Street Curlosities - An Equestrian Gentleman-Some Funny National Characteristics.

annunnunnunnunnunnunnunnunnunnunnunnun

r 60 feet long, with a slip-noose at the or of the Guaso is never without a lasso, and the skill with which he can use it is amazing. If he wishes to catch an animal that may be run-

ning away at full speed, he takes the coll in his right hand, urges his horse to

a mad gallop, and whirling the lasso several times around his head to give it momentum, hurls its loop with uner-

ring aim around the neck, horns or legs of the animal, with as much ease and

accuracy as a skilled baseball player sendable ball. The horse is so trained

that the instant the lasso leaves his rider's hand, he stops and braces him-self to bear the strain of the struggling

animal. Chilians of the Guaso class are bred to this exercise from infancy,

enos; drunken sallors, come over to "paint the town" from the port of Tal-cahuano, galloping the streets at break-

neck speed, knowing little about horse-

by the police, but are actually paid by

Arrived at the Polanco, we find the

Chillan caballeros (gentlemen) out in full force on their prancing nags, ex-

hibiting horsemanship of which they have good reason to be proud. In this

country horses are seldom broken to

harness, al life teaming and hauling being done with oxen. The gear of the

Chilian gentleman's saddlehorse is a most curious and complicated affair,

The bit is a long, heavy, flat piece of

iron, which rests on the horse's tongue and presses against the roof of his

mouth. At each end is a hole, through

which is passed an iron ring about four inches in diameter, which encir-

cles the lower jaw. At each side of the mouth is placed another iron ring.

entire mouthriggings weighs about five pounds, and if suddenly jerked, is pow-

erful enough to break any animal's law. The reins are made of finely braided hide or horsehair and are joined togeth-

er when they reach the pommel of the

saddle, terminating in a long lash call-

to which the reigns are fastened.

Special Correspondence.

Concepcion, Chill, Feb. 7.-In this country, when one desires to take a ride, he does not send around to the cned a colled lasso, made of twisted hide, about as thick as your thumb, 50 livery stable for a vehicle, but sattles forth on foot, earrying whatever paraphernalia the excursion may require, and walks until a birlochero comes along. The public carriages are much like the "hacks" in common use at home, except that they are built in more substantial fashion, for these roughly paved roads would soon shake an ordinary coach into kindling wood. Hail a passing birlochero, and its driver will whirl his raw-boned horses two or three times around in the nar-row street, grazing the houses on either side, to the imminent peril of pedestrians; for he considers that a deal of noise, flourish and whip-cracking are needed to do proper honor to the oc-casion. Having satisfied his conscience and every rag-muffin urchin old enough to toddle is forever practising his art on poultry, dogs, cats, and other small in that regard and brought his foam-ing steeds to a stand-still, you clambe animals that may come in his way, with the same diabolical persistency in and are whisked away, pell-mell, over the stones, at a pace that may iruly be termed a "spanking" one, for you are bounded against the top like a rubber ball and hurled into your that the gamin of Peru and Bolivia shy stones out of slings at passers-by, and Patagonian boys, a degree less civilized, shoot their bone-tipped arrows. Hurrying on toward the Palanco, we neighbor's arms with force enough to fracture thinly cushioned ribs-bonnets meet and pass other birlocheros, all filled with chattering and smiling Clibattered, hats knocked off; but you may be consoled with the reflection that you are riding for pleasure, and that this heroic exercise is good for garlic-im-

paired digestion. Hereabouts the favorite after-dinner manship and caring less; and peons seated on the extreme rear end of dimidrive is to a suburban pleaure garden, called the Palancho, which is much fre-quented by all classes of society. The place in itself has no attractions; but nutive donkeys, carrying before them hugh pannlers of fruits and vegetables. Every street corner is occupied by a ragged exile from sunny Italy, with there are few ways of varying the monotony of life in Chili, and the hu-man species are like sheep the world hand organ and monkey, grinding out alleged music to the delighted populace. over, you know, in following the lead These troubadouring nuisances are of a bell-wether. more fortunate here than in the far north, for in Chili they are never routed

When first arrived in this part of the country, we used to carefully explain to our coachmen that we were strangers in the land and desired to be shown the most beautiful and entertaining sights. We found the cocheros obliging fellows, always delighted with the mis-sion and proud to exhibit home institutions; but unfortunately their ideas of the beautiful and entertaining differed greatly from our own. The first Jehu drove us straight to the slaughter-house, and throwing wide the door, tri-umphantly invited us to enter and view the whole process of killing and dross-Having declined that amusement, ing. to his infinite surprise and disappoint-ment, he drove us next to the big hospital, where legs and arms are sawed galore, and where a vast array of amputated sores and tumors and monstrosities are set forth in glass bottles. Finding us still not agreeably diverted, even by this gruesome display, which possesses extraordinary fascination for the low class Chileno, he spent the remainder of the afternoon sulkily driv-ing up and down the same street, eviruminating upon the stupidity of los. Gringoes.

ed a chilote, at the end of which is a Another cochero, delighted with the same mission, made a bee-line to the small piece of lead, usually sidden in a handsome tassel. When not in use

strap is passed around them and firm. ly secured. Then comes a sort of skel-eton saddle, or rather a piece of wood cut into the shape of a saddle-tree, with a cantle at each end; on top of this are piled any number of sheepskins, or, if the owner is rich enough, oderate size, each weighing four of ve pounds-forming a complete profec-on for the feet when passing through mud, mountain bushes and rocky de-files. At one side of the saddle is fast-

rare and costly furs furnish the seat, [complicated than the bridle. First, half a dozen sheepskins are piled, one above another, on the horse's back; a leather which is called a montura. The four corners are fastened down by broad leather straps, ornamented with silver and brass buckles, to enable the rider to wedge himself in; and the whole is bound around the horse with a broad band of canvas or leather. Some wealthy equestrians have a high pommel, which like those of the Mexicans,

covered with silver and stamped on scribed, his aristocratic neighbor uses] top with the owner's coat-of-arms Chill it is distinctly understood that the amount of silver on a man's riding outamount of silver on a man's staing out any in the single of a silpler. Those fit indicates his station in life, and nat, urally there is a good deal of competi-tion in that direction among the swell cabalieros. While the poor man's stir-rup is a rude affair, fashioned by hand in gentleman, with silver spurs, gold out of a block of wood, as above de-

quite as heavy but much more or. namental, made of brass or silver, usunamental, made of brass or silver, usu-ally in the shape of a slipper. Those designed for ladies are often made of solid silver beautifully chased, and are a favorite gift. Thus you see that a fully equipped saddlehorse for a Chil-ian gentleman with silver source gold and silver mounted saddle and bridle,

furs, sheepskins, and all the rest of the furs, sheepskins, and an use rest of the toggery represent an outlay of \$5.0.0 or more. It is considered the height of more. It is considered the height of vulgarity among the aristograts to use modern English saddlery, and new pon-chos; especially the ponchos, which in their families have been handed down from generation to generation. from generation to generation, growing FANNIE B. PONGEE SILKS, 36 inches wide, Domestic Shanting Pongee, in two qualities, most elegant material, and superfine grades, usu-ally sold at \$2.25 and \$1.75, 1.25 this week at \$1.50 and.....

BLACK TAFFETA SILK, inch, Black Gro Grain Taffeta Silk, heavy, crisp and soft, one of the good old kind and suitable for any purpose. This silk could not be duplicated for \$2.00 per 1 25

to the penitentiary; and another to the poor little cometery. At last we learned that Concepcion has no "sights, even her churches being too new to be interesting; and now on our afternoon drives, we give the unvarying order of ladies to the manor born, "Vaya al Palancho"-go to the pleasure garden One is sure to encounter many novelties en route, and the streets are a lively panorama, slow-moving but kaleidoscopeic, of unfailing interest to the foreigner.

For example: There is a gray-bearded, dignified Guaso, mounted on a fine horse, with his fat wife behind him. He is topped by a broad-brimmed hat, the rest of his person enveloped in a bright-hued poncho, or native blanket with a slit in the center through which he thrusts his head; while she wears a purple cotton gown, a scarlet shawl and a man's hat of Panama straw. Th horse's bridle is plated with sil-ver and on his saddle are plied five or six shaggy pillones, or woolen cloths, which almost cover his thighs. The rowels of the guaso's furs are without exaggeration, large as ordinary teaplates, five or six inches across, and heavily plated with silver. His stirrups are made of a block of oak, elaborately and hollowed inside-say 10

ings down the horse, often dragging on the ground. Its load of lead is usually heavy enough to furnish a weapon of offense and de-fense as formidable as a slungshot, and the poor horse is beaten unmercifully with it. These soft-voiced, mild-manwith it. These soft-voiced, mild-man-nered and excessively polite Chilenos are as cruel to beasts as to men, Horses are so cheap that even beggars may A good native broncho can be bought for five dollars, and his owner knows no mercy. The beasts are driven until they drop, rad then fresh ones are subjected to the same treatment. No care is taken to protect domestic animals ,or to make them comfortable. 1 Although the winters in this latitude are cold to a degree of ice and snow, stables for horses and cattle are un-known. When their day's labor is done, they are turned into a corral or a pas-ture, or the street, to seek their own food; and every year thousands of them die from overwork and starva-1 tion.

I have seen a number of fancy bits made of solid silver, and bridles platt-ed with gold, with reins made of golden wire, Senora Cousino-the wealthlest widow in South America-had one that cost \$2,500. Those costing \$1,000 or more are common in Santiago. The inches high by nine in diameter for a Chilian saddle is even more queer and

Brigadier-General Henry T. Allen, c hief of the Philippine constabulary, was on leave of absence in Korea at the outbreak of hostilities. The government at Washington has decided to appoint him to accompany the Russian army in the field, in the interests of our war intelligence department. General Allen is 46 years old, and has risen rapidly so far in his profession since his graduniton from West Point.
