DESERET EVENING NEWS

TO DAY'S WEATHER REPORT.

Observation taken at 8 a. m., Mountain time:

Salt Lake City: Barometer, 26.00 Inches; normal temperature, 80; mean temperature, 81; wind, northeast, 3 miles per hour; weather clear.

SYNOPSIS

A trough of low barometric pressure extended from northwestern Montana northward to South Dakota. An area of moderately high pressure is central over Wyoming and Nebraska, and from it a cooler cool of temperature, which will give cool Salt Lake City weather, is moving southward. Low temperatures and rainfall have been below normal in Montana, Idaho, Wyoming and Colorado. Light rains have fallen at Spokane, Helena, Billings, Rapid City and Huron, Dakota. The lowest temperature reported this morning was 52 degrees at St. Louis. At the hour of observation rain was still falling at Huron and Chicago.

Forecast for Utah: Scale of San Francisco: Fair Wednesday and Thursday; cooler Wednesday night; fresh to brisk westerly winds.

Forecast for Salt Lake City and vicinity: Fair Wednesday and Thursday; cooler Wednesday night.

Forecast for Salt Lake City and vicinity for 36 hours ending 7 p. m. Wednesday: Fair Wednesday and Thursday; cooler Wednesday night; fresh to brisk westerly winds.

L. H. MURDOCK, District Forecaster.

Through the energetic work of the United States weather bureau in Cuba and Porto Rico, there have been organized in those islands 17 stations for the observation of the weather, and the climate and crop service, and weekly climate and crop bulletins are soon to be issued from the office at the capital, the station at San Juan and Havana. In connection with the work of the bureau in Cuba, the telegraph lines have been very successful. A large number of telegraphic wires have been established in both islands and the work of locating additional stations is being prosecuted with energy. The bureau has nearly been completed by which monthly meteorological reports in the form of old Signal Service days will be issued. The monthly reports, like the weekly reports are attracting much favorable attention. They are published both in Spanish and English. In the national offices in this country and in Washington on Tuesday, a new system of telegraphic summary of the climate and crop conditions was inaugurated, during the week ending Monday, thus placing the Cuba section on the same footing as the other sections of the crop service sections in the states, so far as the publication of weekly summaries of climate and crop conditions is concerned.

LOCAL BRIEFS.

Andrew J. Hulbert, 35, of Grantsville, and Katie Mills, 18, of this city, were this day granted a license to marry.

Judge Miner left at noon today for Cheltenham, where he will join his wife and daughter. He will be absent for about two months.

Police Statesman Dudley Holland has arrived in Salt Lake to succeed Walter Schoff as manager of the local telephone system.

Joseph Hooter and Al Bonnebrake are confined there for the city jail. A sailor man entered the saloon of the latter and accuses the duo of abstracting his money.

The organization of the new company of the National Guard will meet again on the 13th inst. on Friday evening. It is still thought that Lieutenant Green will be made captain and Mark Cannon first lieutenant.

The troops of Arabs moored in New York by the steamer Moorish Tribe of the Salt Palace association is said to be the best organization of the kind in the country.

After three weeks' absence in the East, Governor Wells was in his office this morning looking the picture of health. His appearance was greatly heralded at a meeting of the State board.

Among the prominent parties that registered at the Knutsford hotel yesterday were the members of a Brooklyn choir. They were on their way to Denver. They were pleasantly spent with singing, which was enjoyed by all.

Mr. L. E. Young, who has been operating a coal prospecting drill at Sandy during the past year in search of coal, has abandoned the work. The drill struck coal at 1,000 feet, but not in sufficient quantity to warrant further operations. Mr. Young will return to the vicinity of Sandy and continue his duties as instructor in mining.

Should both the engineer and dry engineer examinations that are to be conducted in the near future by the board of examiners fail on the rest, the board will call the other on the list of those who have passed the examinations and secure the services of Messrs. Smith and Stone, both of Ogden.

John C. Hilbert, manager of the Hotel Terry's Rough Riders, has arrived in the territory ready and keen for business. He has been in the employ of John Jacob Astor for the past seven years, and has had charge of the Hotel Astor in New York city. He has also been in charge of the Hotel Astor in San Francisco. He will be assisted by Mr. Hilbert, who is also an old hotel man.

Capt. C. F. Coats of the Twenty-fourth infantry arrived in the city yesterday from Fort Douglas, where he has been on duty for the past two years. He has been granted a leave of absence for thirty days, and will visit his home in Ohio. Lieutenant Wilson Carr Chase arrived in the city on Monday from Fort Douglas. Lieutenant Chase is a recruiting officer, and will be stationed in Salt Lake for the next two years.

IN THE GILA VALLEY.

How Two Crops a Year are Raised There—Land Taken Up.

Andrew Kimball, president of the St. George Stake, of Arizona, formerly of this city, called at the "News" office and stated to a reporter that the people of the Gila valley, where he lives, are particularly prosperous this year, that their grain has been harvested, and that the second crop, planted for the purpose of feeding to stock, is well under way.

The harvesting of the grain and the planting of the second crop is now being done with machinery, and Mr. Kimball says that the people are doing more than three times as much work as they have been accustomed to, and that they have more time to attend to the land for less labor.

President Kimball advises prospective settlers to come to Arizona, but instead of any other country of the East.

MESSENGER BOYS' RACE.

Western Union Lads Run Off a Road Contest and Track Events.

The Western Union messenger boys held a cycle meet in connection with the festivities. The race started at the corner of the S. L. Hotel, from Second South and Second East to Cashen Park and return, a distance of about 4½ miles, being run in relays of two miles each. The course was well roped off and there was no trouble with the crowds.

VALUATION OVER TWELVE MILLIONS

Findings of the State Board of Equalization on Corporations.

$1,219,653 OVER LAST YEAR.

Includes Assessment on All Utah Railroads, Telephone and Telegraph Line and Car Companies.

The statement of the Utah board of equalization covering the assessments of railway, telegraph and telephone companies on just issued for this year is most interesting from a revenue and comparative standpoint. It gives the total assessed valuation of the railroads of the State for 1899 as $11,934,191, as compared with $10,456,251 in 1898, or an excess of $669,906.

In 1897 the assessed valuation of the same car companies' properties was $11,031, while in 1898 it is but $10,325. The valuation of telegraph lines has been increased. Last year it was $91,-56, and this year $92,036. Telephone valuations also have an increase. Last year the total valuation of property was $103,293, while it is increased to $104,256 this year.

The total assessment on railroads, telegraph and telephone companies for 1899 is $12,934,776, as compared with $11,465,417 for 1898, an increase of $1,219,653.

IS IT RIGHT

For an Editor to Recommend Patent Medicines?

From Sylvan Valley News, Brevard, N. C.

It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, but as a preventive of suffering we feel it a duty to say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We have known, and used this medicine in our family for twenty years and have always found it reliable. In some cases a dose of this remedy would save hours of suffering, while a thorough cure was effected. We are not known to personally or publicly endorse any medicine for a cure, but we do feel safe in saying that Chamberlain's Diarrhoea Remedy was entirely unknown to us, and we have had a large sale of an article worth suffering from. If one of these attacks occurs suffering should be attended and in very many cases the use of a physician could not be required. At least this has been our experience during the past twenty years.

SALTAIR GOT TEN THOUSAND.

Number of People that Attended the Big Lake Resort Yesterday.

LARGE CROWD AT GARFIELD

Same as to Lagoon and Calder's—A Money-Making Day for the Managements of Resorts.

Between 20,000 and 25,000 people, pleasure bent, visited the resorts yesterday. It was too hot in the city for comfort; it was just as hot at some of the resorts, but people didn't seem to mind that; they were out for pleasure, at some at least, pure to cost, and get it, at the hands a few varieties.

Saltair, of course, was by far the biggest resort. From early in the day until late at night General Manager Cahoon and other had their hands full. Ticket Agent McMillin says more than 10,000 tickets were sold during the day, the heaviest trade being the 4:45, 6:45 and 7:15, all the cars on these trains were loaded down to the guards. All the beach it seemed as though everybody was there, and the bathing houses were taxed to their limits to go in bathing and dress. Many couldn't get in, and "out patient" for a few hours was absolutely useful. A conservative estimate places the number of bathers at 3,000. Those who "went in" reported the water very cold, but the morning heat generated a most jolly mood and beautified appearances. Hula's Military band and Lyric band discoursed music alternated with music and the day was a most delightful one for the young folks ringing the halls dancing, and a smiles.

The record was an orderly one and everything passed off quietly. It was after 1 o'clock when the last train came in.

AT GARFIELD.

Garfield had a fine business yesterday. Between 5,000 and 6,000 persons went out during the day, the majority of whom imported themselves in the cars of the Garfield line. Dancing was also quite a feature, the floor being kept busy by the merry throng. There was no special program carried out, but the orchestra played itself, notwithstanding. Both the Garfield and Saltair resorts must deserve great credit for the speedy manner in which the people were handled.

AT THE LAGOON.

Fully 1,500 people took in the Lagoon yesterday. Trains from the city were run every hour on the hour, and the grounds contributed the full quota from all parts of the surrounding country. Dancing was also quite a feature, the floor being kept busy by the merry throng. There was no special program carried out, but the orchestra played itself, notwithstanding. Both the Lagoon and Garfield must deserve great credit for the speedy manner in which the people were handled.

AT CALDER'S PARK.

Nearly 1,000 people visited Calder's Park yesterday. Many of these left the resort from the grandstand and other places, while others went for a boat ride on the lake. Dancing was a feature of the evening's amusements. The pavilion floor was crowded with lovers of the light fantastic, and all report a fine time. The management is to be congratulated for the prompt and efficient manner in which the people were handled.

FOURTH OF JULY ACCIDENTS

There Was the Usual List of Them—No Fatalities.

Among yesterday's accidents that may result seriously is that which befell Joseph Fox, the son of Councilman J. W. Evans, who lives at 325 south, Tenth East street. The child was playing in the usual manner of many and just exactly how the accident happened would be difficult to state. A large firecracker exploded near the boy, who was standing facing the explosion. The probability is that he will be blind for life, although Dr. Kinyon, who has the case in charge, thinks he may have the child's eyesight saved. The little fellow was taken to the Holy Cross hospital, and afterwards to his home.

There is a young man residing at Provo by the name of Hall, who has got the distinction of having discharged in a quite after in conjunction with a spirit lately apparently anchored to a yarn stocking. Like a good many others, he wanted to know something of the "new fangled explosive" this year, and got definite information on the subject by experience. He got it! For a week or more his right hand burned hard and expense to accommodate friends how it happened.

Another victim of the list of Fourth of July accidents is Ash-reared Basil Hallaran, son of Councilman Hallaran, who resides at 1,000 south, Second South street. He is now under the care of a doctor, having had his right hand severely burned from powder. When the boy was playing with powder, when he was playing with the powder it got wet, and therefore could not be immediately burned. He then thought he had ignited nearly all of the fuse that he had placed in the powder thoroughly turned the powder, when it exploded, burning the hand so badly that it will be necessary to amputate it, or so.

Tony Barnes's hand got too near the business end of a "Grand" cartoon cracker yesterday. He now has it in a sling!

STREET CARS COLLIDE.

Salt Lake and Rapid Transit Come Together This Morning.

At 2:30 this morning there was a collision between a Salt Lake and a Rapid Transit car on First South and Second. The Salt Lake car's motorman, C. H. Jenkins, had his arm severed and his car, No. 34, was damaged to the extent of $100.

Cars 36 of the Rapid Transit line and 34 of the Salt Lake City railroad were coming in opposite directions on the streets named, both cars being crowded with people from the dances. Fortunately no one was seriously injured, although many received bruises. Motorman Jenkins had both arms severed at the elbow, and the damage done to the cars was considerable. The fronts were smashed in, the Rapid Transit car, also the dash and platform of the Salt Lake car were smashed in. Motorman Jenkins says the Salt Lake car had the right of way and the Rapid Transit motorman admits that he could not explain how the collision occurred.
