

ADJACENT CITIES

PROVO.

PROVO, UTAH, - JAN. 10, 1894.

Legion Paid Arrested.

Legion Post, the latecomer, has been arrested on the charge of obtaining money under false pretenses. The complaint was sworn to by H. M. Duggan, the police judge. Duggan's story is that Post brought to him a ring valued at a few dollars and asked him to pawn it for \$100. He did so, and when Post returned the ring, but shortly after returned, ostensibly with the money ring, and again asked Post to pawn it for \$100. Post refused, and the complaint was sworn to. Post was arrested on the charge of obtaining money under false pretenses, making the value of the ring about \$100. Post was arrested on the charge of obtaining money under false pretenses, making the value of the ring about \$100. Post was arrested on the charge of obtaining money under false pretenses, making the value of the ring about \$100.

Notes.

The Utah mining district, comprising the range of mountains between Lodi and Marmar, and extending to the Utah mine, has been surveyed with C. W. Ross as mining recorder.

Householders are at work cleaning up their places and getting ready for the coming year.

The Zepher company has filed five demurrers to the freight bill of the American.

No more of action is claimed for each of the five classes of the complaint.

PARK CITY.

PARK CITY, - JAN. 1, 1894.

All About a Casting Vote.

After several lively meetings of the city council, the election of J. L. Weber as city marshal, was decided when it was found out that the mayor had a right to cast his vote. On the part of the majority, much indignation was expressed on account of the action of the Republican mayor and city council in electing a Democrat to the most important office in the city, and their indignation was expressed by a large procession parading the streets with music and banners.

The act of the mayor in sending news to the Tribune that the American was holding a procession to inaugurate as being ridiculous, as it is well known that the Tribune is a Democratic paper, and the Tribune is a Democratic paper.

The weather during the week has been comparatively mild as to that of last week. But very little snow has fallen, and the weather is now just at the close.

After a short snow of nearly two weeks the March will again start up tonight, prepared to make another run. The entire plant has been overhauled, and a large amount of new timber and iron work has been placed in position.

Work at the various mills and mines is keeping up with a rush, and the Colorado mill is making a record for the great amount of bullion turned out every week.

The Crescent is still piling up the ore at their plant, and the settlement of ore rates before shipping. Silver King shipped two lots of 200 tons each to the Bingham company during the week.

A school superintendent is still running double shift, and a large amount of construction is being put down to the sampling mill.

A Double Shooting.

The victims of the shooting scrape, Joyce and Crow, are still alive, but with poor chance of either of them recovering. The latter, after being shot, will receive the attention of the proper authorities, and it is hoped that the report will be closed up at once without put upon it.

Personal.

Much speculation is what as to who will be the next gubernatorial here, as several candidates are in the field. Mr. Kelly, the present governor, is now serving beyond his term, but given the same general satisfaction as of old.

Mr. J. J. Daly and W. H. Roy were visitors during the week.

Resort Items.

Mr. Wilson of Shelby gave a dinner at the school house at Franklin on Friday evening, January 6, and entertained the Shelby students with five rate music, but owing to the severe weather, about 100 persons attended, and was not a full house. Those that were there had an enjoyable time.

The new moon came in with a fearful wind and snow storm. Old stories played on the new wind machine the horse-power of one of the steam engines about 90,000 horse-power tonight is somewhat quiet, but very cold. The storm is expected to leave here for a time to pay Utah a visit, but not out for him about the first quarter of the month.

Sunday, Jan. 7th, in company with Frank Hubbard I paid a visit to Shirley. Where an enjoyable time was spent. The wind blew a gale and the snow drifted in clouds, like the swirl of the sea in the Bay of Biscay, with a soft, warm, golden light, and the sun shone in the sky, but not out for him about the first quarter of the month.

I paid a visit to the past week to three of the young people who have been here for some time, caused by sickness and long illness.

Another disturbance is the expectation of the morning school and that leader at Shirley. Next Sunday, the 14th, the Y. M. and Y. L. S. S. will be organized. We all wish them success.

HOW TO MILE.

This Year has been a Good Year for a miller's reputation is also reported in a London paper.

Very few were killed by the earthquake by the earthquake. One known the hills were falling and and
