

MINING, BUSINESS AND STOCKS.

TRADING WAS DULL TODAY.

Tetro Sold Over Eighteen Thousand Shares This Morning.

FIGURES WERE ADVANCED.

Tetoro, Uncle Sam, Ben Butler and Ajax Were Also Favorites on the Market.

Transactions on the stock exchange this morning were almost featureless with the exception of Tetoro, which advanced a little and again sold the largest number of shares. Trading lacked vigor and the sales were made in a listless sort of way, although the total amount of business done reached about an average. Ben Butler was in the sales to the extent of 3,500 shares and Ajax sold 3,000, while Uncle Sam came in with 3,400 shares. The total number of shares sold was 37,500 and the amount in value was \$22,994.87.

ASSESSMENTS THAT ARE DUE.

But Few of Them on the Listed Stocks of the Exchange.

SPEAKS WELL FOR MINES

Shows the Productive Qualities of the Mining Properties of Utah.

There are two local mining companies only in which levied assessments fall due in this month. They are the Martha Washington, delinquent on August 31, and with 1 1/2 cent assessment, and the Showers Consolidated, delinquent August 31, with 2 cents charged up against each share of stock. There being 300,000 shares in Martha Washington the realization to the company will be \$4,500, and the Showers Co., with 400,000, and 2 cents charged against each one of them, bringing in the sum of \$8,000.

Those companies whose assessments have fallen due in July and to date in August are the Boss Tweed, 2 cents; July 12; Sunbeam, 10 cents; July 13; West Morning Glory, 1 cent; July 15; Joe Bowers, 1 cent; July 29; Little Chief, 1 cent; July 27; Tetoro, 1 cent; August 7; R. G. W. 1/2 cent; August 9; Rabbit's Foot, 1 1/2 cents; August 9. That there are so few is a cause of gratification and speaks well for the productive powers of Utah mines.

Gilpin County Rich Strikes.

Central City, Colorado, Aug. 12.—In the matter of strikes Gilpin county seems to be spirally in of late with, for example, the Klondike find of silver ore worth \$15,000, the Bonoli tunnel ore running 2,864 ounces gold and 616 ounces silver, representing a commercial value of \$57,690 per ton, and high as \$100 the next President going as high as \$25,000 per ton. These strikes are in properties bordering on the city limits of Black Hawk, which justify the assertion that there never was a similar area as rich as that of the Gregory-Bonoli section, which has a record of having produced over \$30,000,000 in gold. McLeod & Co. have shipped their smeltering ores to Black Hawk preparatory to cleaning up their lease on the Kemp-Calhoun mine at the head of Leavenworth gulch. They have been taking a splendid grade of mineral from this property for about two years, the smeltering ore running as high as \$100 per ton and some even higher, while the concentrating ore treated on South Clear Creek have given very fair returns. It is reported that the eastern owners of the West Calhoun mine are trying to secure this property, probably with a view to consolidation. Both mines are credited with good records as producers and their shafts are not over 300 feet deep as yet.—Denver Post.

Leadville's Output.

Leadville, Aug. 12.—The output of the camp at the present time is averaging about 2,250 tons a day of all classes of ore and will be increased before the close of the month. It might be largely augmented at once by the smeltering in a position to handle the sulphide production which is being made. The A. M. W. combination is shipping only about 250 tons a day. They are piling up a dump of sulphides awaiting a market and some even higher, while the concentrating ore treated on South Clear Creek have given very fair returns. It is reported that the eastern owners of the West Calhoun mine are trying to secure this property, probably with a view to consolidation. Both mines are credited with good records as producers and their shafts are not over 300 feet deep as yet.—Denver Post.

Big Mining Deal.

Perhaps the biggest mining deal of the season was consummated last week, wherein Fetter Bros., Capt. Little and others of Kansas City and Ernest E. Stephens, of Ogden, became owners of the Black Pine group of claims on copper creek. These valuable claims have been for two years under bond to the above syndicate for \$15,000, and the time for raising the bond had arrived. F. J. Fetter and Ernest E. Stephens came in last week and closed the bargain at the rate of \$15,000, and the arrangements to work the property upon a more extensive scale. A shaft will be sunk 200 feet, crosscuts and levels will be run, and an application for patent will be made.

Word from Ontario, Or., says work on the Big Bend district has started, but instead of the drill there are a number of shafts being started. William Hanover, of Salt Lake, advised that he will start a shaft on the 25th of August. His shaft will go down at once 250 feet, regardless of what is struck. G. L. Lacey, of Salt Lake, advised that this week with material for the Standard mine, and will at once open the ground.—Lenhi (Idaho) Herald.

Spent \$80,000.

"H. L. Frank and I own the Gem mine," said James A. May to the Butte Inquirer, "and we are developing it. So far we have spent about \$80,000 in the work and have not taken out five cents. The property is located about 400 yards northeast of the Speculator and ought to be good. When we began work on it the shaft was 200 feet deep, but it is now 700. We have driven cross-cuts from each of the stations below the 300 and drilled on the vein, which is two feet from ten feet wide, but have struck nothing worth mentioning. A few days ago we ran into a body of ore three or four feet wide and thought it looked fairly good, but a test showed that it was hardly worth concentrating. We expect to keep right on working, for a while at least, and it may be that our efforts to open up a body of pay ore will be rewarded. On the 2nd and 3rd we have drifted clear up to the west line. As to whether we will sink deeper I do not know just now; it is just possible, however, that we will in case we do not strike a pay shoot above, and we may do so anyway."

MINING NOTES.

Willard F. Snyder has returned from the east.

Lorin Morrison has gone down to Milford and Frisco.

George F. Hicks is here from Park valley.

James Duffy and James Mara, of Park City, are here on business.

At Lander, Wyo., there is a perfect

crack over the discovery of oil in that vicinity.

Ten cars of ore from the O. K. mine are at the smelter today.

P. L. Kiberly, of Sharon, Pa., is here upon business connected with the Annie Laurie at Gold Mountain.

Col. J. H. Woodman, once president of the Centennial-Eureka, is here from Chicago to remain a few days.

Manager Lewis, of the Majestic mine, reports the discovery of vanadium on the 300 level of the Adella.

Work of sinking a shaft on the new find in the 200 level is being prosecuted for the purpose of demonstrating the extent of the ore body.

The old Alice mill at Walkerville, Montana, is to be started up again and the leaching process is to be employed in the treatment of ores.

The Martin Gold and Silver Mining company has filed articles of incorporation. The capital stock is \$20,000, divided into 300,000 ten cent shares.

R. W. Goodsell, of Chicago, who is a mining operator of that city, left last night for his home after having examined the Majestic property, in which he is interested.

The Gracely Mining company is a new concern which is capitalized at \$50,000 and which will operate in Deep Creek, Waxahatchie, Texas, is the home of the company.

Judge J. W. Burton, Sam A. King, Thomas Roscamp and Expert Mesner leave for tonight for La Sal county, where they will examine the International Copper company property. They expect to be gone ten days.

The note which appeared in a previous issue of this paper, saying that McCormick & Co. had bought certain mining stock, was misleading in that Clarence K. McCormick and his associates were meant, not the banking house.

Butte, Aug. 14.—The suit of John Maginnis, vice-president and general manager of the Montana Ore Purchasing company and a minority stockholder in the Boston and Montana to prevent the Amalgamated company continuing in control of the Boston and Montana, was today transferred by Judge Clancy of the district court from the district to the United States court.

FEW IMPORTANT CHANCES

Prices in Opening Hour Showed Little Variation but Tone Was Firm.

They Turned Downwards on Realizing—Reaction Wiped Out Rise in Some Stocks.

New York, Aug. 15.—But few changes of importance were made in prices during the opening dealings but trading was quite active and the tone firm. The U. S. Steel stocks opened at advances over yesterday of 1/4 to 1/2 point. Moderate buying of St. Paul advanced it a point and the preferred rose 1/4. Prices turned downwards on realizing and short selling. The reaction wiped out the rise in St. Paul and Atchafalaya. Union Pacific and Southern Pacific became heavy. U. S. Steel stocks about lost their advance. Near 11 o'clock St. Paul bounded up to 16 1/2 to the highest and other stocks recovered to the opening figures. Rock Island made an exceptional rise of 4 points. The steel stocks held steady at yesterday's close, but Smelting and Colorado Fuel were 1/4 to 1/2 points higher. At noon the market was more active and rising under the lead of St. Paul and Union Pacific. Bonds were dull and firmer. Low priced railroad stocks were bid up strongly, especially Erie, Ontario & Western and Southern Railway.

The market livened up in the closing hour on a demand from both accounts and the best prices of the day were scored by Atchafalaya, Union Pacific, Southern Pacific and St. Paul. Sugar spurred up two points. The steel issues rallied up to the top prices and the market generally was stronger than at any time during the day. The closing was active, with prices tending upward.

The market's dullness encouraged some pressure by the bears but declines were small aside from St. Paul, which lost a point. Transactions in United States Steel stocks were few and for Little and Union Pacific.

LIVESTOCK.

Chicago, Aug. 15.—Cattle—Receipts, 10,500. Steers about steady, 4.75 to 5.00; cows, 4.00 to 4.50; stockers and feeders, 2.50 to 3.00; calves, 2.00 to 2.50; hogs, 2.00 to 2.50; sheep, 1.50 to 2.00; lambs, 1.00 to 1.50.

WOOL MARKETS.

Boston, Aug. 14.—The American Wool and Cotton Reporter will say tomorrow of the wool trade: "The market is excessive and strong. An enormous business has been transacted, which has been more broadly distributed than at any time this year. The demand has been from all classes of mills, large and small, the former taking on some good-sized blocks of wool, notably of Oregon wools, the agricultural transactions in which are claimed to amount to about 7,000,000 pounds. It is known that some large deals are now pending on spot wools and wools to arrive which will very likely result in continued large sales for a few weeks to come. On foreign wools some large transactions are likely to materialize at any time."

"The season in Montana is rapidly drawing to a close by next week most of the Montana buyers will have reached home. It is estimated that hardly more than 5 per cent of the clip of that state has been consigned, the greater bulk of it having been consigned outright. All the other states and territories have likewise been pretty well cleaned up."

"The sales for the week in Boston amounted to 1,150,000 pounds of domestic and 1,300,000 pounds of foreign, making a total of 2,450,000 pounds against a total of 2,250,000 for the previous week, and a total of 2,250,000 for the corresponding week last year."

SAN FRANCISCO.

San Francisco, Aug. 14.—Quotations on wool here today were: Spring-Nevada, 10 1/2 to 11; eastern Oregon, 10 1/2 to 11; valley Oregon, 10 1/2 to 11; Fall-Mountain, 10 1/2 to 11; San Joaquin plains, 10 1/2 to 11; Humboldt and Mendocino, 10 1/2 to 11.

ST. LOUIS.

St. Louis, Mo., Aug. 15.—Wool—Firm, unchanged.

BUTTER AND EGGS.

New York, Aug. 14.—Butter—Receipts, 7,000 packages. Firm. State dairy, 14 1/2 to 15; creamery, 16 1/2 to 17; June packed, 15 1/2 to 16; imitation creamery, 14 1/2 to 15.
Eggs—Receipts, 5,500 packages. Firm. Western candied, 13 1/2 to 14; Western uncandied, 10 1/2 to 11.

Chicago, Aug. 14.—On the produce exchange today the butter market was firm, creameries, 14 1/2 to 15; dairies, 13 1/2 to 14.
Cheese—Steady, 5 1/2 to 6.
Eggs—Firm, fresh, 14 1/2 to 15.

OKALEY, IDAHO.

ADVICE TO HOMESSEKERS.

Old Folks Honored—Missionary Societies—Crops Better than Expected. Special Correspondence.

Okaley, Cassia Co., Idaho, Aug. 13.—We have been having some very hot and dry weather here the past summer hence the crops will be light but not so light as was expected at one time. The light showers we have had have cooled the weather, some, raised the streams and benefited the ranges. Harvest is pretty well over as is also the second cutting of hay; there will be no third cutting unless we have considerable rain soon.

OLD FOLKS HONORED.

Last Friday, August 9, the old folks of Cassia county were tendered a grand reception at Okaley by the Saints of Marion, Basin and the three wards of Okaley.

MISSIONARY SOCIALS.

The Saints of the Second ward are preparing a sociable and lawn party at the residence of Bishop Hunter in honor of Elder John Nelson, lately returned from Florida, and William Moultrie Worthington from Scotland. It is also expected that the Saints of the Third ward will give a reception in honor of Elders Edward Samuelson

and Daniel Wilson also lately returned from the Southern States mission. **SUGGESTION TO HOMESSEKERS.**
Realizing that many of our Utah people contemplate making new homes we would respectfully urge them to keep an eye on the building of the Twin Falls canal. It is proposed to take this canal out of the Snake river at the great Shoshone falls on the south side of the river, and it will cover some of the richest lands in the state and is just across the river from the famous Blue Lake fruit farms and not far from some of the richest deposits of aluminum in the United States. It is supposed that the soil is well adapted to the raising of sugar beets and the fact that it is possible to generate enough power at the falls to run all the machinery in the state ought to make it the best growers' paradise.
