

REPUBLICAN CAMPAIGN BOOK

It Contains 273 Pages and Embraces Every Conceivable Subject.

SENATOR SMOOT'S CASE CITED

Slight Reduction of Tariff Would Result in Dumping Foreign Goods on Our Shores.

Washington, Sept. 9.—The Republican party, its achievements for half a century and particularly its record in the present Congress, is commended to the voters of the country in the campaign book given out today by the Republican congressional committee. The book contains 273 pages and is replete with Republican doctrine, embracing practically every conceivable subject upon which information may be desired. Radicalism or conservatism, it is declared, are never matters of concern to Republicans. "The truth is," it says, "they are content with the practical and progressive ideas and the matured policy of the party." Every statement made and all figures presented are declared in the preface of the book to be official and authoritative, and the preface concludes:

"The truth is the highest exemplification of Republican doctrine and policy and party record, the best plea that can be made for continuation in power."

CAMPAIGN ISSUES.

In discussing the campaign issues of 1906 the book calls attention to the fact that since the termination of the Fifty-third Congress, in 1895, the house of representatives has been Republican and adds that there is every reason to expect that a substantial work of Republican majorities will be elected next November. "During those 10 years," it is stated, "we have made a greater advance as a nation and a people than was ever made before in a generation, and in many respects greater than during our whole previous history. There can not, then, be the least doubt that the Republican success in the next election will be the result of the careful study of the record of the two parties."

NEW VOTERS.

"There will be thousands and thousands of new voters," the book says, "who will vote for the first time in November, who were mere children when the Democrats last had a majority in the house of representatives, and they do not all vividly remember the useful times and conditions brought on the country by the Democrats. They are not born when the only Democratic president since the civil war was first elected. They were babes in arms when Grover Cleveland sent his famous or infamous free trade message to Congress and when, a year after the tariff was passed by the Democratic house of representatives of the Fifty-third Congress, but, fortunately, there was then a Republican senate to prevent the enactment of a free trade law, and in 1892 the Democrats had the presidency and both the senate and the house of representatives, and the work of that single Fifty-third Congress cost the industries and people of the country many billions of dollars and incalculable suffering. These facts should be weighed with the record of the Republican party before and since, and especially should the record of the present Congress be studied, for though its work is not finished, it has already been done in one session than by any previous Congress since war of the rebellion." Only Democratic success, it is declared, can prevent the giving to the people of the country new records in every phase of industrial life.

PARTY CLAIMS.

The book then continues: "The Republicans have a right to claim that our financial, commercial and industrial advancement is due to the laws enacted and executed by their party leaders. The party came into power when the government and the people were practically bankrupt and without credit. A disrupted Union was restored, the people's pockets were refilled, a protective tariff enacted from time to time and the development of the country continued until the Democratic check came in 1894."

But, it is stated, "the people were quick to see their mistake, and at the first opportunity restored the Republican party to full power, and no party change has been made since during a period of 10 years."

INDUSTRIAL SITUATION.

The industrial situation is claimed to be unparalleled in the annals of nations. "Our volume of employment," the statement continues, "our rewards of labor, our enjoyment of life were never before so equalled, and, best of all, there is no sign of abatement or signal of recession. There is prospect of still greater and greater results, and only the rank and file pessimist can see a cloud on our national material horizon."

Because of the various financial and business measures of the Republicans, the book says, have brought about competition in manufactures, it is declared that a "boom" market has been built up in this country of such magnitude that for several years we have given full employment at wages that have been paid when the Republican party came into power. In some cases these wages are treble and quadruple what they were in 1890."

It Takes Nerve

Everything depends upon your nerves. It is nerve force that causes the brain to direct the motion of your body; it is nerve force that causes your heart to pulsate, and send the blood through your veins; it is nerve force that causes your stomach to digest food, your kidneys to filter the blood, and the liver to secrete bile.

In fact, nerve force is the power that runs your body, so if you feel worn-out, irritable, nervous, cannot sleep, or eat well, have pain or misery anywhere, your nerves are weak, and your system run-down. To restore this vitality take Dr. Miles' Nerve which will strengthen and build up the nerves. You cannot be healthy without strong nerves.

"For eighteen years Dr. Miles' Nerve and Anti-Pain Pills have been my close companions. Early in married life, while raising children, my nerves became all worn-out—could not sleep, had no appetite, indigestion very bad, and such awful dizzy spells. Then I began using Dr. Miles' Nerve, and at once I began to improve, and soon found myself in perfect health."

Miles Medical Co., Elkhart, Ind.

at the last session of Congress include the subjects of railway rates, Panama canal, pure food, meat inspection, free alcohol, statehood admission, consular reorganization, national quarantine against yellow fever, rigid steamboat inspection, limitation of immunity of witnesses in criminal cases, proposition of militia efficiency, aid to the Philippines, establishment of a national cemetery embracing the grave of Andrew Jackson with 15 acres of land, marking the graves of confederate soldiers, Jamestown exposition aid, \$20 public arts altogether, 3,695 private pension acts.

THE SMOOT CASE.

Among the measures referred to as left over for the next session of the present Congress are:

The Santo Domingo, Isle of Pines and Morocco treaties; immigration restriction (in conference); Senator Smoot's right to seat, campaign publicity, shipping bill, modification of Chinese exclusion laws, anti-infection bill, eight-hour law, establishment of postal savings banks and parcel post, limiting working hours of every railway employee, Porto Rican citizenship in the United States, reduction of tariff on Philippine products, copyright revision, and establishment of a national cemetery embracing the grave of Andrew Jackson with 15 acres of land, marking the graves of confederate soldiers, Jamestown exposition aid, \$20 public arts altogether, 3,695 private pension acts.

The keynote of the discussion of the tariff question is sounded in the following statement:

"Protectionists are content to let the present law stand without change or amendment so long as present conditions prevail."

"A slight reduction in many of our schedules," says the campaign book, "would result in the dumping into our market of perhaps \$1,000,000,000 worth of manufactures annually more than we now import. That would mean a resort to one of two things. We would have to close our mills or reduce wages. There is positively no other alternative."

DINGLEY LAW SACRED.

"Protectionists do not claim that schedules are sacred and never to be altered. They do claim, however, that the so-called American system of protection as exemplified by the operation of the Dingley law for nine years is sacred and must be maintained. We do not have to theorize in the least degree. We have tried and tried thoroughly both high and low tariffs, and we have experience as an example to guide us in reaching the truth."

"We need go back no farther in our history than a decade to learn that a low tariff means insufficient revenue, closing our manufacturing industries for millions of our laborers and low wages for other millions and unprofitable prices for our farmers."

"A mere handful, however, of the Republican party have been asking that the duty be lowered or reduced upon certain materials entering into the products of their own locality. It is believed that this demand has been made more for political than economical results."

NEGRO QUESTION.

Regarding the negro in politics, the statement is made that the mere mention of the facts well known to every observer of the times will suffice to indicate the relative attitude of the two great political parties toward the colored citizen. "The Republican party," it is said, "believes in the political equality of all men without reference to race or nationality while the Democratic party believes in restricting the privileges of citizenship to a particular class, and has written her opinions into the statutes, constitutions and practices of nearly every southern state where that party is dominant."

After quoting the letter of President Roosevelt of Aug. 18 last, to Representative Watson of Indiana, analyzing the issues of the coming campaign, the book closes with a quotation from what is given as Speaker Cannon's "new platform":

"Put none but home made cake in the pantry."

COUNT VON ARNIM DEAD.

For Past Twelve Years Was Chief Steward of the Waldorf Astoria.

New York, Sept. 9.—Count Ludwig von Arnim, for the past 12 years chief steward of the Waldorf-Astoria, whose grandfather was ambassador of Germany to France, died tonight at the reception hospital, Coney Island.

The court with a number of friends left the Waldorf at noon today in an automobile to go to Manhattan Beach. He went in bathing and on leaving the water complained of not feeling well. He went to the dressing room and some time later was found unconscious.

WOULD DRIVE OUT BRITISH.

London, Sept. 10.—The correspondent at Simla of the Daily Mail reports that a speech recently was delivered at Asanool Bengal, in which Bengali mob was openly incited to violence against the British, the speaker calling upon the "races of India to combine and drive them out of the country."

The dispatch adds that an important native journal declares that the Hindus aim to have India free of British control.

OHIO REFORMATORY BURNED.

Mansfield, O., Sept. 9.—Fire today destroyed the building which the Ohio reformatory grounds occupied by the Brownell Bros. & Wm. Goods company. Loss \$100,000.

INDEPENDENCE LEAGUE MEETING

Regarded as Certain That it Will Name Hearst for Governor Of New York.

MAINE ELECTION UNCERTAIN.

Political Leaders of Both Parties Realize That Uncertainty Exists to An Unusual Degree.

New York, Sept. 10.—On Tuesday, Sept. 11, the convention of the Independence league of New York state will be called to order in New York City. The sessions will last two days. The league may or may not nominate a full state ticket, sentiment being divided as to the wisdom of placing an entire ticket in the field. Some of the delegates favor nominations for governor and lieutenant governor only. It is regarded as a certainty that William H. Hearst will be selected by the league to stand as its candidate for chief executive of the state.

The executive committee of the Independence league made a statement today relative to the prospective action of the league convention and the discussion of fusion with other organizations, in which it said:

"The question of fusion with any party has not originated with the league, although the league would naturally welcome the support of any individual citizen or any group of citizens, or any convention of citizens which chose to work with it and accomplish the objects that it has been formed to accomplish. It is not the place of the Independence league to make overtures for co-operation, but it could not well refuse to consider them if they were made to it in good faith and for good purposes."

"We are informed that a memorial is being circulated among Democratic delegates addressed to the Independence league, and formally requesting such co-operation. Of course, the memorial, if submitted, will receive at least respectful consideration. The action of the convention, however, can not be foreseen. Substantially the same will be dependent upon whether the proposed co-operation expressed fully the principles of the league and contemplated the nomination of men who will clearly represent and permanently maintain those principles."

MAINE ELECTION.

On the eve of the Maine state election, the political leaders of both parties feel that uncertainty exists to an unusual degree throughout the state, and many surprises are looked for Monday when the ballots shall have been counted. Two of the most popular Republican stand out especially in the element of uncertainty—Gov. William M. Cobb and Congressman Charles E. Littlefield—both of whom are residents of Rockland, and both of whom seek re-election.

Gov. Cobb has made his campaign on purely state issues, but the candidacy of Mr. Littlefield has been given wide prominence on account of the fact that he has been opposed by Samuel Gompers, president of the American Federation of Labor, who has made many speeches in Littlefield's district in the last few weeks.

Republican leaders are quoted as admitting that, largely because of the operation of the so-called Sturgis liquor law, the state ticket will probably not have a plurality exceeding 15,000, while for nearly a decade the Republican plurality has been in excess of 25,000.

MARYLAND PROHIBITIONISTS.

On Wednesday the Prohibitionists of Maryland will meet at Laurel. Also on Wednesday the graduation exercises of the naval academy at Annapolis will take place.

The national conventions of the Brotherhood of Locomotive Engineers and the Brotherhood of Locomotive Firemen will meet at Milwaukee.

OHIO REPUBLICANS.

Although the Republican state convention which meets at Dayton, O., Tuesday, is held for the nomination of candidates for secretary of state and other state offices, the pre-convention interest centered on the equal endorsement of the president and the two senators, and on the contest of Senator Dick for re-election as chairman of the state committee. Notwithstanding the fact that the state ticket is in his home county, Senator Dick expresses full confidence in his own success.

However, Harry Daugherty and Congressman Burton express equal confidence in the success of the fight against the retention of Senator Dick. The endorsement of both President Roosevelt and the Ohio representatives notwithstanding their differences over various matters of legislation at Washington, is being sought by many delegates, while others are equally insistent that the president be endorsed and that the senators be ignored or at most given a merely perfunctory resolution of commendation.

CONNECTICUT DEMOCRATS.

The Democrats of Connecticut also will meet in convention at Hartford on Tuesday to nominate candidates for the various state offices. It is expected that Charles F. Thayer of Norwalk will be named for governor and John M. Ney of Hartford for lieutenant governor. On the same day the California

Fail to Select Food Nature Demands to Ward Off Ailments

A Ky. lady speaking about food, says: "I was accustomed to eating all kinds of ordinary food until, for some season, indigestion and nervous prostration set in."

"After I had run down seriously my attention was called to the necessity of some change in my diet, and I discontinued my ordinary breakfast and began using Grape-Nuts with a good quality of rich cream."

"In a few days my condition changed in a remarkable way, and I began to have a strength that I had never possessed before, a vigor of body and a peace of mind that amazed me. It was entirely new in my experience."

"My former attacks of indigestion had been accompanied by heat flashes, and many times my condition was distressing with blind spots of darkness, rush of blood to the head and neuralgic pains in the chest."

"Since using Grape-Nuts alone for breakfast I have been free from these troubles except at times when I have indulged in rich, greasy foods in quantity, then I would be warned by a pain under the left shoulder blade, and unless I heeded the warning the old trouble would come back, but when I finally got to know where these troubles originated I returned to my Grape-Nuts and cream and the pain and disturbance left very quickly."

"I am now in prime health as a result of my use of Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

Democratic convention will meet at Sacramento.

EMPEROR WILLIAM WORKING OUT WAR PROBLEM

Legnitz, Prussia, Sept. 9.—Two armies, each about 40,000, began tonight the task of working out a theoretical problem of war under the personal supervision of Emperor William.

The location of the various commands and their general objectives have been communicated in confidence to the newspaper correspondents as a key to the operations, but are not for publication until Wednesday. A strong effort is being made to simulate actual conditions of war. All the battalions and regiments have been brought to a war footing, and the operations will be continuous, night and day, until the umpires signal their cessation, which probably will be Thursday.

A state of war began this evening, and over the historic region associated with the glory of Frederick the Great and the disasters of the Napoleonic period troops are detaining.

The Blue army, under Gen. von Lindquist, is coming from the north to engage the Red forces, commanded by Gen. von Woyrich, which are lying somewhere between here and the Austrian frontier.

The emperor with his numerous foreign guests is spending the night at Breslau and will start for the field of the maneuvers at 4 o'clock tomorrow morning. The American officers who are within the maneuvers with Emperor William and Empress Augusta Victoria, took part in the field religious services held in the public square at Breslau this morning, and afterwards witnessed the unveiling of a monument to Karl von Clausewitz, the great German master of theoretical warfare, from whom Von Moltke drew his principles of strategy.

A large English delegation also was present at the unveiling, including the Duke of Connaught, Lord Londsdale, Gen. Ian Hamilton, Gen. Laurence Oliphant and Winston Spencer Churchill.

STANDARD OIL CASES.

Government May Use Evidence Gathered by Atty. Gen. Hadley.

Jefferson City, Mo., Sept. 9.—Charles Connor, special agent of the department of justice at Washington, who has been here for 10 days examining the evidence obtained by Atty. Gen. Hadley in his proceedings against the Standard Oil company, left last night for St. Paul, where he will submit a report on the result of his investigations to F. B. Kellogg, special counsel for the government in the Standard Oil investigation.

The preparation here is that proceedings will be instituted at St. Paul against the Standard Oil company.
