

DESERET EVENING NEWS.

Wednesday, August 4, 1897.

KENYON IS CHOSEN.

Succeeds Cohn on the Fire and Police Board.

GRIEVANCE OF A FRUIT PEDDLER.

Says He Might Be Ignored in Death or Hanging on the Indian Free's Dock.

At last night's Council meeting, a vote of ten to one, Sam J. Kenyon was chosen to succeed Louis Cohn as a member of the police and fire board. The resignation of Mr. Cohn, which was sent in to the Council a week ago, was called up by Councilman Burtis, who moved that it be accepted. Carried. Mr. Burtis then placed the name of Mr. Kenyon in nomination. Councilman Burtis nominated Charles Markland. The vote stood as follows: For Kenyon—Allen, Burke, Callender, Lee, Phillips, Lloyd, Murray, O'Meara, Stewart, Wimbomb and Newman—10. For Markland—Duffy—1.

President Newman declared Mr. Kenyon elected.

SHOULD BE GIVEN THE HARD STAND.

George Duffin, who formerly kept a fruit stand on the corner of South Temple and Main, sent in the following petition:

Aug. 2nd, 1897.
To the Right Honorable Mayor and City Council.

Competition—I once more present my petition before you for consideration. I have run a stand at the corner of South Temple and Main, one week before I was driven from the stand, and with the understanding that I could go back again after the first of July.

Good night, God bless you all.

Councilman Allen moved that the petition be granted without reference. O'Meara opposed it, and said the right of the property owners should be taken into consideration.

Burtis thought the men should be given an opportunity of earning a few dollars. The commission has only required their removal until after the 15th.

Wimbomb favored giving the merchants who paid heavy license penalties, giving a chance to earn a few dollars. The commission has only required their removal until after the 15th.

The question was disposed of by O'Meara moving, as an amendment, that the petition be granted when Mr. Duffin files with the city recorder, the amount of stalling property owners. The amendment carried.

MICHAELSONS.

Col. J. Ford Kent of the 24th U. S. Infantry asked the Council to authorize City Engineer Kenyon to prepare plans and specifications for a new canal, etc., in the river, the water system of the post, situated.

R. J. Leary called attention to the site of Fourth Street station, near the corner of State street.

The committee on vetting recommended that State street, between East Temple and State street, one and one-half blocks north of Temple street be acquired by J. F. Haskins, under his contract, as proposed.

Samuel L. Butler asked for permission to remove certain property from his stand without license. Committee on municipal affairs.

Mayor E. G. Galt, by his attorney, P. L. Williams, asked that a street lamp be placed at the intersection of Fourth East and South Temple street. Committee on improvements.

SALT LAKE BEACH.

TIME TABLE.

IN EFFECT JUNE 1ST, 1897.

Leave Salt Lake. Arrive Salt Lake.

Stocks and Investments.

JOHN QUAYLE.

John Quayle, a Utah Pioneer, was born at Ramsey, N. H., in 1846. He came to New York from his native land in 1864. In 1868 he came to Utah in 1867, in the third company that crossed the Plains into this mountain country. On his arrival here he settled on the old Fort. In 1870 he began grazing and raised a crop of wheat, in 1871 he purchased a portion of the Fort, and in 1872 he built a log house on his place, block 30, and in 1882 an adobe house on the same lot, corner of Fourth South and West Temple. This old building is still standing and is in a fair state of preservation. Elder Quayle made three trips to his native land, the last one in 1880, when he was 40 years of age. He experienced the hardships of pioneer life and did not mind hardships containing the mountain life of the desert. He lived, loved and respected by all who knew him. He died in Farmers ward, Salt Lake county, January 5, 1897, at the ripe old age of 50 years, 1 month and 11 days.

J. C. Carey, principal, requested permission to construct the building at 101 South East street, with lowest sewer pipe which now connects the new building of the 1st station with the sewer.

Wm. R. Jones Jr. asked that the Council compensate him for the destruction of his water supply by reason of the construction of the gravelly sewer outlet. Committee on streets.

John C. Carey presented a bill for the month of July, showing 200 cubic feet of water used. The amount received in each ward, 713.25.

Wm. Gilbert presented a bill for the month of July, showing 200 cubic feet of water used. The amount received in each ward, 713.25.

James D. Jones and 118 others asked that Eighth North, between Fourth and Fifth, be widened to 40 feet, the sprinkling committee with power to act.

Repairing and Re-upholstering.

Why not have these things done now.

When we can give most time to it. In the fall we have a most more than we can do. If you place this work with a powerful dam, and a low figure on it, simply to keep our men employed.

W. D. Woodbury Furniture Co.

NO FAKE GASOLINE STOVE

AT HALF PRICE.

Bine Flame Oil Stove.

For 15 Days Only.

The Fuel Gas Flame Oil Cook Stoves burn ordinary Coal Oil or Kerosene, and make a blue flame like Gas or Gasoline. Anyone can operate them, and they will not get out of order. Each burner is provided with two pinch flat valves, which make a powerful dam, and a low figure on it, simply to keep our men employed.

The advantage is that there is no danger as with gasoline. It is impossible to have an accident.

A fine flame will not smoke, or produce soot or odor, any interval may be placed directly in the burner without a particle of soot being deposited upon it. Cooking and baking can be done as well as on Gasoline Stoves.

The expense of operating these stoves is less than that of Gasoline Stoves.

A simple, but ingenious device prevents the work from being turned up too high.

The reservoir is kept cool by means of a supplementary tube, which circulates the water from the burner, thereby the oil does not become heated as in the ordinary Oil Stove.

They are made of Best Material, Enamelled and Decorated, and provided with Brass Registers.
