## SCHOOL FOR DEAF AND BLIND

Opens Wednesday—Convention of  
Blind Instructors Meets in Ogden.

Ogden, Sept. 3.—Superintendent F. M. Briggs of the state school for the deaf and blind, returned home yesterday afternoon from a three week's eastern tour, in which he was accompanied by Mr. Briggs and Miss Bowles, one of the instructors at the school. They visited many of the large cities of the east, enjoying every minute of the time. They also attended the convention of the American association to promote the teaching of speech to the deaf, which was held at Pittsburgh. Prof. Briggs says the meetings were very interesting and valuable, it being one of the best conventions ever held. There were over 200 instructors of the deaf from most parts of the United States in attendance. Prof. Briggs delivered an excellent paper before the convention, and read a paper prepared by Mr. Weaver, one of the Utah instructors, who was unable to attend. Among the most interesting and instructive parts of the meetings were the "oral" lectures given by Miss Yale, principal of the Clark School for the Deaf, at Northampton, Massachusetts, which is recognized as the leading institution of its kind in America.

Mr. Briggs says that the manner in which the Utah representatives were received and the kind words spoken of the school showed that our institution ranks among the best in the country. Many new ideas about "oral" work were gleaned from the papers read and discussed, which will help the Utah school.

The "National Convention of Instructors for the Deaf" will be held in Ogden next year, either during the last week in June or the first week in July. This will bring to our state several hundred instructors of the deaf, from all parts of the United States.

Statement of Walter Scott, Witness in  
Thaw-White Murder Case.

Ogden, Sept. 3.—If Walter Scott, the wealthy miner, better known as "Scotty," the Death Valley miner, can prove what he says he can in the Thaw-White murder case of New York, which has caused such a sensation throughout the entire country because of the prominence of the two men, his testimony will go a long way towards freeing Harry Thaw from the Tombs, where he is now confined. Mr. Scott was in Ogden Saturday evening, and yesterday, stopping at the Reed hotel. He is en route from New York to California on business, but will return to New York just as soon as he is needed to testify for the defense in the murder case. ## APPOLOGY TO INDIAN FIGHTERS.

In reporting the late campaign of the Utah Indian War Veterans, at the Provo lake resort, the name "Black Hawk War Veterans" was used, which has met with objections from some of the members of the association. It was a mistake caused by carelessness in the use of terms, probably for the reason that the first organization or at least one of the early organizations of Indian fighters, in this section, was under that name, and also, it may be, because the corresponding fell into the habit of using the term "Black Hawk," which was locally common in speaking of the encampment. There was no intention to ignore members of other Indian wars, who are also members of the association, and ignorance cannot even be pleaded, for the invitations to the campfire were under the name of "Utah Indian War Veterans association." And when the announcement of the campfire was made in the "News" some time ago, the correspondent had the invitation before him.

he knows many of the details leading up to the tragedy. The most important part of his evidence will be that two days previous to the time that Thaw shot and killed White, Scott was in the company of the two men, and that White attempted to murder Thaw, drawing a gun on him and would have succeeded, had Mr. Scott not grabbed the pistol and wrenched it from his hand; that he then took the pistol and handed it to a policeman, whose name and address he has, and who will corroborate him in this evidence, which, if true, will play an important part in the trial.

## SUGAR FACTORY FOR TRENTON

Will be Built if Farmers Will Grow  
Sufficient Beets.

Special Correspondence.  
Logan, Cache Co., Sept. 2.—A movement is on foot to build a sugar factory at Trenton in this county. The farmers on the west side have been assured that the factory will be built at once provided contracts can be secured for the necessary beet acreage. Contracts are now being taken and there is no doubt but that the desired acreage will be secured. The contracts provide that should the company be unable to construct for the building of the factory for the season of 1907 all beet growers are to be notified by January 1, 1907, not to plant beets for that season.  
The building of the West Cache canal has opened up 27,000 acres of land on that side of the valley for agricultural purposes so that it seems there is ample room there for a sugar factory.  
The Cache Valley Mercantile company will shortly move into the new Cardon & Ballard building on Main street, and the Campbell Commercial company will occupy the building now occupied by the Mercantile company.  
Myers & Bergner's undertaking store will occupy the new Wilkinson building on North Main street, about Sept. 25.
