

LOCAL AND OTHER MATTERS.

FROM TUESDAY'S DAILY.

"HOPPERS" NEAR THE CITY.—Grasshoppers are hatching out in considerable numbers on the bench north of the city, towards the mountains. It would be a great benefit to the public if some inventive genius would set his brains to work and invent some means of destroying them by wholesale. Here is scope and direction for American ingenuity.

THE MISSIONARIES.—By letter from Elder George Reynolds we learn that the party of Missionaries which recently left this city for Europe, had a very pleasant journey over the Union Pacific, Chicago & North Western, Chicago, Fort Wayne & Pittsburg, Pennsylvania Central, and Allentown railroads, to New York, where they arrived at 7 a.m. on the 8th inst., and where the following brethren took passage on the steamship Colorado and sailed on the 10th inst., for Liverpool:

Albert Carrington; B. W. Carrington; W. C. Anderson; Ralph Harrison; John B. Fairbanks; Charles H. Wilchens; David John; John Pyper; Caleb Haws; Ferdinand Oberheinsley; G. Wilkins; Geo. Reynolds; Thomas Dobson; James A. Leishman; George P. Ward; Johannes Huber; B. W. Driggs; John Roberts; Elijah Box; Niels Jensen; Wm. M. Bromley.

KINGLY COURTESY AND THANKS.—Our excellent artists, Charles R. Savage and Geo M. Ottinger, are continually adding to their fame, the one as a photographer and the other as a painter. Every visitor who comes to the city, and visitors are numerous during these days, carries away with him some specimens of their art to be preserved, to be discoursed upon and submitted to the inspection of friends to whom will be related the particulars of his visit to Salt Lake city, the pictures adding interest to the description. Yesterday these gentlemen received a letter from the Sandwich Islands, conveying to them the thanks and aloha of His majesty Kamehameha V. for the presents of photographic likenesses and views which they sent him. As an extract from the letter may prove interesting to our numerous readers, and give them a clear idea of the style used in expressing kingly thanks, we copy a few lines from the letter:

"Ke hai aku nei au ia olua i ko ka Moi aloha ia olua, no ko olua lokomaikai i ka haawi ana mai, ma ko'u lima, i ka olua makana ia ia; ua aloha mai oia ia olua."

As printers say, the letter "runs on sorts;" but this does not detract from its merits to the general reader, who will probably be struck with its courtly and lofty style. We congratulate the gentlemen on its receipt.

CACHE VALLEY.—Bishop M. W. Merrill, of Richmond, who is now in town, furnished us the following items: The grasshoppers are hatching out very rapidly all over the county and the people are fighting them most energetically, and are determined to keep up the warfare, hoping, by this means, to save the greater portion of their crops. They do not feel near so much discouraged as in previous seasons; The Bishop thinks this is probably the result of their getting used to the visitations of the pests.

There is a little mining excitement among a few persons who have caught the fever, resulting from some recent discovery, said to be very rich, the specimens, it is reported, being similar in many respects, to some taken from the Emma. A number of claims had been taken up.

FROM WEDNESDAY'S DAILY.

UTAH COUNTY.—Bishop D. H. Holladay, of Santaquin, called to-day. He tells us that the general crops are all in the ground. The "hoppers had made their appearance and up to the time he left, Saturday morning, they had taken five acres of wheat. The health of the people was good.

MILLARD COUNTY.—J. B. Wasden, writing from Scipio, on the 14th inst., says: Our crops look excellent and promising for a plentiful harvest. The hoppers have put in an appearance, but by a united effort we hope to stem the progress of their ravages. Our Co-operative store is a thriving, paying institution. General good health and peace prevail in our settlement.

INFORMATION WANTED—of the whereabouts of John Bryant, who married a daughter of Richard Hodges. He will hear of something to his advantage by corresponding with James Starley and Alexander Melville, administrators of Richard Hodges, deceased, Fillmore City, Utah. Montana papers please copy.

PLANTING ORCHARDS.—Not long since we stated in the NEWS that in planting out an orchard that it was not necessary to select for the purpose very young trees, and alluding to an instance of a gentleman, at Kaysward, having planted a number of well matured fruit trees, and which continued to bear, apparently without having received any material damage through being transplanted. The same experiment has been tried the present season by a gentleman in the north-eastern portion of the city, even with the apricot, which is considered a delicate tree, with the same result.

It stands to reason that the more mature trees are the more likely they are to receive injury when transplanted; but the question is which loss would be the greater, that of waiting several years for trees to mature and bear, or to plant out large trees and gain in time what is lost by way of injury in transplanting. The latter plan might be beneficial in some instances as it would facilitate the progress of beautifying many portions of the Territory and obtaining bearing orchards quickly.

RETURNED.—We were much gratified this morning at receiving a call from Elders Eli Bell and Caleb World, who, with their families, arrived last evening from their mission to the Sandwich Islands. These Elders were called to go on this mission at the Spring Conference of 1865, and six years ago to-day they started. They have had good health while they have been absent, and have enjoyed their labors. Their home has been on the plantation of Laie, though Elder Bell has occasionally traveled as a missionary on the other islands. They left Honolulu on their return on the 21st of April. Elder Bell is accompanied by his wife and three children, and Elder World by his wife and six children. Though they have been absent for so long a period, they say the time has passed off so quickly and pleasantly that they can scarcely realize that six years have intervened since they left their homes for the Islands. The Elders and their families at Laie were in good health when these Elders left there.

DISTRICT COURT.—The following communication was handed in this afternoon:

SALT LAKE CITY, May 17, 1871.

Editor Deseret News:—His Honor Judge McKean, to-day, admitted several aliens to citizenship and most of them went through the "iron clad" admirably. A German, named Wirtlem, who has resided here seven years, and who had witnesses to testify to his moral character, did not succeed so well owing, to a great extent, to his imperfect knowledge of the English language. The Judge enquired, in a cautious manner, about the well being of Mrs. Wirtlem and how many children she had borne him, and how many of them were living; and also whether Mr. Wirtlem left "Ias Grosse Vaterland" because he preferred the free America on account of its liberal laws, etc., to which questions Mr. Wirtlem gave satisfactory answer. Then came the question about the law of '62; here the language of Mr. Wirtlem became more obscure. He hesitated and the Judge put the question in several ways, and Mr. Wirtlem's language became more idiomatic and his Honor preached him a good sermon, telling him that he himself was an American citizen and was as such bound to obey the laws of the United States, "and here," he said, "is an offense which the law of '62 makes criminal and indictable and if I transgress it I will go to the State prison and will be deprived of my citizenship, and I am not going to admit you to the same privileges which I enjoy unless you will take an oath that you will never transgress it. Mr. Wirtlem take your seat." More anon. Respectfully, CRISP.

FROM THURSDAY'S DAILY.

KANAB.—Bishop Levi Stewart, of Kanab, called this morning and gave us the following items concerning that part of the country: He left there on the 2nd instant; up to which time the grasshoppers, although they had appeared, had not done much damage to the crops, and the Bishop is of the opinion that a fair harvest will be realized. He had noted the place where the eggs of the insects were deposited last year, and put in sixty acres of wheat north of the spot, which was a wise proceeding as they generally travel south.

The work of planting out orchards there is ahead of anything the Bishop has ever seen in any settlement of similar age. The Indians manifest a very friendly spirit towards the settlers. A good grist mill is being built on the co-operative plan. The climate is as lovely and pleasant as could be desired, there being no extremes either of heat or cold. A co-operative stock herd has been organized, in which all the surplus stock has been invested.

DIED.

In this city, May 15th, 1871, of old age, HARRIET ADAMS DEWEY, relict of Ashbel Dewey.

Deceased was born in Suffield, Hartford County, Connecticut, July 4th, 1800; baptized into the Church of Jesus Christ of Latter-day Saints, April 1843, by Edwin D. Woolley, in the town of Westfield, Hamden County, Massachusetts. She moved to Nauvoo, Ill., in 1846, and from thence to Winter Quarters the same year. She came to Salt Lake Valley in 1847, where she resided until her death.

Funeral services to-morrow, at 10 a.m., at the residence of the late Bishop John M. Woolley 9th Ward. Friends are invited to attend.—Com.

At Mantua, Box Elder County, of consumption, on the 7th inst., DORTHEA MAGDALENE, wife of N. Anderson, aged 31 years. Scandinavian Sjerne, please copy.

LOST!

FROM HYRUM, Cache Co., a small dark bay HORSE, six years old, star in forehead and hind feet white; branded U on left thigh. Last seen in Salt Lake Valley, near Three Mile Creek. The finder will confer a favor and be rewarded by addressing

w143 JENS RASMUSSEN, Hyrum, Cache Co.

ESTRAY NOTICE!

I HAVE in my possession one red COW, six years old, branded P on left shoulder and O on left ribs, crop and slit in right ear, under-bit in left ear. She has a young calf.

WM. MARRATT, Poundkeeper. Pleasant Grove, Utah County, May 9, 1871. w153

FINE WATCHES

AND Time-Pieces!

GILES BRO. & CO.,

OFFER THE LARGEST AND MOST CAREFULLY SELECTED ASSORTMENT OF

French Clocks, American and Swiss Watches, Silver-ware and Jewelry,

For Wedding & Holiday Presents!

To be found in the West.

Manufacturing ourselves and through our New York and Geneva houses, we have the advantage of offering the

NEWEST PATTERNS AND AT THE LOWEST PRICES OF ANY HOUSE IN THE TRADE!

It will be for the advantage of those about purchasing, to compare our prices with other manufacturers in Chicago and New York.

GILES, BRO. & CO.,

142 Lake Street, CHICAGO Agents.

NATIONAL WATCH CO., Elgin, Ill. UNITED STATES WATCH CO., Marion, N. J.

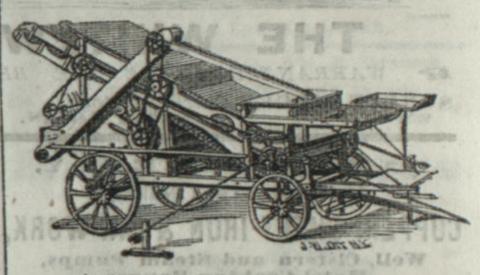

F. S. GILES, Resident Buyer, Paris and Chaux de Fonds, Switzerland.

Orders and inquiries by mail promptly responded to. w16mon

MASSILLON AGRICULTURAL WORKS, OHIO,

ESTABLISHED 1842. For the Manufacture of:

RUSSELL & CO'S IMPROVED

Double-Fan Three-Hitch Gear

Threshing Machines.

THE success achieved by this machine during the past season is without a parallel.

Over Eleven Hundred Sold

During the season just closed, all of which have given entire satisfaction. Men that have made a business of threshing for twenty years say that the IMPROVED RUSSELL will thresh and clean more grain of all kinds and do it better, with less power, than any Machine in the country.

The Three-Hitch Gear and Pivot Cylinder

Has been found not only more convenient and curable than any other arrangement in use, but to run much lighter, and is less liable to get out of order.

The Adjustable Concave

Has greatly increased its capacity for clean and speedy threshing, and the

Separating Capacity

Has been vastly improved by the increased width of the Straw Carrier and the extra Beater in the second carrier.

The Two Fans

Now used in this machine have more than doubled its capacity for cleaning—in fact it is

the only machine that will clean grain fit for market, and do it in such quantities as will justify a man in spending his time in threshing.

DOUBLE-PINION HORSE-POWER,

With Russell's Patent Movable Center.

Russell's Improved Double Pinion Eight and Ten-Horse Power, with movable center, has long been in use, during which time it has withstood the most severe tests; and for light draft, strength and durability, it has no equal. The movable center, as constructed by us, is of great value, for by its use the master wheel is allowed to adjust itself to the master pinions, so as to divide the labor equally, thus overcoming friction and removing, to a great extent, the liability to break by sudden jerks or starts of the horses.

Russell's Patent Safety Coupling.

This inclosed safety tumbling-rod coupling is undoubtedly the best ever offered to the public.

Straw Stacker.

Straw Stackers, single length, sixteen feet, or to fold, twenty feet long, either with or without canvas sides.

Truck Wagons.

The Truck for hauling the Separator is made of thoroughly seasoned timber and ironed with the best of iron, and suitable for farm purposes.

H. B. CLAWSON, Agent, SALT LAKE CITY.
