WAR VETERANS' REUNION.

Thirty of the Old Guard Respond to Roll Call.

Special Correspondence.

Heber City, Wasatch Co., Feb. 25.-The Indian war veterans of Wasatch county held their fifth annual reunion in the opera house yesterday under very favorable circumstances. A splendid program consisting of speeches, readings and songs was provided fol-lowed by an old time festival and ending with a dance in the evening. Roll was called showing 30 of the old veterans present, in addition to whom were some 500 of their descendants and friends. Most of the Indian fighters are well advanced in years, but few of them have lost their youthful nimbleness and during the party they displayed this quality to the great delight of the many young ladies with whom they danced. Seventy-four of the veterans still reside in the county.

Maj. John W. Witt and Adjt. Charles H. Wilken of the cavalry division, and Maj. John Hamilton and Adjt. John Crook of the infantry, figured promin-ently in the Indian troubles and are hale and hearty, though advanced in years. The Indian war veterans' réunions are looked forward to by the people of the valley as most enjoyable occasions.

Considerabe activity is being displayed in the erection of a new building here for the bank of Heber City. The building will be a two story, thoroughly up-to-date structure. The bank just now paying its second annual divi-dend of 6 per cent; it is regarded as a very strong institution.

> CONSUMPTION. CAN IT BE CURED?

Specialists Differ. Some Opinions From Patients Here Published Are Interesting, and of Value to Others.

Whether real consumption can be cured, or not, is an open question, or to guarantee that any one medicine will positively cure consumption would be absurd, but we know there is something about the effect of Vinol when taken by persons who either have, or think they have consumption, or serious lung troubles, that is decidedly beneficial. While we do not guarantee that Vinol will always cure consumption, we pub. lish herewith extracts from some of the letters received on this subject, which prove that while we may be conservative in our claims, Vinol has certainly cured these people, and as the letters are guaranteed to be genuine and from reliable persons we must accept the statements as absolutely true Mrs. J. G. Brown of Anderson, Ind. writes: "Our daughter Mary was in consumption, and given up to die by our family physician. She was very weak and emaciated, but Vinol restored her to health in a marvellous manner, and she is as well as ever she was. Words canbot express our gratitude for this valuable cod liver oil preparation." Mrs. N. B. Jenner of Lakewood, N. Y., writes: "I was in consumption, and

no one thought I could live. I weighed less than 100 pounds, and my normal weight was 175 pounds. Vinol cured cured

me, and it seems almost a miracle." The Rev. Mr. Grosse of St. Paul's Church, St. Joseph, Mo., writes: "A young man in my congregation had hemorrhages of the lungs which weakland, June 1, 1825. She came to Utah with her husband, Mr. Jarvis, in the ened him so that he could not walk a block. I recommended Vinol; he has ow with four little children to support. She afterwards married William Gibbs taken four bottles, and feels like a new afterwards married William Gibbs, man; he cats well, sleeps well, and is Her unwavering faith, her sympathy, getting strong."

Joseph Denis of Winslow, Me., writes: 'My son was given up by two doctors to dle with consumption. He was a human skeleton, and could not raise himself in bed. Vinol has cured him so that he is healthy, fat, and as

well as any of his playfellows." We have lots of such letters, and they all contain just such strong, authentic statements, and why should they not be true? If old fashioned cod liver oil had any virtue-and we know it had in the treatment of throat and lung troubles-Vinol, of course, is of far greater value; for it not only contains all the medicinal curative ele. ments of cod liver oil, but it is entirely free from the oil or grease which invartably disagrees with the digestive or-gans and prevents the good that might come from the cod liver oil medicine. We can only say that any one who is desirous of giving Vinol a trial for any kind of lung troubles may do so at our risk; we will pay for all the Vinol they take which does them no good. This shows that we have great faith in what Vinol can accomplish. Druchi & Franken and Smith Drug Co.
