Mysterious Bicycle Housebreaker Gathered in by Police Last Evening-Partial List of Goods.

At 5 o'clock last evening, Office" "Dick" Eddington arrested the man who has committed twenty burglaries in this city within a month. His name is Shadrach Green, who resides at 321 Water street. He was arrested just as he was coming out of the Apex saloon, on East Temple street, and when taken to the police station confessed that he was the man wanted. He gave as a reason for his crimes the illness of his wife who is now in the hospital, and told in a straightforward manner of the places he had robbed and what he got away with. called at the station this morning and identified three gold rings, one a dia-He is the man who has employed the mond, and other pieces of jewelry. Yesterday morning the first good description of the mysterious individual was obtained and for several hours Officers Sperry and Dait. Yesterday Green took the ring to Litchenstein's to be made smaller. He vies waited out near the hospital for him. Early in the afternoon Chief Hilsaid he was going to make his wife a present of it. The wheel Green was ton and Detective Sheets learned that the fellow was around trying to pawn a ring which answered to the descrippresent of it. The wheel Green was using was also stolen and has been pawned in Shapiro's shop on Second South. Since Green pawned it he stole another wheel which will be recovered. Two of the silk skirts sold to Ida Walker were found hidden in a stove. A pair of slippers which had been sold there were found by Officer Eddington. They had been thrown over a fence by a Chinaman working at the record tion of the one stolen from Judge Dininny's residence Sunday afternoon. Chief Hilton, Detective Sheets and nearly the entire afternoon shift began hearly the entire attendon shift began to search in earnest for him, but it was not until 5 o'clock that Officer Edding-ton located him as described above. Green at once admitted he was the bur-glar, and said that he had only been married two months, and two weeks by a Chinaman working at the resort. The Mongolian was locked up but was afterwards released. It is likely that Ida Walker and her women will be ago his wife was taken seriously ill and he had to send her to the hospital for treatment. In speaking of the case today, De-tective Sheets said it was not known yet how many cases would be filed against Green. In relating his meththe bolice, and has a shary character. He has served terms in the city jall for petty offenses and a term of two years and a half in the Utah State pri-son for housebreaking. He was sen-tenced in November, 1898. He is now charged with housebreak-bre and Dototing Sharp state is in the sentence of th od of robbery, Green said he never entered a house that had a window up, He said he rode about town on a wheel and when he observed a place that had the appearance of heing securely locked, ing, and Detective Sheets stated to a "News" reporter last evening that they could bring twenty cases against him, but that Green promised, if given "a fair deal" to "dig up" the property he he immediately robbed it. "If people would leave their doors and windows wide apen." said he, "they would never be robbed, because bur-glars would be afraid somebody would has stolen. He took his arrest calmly, and asked be home. But when the places are locked, and all the windows down in this hot weather, its a cinch that there the privilege of telephoning to his wife and break the news sently to her. He was taken into Chief Hilton's prithis hot weather, its a cinch that there ain't nobody home then it's easy." The young burglar's wife and father called on him today and he talked freely to them of his case. His wife has been discharged from the hospital. She is almost prostrated with grief over the terrible discovery that her husband is a crook. She cried and sobled in the most hearthearding vate office and leaning over the desk in a careless manner culetly related his experience and tried to recall the places he had entered. In reference to the Dininny ring, he said: "I thought I had made a great haul when I read that the ring was worth \$65, but Gee! when I tried to "soak" it I could not get even \$10 on it. I want to tell you about Rishop Sperry's place. I was there allright, but I didn't get a thing, so if anything was taken some other fellow got it. I know I didn't." and sobbed in the most heartrending manner. She said she had heard that be, but never would believe anything bad of him because he was always good He told of another place he had robplead guilty to the charges brought against him and get started on his septence at once. Then I will go to the county jail for a little while and when my trial comes up I will plead miller. he said, "and I heard someone else walking around, but do you know I elieve now it was another fellow on the same lay." He said he ran out the back door while the other "fellow" went out of the front.

What will undoubtedly be the biggest | recently, and this morning, when the articles were signed up, the boys start-ed right away to get down to business. Each of them got his friends among the "pros" engaged as pace makers to take the track on tandems when the motors gave out, with instructions to hit it out all of the time. It is expect-ed that the man who wins will have to sit his saddle through the whole race John Lawson is an old hand at twen-ty-four hour and six-day races, being the recognized champion of the world for the former event. King won last year at Los Angeles in a similar event h most of the fast men in the coun-try entered, which shows that he isn't Tur by any means new to the game. ville's beautiful pace following has been

That is the only paced race that Truville has ever lost. When he tacks on the rear wheel of a motor, it seems that it is impossible to beat

The men will be allowed, for the first time on the track, to use wind shields, which will greatly help them in making good time. If the world's record is broken, and it is likely that it will be, a special purse, in addition to the regular one offered the winner, will be given by the management of the track.

In order to make the race interesting all of the time, motor races have been arranged for, to take place while the boys are off the track being rubbed down. The motors which are furnishdown. ing the pace will ride it out to a finish for all distances up to five miles. In this way, a little diversion will be added to the event, and excitement there will be in plenty.

The Salt Palace was well filled last evening by a hilarious crowd which found plenty of food for enjoyment in the bill of fare presented by the Wilbur-Kirwin Opera company. The evening was one of straight vaudeville and burlesque, and the various acts showed a great improvement over the week previous. The greatest applause was accorded the act of the four tramps and the burlesque on grand opera rendered by Mr. Kohnie and Miss Kirwin. The feature by the ladies' groups was also quite "fetching." Dur-ing the evening the company presented a number of extras in honor of Mr. Eugene Ware, the Kansas poet, who was in the audience and who greatly appreciated the hits. The same bill runs for the remainder

of the week.

The advance sale for "Mrs. Dane's Defence" opens at the box office of the Theater tomorrow morning and an immense crowd is looked for.
