Bemise of John Magutre, one of Ogden's Foremost Cluzens-Sunday

school Union Meeting.

The obsequies over the remains of glias E. Corey, one of Ogden's most esteemed young men who died Thurslay evening, were held in the Ogden Tabernacle yesterday morning at 11:45. Bishop's Counsolor Henry G. Gwilliam presiding. The services were commenced by Prof. Joseph Ballantyne's male horus singing "His Noble Work Is Done." Prayer was pronounced by Elder Hyrum Belnap. Mrs. Mary Farley and C. P. Ferrin sang a beautiful duet

entitled "Thy Will Be Done." Bishop O. F. Whitney, of Salt Lake, was the first speaker. He said: "The occasion is one to excite sympathy in very heart. My position is a peculiar me, it devolved upon me only a few months ago to unite in bonds of holy wellock Brother and Sister Corey. That was a happy duty and a festive eccasion, but quite different today. The duty that we are called upon to perform now is truly a sad one and an ocasion of pain and deep sorrow, We who are called upon to administer consolation on this occasion, must of neeasity have the Spirit of God. I little thought on that festive occasion when erformed the marriage ceremony that death would so soon tare husband from wife and cause great grief and sorrow, but I wish to direct the attenon of the bereaved to noble emotions i wast you to carry your minds back to the time of which is spoken in the word of God, where we read of the creation of man after , the image of lod, created He them male and female. This creation after His own image is one of the truths which God has rerealed and He united man and woman together and they were married also and God blessed that union and bade them multiply and replenish the earth. If we read the plan of creation as given by Moses, we find that there were two creations. First the creation of the spirit and second the creation of the erth and all that in it is. To fully un-derstand and comprehend' these things, we must have the Spirit of light, which brings to our rememberance things past things present and things to ome. We through that Spirit learn that all things were created in the before they were created in the Sen Then we are caused to contemplaces this which is dead. It is but the bath of the body, the earthly tabensek from which the spirit hath depanel, is there any death of the spirit! It is said there is, but not to the elevation of the water in Utah Lake Saturday, and found it to be 27 inches below compromise point, or three and one-half inches lower than it was February 18, 1901. PEACE DISTURBERS FINED.

Several of our young "nimrods" took to the sagebrush yesterday bent on a rabbit hunt, not finding sufficient game arrived back in town early in the afternoon and seemingly with a supply of ammunition still in stock, shot the air full of holes along some of our main streets, the marshal took them in

custody, and run them in to police headquarters where the justice imposed a fine of \$1 each. The weather is very mild again and the snow nearly all gone. It is now raining. The fall of snow in the moun-

tains is lighter than was thought. Two pieces of city property has changed hands this week. Our old timer and respected citizen. Robt. Gib-son sold his beautiful home to J. T Hinds, with the Intention of taking up his abode in the Snake River valley near his children, who went into the valley in its early settlement.

Great preparations are being made for the play that is to be put on the oards next Tuesday night by our Sabbath school.

Last Tuesday night our Primary pre sented the public at the Tabernacle with one of the prettiest little entertainments ever seen of the kind. Great credit is due the officers and aids of the association for the untiring energies put forth in this one of the greatest institutions of the Church.

AN ENTERPRISING TOWN.

Irrigation Projects-Tunneling for Water-School Interests Crippled.

Freedom, Sanpete Co., Feb. 8 .- At a point about four miles west of Moron in Sanpete county radiates the little town of Freedom. Nestled in the arms of the West mountain, from which a spring throws out enough life giving water to irrigate 240 acres, the town is indeed a choice location and of great promise. Many years ago the place was settled on by two brothers, W. D. and Parley Draper, who discovered the Currant spring and saw the great possibilities for fine fruit culture. Orchards were set out and in due time their dreams were realized in a measure as all kinds of fruits adapted to Utah climate could be raised, besides melons and other products of this variety. It was then called "Draperville." It had no postoffice and was only styled this from the name of the settlers, who had now become quite numerous. The place grew rapidly and took on town and

Our city fathers think t serious enough to quarantine, so with that and the measles, the yellow flags are floating in the breeze at the homes of several families. Dr. Steiner inserted a tube in the throat of the little daugh ter of A. D. Clark, the other day for mambranous croup and since then sh has developed pneumonia. She is in a critical condition, W. D. LeFevre buried a child today from the same dis-

To make matters worse for her, yesterday her seven-year-old son, while playing with some children most through the factoring ind children, was thrown to the ground and his leg broken between the knee and

ankle. Dr. Steiner reduced the fracture.
