THE EVENING NEWS.

Wednesday, - - April, 26, 1871.

PRICE OF GOLD,

Corrected Daily by HOOPER, ELDREDGE & Co., Bankers:

SALT LAKE CITY, April 26, 1871.

Buying at $1.08; Selling at $1.11.

LOCAL AND OTHER MATTERS.

THEATRICAL.—"Jartine or the Pride of the 11th" was played very smoothly last night, Mlle Ravel being the center of attraction. Her "lightning Zouave drill," in which she is said to be unequalled, was loudly applauded. The way she swings the musket around is really surprising; such dexterity could only be attained by long and attentive training combined with a high degree of muscular activity. Her dancing also drew forth frequent expressions of gratification from those present.

To-night will be presented a nautical drama, which has been in preparation for some time, entitled the "Flying Dutchman."

Mlle Ravel, after filling her engagement here, which terminates on Saturday night, will proceed to Cincinnati, Ohio, being engaged to play at Wood's Theatre there, where she will appear on the 18th of May.

TERRITORIAL NEWS.—The following was received by Deseret Telegraph:

PAYSON, 26.

Bishop Fairbanks and Ferdinando Overhauseley have just left to go on their respective missions.

The weather is pleasant but cloudy. Mineral developments are being made east and west of this city. Several prospecting parties are in this vicinity, anxiously waiting for the snow to disappear.

PLEASANT GROVE, 26.

President B. Young, by request of the citizens, located a site for a meeting house, yesterday, one block east of the co-operative store, near the school house. The dimensions of the building will be eighty by fifty feet; two stories high. The basement will be built of rock, twelve feet in the clear; and the upper story twenty eight feet, to be built of adobies, and will be constructed suitably for a gallery.

The telegraph office has moved into a new building near the same site.

William Osborne, of this place, has sold one interest in the "Silver Lake" lead, in American Fork Kanyon, 100 feet, for four thousand dollars.

CONTRADICTORY.—The Chicago *Journal* recently stated that the territories of Idaho and Montana were losing population, to which the Helena, Mt., *Herald* replies that this may be true so far as Idaho is concerned but not so of Montana. The population of the latter Territory, it says, is slowly but surely increasing, and a large influx of emigrants is expected during the coming summer.

MINING MAP.—Col. Frossath, of the Surveyor General's office, informs us that he, last evening, sent to the lithographer a new mining map. Its dimensions are thirty-seven and a half inches long by twenty-four inches wide. It takes in all the mining districts as far north as Logan and south to Nephi, some twenty-eight districts being included in it. It is gotten up on a scale of a quarter of an inch to the mile. It comprises the government surveys within its scope and will, doubtless, prove very useful to a large portion of the community.

A FINE TWO YEAR OLD.—One of the short-horned Durham bulls, just imported by Mr. W. C. Rydalch, was put on the scales yesterday, and was found to weigh 1650 pounds; he was two years old on the 3rd of last February. Good judges say that he is the finest animal of his age they have ever seen.

AUCTION SALES.—There is a mania which is somewhat wide spread here, for purchasing goods at auction sales. We presume that the cause of it lies in the fact of many persons believing that they can obtain articles a great deal cheaper in this way than in any other. This is doubtless the case in some instances but it is by no means the rule. It is a fact that in many auction sales in this city articles have gone off at much higher prices than their actual value in the retail market. It is true that some articles are considerably lower, yet it is often the case that when the proceeds are summed up they aggregate, on the entire stock, probably as much as if sold by the ordinary or slower process. An instance of this kind occurred only a few days since in the case of Mr. N. I. D. Solomon, who recently occupied the store of Woodmansee Bros., and who, we are reliably informed, sold, at auction, his stock of goods for its full market value. The notion with which many persons are imbued, that an article must be a bargain merely because of its being purchased at an auction sale is certainly a mistaken one. The instances we have quoted show Mr. N. I. D. Solomon to be a sharp business man and some parties to be considerably verdant.

RETURNED.—President B. Young returned from Provo yesterday evening.

THE ORCHESTRA.—One of the most pleasing and attractive features of the entertainments given at the Theatre is the really excellent orchestral music. Professor C. J. Thomas, by the high degree of proficiency to which he is rapidly bringing his corps of musicians, is sustaining his long established reputation as a professional of great ability. He has played in some of the best theatres in England and the Eastern States and is consequently well qualified for the position he now fills. We have lately heard frequent expressions of pleasure from competent judges, at the manner in which the music is performed at the Theatre; and in the good taste displayed in the selection of pieces. We wish Prof. Thomas and his corps continued success, which, however, they are sure to obtain. From the assiduous and able efforts of the Professor and the amount of success that has already crowned his labors in so short a time, we anticipate that before long, there will be but few theatres in the West that will be able to boast of a more efficient orchestral band than that of this city.

THE INDUSTRIAL REFORMER."—The reading is the title of a new venture in newspaperdom just launched in San Francisco, No. 1 of which came to hand this morning. No terms its appearance is announced; it is a great credit to those having control of it, for it is splendidly printed, and presents a very elegant appearance. It is to be the organ and advocate of white labor, and labor reform, and antagonistic to the importation or employment of colored or coolie labor in the United States. It is well known that thousands of the lower orders of natives of the Chinese Empire have been landed on the Pacific coast; and that this large influx of the poorest paid laborers in the world has exerted an influence prejudicial to the interests of white labor in California and other parts of the country there can be no doubt. In consequence of this the ire of the white laborers has been excited, and, on the Pacific coast, the unfortunate "Celestials" have been subjected to indignities and outrages which have disgraced those who created them.

Leaving to time and political economists the task of solving the problem, as to whether or not it is to the interests of the people and country to introduce thousands of Asiatics, to compete with our own white labor, we think that a fair and free discussion of this new phase of the question at issue between capital and labor, is much more creditable than having recourse to physical violence. The *Industrial Reformer* has an arduous task before it, and one in which the masses are deeply interested. If, by its advocacy of what it conceives to be, the rights of those who control and those who produce the wealth of the country, it does aught to furnish a true solution of the question, it will abundantly deserve all the success it may ever achieve or its friends desire.

IMPORTANT NOTICE.—Owners of job wagons and vendors of hay, lumber, wood, coal, &c., are requested to read Recorder Campbell's notice, in to-day's paper, that they may be posted with regard to where they should place their wagons.

Special Notices.
