

WHY WORKINGMEN NEED PROTECTION

Taft Tells Them Reason and
What Result Would Have
Been Without It.

EXPERIENCE IN LABOR WORLD

This Decisions While on Bench Legal
Basis of Labor Organizations of
The Present Day.

East Liverpool, O., Oct. 13.—In the middle of the steel and iron district of Cleveland, William H. Taft today commanded the closest attention of an immense audience. The details of the meeting were known to the candidate but a half hour before he reached the city. The immense tent in which it was held was reached by a four-mile automobile ride through Cleveland, and the audience patiently waited the half-hour delay caused by the lateness of the candidate's train. When Mr. Taft appeared he was warmly welcomed. He began at once to talk with an earnestness which caused close attention. He showed from his viewpoint why American workmen needed the protection of the tariff and what had been the result when he had not been given that protection. Mr. Taft followed this with a detailed account of his own experience with the labor world. He explained that the decisions he had rendered while on the bench, and for which he was now condemned by Bryan and Gompers, were in reality the legal basis of labor organizations of the present day, and upon that basis they had grown and prospered until today they were stronger than ever.

The Taft special train into its first mishap today. The front trucks of the candidate's car and the rear trucks of the Pullman preceding it went off the track just as the train was coming to a halt on a siding at Sterling shortly after 10 o'clock this morning. A half-hour's delay was caused. No other damage was caused except that the track was torn up. The train moved about half a car length after the wheels were on the ground. Spreading of the rails on the siding was the explanation made by the railroad people.

Fourteen audiences were addressed by the candidate today. At Loraine a cheer for Debs when the candidate mentioned his name in connection with the labor cases he had handled while on the bench, inspired Mr. Taft to pay his compliments to Debs as a presidential candidate.

WON'T CRITICIZE DEBS.

"Mr. Debs is a Socialist," he said when the applause died out. "Mr. Debs is logical. He is opposed to the institutions of the country which have been established by the Constitution. He has a right to be, if he chooses, provided he accomplishes his ends by legal and non-violent ways. Therefore, I am not going to criticize Mr. Debs."

In Cleveland, after Mr. Taft had reviewed his labor record at length with an illustration of what he had to do with helping to build up labor organizations in the Philippines, and his administration in connection with the business annals of the labor movement, he said he had since been made a member of the union. He added:

GOES FOR GOMPERS.

"Accordingly, I received an invitation from a contractor to go in for a job, saying that they would be glad to have me, now that I was a regular member of the trades union, to go into the business annals of the labor movement. I said that I would certainly do it, and that I would communicate with them. I have had a good deal to do with labor as secretary of war. We have a great deal to do with the enforcement of the eight-hour law. Mr. Gompers is one of the active counsel of the American Federation of Labor, and I got the impression that the whole federation of labor was delivered body and soul by Gompers to the Democratic party and to Mr. Bryan, but it seems there are some left. Daniel Keefe, the head of the Longshoremen's union, with whom perhaps a number of my audience are acquainted, does not think that I am at all at odds with him. He is going to support me for the presidency because he says he has found in the dealings with me (and we have had a good many). I was just as fair to the interests which he represented as the head of the Longshoremen's union, and one of the executive council of the American Federation of Labor. I do not want to submit the letters of recommendation for the presidency, but a discussion seems to involve whether I am a tyrant, and oppressor of labor and otherwise, but I do not eat a laborer every morning for breakfast; that I am not engaged in fighting that which is the backbone and sinew of the nation—the laboring class. I am a democrat in sympathy. I am a real democrat. I am not referring to this historical designation that does not mean anything by reference to parties."

CURE SICK HEAD ACHE

Sick headache and relieve the troubles incident to a bilious condition, such as indigestion, nausea, dizziness, distress after eating, pain in the side, etc. While their most remarkable success has been in curing Headache, yet Carter's Little Liver Pills are equally valuable in Constipation, and in curing this another complaint, while they also correct all the vices of the stomach, stimulate the liver and regulate the bowels. They are only cured.

As they would be almost useless to those who suffer from this distressing complaint, but for the fact that they are so small and so easy to take. One or two pills make a dose. They are strictly vegetable and do not grip or purge, but by their gentle action please all who use them.

CARTER MEDICINE CO., NEW YORK.
Small Pill. Small Dose. Small Price.

EAT SAUSAGES AND NEW BREAD

Or Any Other Food You Enjoy
Without the Slightest Fear of
Stomach Misery Following.

INDIGESTION VANISHES.

Diapensin Will Digest Everything You
Eat Leaving Nothing to Ferment
And Form Into Gas or Other
Poisons Which Upset the
Stomach.

When your stomach is weak or lacking in gastric juice, anything that you eat, no difference what it is, will sour on your stomach, raise the bile and acids to cover your food like oil on water, causing indigestion, dyspepsia, stomach nervousness and belching of sour poisons, which produce foul odors, nasty taste, bilious headache, heartburn, intestinal griping and make you an object of misery. This is stomach trouble which can not be overcome with ordinary digestive medicines. It is caused by fermentation of your food, which will be remedied at once by Pape's Diapensin, a preparation pleasant to take and as harmless as candy, though it will digest and prepare for assimilation into the blood all the food you eat.

Indigestion is a result, not a cause of your trouble. If the stomach is sour and unhealthy, your food becomes tainted and that's what is causing indigestion and gas on stomach and other miseries. Pape's Diapensin is an Antacid, most powerful digestive and thorough regulator for weak stomachs. These Triangles will digest any kind of food you eat and will cleanse the stomach and intestines in a natural way, which makes you feel the five minutes afterwards.

Any good Pharmacy here will supply you with a case of Pape's Diapensin for fifty cents. Just reading about this remarkable stomach preparation will not help. You should go now and get a case. Put your stomach in full health and by tomorrow you will forget the misery of stomach trouble. Your case is no different from many others. It isn't Stomach Nerves or Catarrh of the Stomach, or Gastritis, or Dyspepsia. It is Food rotting—Food Fermentation—that's all—and takes about five minutes to overcome.

SUFFRAGETTES AGAIN INVADE PARLIAMENT

London, Oct. 13.—In spite of all the precautions taken by the police, a militant suffragette succeeded in invading the house of commons this afternoon. The woman suddenly appeared at the bar of the house, waving her arms and shouting to the members that it was time to "talk about women."

She was immediately seized and carried away. Mrs. Drummond, Mrs. Parkhurst and Miss Christobel Parkhurst, who appeared last week to the public to help them "wash" the house of commons, were arrested, charged with inciting disorder, and were locked up.

The unemployed of London, acting with the woman suffragists, are practically compelling parliament to hold its meeting in a state of siege. Early this afternoon several hundred shabbily dressed representatives of the workers gathered at Westminster to hold their meeting in a state of siege. Early this afternoon several hundred shabbily dressed representatives of the workers gathered at Westminster to hold their meeting in a state of siege. Early this afternoon several hundred shabbily dressed representatives of the workers gathered at Westminster to hold their meeting in a state of siege.

BOUND TO ENLIST.

Young Man Undergoes Operation to
Be Made Physically Fit.

Chicago, Oct. 14.—Inheriting a fighting spirit, Albert Sylvester, 21 years old, submitted to an operation which laid him up for three weeks in order that he might be physically able to enter the army.

On June 8, last, he applied at a recruiting station for service. He was rejected because he was afflicted with what is known as "hammer toes," that is, the toes on both feet were pushed under on account of the constant wearing of too short shoes.

Not discouraged, he went to work as a laborer and saved \$50, and then went to a Western hospital and submitted to an operation.

Entirely cured, he presented himself for enlistment.

Lieut. Franklin of the army examined the feet and found them in good condition. As it was necessary to obtain special authority from the war department to accept Sylvester, Lieut. Kenny wired the war department at Washington. He received a favorable reply.

Sylvester was sent to Jefferson barracks to begin his duties.

Sylvester's father, a grandfather was soldier in the German army.

OPIMUM TRADE DECLINING.

Washington, Oct. 14.—That the opium traffic in this country is on the decline is indicated by the latest figures compiled by the bureau of statistics showing that opium imports have been decreasing about one-quarter of a million dollars during 1908, as compared to the previous year. Thus far during the year, the Chinese empire has shipped this country with \$1,322,091 worth of opium, while for elsewhere the opium imports amount to only \$14,012.

A DEER FROM THE ANDES.

New York, Oct. 14.—From the perpetual snows of the Andes, a benito deer has been brought to New York and is now in the Washington Heights zoological garden at Wilmington, Del., in compliance to that city for having been the place where the Zulia, a shipwrecked of the Red D line was built. G. A. Hughes, purser of the Zulia will take the animal to Wilmington while the Zulia lies in port here. It is believed that is the only benito in captivity north of the equator.

MEAT PACKERS HOLD ANNUAL BANQUET.

Chicago, Oct. 14.—The third annual banquet of the American Meat Packers association was held at the Auditorium Annex last night. Five hundred packers were guests at the dinner, which was as nearly a reproduction of those at which King Charles II. was host as possible. The banquet hall was filled with a blaze of trumpets, a baron of beef weighing nearly 500 pounds was carried into the banquet hall by a dozen red coated and bearded waiters. The beef was carried at the head of a long procession of similarly attired waiters around the hall. Next in the procession was the

traditional bear's head and then came waiters with 40 little cups such as were used in old London inns.

After encircling the hall the procession finally drew up before the speaker's table, opposite the seat of President James S. Agar. The waiters, who had been specially drilled for the occasion, saluted the speakers by singing "The Roast Beef of England."

There was music. Old ale imported from England served in unique copper, porcelain, and silver steins. After the cheese and coffee more red coated waiters appeared with long churchwarden pipes, which the packers smoked in true English style, while speakers voiced the praise of the American beef.

COLD WEATHER ADVICE.

To all is to beware of coughs and colds on the chest, as neglected they readily lead to pneumonia, consumption or other pulmonary troubles. Just as soon as the cough appears treat it with Ballard's Horehound Syrup the standard cure of America. Use as directed—perfectly harmless. A cure and preventive for all diseases of the lungs. Price, 25c. 50c and \$1.00 per bottle. For sale by Z. C. M. L. Drug Store, 112 and 114 South Main St.

SINGERS SUPERSTITIOUS.

So They Would Not Land from
Steamer on the Thirteenth.

New York, Oct. 14.—The strenuous efforts of Capt. Pollak, of the North German-Lloyd steamship Kaiser Wilhelm der Grosse to land his load of opera singers, conductors, pianists and actors, last night failed because the superstition regarding the fatal 13th proved to be too strong, and not one of the celebrities he had on board his ship could leave it until today.

On the Kaiser Wilhelm were Signor Campini, musical director of the Manhattan opera; Mme. Johanna Gadski, one of the leading sopranos of the Metropolitan Opera company; Daddi, baritone in Oscar Hammerstein's company; Mile. Matja von Neisson-Stone, a new contralto for the Metropolitan; Josef Lhevinne, the noted pianist, and Nellie Roland, who is to appear with Marion Terry in "Divorce." Not one of them could be persuaded to set foot on land last night.

In vain Oscar Hammerstein, who was on the dock to get Campini, imploring him to come ashore in order that they might talk over the impending operatic season that is so soon to open. It was no use. Mme. Gadski declared that she would abide by Mr. Campini's decision, and Daddi and Lhevinne and Mile. Neisson-Stone and Miss Roland decided that they would cling together. There was a long consultation in the saloon of the ship and in the end Campini's counsel prevailed.

FOR CHRONIC DIARRHOEA.

"While in the army in 1863 I was taken with chronic diarrhoea," says George M. Patton of South Gibson, Pa. "I have since tried many remedies but without any permanent relief, until Mr. A. M. Miles, of this place, persuaded me to try Chamberlain's Colic, Cholera and Diarrhoea Remedy, one bottle of which stopped it at once." For sale by all druggists.

RUMMAGE SALE.

At First Pres. Church, Friday, Oct. 16, at 8:30 a. m., corner of Brigham and C streets.

WORK FOR STUDENTS OF COLUMBIA UNIVERSITY

New York, Oct. 14.—According to the report of the bureau of employment for students of Columbia university, students at the university earned last year \$95,865.

Of this sum \$25,769.15 was earned by 235 students, who secured positions through the commission. This is \$15,000 less than the student earnings of the previous year, but the commission considers the financial depression responsible for the falling off.

Of the 235 students who found employment through the commission, the majority were engaged in tutoring, bookkeeping, proof reading, draughting, stenography and typewriting. Sixty taught in night schools, 28 found employment as waiters and bartenders, three were chauffeurs, and two tended furnaces.

LAME BACK.

This ailment is usually caused by rheumatism of the muscles of the back, and is quickly cured by applying Chamberlain's Liniment two or three times a day and massaging the parts at each application. For sale by all druggists.

Itching, torturing skin eruptions, disfigure, annoy, drive you wild. Doan's Ointment brings quick relief and lasting cures. Fifty cents at any drug store.

AMERICAN PLOWS IN TASMANIA.

Washington, Oct. 14.—American makers of plows and harvesting machinery are losing their trade, which 20 years ago they almost exclusively controlled in Tasmania, according to Consul Henry D. Baker. This is attributed to the failure of American dealers to recognize Tasmania's requirements. Consul Baker declares that there should be a good market for cultivating implements in Tasmania, if implements of the best quality suitable to that country are manufactured.

NO CLASS FIGHTS.

Chancellor Andrews of Nebraska University Issues Decree Against Them.

Lincoln, Neb., Oct. 13.—In a signed statement issued today, Chancellor Andrews of the state university, forbids class fights, kidnappings and sneak days and night gown parades. Chancellor Andrews declares that any students participating in the forbidden activities will be expelled from the university.

GIVEN UP FOR DEAD KIDNAPED BOY RETURNS

Chicago, Oct. 14.—After an absence of nearly four weeks and given up as dead by his parents, Giuseppe Glusa, seven years old, was found yesterday by a policeman wandering about the Grand Central depot. He was taken to a police station where he was later claimed by his father, Antonio Giusta, a retired grocer, and taken home.

The boy is so frightened that he is unable to give any information as to where he has been since he was kidnapped on Sept. 19 from in front of his home, where he was playing with some companions. The boy's right wrist and two fingers on his right hand are badly scarred, and it was thought the marks were caused by thongs used in binding him, but he told his mother that he had been burned, whether by accident or his captors, he would not tell.

A week after the disappearance of the boy, the father received a letter demanding a ransom of \$10,000. The money was to be given to his best friend, and when it was delivered the boy would be returned. The letter was signed with three crosses. The writer intimated that harm would befall the

GUM GAMBOGE.

How it is Secured in the Colony of
Cochin China.

Inquiries having recently reached Consul Jacob B. Conner at Saigon in regard to gum gamboge, which is exported from that Cochin China port to London usually and thence to the United States, he furnishes the following information.

Gum gamboge, or "gamme gutte," as the French call it, is the crude resinous juice of one of the forest trees of

Cambodia and Laos. The tree is also found in Siam, Ceylon, and elsewhere, and is known to science as the garcinia marilla, pedunculata, according to other authorities, pedunculata. The better grade is yellowish in color, while a grade somewhat inferior, about 1 1/2 to 2 francs per picul (25 to 35 cents per 12 1/2 pounds) cheaper, is a brownish color.

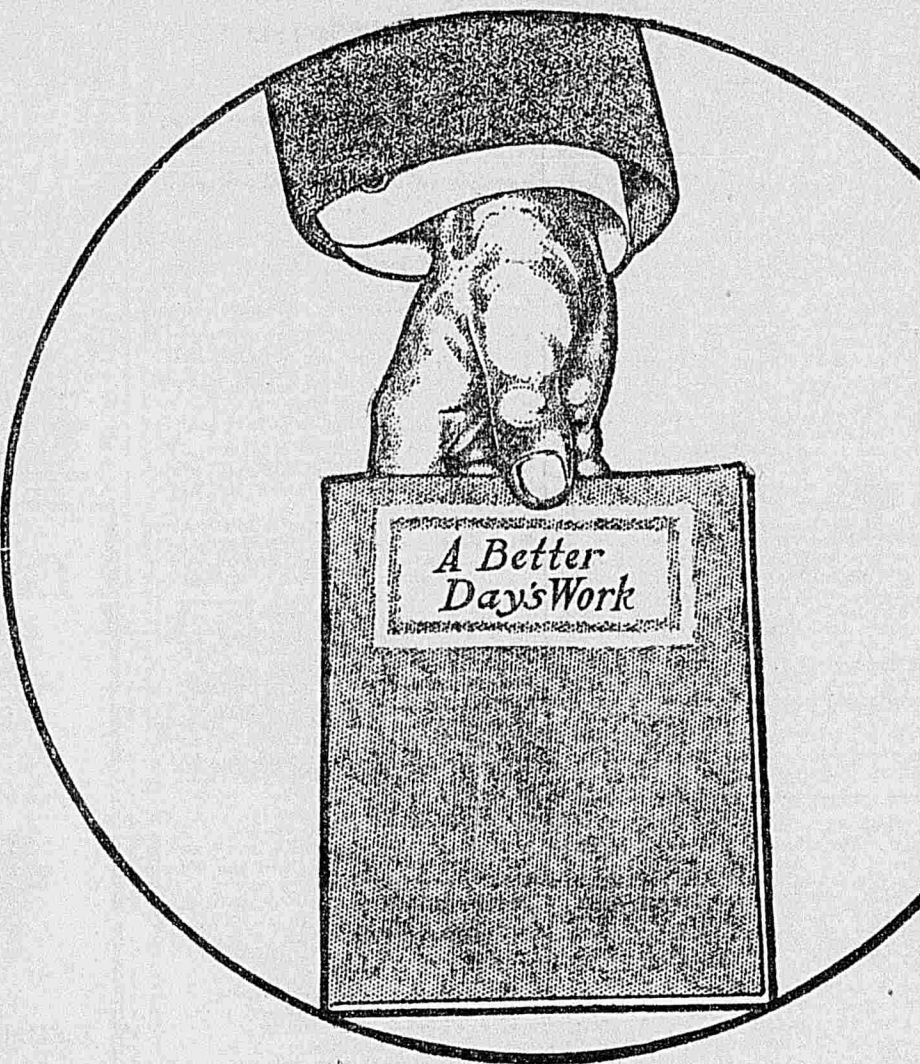

The natives obtain the juice by making an incision in the tree, into which they insert the end of a bamboo. When the bamboo is filled it is removed and split open, the gum removed and bent into folds convenient for handling, and in this condition it enters the channels of commerce.

The shipments from Saigon for the year 1907 amounted to 186 tons gross, or about 140 tons net, worth \$11,450, or about \$1,124 per ton, a little over 65 cents per pound.

It is greatly desired by manufacturers of paints and varnishes, and is used also for medicinal purposes.

LABORERS WANTED.

Labor can be secured at the sugar factory, Sugar City, Idaho. Average wages, 20 cents an hour, no transportation paid. For further particulars see Geo. A. Smith, Utah, Idaho Sugar Offices, Salt Lake.

Free

A Book of Better Days for the Man at the Desk.

Here is a book--interesting as a novel, instructive as a text book--telling some of the simple error-proof, time-work-and-worry-saving methods used by many of the 70,000 little as well as large--but always successful--Burroughs users in this country--and it is free to you.

Every word here means a dollar-and-cent saving to the employer who pays money to have the figures of his business handled by employees.

It is a book of inside information--information about the accounting short cuts, "stunts" of successful bookkeepers, cashiers, auditors, sales managers, treasurers and shippers--in fact, nearly 50 different suggestions illustrated by forms, tabulations and drawings.

Each suggestion has come to us from actual practice, through the Clearing House of Business Systems which this Company maintains at an expense of nearly \$100,000 a year, just to give business men an opportunity to realize what the adding and listing machine can do for a business system.

Of course, it is an advertisement.

It is not a catalog.

It is the result of scholarly research and business experience.

But it is a different-from-the-usual advertisement--it gives you something for nothing--because you can save time by using the ideas without the Burroughs--but you can save two to five times as much time, and all the work and worry, by using a Burroughs.

If you never used a Burroughs you'll think this an exaggeration.

If you have used one you know this is a conservative and modest estimate of the value of the machine.

Every Bookkeeper--Yours, too--Needs this Book

There is not a bookkeeper in this country that could not use these ideas to the betterment of his work--not one that could not do his work more quickly, more easily, more accurately, as a result of applying some of the suggestions.

Thousands of Burroughs bookkeepers know this--admit it gladly and are getting better pay because they have gained time and opportunity in which to do more and better work--for every word on every page shows an opportunity to do more and better work and that always means better pay.

The new generation of bookkeepers are learning the things described in this book.

It is a significant fact that over 200 of the leading business schools, colleges and universities have purchased Burroughs in the past couple of years; that they are teaching their students how to apply the machine to accounting methods, shortening the work, increasing the accuracy. These schools feel the demand for clerks who know how to get more and better work done in a given length of time.

They are meeting it.

Are you?

At first some bookkeepers prided themselves on the fact that "they could get along without a Burroughs"--of course they could--just as all of us can get along without the typewriter, telephone, steam cars, clocks and watches, telegraph--any of the hundreds of time, work and worry savers of the 20th century--but we are not foolish enough to try.

THE BOOK IS FREE.

It is free--for your name on your letterhead--or on the coupon--sent to our factory at Detroit, or to Mr. W. J. Parish, our sales manager, for Colorado, Utah, New Mexico, etc. at 1526 Court Place, Denver, Col. and 60 W. Second South St., Salt Lake City, Utah. Mr. Parish hasn't any copies of the book for distribution, but will forward your request to the factory, from where a copy will be promptly forwarded.
