

Special Business Notices.

EDWIN ADAMS as "Enoch Arden" at the Theatre this evening.

GRAND matinee at the Theatre to-morrow—the "Marble Heart."

LAST appearance of Mr. Edwin Adams at the Theatre to-morrow evening.

G. F. CULMER & Co. announce window glass at old prices. See their advt.

RAILROAD ties wanted, 200,000. See advt.

SPECIAL NOTICE.—The Retail Dry Goods and Grocery Department and the Book and Shoe Department of Z. C. M. I. will be closed on Thursday and Friday, the 30th and 31st inst., and will re-open for business on Saturday, April 1st, at the Institution's new quarters on Main St.

The Wholesale Dry Goods, Grocery and Hardware Departments will not close.

Patrons will please go over themselves accordingly.

DR. J. C. AND PROF. McDONALD will visit Salt Lake City again upon Tuesday of this week, and remain until Thursday or Friday. Their patrons and those desiring consultation with the doctor, or to have a correct delineation of their character by the Professor, are invited to call at any early hour, as their stay will be limited. Office at the Townsend House. d112

Morton & Tufts, Wine and Liquor Dealers, First South Street. d111

RAILROAD TICKETS FOR SALE.—First-class tickets from Council Bluffs to Chicago, apply at Deseret News Office. d103

CRIMSON COAL.—This excellent coal is again in the market. Orders left at Z. C. M. I. Drug store, office at M. B. Callahan's, and sales yard near depot, will receive prompt attention. d101

LYON'S KATHARIN.—Lyon's Katharin is an invigorating tonic vegetable preparation, positively free from any mineral or deleterious substances. It is the most delightful of all hair dressing—cooling the head, allaying irritation, curing itching and itching, making the hair strong, fragrant, glossy and obedient to control, so cleanly to use that it will not soil the finest fabric, causing the hair to grow luxuriantly and beautifully, removing dandruff and pimples. No man or woman can become bald who will use the Lyon's Katharin properly. d104

Morton & Tufts, Wine and Liquor Dealers, First South Street.

CARL C. ARMSTRONG, practical Watchmaker and Jeweler. Opposite the Post Office. d69

JUST ARRIVED and now opening at Z. C. M. I. Shoe Department, one hundred new Men's Fine Calf Boots, price \$5.50, heretofore selling at \$5.50. Ladies' 16 thread Serge Shoes, high cut, at \$1.00, heretofore selling at \$2.50. Every pair warranted. d86

HUMAN HAIR.—Save your combings and have them made up into a switch for \$1.00 to \$1.50 at the Standard Hair Store, Wasatch Building. WM. I. VINEY, proprietor.

GEO. C. FERGUSON, watch maker, 11, First South St., a few doors east of Commercial St.

DON'T BE IMPOSED UPON!!!—H. Reiser, 4 doors east of Godde's drug store, has Watches and Clocks for all who want reliable timepieces. Repairing done on short notice. Everything warranted. d80

Morton & Tufts, Wine and Liquor Dealers, First South Street.

HAGEN'S MAGNOLIA BALM.—Is an unfailing prescription for a faultless complexion. Sallowiness, roughness, sunburn, moth patches, freckles, discoloration, dark spots, unwholesome paleness, tan, pimples, eruptions, redness and every other kind of blemish disappear like magic by the use of Hagen's Magnolia Balm. A few applications applied with a soft linen cloth will leave the delicate hues of refined beauty and youthful bloom. Its application cannot be detected and it is absolutely free from all possible harm, warranted purely a vegetable extract from the flowers of Southern France. d100

A World of Thanks is Due

To the botanist who first discovered the virtues of the *Quillaya Saponaria*, or Soap Tree of Chili. The wonderful cleansing and purifying property of the bark gives to the fragrant Quillaya much of its unrivaled efficacy as a preservative of the teeth.

AN EXTENDED POPULARITY.—Each year finds "Brown's Bronchial Trochee" in new localities in various parts of the world. For relieving Coughs, Colds, and Throat Diseases, the Trochee has been proved reliable.

PRICE OF GOLD.—Corrected daily by Deseret National Bank. Salt Lake City, April 6, 1905. Buying at \$114.15; selling at \$114.25.

THE RESURRECTION.—To accommodate the public and meet the great demand for President Young's discourse on the "Resurrection" it has been determined to issue an authorized edition, in pamphlet form, neatly got up, in paper covers, and sold at ten cents a copy. It is now ready, and can be obtained at the News Office.

MOUNTAIN WARBLER.—There being several hundred copies of the above Song Book remaining unsold, they can be obtained at the Deseret News Office for 10 cents per copy.

W. L. WILLES. S. L. City, March 15th, 1905.

EVENING NEWS.

Friday, April 7, 1905.

Local and Other Matters.

Thermometer 60 degrees F. in the shade at 1 p.m. to-day. Cloudy, breezy.

Blustery.—Is it blowing up for a storm to-day?

Good Friday.—Not to-day, but next Friday.

Firemen Attention.—The members of Wasatch Engine Company No. 2 are requested to meet at their engine house this (Friday) evening, at 7:30 o'clock.

FRANK MAY, Foreman. W. D. STARTUP, Secy.

Accident.—Brother James J. Chandler, of Willard, Box Elder County, called yesterday. We learn from him that William Lowe, blacksmith, of that place, while shoeing a horse, was struck by the animal's foot on the leg, breaking both bones, between the knee and ankle joints. He was attended to by Dr. Condon, of Ogden, and is doing as well as could be expected.

Y. M. M. I. A.—There will be a meeting held in the Old Tabernacle, to-morrow evening, at 7 o'clock, in the interests of the Young Men's Mutual Improvement Association, to which officers, members, and friends are cordially invited.

J. H. HENRY SMITH, MILTON H. HANBY, B. MORRIS YOUNG.

Dead Body Found.—This morning the body of a well-dressed man was seen floating in Jordan river, by some men, who took it out of the water, laid it on the bank and came to town and reported at the City Hall. They are the remains of a person about middle age, with black curly hair and bearded face. It is supposed to be the body of Mr. Beck, butcher, who has been missing for some time.

Silk.—There will be a special meeting of the Deseret Silk and Manufacturing Association in the Fireman's Hall to-morrow (Saturday) at 12 o'clock noon. We extend an invitation to persons from the various settlements who are interested in the raising and manufacturing of silk.

Mrs. ZINA D. YOUNG, Pres. R. SIMPSON, Secy.

Theatre.—There was a very full house last evening to see Mr. Edwin Adams in the "Marble Heart." As that gentleman only arrived in the city by the evening train, the face of "As Like as Two Pins" was presented, in which Mr. Graham amused the audience. Miss Napper was very neatly costumed, and enacted her part creditably.

Afterward the "Marble Heart" was presented and played in a style that won the repeated plaudits of the large audience. In the last act one of the very fine pieces of acting, wherein "Raphael" (Mr. Adams) and "Marco" (Miss Walters) quarrel and separate. At the close Mr. Adams was called before the curtain, with Miss Walters, who played her part with excellent ability. Mr. Lindsay, also, as "Volage," assumed the part in a very satisfactory manner.

This evening will be presented "Enoch Arden." Mr. Adams appearing in his famous impersonation of that suffering gentleman, Miss Walters as "Anna Leigh," and Mr. Lindsay as "Philip Ray." Other characters by the company.

To-morrow a grand matinee. Programme.—The "Marble Heart." On Saturday evening last appearance of Mr. Adams.

AN INVESTIGATION INTO THE CAUSES OF THE EXPLOSION.

Yesterday afternoon an inquest relative to the explosion commenced at the City Hall, before Coroner Taylor, when Mrs. Minnie Newton, and Messrs. J. H. Raddon, John Richardson, J. H. Van Na ta and B. W. E. Jennings testified.

All but the witness last named were examined, for the purpose mainly of identifying the victims and showing the manner of their death.

Mr. Jennings' testimony was to the effect that the magazine of the Dupont company, for which he is agent, was strongly built, and fire-proof. No restriction was placed upon the owners as to the quantity that should be stored in the buildings. Men and boys had shot through the doors, and he had found a bullet in a keg of powder. He called the attention of Mr. Mayor Wells to the matter, as he considered there was danger from that practice. Had he stronger evidence to resist the bullet, he believed that Giant and Hercules powders would explode without concussion, in certain atmospheric conditions. He believed the explosion was caused by spontaneous combustion, or by a bullet being shot into the powder.

At 10 a. m. this morning the inquest was resumed.

Ex-Mayor Wells testified that some time in February, Mr. Jennings had stated to him that some boys had shot at the magazine doors, that a bullet had been made in one of the doors, and the ball had entered a keg of powder. Witness told Mr. Jennings if he could put witness on track of the parties they should be punished. Mr. Jennings said he would put a stronger dose in the magazine under his charge, and witness said he would endeavor to discover the parties who did the shooting. Witness instructed the police accordingly, and he understood they acted on these instructions. Mr. Jennings called on witness only once in relation to the subject. Witness believed he suggested to Mr. Jennings and other parties interested that the magazines should be enclosed by a high fence, for purposes of protection. There had been some target shooting west by north of the magazine. Mr. Jennings' statement did not come in the form of a complaint, as the parties who shot against the building had been known.

Mr. J. Nicholson testified to having been standing on the bench east of City Creek, south-east of the location of the magazine, being in that direction, in the act of cleaning a gun, when two huge mounds of smoke shot into the air, almost simultaneously, and close together, and were followed by a dense cloud of smoke, and immediately by two other similar and distinct flashes, one of which, the witness testified, he saw in the front of south of the other smoke. The first report he heard was, as far as he could calculate, almost simultaneous with the last or third flash and simultaneous with that, a shower of missiles whizzed through the air in the vicinity of where witness stood.

It will be observed, from the evidence, that previous statements that appeared that Giant or Hercules powder had been stored in the magazine, and in nearly all the magazines were in error, the only powder, other than ordinary sporting and blasting, being about 3,000 pounds of Hercules belonging to Scott, Dunham & Co., to the California Company's building, and a small quantity of the same kind in the Oriental. The remaining two were Hazard and Dupont powder exclusively.

The coroner's jury were E. T. Sanford, Jos. G. Smith and W. W. Sears. After hearing the evidence, and considerable deliberation, they rendered a verdict to the effect that the parties deceased, over whom the inquest was held, came to their death by the explosion of powder magazine, and that to the best of their judgment, and to the evidence adduced, they were led to believe that said explosion was caused by loose powder stored in the vicinity of the magazine, being ignited by a burning paper wad, from a shot-gun, supposed to have been fired immediately preceding the explosion. And that no blame could be attached to any person or persons, the explosion being purely accidental. The jury recommended that additional precautions be taken regarding portable magazines kept in the city.

In this city, April 6th, ten minutes after seven a. m., Mrs. SOPHIA COONSELL, aged 72 years.

Funeral at half past twelve on Saturday. Burial in the cemetery. Friends of the family are invited to attend.

DELINQUENT CITY TAXES.

To the following named persons, and to all others who owe real estate taxes and improvements thereon: You are hereby notified that the following parcels of land, with improvements thereon, (or so much thereof as may be necessary) will be sold at public auction, in front of the City Hall, Salt Lake City, on April 10th, at 10 o'clock a. m., to recover the sum set opposite of property for the payment of delinquent City taxes, and City taxes paid before the date of sale, the Collector's Office, No. 19 City Hall.

And other persons owing City Taxes will please take notice that I shall continue to advertise and sell property until all delinquent taxes are paid.

doors were not known. Powder men considered the location of the magazine safe. Merchants for nearly stored, their powder in the city, which was considered unsafe. Witness remembered expressing the opinion that they should be located ten miles away from the city, but through being situated high, they were as safe as they would be at a considerable distance away on lower ground. Mr. Jennings had stated that he would not keep any glycerine or Giant powder there, and he hoped that none would be stored in contiguous magazines, as it would be exceedingly dangerous. The magazines were not built by the city, but by the companies interested. The buildings were inspected when in progress of construction, and were considered as safe as such things could be. Parties had received permission to store a certain amount of powder in the city in temporary magazines, on account of the inconvenience of resorting so frequently to the general magazines for supplies.

Mr. Woodward, of Geo. M. Scott & Co., was the next witness. The firm made an application for permission to build a magazine, but concluded not to build, and used space in the Walker Bros' magazine, and had in it at the time of the explosion in the vicinity of 3,000 pounds of Hercules powder. He believed that the magazines were constructed as well as any magazines are constructed. The iron on the doors was 1 of an inch thick, and the roof was tin. Hercules powder can only be exploded by concussion, but cannot be spontaneously combustion. The Giant powder is liable to explode without any visible or apparent cause.

Besides the Hercules powder, the Santa Cruz and Oriental Co. powder, Walker Bros. agents, was stored there. Hercules powder is stored or put up similarly to Giant powder. The fire in the building would not be likely to explode Hercules powder, by atmospheric concussion. It would take direct connection with a substance.

Mr. Matthew H. Walker, of Walker Bros., next testified. The firm were agents for the California Powder and the Oriental Works. The buildings were of brick, with iron doors and fire proof. About 30,000 pounds of powder was stored there. It was common black powder, blasting and sporting. Scott, Dunham and Co's Hercules powder was not located in a direct line with the door, but to the left of it. The two magazines were about 100 feet apart. Scott & Co. had permission from the California Powder Company to store Hercules powder there. Walker Brothers had been, several years ago, agents for the Giant powder, but gave it up on account of the danger, having heard of many accidents resulting from it. The Hercules caps are more liable to explode from concussion than the powder itself. He believed there was glycerine in the composition of the Hercules powder. A ball fired into the magazine and striking the caps would be likely to cause explosion. The day previous, the 4th, a car of black powder was delivered by Walker Bros. at the magazine. Did not think that powder could have leaked from the kegs, being iron, and formed a train leading to the building. If a bullet reached the Hercules caps through the door it must have been an oblique shot. Had been told by workmen that the door of one of the magazines had been performed by the Hercules caps, and that the door it must have been an oblique shot. Had been told by workmen that the door of one of the magazines had been performed by the Hercules caps, and that the door it must have been an oblique shot.
