cases where the system is suffering from the effects of mineral medicines, the powerful vegetable corrective—*Red Jacket Bitters*—will restore the tone of the digestive apparatus, quiet the nerves, and arrest the action of the poison upon the secretive organs and the blood.

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

FOUND DEAD.—Bro. Peter Nielson, coroner, writing from Weber City, gives us additional items respecting the finding of the dead body of a man in that vicinity, the particulars of which appeared in our issue of September 29.

Bro. Nielson states that since finding the body, a pocket book has been picked up, containing a ten dollar bill. Two other bills, one a twenty dollar and the other a ten dollar in addition to a through ticket from California to St. Louis, have also been found near where the dead body lay.

The man's name is said to be George Bennet, and he is supposed to have worked at the mines.

California and St. Louis papers please copy.

NEWS FROM MISSIONARIES.—We have received a letter from Elders Israel Evans and N. C. Murdock, dated Trenton, Wayne Co., Michigan, Oct. 11, 1869, in which they speak of the progress of the Latter-day work in that region of country. In Polk county they re-baptized many of the old members of the Church, together with some new ones, and established a branch in that locality.

The Saints there would like to have any Elder, who may be passing through, call upon them to rest and instruct them. There is a good spirit and feeling, and any Elder visiting that vicinity will find friends.

They also visited Marion and Lucas counties and were well received, although there were no Saints in these places. They preached three times there, and were

warmly invited when they left to go again.

These brethren feel well on their missions, and state that there are good opportunities on every hand for preaching the gospel.

FROM WEDNESDAY'S DAILY.

MISCHIEVOUS BOYS.—We wish to see the boys of our city and Territory excel in good behavior as well as in other things, and we have reason to believe that as a general thing they do excel. There are, however, exceptions, who endeavor occasionally to make their presence known by some act of mischief or ill-behavior. An instance of this kind came under our notice last evening. On nearing the bench, at the upper part of East Temple St., our attention was drawn to a string stretched across the foot path, fastened on one side to a fence and on the other to a tree, which had evidently been placed there for a "lark" by boys. The sun had gone down, and the moon not yet risen, consequently it was too dark to notice so unusual an object in such an unexpected position; and a gentleman passing, narrowly escaped having his eye severely injured by it, causing him much pain and inconvenience for a time.

We trust parents will take the trouble to explain to those of their offspring who are likely to participate in such mischievous amusement, the fable of "The boys and Frogs," and give them to understand that such tricks are sometimes fraught with lamentable consequences.

FATAL ACCIDENT.—It is with extreme regret that we record the accidental death, by shooting, on the 13th inst., of James David, son of Robert and Ann B. Wilson, of Eden, Ogden Valley.

The poor boy, not quite thirteen years of age, was in the mountains with a young man, his cousin, getting wood. During a previous trip for the same purpose they had seen a bear, and this time had taken a gun and ammunition, with the design of dispatching "bruin" if they could find him. After loading their wood they determined to have a hunt for the bear, and the boy was taking up the gun, loaded and lying in a bush close by, when it went off, the ball entering his left side, below the ribs, coming out close to his back bone. The poor fellow was taken to the home of his parents, where he died the next morning.

MILITARY.—Yesterday afternoon the roads leading to Camp Wasatch presented an unusually lively appearance, being lined with baggage wagons en route for the drill ground.

This morning the main body of the militia moved out of the city, en masse accompanied by bands of music, creating a very picturesque and lively appearance.

Camp Wasatch when viewed from the bench at the north end of the city, with its innumerable tents glistening in the sunshine, is an imposing sight.

PENITENTIARY DAMAGED.—Late on Monday night or early Tuesday morning the high wind, which was prevailing at the time, carried away a considerable portion of the roof of the Penitentiary. Warden Rockwood informs us that the work of reconstruction is going vigorously ahead, and in a very few days the guests of the public domiciled there will again be comfortably housed.

INFORMATION WANTED.—Of August D. Ferron, who left San Francisco some fifteen months since. When last heard from he was at Echo, working with an engineering party on the U. P. R. R. Any tidings of his whereabouts, sent to Hon. W. H. Hooper, M. C., Salt Lake City, will be very acceptable. California and Rocky Mountain papers please copy.

NEIL WARNER AT OMAHA.—The Omaha Herald, of Sunday, 17th inst., says that on the next evening Neil Warner would commence an engagement of five nights at the Academy of Music in that city, his Eastern engagements preventing a longer stay. The pieces selected were "Macbeth," "Richard III," "Hamlet," "Richard III," "Ingotmar," and "A New Way to Pay Old Debts."

The same paper announces the appearance in that city of "Col. Jeemes Pipes," who had "just returned from a highly successful trip to Salt Lake."

"MESSENGER OF HEALTH."—We have received the first number of the "Messenger of Health," a sparkling eight page quarto, published monthly, at one dollar a year, by Dr. Morrill, of Boston, Mass. It contains much excellent reading matter, on health, hygiene, antidotes for poisons, &c., and if the Doctor makes it as good as he promises, a large circulation will be almost sure to reward his efforts. One feature, promised to commence immediately, is unique, and is sure to gain for it con-

siderable popularity,—that is a biography of the medical "quacks" of Boston and other large cities in the Union. The work can be procured at James Dwyer's Railroad News Depot, East Temple St.

FROM THURSDAY'S DAILY.

THE CITY.—There are many changes in this world of ours. Yesterday the city, in consequence of the muster of the different corps of the militia and other causes presented an unusually lively aspect. To-day all is quiet; and those of the citizens who have not gone to the drill seem to prefer the fireside to the street, on account of the dullness of the weather.

Our reporter, after promenading around the city in search of items of interest, returned with the following as the result of his labors:

Police intelligence, none; Theatre closed; stores deserted; streets ditto; weather cold and raining.

AMY STONE IN TOWN.—This pleasing actress, and her husband are in town. We hear that they will make their appearance at the Theatre sometime next week. All theatre-goers will remember "Fanchon the Cricket," "The sea of Ice" and other pieces that were presented in such a charming manner during their former engagement in Salt Lake City.

THE PATENT POINTS.—Two of the "Patent Points," by means of which wells may be bored in a few hours, reached this city this morning. Their capabilities will be tested very shortly. One of them may be seen at this office for a day or two.

ROAD IN PROVO KANYON.—From a reliable correspondent at Provo City we learn that Hon. A. O. Smoot, and all hands that can be spared from other duties, are busily engaged in making a road in Provo Canyon.

ANOTHER COMPANY EN ROUTE.—By a telegram to President Brigham Young, from Elder W. C. Staines, at New York, received this morning, we learn that a company of 300 Saints left New York on the 19th; this is the last company of the present season's emigration. Elder Staines starts home to-day.

VICISSITUDE AND CHANGE.—For the last three or four years, since the commencement of the ravages of the grasshoppers, the price of breadstuffs, vegetables, horse and cattle feed, and in fact all agricultural and garden produce, has been unusually high, and though things have looked rather gloomy for the poor sometimes, yet owing to the existence of Female Relief Societies, and other organizations, in every Ward in every settlement throughout the Territory, no person has ever suffered for want of food or the common necessities of life. This season, thanks to a bountiful Providence, the condition of things is very much changed. An abundance of food of every kind has been raised, and in all parts of the Territory it is being sold at as low rates as ever before known.

The change also in the price of merchandise of every kind is very remarkable. For many years the whole matter was in the hands of the merchants themselves, and they charged just what they pleased. But now, through the successful inauguration of Co-operation, the prices of all classes of imported goods are permanently reduced, and they can be bought at rates wonderfully lower than those charged a few years since. It is true that trade, generally, is still suffering from an unprecedented stagnation, but the re-action must now shortly take place, and general and largely increased prosperity be expected among all classes.

"THE SALT LAKE TRADE."—Under this heading the San Francisco Morning Call, of last Sunday, says:

"A morning contemporary, announcing the shipment of a car-load of sugar to Salt Lake, cackles over it like a pullet over its first egg, and endeavors to make its readers believe that the energy of our merchants is beginning to tell in opposition to the Chicago merchants. Now, we know of one firm—and that, too, a firm not engaged in the grocery trade, that has forwarded to Salt Lake, to fill orders, since July 7th, 170,684 pounds of sugar, valued at \$21,618.61. This same house has also shipped coffee, rice, nails, bacon, and general merchandise, to the value of over \$100,000. They also have standing orders for bacon to the extent of twenty thousand pounds per month. The head of this house says that if our wholesale merchants would make an effort, and would secure the co-operation of the railroad men to the extent of a reduction of the freight rates, they could secure the entire Salt Lake trade. He is satisfied, from substantial reasons, that the merchants of Salt Lake would rather trade with Californians than with the merchants of the Eastern cities, and he believes that our merchants can ob-

fer them as good bargains. The question of who shall reap the benefit of the Salt Lake trade then becomes one for the Central Pacific Railroad to solve.

FROM FRIDAY'S DAILY
