

"DUTCH" CHARLEY ASKS FOR PARDON

Life Prisoner Again Appeals to Board Through His Attorneys.

WAS SENTENCED TO DEATH.

He Shot and Killed His Young Wife And William Tibbets in San Juan County.

Charles Botha, known as "Dutch Charley," who is now serving a sentence of life imprisonment for the murder of his wife and William Tibbets at his ranch in San Juan county in Feb. 1904, has again applied to the state board of pardons for a pardon and his petition will be heard by the board on Dec. 17. Botha was sentenced to death by Judge Johnson but the board of pardons afterwards commuted his sentence to life imprisonment. Some months ago he applied for a pardon but it was denied him, so his attorneys, Warner and Davis of this city, are going to make another attempt to free their client.

Botha killed Tibbets because the latter had stolen his wife's affections and caused her to leave him. After his wife left home and went to the Tibbets ranch Botha followed them and caught them together. They attempted to get out of the room in which they were to prevent his wife from leaving the room she was accidentally shot. He then demanded that Tibbets come out of the room in which he had taken refuge and upon the latter refusing to do so, Botha shot through the door and killed Tibbets instantly.

Judge Johnson, who sentenced Botha, is now in favor of a pardon for the man and has signed his petition. Some new evidence as to Tibbets' relations with Mrs. Botha and about his boasts of what he had done will be introduced before the board of pardons by the attorneys who will present the affidavits of William Kiefer and a Mr. Cunningham containing matters relating to that subject which have never been presented to the board before.

TO CURE A COLD IN ONE DAY... Take LAXATIVE BROMO Quinine Tablets. Beware of cheap imitations. Get the name E. W. GROVE'S signature is on each box. 25c.

SCHUMANN-HEINK'S WIT. What She Said Regarding Woman Who Wedded for Wealth.

Apocryphal of Schumann-Heink's approaching nuptial in this city, it is not only interesting to know that she is not only one of the greatest contraltos in the world, but that she is above all things the typical German mother. She is devoted to the development of her six well-trained children, who are all being educated in this country. But there is one element in marriage which is "bete noire"—wedding for money, or for a title. A bit of recore which is characteristic of her is echoed through musical circles.

An acquaintance married a member of the nobility for advancement, and when she was discussing the event, she said: "There was a sentiment in it." "No madam, I understand not," observed a mutual friend.

"Well, what did she do such a rash thing for?"

"She got what she's been wishing for all her life. He made her a lady." The friend eyed the singer subtly.

"Ah, I hadn't thought of that. He has truly accomplished much."

C. A. GRIFFITH DEAD. Injuries Received at E. T. Toole County, Proved Fatal.

After lingering close to death since Tuesday afternoon, Charles A. Griffith passed away shortly after 7 o'clock last evening, at St. Mark's hospital. At the time of the accident he was considered for a moment, so severe were the injuries which he received in the fall.

The deceased was born at Lake Point, Dec. 21, 1885, and will be buried there. His father is Joseph Griffith and there are several brothers and sisters living in the Lake and vicinity. Mr. Griffith leaves a wife and six children, the latter ranging in age from two to 12 years.

HEADS OF LEGISLATURE. Love May Be Senate President and Joseph Aspires to Speakership.

While Utah politics have ceased to be a matter of warfare between parties, there is a domestic contest due within the Republican party over the division of party honors.

In the next state legislature, which convenes Jan. 1, there is a president of the senate to be honored, and a speaker of the house. Stephen H. Love, the president of the senate, is the favorite of the legislature, and has left the house of representatives. This leaves a vacancy for the house speakership, and an expired term in the senate.

Senator Love will probably be elected. He received a silver labelled gavel at the end of the last session, from all 18 of the senators, and with the exception of Senator Lewis, all those who served had much congratulation for the president, and the way in which he handled the "square deal" without favorites.

Senator Lawrence, formerly head of the judiciary committee, and a man who gained much of the confidence of his colleagues, is talked of for the place, but says he is not a candidate, unless the place should be decidedly offered to him without pulling strings.

In the house things are different. Harry Joseph admits that the honor belongs to him. He qualifies this declaration by the admission that somebody outside of Salt Lake may have a claim on it, since the last speaker was a Salt Lake.

"You can say for me," he said when interviewed this afternoon, "that I am a candidate for the speakership. If the honor comes to Salt Lake I think it belongs to me. You can say this also."

One thing is certain, Mr. Joseph will not sit in the same place this session that he occupied in the last. The holes in the boards where his feet rested, or rather failed to rest, are already deep, and another session, it is thought, would wear the boards through.

ROYAL Baking Powder Absolutely Pure

A wholesome cream of tartar baking powder. Makes the finest, lightest, best flavored biscuit, hot-breads, cake and pastry.

Alum and alum-phosphate powders are injurious. Do not use them. Examine the label.

ROYAL BAKING POWDER CO., NEW YORK.

decided to vote against it at that session, feeling that the time was not ripe for the solution of the problem. At Gov. Cutler's banquet following the session he threatened to have himself re-elected, and later made his threat good.

SELLS MORE OF CHAMBERLAIN'S COUGH REMEDY THAN ALL OTHERS PUT TOGETHER.

The following letter from a locality where Chamberlain's Cough Remedy is well known shows by the unprecedented demand for it that the medicine sells on its own merit. Mr. Thos. George, a merchant at Mt. Elgin, Ontario, says: "I have had the local agency for Chamberlain's Cough Remedy ever since it was introduced into Canada, and sell as much of it as I do of all other lines I have on my shelves put together. For many years I have sold under guarantee. I have not had one bottle returned. I can personally recommend this medicine as I have used it myself and given it to my children and always with the best results." For sale by all druggists.

FUNERAL THIS AFTERNOON.

Services Held Over Remains of Samuel B. Howell of Fourth Cavalry.

The funeral of Samuel B. Howell of the Fourth Cavalry during the civil war, was held this afternoon from G. A. R. hall in this city, with interment in the city cemetery. Howell left this city last June for Goldfield, where he located a number of promising claims but caught a cold which developed into pneumonia and he died last Sunday. The deceased was 60 years old and leaves a wife and nine children, the oldest being Ephraim Howell of the Utah batteries. He came west after the war and has been in mining ever since. The Herald says the deceased "joined the fortune seekers who rushed to California in 1849." As he was then just 3 years old, this statement is susceptible of modification before acceptance.

The average young woman of today is busy and has no time to devote to anything but health and beauty. It comes to ninety-nine out of every hundred who take Hollister's Rocky Mountain Tea. Tea or Tablets, 35 cents. Z. C. M. I. Drug Dept., 112-114 Main St.

FAREWELL RECEPTION.

Given Last Evening in Honor of Horace H. Smith.

A reception was given last evening in the First Congregational church by the Christian Endeavor society, to Horace H. Smith, who is to leave shortly for Washington, D. C., to occupy a government position there. The church parlors were prettily decorated and a musical program was given, including selections by the Y. M. C. A. quartet, Miss Linnie P. Rutt and Earl Moore, and a reading by Mrs. Norman Chatfield. J. S. Strane gave a character sketch of Mr. Smith, and at the close of the evening Miss Ruby Scrantom, president of the society, and in his behalf presented Mr. Smith with a copy of Shakespeare in 10 volumes, bound in morocco, and with a large bouquet of carnations. The society, and in his behalf presented Mr. Smith with a copy of Shakespeare in 10 volumes, bound in morocco, and with a large bouquet of carnations.

FARMERS' "SMOKE" MEETING.

One Called as a Result of Recent Decision of Court.

As a result of the recent decision of Judge Marshall in the smelter smoke cases filed by the Salt Lake Valley Farmers' association, the farmers will meet Wednesday afternoon at 2:30 o'clock to talk over the decision.

The meeting has been called by John C. Mackey and O. P. Miller of the central committee, which conducted the suit, and it is expected that plans will be drawn up at the meeting for the future policy of the association. The call follows:

To the Citizens of Salt Lake County—

There will be a mass meeting of the citizens interested in the abatement of

"GOOD STUFF"

A Confirmed Coffee Drinker Takes to Postum.

A housewife was recently surprised when she served Postum instead of coffee. She says:

"For the last five or six years I have been troubled with nervousness, indigestion and heart trouble. I couldn't get any benefit from the doctor's medicine, so finally he ordered me to stop drinking coffee, which I did."

"I drank hot water while taking the doctor's medicine, with some improvement, then went back to coffee with the same old trouble as before."

"A new servant girl told me about Postum—said her folks used it and liked it in place of coffee. We got a package but I told her I did not believe my husband would like it, as he was a great coffee drinker."

"To my surprise he called for a third cup, said it was 'good stuff' and wanted to know what it was. We have used Postum ever since and both feel better than we have in years."

"My husband used to have bad spells with his stomach and would be sick three or four days, during which time he could not eat or drink anything. But since he gave up coffee and took to Postum, he has had no more trouble, and we now fully believe it was all caused by coffee."

"I have not had any return of my former troubles since drinking Postum, and feel better and can do more work than in the last ten years. We tell everyone about it—some say they tried it and did not like it. I tell them it makes all the difference as to how it's made. It should be made according to directions—then it is delicious."

Name given by Postum Co., Battle Creek, Mich. Read the book, "The Road to Wellville," in pkgs. "There's a reason."

the battle with black eyes and kicked shins. After the boys had fought some time, Dr. Ebaugh appeared and took the flag which will be hung up in the discipline committee's room to avoid any further trouble.

PUBLICITY CONVENTION.

Experts From Various Cities Will Be Here in June.

Fisher Harris, manager of the Commercial club of this city, announced yesterday that a convention of Publicity experts from all the principal cities of the United States and Canada, would be held in Salt Lake City next June. Mr. Harris stated yesterday that he had started correspondence with the secretaries of commercial clubs, chambers of commerce, boards of trade and other organizations throughout the United States and Canada.

Mr. Harris says he expects that over one hundred publicity experts can be induced to come to Salt Lake to attend the convention. The exchange of ideas and suggestions would be very beneficial to Salt Lake. He thinks the convention would attract a large number of newspaper men to this city, which would help in advertising it.

INSPECTION OF BATTERY.

Made Last Evening by Officers of National Guard.

The local light battery was inspected last evening, by Col. H. M. H. Lund, Adj. Gen. R. C. Naylor, and Col. Kessler, Bower, Irvine, Daynes and Dean of the governor's staff. Governor Cutler was present during the inspection. The government has property entrusted to the state and in immediate care of the battery, valued at \$35,000, including four breech-loading field rifles, caissons, battery wagon, field forge, harnesses, sabers, revolvers, etc., which were not found in the condition that should have been expected. A lead was found on the wheels of the caissons and caissons, the cannon were covered with rust, grease and residue from discharges, and breech mechanism were clogged with grease and dirt. The harnesses were so stiff from lack of proper care that the leather easily cracked. The floors were littered up and untidy. While the strength of the company is put at 50 men, only 22 appeared for inspection, and the visiting officials did not think they presented a very solidly appearing unit. All this in face of the fact that the battery had a two weeks' notice that the inspection was to take place.

In behalf of the general committee, JOHN C. MACKAY, O. P. MILLER.

THE RUSSIAN THISTLE.

Will the Officials Permit the Weed to Fill the State?

A correspondent informs the "News" that the Russian thistle is found along the railroad tracks through half the state; but nobody seems to know the weed. Five years hence unless the state or county officials shall take the matter up and destroy the present crop before the plants roll all over the state, everybody will know the weed and will suffer from it. Our miserable experience with June grass ought to be a sufficient warning. The "News" herewith reproduces a drawing of the plant, which was originally published several weeks ago. The plants are numerous in the vicinity of Sandy and Draper, extending into Utah county and are reported to be abundant on the sandy ridge in Weber county. This weed is an annual plant, coming up each year from seeds sown in the previous fall. Now is the time to burn the dry weeds. When young, it is a tender innocent-looking plant, with small, downy, green leaves. At first it is said to resemble a young pine in color and appearance. Later, in August, the tender leaves drop off and the plant rapidly increases in size, sending out hard, stiff branches, which bear at intervals of half an inch, three sharp branches instead of spines. The spikes are about half an inch long and at their base is a small papery flower. The stem comes from a small root and is much branched, and if full grown may form a bush from two to six feet in diameter, and half as high. The specimens observed along the railroad tracks are mostly undamaged; but on the reservation near Fort Douglas, full sized plants are found. The mature plants are slightly purplish in color, and looked at from above are blackish. They are of denser growth than other tumble weeds.

Any thin or undeveloped girl or woman will be benefited by taking Hollister's Rocky Mountain Tea. It is one of the greatest known remedies for making people strong, healthy and well. Tea or Tablets, 35 cents. Z. C. M. I. Drug Dept., 112-114 Main St.

JOHN IVERSON DEAD.

Local Character Known as the "Norwegian King" is No More.

John Iverson, aged 55, familiarly known in this city as the "Norwegian King," succumbed to asthma about 9:30 o'clock last night, at the city jail. Iverson was picked up early in the evening by Patrolman Harris and taken to the hospital ward of the city jail, where he died a few hours later. Iverson was quite well known in the city and was respected by the local Norwegians. He was called the "Norwegian King" by his fellow countrymen on account of his ability to sing and relate old Viking tales. He was a bachelor and had lived in Salt Lake City for 25 years. The illness which caused his death was contracted a short time ago while he was out prospecting. Until a few days ago he was employed as porter at the New State saloon on Second South street.

FIRST MEETING HELD.

Canadian Association Members Gathered at Literary Club.

The Canadian association of Utah held its first meeting of the season in the rooms of the Ladies' Literary club. The association discussed the idea of a clubhouse for the association and soliciting subscriptions with a view to erecting the same. Another plan was that a public building company be incorporated and a sufficient number of the shares authorized be sold, and with the proceeds erect a suitable building in the most convenient part of the city accessible. Part of the building to be rented and the association to pay an annual rental for the use of the club, with room for a library, dancing hall, swimming pool, etc. The association comes on the 27th inst., when some definite action is likely to be taken.

STRUGGLE FOR FLAG.

Sophomores and Freshmen Engaged in Fierce Conflict.

A third attempt was made yesterday by the sophomores at University of Utah to tear down the flag of the freshmen. The freshmen had strung a 1910 flag on wires near the campus. The sophomores attempted to tear it down, which caused a struggle between the two classes. Dr. W. C. Ebaugh, head of the discipline committee, arrived and took charge of the flag.

The freshmen had put the flag up sometime Thursday night, but early Friday morning it was discovered by the sophomores who immediately tore the emblem down. They concealed it in one of the lockers in the physical building. Later it was taken out by the sophomores and a free-for-all fight was started in the lower hall to get possession of the pennant.

Students came from all directions, leaving their classes that day in session, to take part in the struggle. The hall room became too small to hold the struggling mass. The pennant was again taken outside by one of the sophomores, and here the battle waged more fiercely than before. Men had their hats mashed, collars and neckties pulled apart, and several came out of

FARM SCIENCE.

The above is the title of an admirable book of 128 pages which has been prepared for distribution among the farmers of the country by The International Harvester Company of America, Chicago.

It is from first to last a farmer's book, most practical, and is unquestionably of the highest authority on the eight subjects treated. These are the headings of the different chapters and every one was prepared by a well known specialist in his line: "Alfalfa Culture in America," "Modern Corn Culture," "Best Methods in Seedling," "Small Grain Growing," "Profitable Hay Making," "Up-to-Date Dairying," "Increasing Fertility" and "Power on the Farm."

The preparation of this book meant an outlay on the part of the Harvester Company of several thousand dollars, but it is sent without cost other than the postage for its mailing, to any farmer or land owner who is interested enough to write for it. We understand the edition is limited and is being rapidly exhausted. It would be well to write for it at once. Give your name and address plainly, enclose three 2-cent stamps for the postage and send to the address given above.

The People Believe In Pe-ru-na

The People Rise to the Defense of Pe-ru-na in the Home

Pe-ru-na Is Used In Millions of Homes As the Most Reliable Medicine

East and West, North and South, Join in Defending Pe-ru-na.

A Home in Illinois. Mrs. Lida Rowland, 2100 Grenshaw St., Chicago, Ill., writes: "We think Peruna the greatest medicine on earth. One year ago last winter my little boy had a very severe cough. We had consulted the finest physicians of Chicago, and he got no better. "One night he had a very severe spell of coughing. It seemed as if he would never stop. My husband bought a bottle of Peruna and the first dose stopped the coughing. We continued giving it to him until he was entirely cured. He is a strong, healthy boy now. "Peruna saves me many doctor bills."

A Home in Texas. Miss M. M. Johnson, Hitchcock, Tex., writes: "Your great medicine, Peruna, has restored me to health once more. I am truly thankful to you, for your medicine is certainly a catarrh cure. My sisters are surprised at my improvement. My appetite is good now. I sleep well at night. I have no more pains, and no backache or headache. "I will recommend Peruna to all suffering women. It is just what you claim it to be. When I began taking your treatment I was wretched. Peruna has cured me of all catarrhal trouble."

A Home in Washington. Mrs. Minnie Lappenbusch, E. F. D. 1, Buckley, Wash., writes: "I was sick and I thought perhaps Peruna would help me, and after using Peruna and Manalin, I am healthy. I have had two children since I was sick, and work in the house and outside also. "I use Peruna for all kinds of ills and consider it an excellent medicine. "I have seven children. I keep your medicine in the house almost all the time. I can do all my housework alone, which I was incapable of doing before. "I wish every suffering woman could know how Peruna helped me."
