

**DECAPITATION WAS THE ORDER**

Many Bills Had Their Heads Chopped Off Yesterday.

**UNUSUAL AIR OF BUSINESS.**

London's deaf and dumb measure goes through—curious bill is made unrecognizable.

Everything went along very smoothly yesterday in the house except that every now and then one could hear the fall of an imaginary axe as it chopped off the head of a bill. There was an air of business that was quite in contrast with any previous day, and especially was it noticeable that there wasn't so much "hot air"—it had been exhausted on the kindergarten bill the day before.

Twelve bills were passed and eight were killed. Representative Done's bill, No. 6, would have also met its grisly end if it had reached a vote. As it was, it went over until Monday at 2 p. m. when it will become the special order, and then quietly pass into innocuous desuetude.

The first bill to come up for passage was Dr. Condon's H. R. 139, providing for rotation in office of the trustees of the school for the deaf, dumb and blind. It took but a few minutes to pass.

Representative Hamilton's bill, No. 17, for voting machines went through 178. It gives county commissioners authority to purchase or lease voting machines and their use is sanctioned in all elections.

Representative Colton's bill, No. 32, known as the curfew bill, was passed. It is a most excellent measure but whoever drew the bill in the form in which it was presented ought to be heavily fined. Amendment after amendment was added and raised the bill to a point where it was unrecognizable. It passed with only four votes against it.

Representative Colton's bill, No. 99, providing for the incorporation of youths who had been criminals then came up. It underwent the same process that had happened to the curfew bill until Representative Whitely in dismay, said that after an hour of discussion the thing that ought to be done with it would be to strike out the enacting clause. It was, however, recommitted and will look different when it is presented again.

Senator Sherman's bill, No. 104, providing for proceedings to revoke liquor licenses, was passed.

Representative Hamilton's bill, relating to local assessments in cities, was passed.

Senator Lawrence's bill, No. 109, relating to clerks in city courts came up.

Senator Lawrence's bill, No. 97, relating to trials and appeals in city courts was followed.

Representative Williams' bill, No. 112, (by request) authorizing the secretary of state to purchase and distribute to public officials copies of Kinney's digest of the Utah courts was passed.

Representative Williams' bill, No. 132, relating to transmission of papers on appeal, was also passed.

The other bills that passed were noted in yesterday's issue.

**THESE WERE KILLED.**

The first bill to be decapitated was Representative Hamilton's bill, No. 108, relating to the duties of city assessors.

Senator Lawrence's bill, No. 129, relating to the state for admission to the bar.

Representative Jones' bill, No. 116, preventing the collection of damages by an employer for injuries by negligence of a fellow servant.

Representative Spry's bill, No. 127, allowing for the recovery of losses in gambling.

Rose bill, No. 104, by J. E. Johnson, (by request) giving towns the same control of water courses now enjoyed by cities.

Representative Hamilton's bill, No. 63, relating to attorneys in city courts.

Hamilton was given Representative Williams' bill, No. 132, relating to the duties of city assessors, and the bill was passed.

Representative Williams' bill, No. 132, relating to the duties of city assessors, and the bill was passed.

Representative Williams' bill, No. 132, relating to the duties of city assessors, and the bill was passed.

**Fifty Years the Standard**

**BAKING POWDER**

**Awarded Highest Honors World's Fair Highest tests U.S. Gov't Chemists**

**PRICE BAKING POWDER CO. CHICAGO**

Michigan, Wisconsin, Iowa and Minnesota, with headquarters in Chicago, addressed the conference. He made reference to the Senate controversy. He took the ground that Smoot had the same right to a seat in Congress that any other qualified American citizen had.

He said that though newspapers were now making fun of Smoot's name, to the "Mormons" it stood synonymous with the word "education," because Smoot's father had sacrificed his mammoth fortune in buying up the educational institutions of Utah during years of depression. Woodruff said that Smoot was not a Church candidate, as is charged.

Prof. J. M. Mills, one of the educators in the "Mormon" denominational college at Salt Lake, who is attending Chicago university, made an address on the Book of Mormon. He told the story of Joseph Smith, a concise narrative of the doctrine and story of the book, and made many explanations.

One of the most interesting features of the story is told in the Book of Mormon, as explained by him, was that Jesus Christ, when He ascended into the heavens from the side of the Mount of Olives, was transported to the American continent, where He appeared among the aborigines, that were then centered in Mexico. Under the name of Quetzalcoatl He performed miracles, lighted fires from a stone, and raised the dead. One day, after performing His mission, He went down to the sea, and saying that in the final day He would return again, sailed away and was never seen again. He left with them "the book," which was called the Teanumshil.

**NEW LIBRARY BOOKS.**

The following 32 volumes will be added to the public library Monday morning, March 9, 1903:

- MISCELLANEOUS.**
- Actual Business Dictation. Burnley—The Summit of Success. Fernald—Scientific Sideglances. (Reference.)
  - Parli—Socialism and Modern Science. (Darwin—Spencer—Marx).
  - Flint—Augustus Caesar.
  - Flint—Agnosticism.
  - Frankland—Bacteria in Daily Life.
  - Lubbock—Round the Horn Before the Mast.
  - Mapleson—The Mapleson Memoirs, 1848-1888, two volumes.
  - Morris & Leigh. Eds.—With the World's Great Travelers, eight volumes.
  - Paulsen—A System of Ethics.
  - Paulsen—Rochester, and other literary tales of the Court of Charles II.
  - Paulsen—A Study of Ethical Principles.
  - Simonds—History of English Literature.
  - Van Dyke—The Meaning of Pictures.
  - Woodburn—The American Republic.

- FICTION.**
- Eggleston—The Master of Warlock; a Virginia War Story.
  - King—In the Garden of Charity.
  - James—The Better Sort.
  - Seawell—Mary.
  - Seawell—Francesca.
  - Smith—The Turquoise Cup; and The Desert.
  - Freeman—Six Trees. Short Stories.
  - Woods—Edgemoor.

**SALOON BURGLARIZED.**

McElroy's Place on East Temple and Market Broken Into.

E. G. McElroy's saloon on the corner of East Temple and Market streets, was burglarized shortly after last midnight. The robbers secured entrance to the place by cutting a hole in the panel of the door and then lifting up the bar which secured the door. Once inside they apparently took their time in searching for money and valuables. They filled their pockets with good cigars, took several bottles of the best whiskey and smashed open four slot machines, taking the contents. McElroy closes his saloon at 11 o'clock, and it is believed the robbers were waiting until the doors were locked when they began to cut their way into the place. The matter was reported to the police and officers are working on the case.

**THE TRUTH ABOUT BREAD**

From London "Chic".

In a recent issue of Chic, one of the best illustrated weeklies for which I do the famous, a writer on scientific foods says: "There was never coined a more delusive phrase than 'Bread the staff of life,' because bread is almost the worst of all foods unless the eater knows all about its properties. It is poison to the man in a hurry."

Here follows a long argument.

"Why not," asked the diet expert, "do for the bread and other cereal foods what the manufacturer does so that those whose digestion is enfeebled may be fully nourished, that is, derive every grain of nutriment possible from the food and avoid the discomforts of indigestion, the pains after eating, flatulence, acidity, heartburn and the hosts of evils indigestion faultily digests? Why not prepare a food so perfectly nourishing that it can be eaten in a hurry, or boiled, it will be as readily digested as if chewed five minutes?"

"To convert the starch in cereals into the form of Grape Sugar which is most agreeable to the stomach and which can be immediately taken up by the system as nutriment is what has been done in Grape-Nuts, which is the reason I have given, is a far more healthful and nourishing food than the best porridge or bread and can be eaten with advantage by persons with the most delicate stomachs."

"This food discovery comes from America, but widespread recognition of its valuable properties is to my thinking, much hampered by a name which is misleading, even to the chemist or dietist. I must confess to not understanding the meaning of 'Grape-Nuts' when I first saw it, but an examination of this food discovery reveals it as one of the most important dietary advances ever made."

Note:—The name is partly derived from Grape Sugar and the term "Nuts" is suggested by the nutty flavor. The entire word is the registered trade mark.

**CLERK CHAINED BY THE SENATE**

Alleged Neglect of Work Causes Strict Party Division.

**BAMBERGER'S BLOOD IS UP.**

Ogden Water Bill Brought from Tomb And Passed—House Charged With Undue Extravagance.

The first issue that has arisen in this session of the Legislature to cause all the Democrats to vote on one side and all the Republicans to vote on the other, was in respect to a committee clerk, Walter L. Wilding. This young man was subjected to some rapid fire handling yesterday afternoon and would no doubt have been summarily ejected from his office, had not a wave of sympathy swept over the north side of the chamber. The grievance against Wilding was that he neglected his duties; that he was never on hand to do his work, which had often crippled individual members as well as committees.

The matter was brought to the attention of the Senate by Fred C. Johnson, who stated that by many complaints about Mr. Wilding had not a word in his mouth to mention it.

Senator Benson said he had heard that Mr. Wilding had left the Senate without any explanation whatever; that Senator Love stated that the clerk had obtained a position with the Keith-O'Brien company, and was trying to hold down two jobs at once.

Senator Bamberger, who had been gradually growing red in the face, said that when a horse balks the best thing to do is to swap horses; he thought Wilding should be released.

Senator Gardner said he had experienced considerable annoyance over the absence of the committee clerk, but he thought there might be some explanation the young man could make, and he moved that a committee be appointed to find out what he intended to do.

By this time Senator Bamberger was nearly red to burst. "I am astonished," he vehemently exclaimed, "that the members condemn this neglect of duty. I have not been in this body long enough to know just what is the proper thing to do, but in my business, I never would have tolerated such inattention to duty for one minute. What do you think of a senator running around after a committee clerk asking him what he intended to do. Do you think that Mr. McGowan or Col. Webster would follow after an employee, who had neglected his work to find out what he proposed doing in the future? I think to carry out this business properly you had better send out after the young man and bring him here in a carriage."

Senator McKay stood up and pleaded for the clerk like a patriarch. He said the young man, perhaps, felt that he had been shoved aside by one of the other clerks, who had had more experience; that perhaps his duties never had been clearly defined to him, and in the light of his youth, with his reputation to make, he thought the Senate should give him a chance to explain.

This was the most telling speech of the controversy and the motion of Senator Gardner carried. The latter was appointed as a committee of one to see Mr. Wilding and get from him any explanation he had to offer.

It seems that Senator McKay is gifted with more than usual discernment, as it is understood among the employees of the Senate that the harmony between the two clerks and the other clerks is not so great that it has become oppressive.

**OGDEN WATER BILL PASSED.**

The bill allowing Ogden to acquire its water system by condemnation was called up from the floor yesterday by Senator Lawrence and passed by a vote of 12 to 5. On Thursday the measure was defeated by an even vote of 9 to 9. Those who by changing their votes accomplished the passage of the bill were: Barber, Lawrence, Love and Sherman.

Senator Whitmore contended that it was unconstitutional to condemn a man's personal property, but his argument did not avail anything. The roll call was as follows:

Yeas—Bamberger, Barber, Barnes, Benson, C. P. Larson, Lawrence, Love, McKay, Murdoch, Sherman, Williams, Allison—12.

Nays—Gardner, H. S. Larsen, Lewis, Loane, Whitmore—5.

The bill relating to the sale of church property was passed, with only the votes of Senators H. S. Larsen and Whitmore recorded against it. Senator Larsen tried to work an amendment into the bill providing that church property could not be made without the consent of the majority of the members. The amendment failed.

The Senate passed other bills as follows:

Senate Bill No. 166, by H. S. Larsen—For election of county superintendent of schools in November instead of July.

Senate Bill No. 161, by John A. Placing foreign insurance companies under the jurisdiction of the bank examiner.

Senate Bill No. 159, by Gardner—For relinquishment of inchoate interest in property of insane wife.

House Bill No. 130, by Morris—For notice by clerk of court fixing time for settlement of account.

Senate Bill No. 157, by Lewis, prohibiting the making of false statements of stocks or bonds, was killed by the Senate, as was also S. R. 129, by Lewis, requiring the erection of sign posts at all county cross roads.

**EXTRAVAGANCE OF HOUSE.**

It came to the attention of the Senate yesterday that the House had discontinued the publishing of its docket, as six numbers had cost \$435. Senator Murdoch said the Senate had obtained the same printing for less than \$100, and he would like to know what the House was doing. Senator Bamberger got up and demanded an investigation, and Senator Lawrence told him the House printing was no business of the Senate's. Bamberger said it was and he proposed to force an accounting. Lawrence moved to adjourn, which motion carried, much to the disappointment of Senator Bamberger, who never enjoys a fight so well as when heading off a raid on the state treasury.

**APPOINTMENTS CONFIRMED.**

On motion of Senator Sherman the Senate went into executive session yesterday afternoon and confirmed all of the governor's appointments, which were as follows:

**HARVARD RECALLS SCORE OF 23 TO 0**

Chairman Hollis Thinks Football Game Should be Abolished.

**SAYS IT IS DEMORALIZING.**

View of Yale's Victory on Saturday, Nov. 22nd, Prof. Hollis is Doubtless Right.

Boston, Mass., March 7.—Prof. Ira N. Hollis, chairman of the Harvard Athletic committee, in an article written for the Harvard graduates' magazine, suggests giving up the annual football contest with Yale. He thinks Harvard would profit by omitting it. In leading up to this point Professor Hollis reviews at some length, the general trend of college athletics, which he maintains are growing better in spirit. He thinks that one fatal thing for good sport is the suspicion which prevails between rival universities. Then, he says, referring to the football game, "The demoralizing football game played by Harvard during the year is that with Yale. This has been true for many years with only an occasional lapse in a season of good fellowship. The students of the two universities, are, in the main, friendly to one another, but this game seems to arouse their worst impulses. Suspensions are rife, bets are on, and studies are practically suspended during the entire week preceding the game. The graduates, too, have their period of excitement, and are in large measure responsible for the feverish strain in which the game is played."

"On the whole it would be a good thing to have the game given up and the full scholastic shortened by that much, or another less strenuous game substituted. Certainly Harvard would take the sport with other teams more in the spirit of good fellowship. Under-graduates who have had the most to do with Harvard football fail to show that Professor Hollis' idea of dropping Yale is endorsed."

**AMONG THE BALL TOSSERS.**

Meeting of Magnates at San Francisco Billed Today.

San Francisco, March 6.—There will be a meeting of baseball magnates in this city tomorrow at which the interests of four leagues will be represented, and it is probable that some definite solution of the trouble will be reached, although the issue is very small likelihood of a compromise between the contending camps.

President Hickey of the American association arrived here last night but did not register at the Palace, the hotel he took lodgings, and denied himself to the reporters. He saw Henry Harris, the local manager, for a few minutes, and the two did not enter into the question of the baseball situation on the coast. Hickey remarked that from his study of the matter he believed hostilities had advanced too far for a compromise.

Hickey said he had an important message to deliver but was obliged to await the presence of President Sexton of the Western association, who will be here tomorrow. President Lucas of the Northwest league is still working quietly and avoiding publicity, so his plans and movements are unknown. John J. McCloskey, the head of the Butte league of the Pacific Northwest league, arrived today to look after the interests of his association.

Henry Harris today said to the Associated Press:

"It looks like a baseball war on the coast this season. There is nothing to indicate a peaceable ending of the dispute in the northwestern states. The other league is not willing to negotiate, but I do not consider the statements seriously so far as this section is concerned. I know that the other people are talking to capital in this city, but with what success of course I cannot say. We made our plans some months ago and we will not deviate a particle from them."

**TELLS HOW IT HAPPENED.**

Young Corbett Writes of His Fight With Eddie Hanlon.

In a letter from Young Corbett he has the following to say with reference to his battle with Eddie Hanlon of the Pacific Northwest league of San Francisco:

"Don't feel blue over the showing I made against Hanlon. It was the best thing that could have happened to me. Hanlon is the best boy I ever faced. He will surprise them all before he gets through. My fight with Hanlon has done me more good than six weeks of training."

Senate Bill No. 166, by H. S. Larsen—For election of county superintendent of schools in November instead of July.

Senate Bill No. 161, by John A. Placing foreign insurance companies under the jurisdiction of the bank examiner.

Senate Bill No. 159, by Gardner—For relinquishment of inchoate interest in property of insane wife.

House Bill No. 130, by Morris—For notice by clerk of court fixing time for settlement of account.

Senate Bill No. 157, by Lewis, prohibiting the making of false statements of stocks or bonds, was killed by the Senate, as was also S. R. 129, by Lewis, requiring the erection of sign posts at all county cross roads.

House Bill No. 130, by Morris—For notice by clerk of court fixing time for settlement of account.

Senate Bill No. 157, by Lewis, prohibiting the making of false statements of stocks or bonds, was killed by the Senate, as was also S. R. 129, by Lewis, requiring the erection of sign posts at all county cross roads.

Senate Bill No. 166, by H. S. Larsen—For election of county superintendent of schools in November instead of July.

Senate Bill No. 161, by John A. Placing foreign insurance companies under the jurisdiction of the bank examiner.

In its organization. Nobody in France has objections to dueling more numerous than his. Nobody's objections are better founded than his. Your correspondent has been able, by the aid of the magic alphabet and eulogy judiciously distributed, to learn the most important of the by-laws of the Anti-Duellers. They are as follows:

First—The only form of dueling permitted is the "duel au pistolet," which is achieved by means of paper mache broadswords at forty paces.

Second—Because a journalist once ran his adversary through the little finger in a duel, no journalists are eligible for membership. It was not a gentlemanly thing to do.

Third—A charge of high treason is the only accusation which shall be held to justify a duel.

Fourth—If one gentleman admits his regret for having employed the upper registers of his voice when he called another gentleman an atrocious scoundrel, it shall be held to constitute an apology.

Fifth—No duel shall be held until the police have had twenty-four hours' notice of the exact time and place thereof.

Six—The challenged party may honorably refuse to fight if he dislikes the color of his adversary's hair.

Seventh—No gentleman shall be forced to fight an adversary who has ever been convicted of courage. The conditions would be too unequal.

Eighth—Any member of this league who is under way for a magnificent club house. It will be built on an island in the Seine, and will be approachable over a drawbridge, which will be lowered only for those who can give the countersign.

**RACES AT OAKLAND.**

Princess Titania, Favorite, Shuts Out 100 to 1 Shot.

San Francisco, March 6.—Close finishes marked the racing at Oakland today. The weather was fine and the track heavy. In the six and one-half furlong handicap Deutschland, a 100 to 1 chance, led most of the way and was beaten only a head by Princess Titania, the favorite, upon which Dickkenruth put a goodly wager.

Military Man took the 3-year-old event by a narrow margin from Rowena. The Waterhouse cup at two and one-quarter miles will be the feature of tomorrow's sport. Nones, Cunard, Siddons and Col. Ballantyne will go to the post. Summary:

First race, six furlongs, selling—Pupit won, Handicap second, Greenock third, Time—1:37.

Second race, six and one-half furlongs, purse—Military Man won, Rowena second, Libbie Candi third, Time—1:42.

Third race, six furlongs, selling—Landowson won, Ripper second, Marinense third, Time—1:44.

Fourth race, six and one-half furlongs, handicap—Princess Titania won, Deutschland second, Beau Ormonde third, Time—1:51.

Fifth race, seven furlongs, selling—El Ponce won, Rose of May second, David S. third, Time—1:50.

Sixth race, mile and an eighth, selling—Greifeld won, Ledestart second, Canjejo third, Time—1:57.

**NEW ATHLETIC CLUB.**

New York Society Women Have Organized One.

New York, March 7.—Society women of this city have organized an athletic club, with members from the Newport and Long Island sets.

The club will be very exclusive. Members have thus far refused to allow their names to be used in connection with the club. They want a club-house and the Fifth avenue district, not far from the Delmonico and Sherry corners at Forty-fourth street. Athletics among the exclusive set have become exceedingly popular, during the last few years.

**DOINGS IN NEW YORK.**

New York, March 6.—Most of today's session of the American league baseball magnates was spent in discussing the report of the rules committee. Rule 44, relating to foul strikes, held the magnates in a heated deadlock for two hours, but the report was finally adopted by a sectional vote, 4 to 3. P. P. Shibe of Philadelphia refusing to vote. This is the rule that caused the trouble at the joint conference of the rules committee of the American and National leagues and the National association.

The American league has always opposed the rule but at the conference it was voted down by the National association voting with the National league. Since then there has been much talk about the American league refusing to pass the rule. The consensus of American league opinion is against the rule as being impracticable.

The report of the peace committee also was adopted, as was also the report of President Johnson and the board of directors declaring the Baltimore franchise forfeited.

The National baseball league resumed its sessions today and according to President Johnson finished all business except routine matters.

**LUCAS TO THE FRONT.**

Spokane, March 6.—The Chronicle states today that two new baseball teams have been organized to enter the Pacific Northwest league. One is at San Francisco and one at Los Angeles. The propositions have been financed, the grounds secured and application made to enter the league. Who the backers are is kept a secret but it is asserted these two teams will include drops Portland and Seattle.

There is a bare possibility that another team or two in California may be admitted, but this is not probable. The Chronicle also states that "King" Kelly, formerly Spokane's shortstop and "Father Tom" will be with Butte this year.

**ITCHING HUMORS.**

Complete treatment, consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales, and soften the thickened cuticle.

CUTICURA OINTMENT, to instantly allay itching, irritation, and inflammation, and soothe and heal, and CUTICURA RESOLVENT PILLS, to cool and cleanse the blood. A Single Set is often sufficient to cure the most torturing, disfiguring skin, scalp and blood humors, eczemas, rashes, itchings, and irritations, with loss of hair, from infancy to age, when all else fails.

Sold throughout the world.

**NEW CODE FOR DUELING.**

Anti-Duelling League of Paris Adopts Stringent Rules.

A wireless telegraph dispatch from Paris says: An active branch of the Anti-Duelling league, whose headquarters are under Emperor Wilhelm's hat, has been organized here. Count Boni de Castellane has been especially zealous

**Wanted—Herpicide**

**For Young Men**

What Authorities Say About Dandruff, Falling Hair and Baldness.

It Begins in the Young.

Chronic Baldness Positively Incurable.

Dr. Sabouraud, of Paris, France, one of the greatest living authorities upon diseases of the hair and scalp, has recently published the most exhaustive work ever written upon this subject. Dr. Cartez, himself an eminent investigator, in reviewing this book for La Nature, submits the Doctor's conclusions in the following terse announcement: "Baldness is a contagious disease caused by a microbe. So far from being a disease of old age, it is an affection of youth. IT BEGINS IN THE YOUNG, and increases, whether rapidly or slowly, up to the fiftieth year." We learn, therefore, that baldness as a destructive malady is not a disease of old age, but of youth, for in bald old men we simply see the RESULT of a disease that has been slowly doing its work for many years. The young man with abundant hair may not know that he has the disease that will later produce baldness; in fact, the first certain evidence of its presence is the appearance of dandruff, which is followed, sooner or later, by itching of the scalp, and finally the hair will begin to fall out.

Later in life the disease will have done its work, and chronic baldness, either partial or complete, will be the result. In chronic baldness the hair follicles, which completely fill the scalp, are greatly shrunken in size and this shrinking causes the skin to stretch and appear shiny, thus, in many cases, getting a full new crop. In which case, no power on earth can bring another crop of hair.

If the baldness is acute or only partial, it shows that many of the hair follicles are not badly diseased, for the microbe growth is confined to the sebaceous glands and has not yet extended to the papilla, or true hair root. Cases of this character are curable, even though the baldness is apparently complete. Newbro's Herpicide should be used until the last symptom of papillary growth has disappeared, and in connection with its use the scalp should be skilfully massaged to remove the dead hairs and keep up a full blood supply to the papillae. This treatment, persevered in, will enable persons partially bald to retain what hair they have, and in many cases get a full new crop. The first "shiny spot," for this shrinking process, by restricting the blood supply to the scalp, greatly hastens approaching baldness.

**NEWBRO'S HERPICIDE** will not grow hair, but it destroys the germ or parasite in the scalp and nurses the impoverished follicles back to health, thus permitting the hair to grow as nature intended.

DOCTOR WATERHOUSE, A WELL KNOWN PHYSICIAN OF IOWA, and member of the firm of Dyer & NEWBRO'S HERPICIDE, read his letter about it.

Messrs. Dyer & Waterhouse, Druggists, Charter Oak, Iowa.

I have used only one bottle and the result is surprising. The scalp has been thoroughly cleaned from dandruff; the old hair has been softened and strengthened, while short soft hair has already appeared in the bald spots; and I have been greatly relieved from headaches. I most earnestly recommend all afflicted, as I have been, to try NEWBRO'S HERPICIDE.

(Signed) REV. R. N. TOMS, Pastor, First Presbyterian Church, Charter Oak, Iowa.

A Delightful Hair Dressing. It Stops Itching of the Scalp Almost Instantly.

**WARNING.**

The success of Newbro's Herpicide has caused the market to be flooded with so-called dandruff germ destroyers. Don't expect satisfactory results from anything but the original Herpicide. The original Herpicide is sold at principal barber shops. Price \$1.00 at leading drug stores, or direct from THE HERPICIDE CO., Detroit, Mich.

**A Healthy Hair.**

**LOCAL EVENTS.**

**HARMONIE'S GOOD WORK.**

Took Five Straight Games From the Elks Last Evening.

**STANDING OF THE TEAMS.**

	Won.	Lost.	Per Cent
Brunswick	52	28	.650
Harmonie	51	29	.638
Railroads	32	48	.400
Elks	25	55	.313

The Harmonie bowlers are evidently determined to make a hard fight against the Brunswick team for the championship of the bowling league. Thursday night the latter took five straight games from the railroads and lost eight to the Harmonie crowd. The same thing with the Elks, which materially increased their percentage in the standing of the teams. In addition to the total number of games they had 27 points to the good and they accomplished this result with but little trouble. The Harmonies are now but one game behind the Brunswicks and they propose to go after the championship now in earnest. The scores last night were as follows:

**HARMONIE TEAM.**

Bauer	209	170	141	157	854
Silver	167	143	157	163	788
Spitz	161	132	155	162	760
Hamilton	132	151	161	154	763

**ELKS TEAM.**

Lynn	170	153	142	150	715
Tobin	148	158	135	163	704
McDerm	148	158	135	163	704
Faust	97	137	149	90	593

**L. D. S. GIRLS WIN.**

Had Easy Time Defeating Ogden Mutts—Score 17 to 4.

The girls' basketball teams representing the L. D. S. U. and the Deaf, Dumb and Blind Institute at Ogden, met in the former's gymnasium yesterday afternoon. The locals had an easy time disposing of the Junction City lasses although the latter played a desperate game and tried hard to hold their rivals down. The contest was rather rough and many fouls were committed but the errors were overlooked by the officials. The home team displayed better team work and was very accurate in basket throwing and for that reason carried off the honors. The summary follows:

L. D. S. U. 17. Position. Mutes, 2. M. Rathall, 1. L. F. ... Anna Davis

Refer, Bassett; umpires, Rasmussen and Bush; timekeeper, Richardson; scorer, Grogg; goals from the field, Janet Murdoch, 6; Myrtle Rathall, Anna Massey; goals from free throw,
