# GREAT FOOTBALL TEAMS OF PAST

## Interesting Facts About Yale, Harvard, Princeton and Dartmouth.

### FORBES COACHED A WONDER.

**What Vice Governor of Philippines Did for Harvard in 1898—Campbell's Great Eleven.**

Football machines—ever stop to think of them?

Let allow your memory to hark back to that wonderful aggregation led by Ben Dibble, or to Gordon Brown's football machine, which wore the blue of old Yale, or Campbell's winning eleven, or Chadwick's ripping, tearing team, or Myron Witham's marvelous offensive phalanx in the green jerseys? Those were the ideal football machines.

Cameron Forbes, now vice governor of the Philippines, was responsible for the eleven which crushed Yale into the wet sod down in New Haven. Forbes laid his foundations in '97 and then the next year came the winner for the Crimson. Lewis, Wrenn, Bert Waters and "Dud" Dean were the assistants and their production was a work of gridiron art.

Ben Dibble, himself one of the best running halves ever seen in a jersey, had Charlie Daly in at quarter, taking the ball from big Jaffray. Boal and Bill Burden, afterward captain of the Harvard team, were the guards, and Percy Haughton, now head coach at Harvard, and Donald were tackles, with Hallowell and Cochrane on the wings. Warren and Bill Reid made up the backfield with Dibble. That team was a winner.

Amherst fell before the Crimson to the tune of 53 to 0, the strong Chicago A. A. were beaten 39 to 0, the Indians tumbled 11 to 5, and Pennsylvania 10 to 0. Brown's speedy eleven was trimmed 17 to 6, and then came that victory in the rain down at New Haven.

CHAMBERLAIN WEPT.

Strive as the Elis might they could not stop that speedy Harvard backfield, and Burr Chamberlain actually wept when the whistle ended the struggle. The Eli leader made a desperate attempt at a field goal just before the game ended, but his kick was pitiful. The Harvard goal was never really in any danger.

Gordon Brown's eleven in 1900 will live long in the memory of football enthusiasts. It had Sheldon, Yale's strong man, and Brown and Olcott as a center trio. Bloomer and Stillman were the tackles, and none were ever better. Charley Gould and Sherman Coy were at end. W. M. Fincke handled the ball from Olcott. Perry Hale was the plunging line-breaker, with Al Sharpe and Chadwick at halfback.

The hard fighting Columbia eleven lost to Yale 12 to 5, and the Indians were snowed under 35 to 0. West Point lost 18 to 0. The Tigers made but 5 points to Yale's 29 total, and then the Crimson was smothered 28 to 0. That was, perhaps, the greatest eleven Yale ever had.

CAMPBELL'S STARS.

Campbell's team at Harvard in 1901 is pointed at with pride by the Crimson supporters. Its famous tackle back plays won many a hard fight on the gridiron. Cuts and Blagdon were the chief offensive force, with Tommy Graydon doing his share all the time.

Bob Kernan and Ristine were hard-running backs and Kernan was a fine punter. Peter Bowditch and Campbell made a pair of unexcelled ends. Carl Marshall was a quater, Lee and Bernard at guard and Sargent in the middle of the line.

This famous team defeated the Indians 29 to 0, Brown 48 to 0, Pennsylvania 33 to 6, Dartmouth 27 to 12, and Yale 22 to 0.

Yale's eleven the following year was a great football machine, its attack never once being stopped. Morgan Bowman at full, Chadwick and Metcalf at half and Foster Rockwell at quarter made up a wonderful backfield. They were behind a marvelous line in Holt, center; Glass and Goss, guards; Hogan and Kinney, tackles, and Shevlin and Rafferty on the ends.

Syracuse lost 24 to 0, West Point tied at 6 to 6, the powerful Bucknell team was defeated 36 to 5. Then Princeton's great team lost 12 to 5. In a bitter struggle. Harvard never had a chance, losing 23 to 0.

Dartmouth's 1903 eleven was the greatest in its history. In its two big games it was victorious and had Yale been met, no Green supporter believes his team would have been beaten. Witham's eleven was a tror.

The Dartmouth line was the heaviest as well as the speediest in its history. Princeton caught the team in the middle of the season and managed to win 17 to 0. And yet, that undeveloped Dartmouth eleven made more yards in rushing than did the Tigers.

Union college was defeated 34 to 0, Wesleyan 34 to 6, Amherst 18 to 0, Harvard 11 to 0, and Brown, the Green's greatest hereditary foe, simply crushed into smithereens to the tune of 62 to 0. The Green scored 243 points to 23 for their opponents. No big college eleven could have won from Dartmouth on Varick park in Manchester, N. H., Thanksgiving day. It was a slaughter for Brown.

Hooper was the center, Clough and Gilman on either side of him, Lindsay and Turner tackles, Bullock and Ralph Glaze ends, Witham quarter, Maio and Vaughn halves and Dillon fullback. This eleven had speed, weight, a powerful attack and an impregnable defense. It was Dartmouth's greatest eleven.

# Sleep

Sleep is nature's rebuilding period, when the energy used by the brain, muscles and organs is renewed. If you lose sleep, your system is robbed of the strength sleep should give. Continued loss of sleep multiplies this loss until you become a physical wreck. Dr. Miles' Nervine quiets the irritated nerves and brings refreshing, invigorating sleep. Nervine contains no opiates, and therefor leaves no bad after-effects.

"For over two years I suffered untold agonies; my friends thought I was going crazy. I could not sleep nor rest at all. I tried different doctors, but failed to find relief. My head would ache all the time; I was like one drunk; could not concentrate my mind, and was so restless and worried that sleep was out of the question. After taking one bottle of Dr. Miles' Nervine I felt wonderfully changed. I am now on my third bottle and am gaining all the time. I can lie down and sleep like a child, and am able to do my work."
MRS. MAY SCOTT, English, Ind.

Your druggist sells Dr. Miles' Nervine, and we authorize him to return price of first bottle (only) if it fails to benefit you.

Miles Medical Co., Elkhart, Ind

# RHEUMATISM IS EASILY CURED

## A Simple Mixture and Directions For Taking it to Get Results.

### SAID TO RELIEVE QUICKLY.

**Get the Ingredients from the Drug Store and Mix Them Yourself—Too Much Kidney Trouble Here.**

Recent hospital reports show that the dread disease, rheumatism, is steadily increasing throughout the country. All known means of relief are being suggested to save the great amount of suffering this winter, especially among those who are not in a position to pack up and visit the noted health resorts to be treated. Recent tests prove rheumatism not exactly a disease in itself, but a severe symptom of kidney trouble, a condition caused by clogged up pores of the eliminative tissues in the kidneys which fail to filter the poisonous waste matter and uric acid from the blood, permitting these substances to remain in the veins and decompose, usually settling about the joints and muscles, causing the intense pain, swelling and stiffness of rheumatism.

The following simple home treatment will cure Rheumatism and is harmless and inexpensive, and so simple that anybody can mix it at home.

The ingredients are: Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Go to any good prescription pharmacy and get these three harmless ingredients and mix them by shaking in a bottle, taking as a dose a teaspoonful after each meal and again at bedtime.

There is nothing better in the world for backache, kidney and bladder trouble, too. Such symptoms as frequent and painful urination, soreness, weakness, general and nervous debility are caused by certain acids and poisonous waste matter, decayed tissue, etc., in the blood, which the kidneys will clear and purify after a few doses of this prescription.

# "BABY MINE"

Becoming a mother should be a source of joy, but the suffering incident to the ordeal makes its anticipation one of dread. **Mother's Friend** is the only remedy which relieves women of much of the pain of maternity; this hour, dreaded as woman's severest trial, is not only made less painful, but danger is avoided by its use. Those who use this remedy are no longer despondent or gloomy; nervousness, nausea and other distressing conditions are overcome, and the system is prepared for the coming event. "It is worth its weight in gold," says many who have used it. $1.00 per bottle at drug stores. Book of value to all expectant mothers mailed free.

# 439 FIRES IN ONE YEAR

Out of a total of 1,396 in New York City were attributed to carelessness with matches. Only 42 of these were caused by children.

It is estimated defective flues cause about 20 per cent of all fire losses.

### WRESTLING IN LONDON.

London, Nov. 19.—Thespecial committee of the representatives of the sporting press met today and decided that George Hackenschmidt, the Russian wrestler, and Sebisco, the Galician wrestler, should meet in March, and that Frank Gotch, the American wrestler, and Lemm should meet early in April.

The presumption is that the committee intends that the winners of these two contests shall meet at a later date to decide the championship, but the men themselves do not favor this plan. Gotch said today that he could not see why he should be forced into a match with Lemm, while Hackenschmidt said that he would be pleased to wrestle Sebisco after his match with Gotch.

### INTREST IN TENNIS.

Melbourne, Nov. 19.—There is keen interest here in the forthcoming contest for the Dwight Davis lawn tennis cup. In the trial doubles played yesterday Brooke and Wilding easily defeated Dunlop and Heath, the latter the second best Australian team. Brooke was especially magnificent in his play. The Americans defendants are A. B. Alexander and Beals Wright, and they have been there since Nov. 1.

### TEN TEAMS TIED.

Boston, Nov. 19.—The 10 leading teams in the six-day bicycle race at the Park Square coliseum were tied at 882 miles, 2 laps when the day's racing concluded tonight. The eleventh, composed of Devonevitch and Halligan, is one lap behind. The leading teams are some 30 miles ahead of the track record.

### NEW ATHLETIC FIELD.

Reno, Nev., Nov. 19.—Word was received from Clarence Mackay today that the plans and specifications of the proposed bleachers and training house for the University of Nevada had passed the muster of his architects with the exception of a few minor details. Mr. Mackay also notified Prof. Kennedy that he had decided to make the building correspond with the Mackay building, and would build it of stone at an extra cost of $4,000. This means that the training house or Mackay field will require an outlay of $30,000, making the structure equal to that of any college in the United States.

### MADDOCK'S MEN WORKING.

**Team Getting in Shape for Big Thanksgiving Day Game.**

Having recovered from the knocks and bruises they received when they gained the great victory over the Boulder team, Maddock's players have now settled down to hard work preparing themselves for the Thanksgiving day game with the University of Idaho team. The boys on the hill do not propose to take any chances. They realize they are going up against a hard proposition as the Idaho eleven is a strong one and will come here with a determination to win.

There is a great deal of interest in the coming struggle and a record crowd is expected to be on hand to witness the contest. On Wednesday the faculty proposes to make some football history by lining up against the senior class on Cummings field.

### ALL-STAR VS HIGH.

**Last Game of Season Except Contest At Spokane on Thanksgiving.**

There was an interesting football game yesterday afternoon between the All-Star aggreation and the Salt Lake High School team. It resulted in a tie, 5 to 5. The All-Stars played like veterans and but for the failure to plant the ball between the goal posts just before the game ended, they would have won. Thomas made a drop kick on the 35-yard line, but the oval struck the goal post and bounded back. The teams lined up as follows:

| High School. | | All-Stars. |
|---|---|---|
| L. Warthman | L. E. | F. Howard |
| G. Curdy | L. T. | R. Morris |
| P. Martineau | L. G. | E. Manning |
| Capt. Corns | C. | Leaver |
| W. Eccleln | R. G. | Bardwell |
| W. Yeates | R. T. | Tad Jones |
| M. Gallacher | R. E. | Nate Harris |
| T. Fitzpatrick | Q. | K. Thomas |
| W. Goodspeed | L. H. B. | R. Richardson |
| L. Romney | R. H. | R. S. McNiece |
| F. Wheeling | F. B. | L. Wire |

### BALLOON YANKEE SAFE.

**Arrives In Good Shape at Tiger, Ga., From St. Louis.**

St. Louis, Nov. 19.—The balloon Yankee, which sailed from here yesterday shortly after noon, landed this morning near Tiger, Ga., in the Blue Ridge mountains. The try of the pilots, Albert P. Lambert, and Captain H. E. Honeyville, for the Lahm cup, proved unsuccessful, the record of Capt. H. DeForrest Chandler of 700 miles not being approched. The Yankee covered about 370 miles.

The balloon touched earth at Boyd, Ill., 60 miles east of St. Louis, late yesterday. The flight was resumed from there during the night. The aeronauts sailed over a big spread of forest fires in southern Tennessee.

Tiger is a small station near Tallulah Falls, Ga.

### INDIANS VS DENVER.

Denver, Nov. 19.—Responding to the telegram from Denver university athletic managers that he expected the Carlisle Indians school's football team to keep its contract game with Denver on Dec. 5, Commissioner of Indian affairs Leupp telegraphed last night that he had directed that the Indian team should carry out its contract if possible. Later word came from the Carlisle managers that the game would be played. The telegraphic correspondence became necessary when Carlisle wired that they had decided to cancel the engagement. The local university appealed to President Roosevelt and to the commissioner of Indian affairs for assistance.

### FRY DISTRIBUTION OF LITTLE VALUE

The report of County Fish and Game Commissioner Madsen of Utah county has been filed. It is as follows:

General increase of common fish in Utah lake, especially carp; trout showing very little increase. Past and present methods of planting trout is a waste of time and money. No trout should be planted until they are two and a half to three and a half inches long. No trout should be planted above irrigation ditches until the canals are properly screened. The scarcity of trout in our streams shows that a very small per cent of trout planted have ever lived to reach maturity. Utah lake contains thousands of pounds of carp, which if ground up carefully, provides a splendid food for the young trout, and at the same time proves a great benefit in helping to rid the lake of that kind of fish.

Black bass have shown a wonderful increase in the lake in the past 18 months. More than 20,000 pounds have been taken by market fishermen and sportsmen this season, 90 per cent of which were last year's hatch. The bass when turned from Powell Slough hatchery into Utah lake were from four to six inches long. The great increase of bass in the lake shows the result of holding the young fish until they are old enough to take care of themselves. Three million bass have been placed in Utah lake from Powell Slough hatchery this season. It should be made unlawful for bass less than nine inches long to be taken from any of the waters of this state. It will be of great importance to stop the sale of bass and place the catch limit at 10 pounds per day, for a period of two years, after which time Utah lake will be in a condition to stand a pressure of 100,000 per year.

Bullhead catfish are making a wonderful increase. These fish should be introduced into other waters of the state, also varieties of the larger catfish should be planted into Utah waters, which would stop the greater increase will take the place of the greater inmuch better class of fish.

Pike perch should be introduced into all the waters of Utah that are overrun with carp. They are one of the finest game fish in America, and in time will take thep lace of the greater increase of the carp.

Small-mouthed black bass should also be introduced here, as there are many waters in this state that are much adapted to their nature, for the reason they spawn on sand or gravel bottom, which places are not frequented by carp during their spawning season.

Duck shooting has been fairly good this season. Conditions in Utah county show that ducks should be taken off the market, bag limit reduced to 15 ducks per day and shooting hours from sunrise to one hour after sunset. Utah county should have 15 days' quail shooting in October, with bag limit of 12 birds.

Common fish caught by grapple, 65,000; trout caught in Utah county, 4,000 pounds; carp speared, 36,00; common fish caught by seines, 25,000 pounds; royalty collected, $238.75. Royalty on common fish is a protection to the carp and should be taken off.

Every legal inducement should be given to the private propagation of trout, but positively no sale of trout taken from public waters.

To those who don't insist on quality in food any other flour is just as good as

Husler's

### HORSE TACTICS.

One of the members of a state legislature in the south was a man who had lived a farmer's life most of the time until he was elected; and his wife, having never seen a railroad train and having no wish to test one, refused to accompany her husband to the capital.

When the legislator reached his destination he found that almost all the other members were accompanied by their wives, and he sent an imperative message to his brother to "fetch Jane along."

The brother telegraphed:

"She is afraid even to look at the engine."

After pondering over the message for a while, the legislator sent the following command:

"Blindfold Jane and back her onto the train."—Lippincott's.
