Commercial Report. New York, 30.—The business transactions for the week as shown by the clearing house exchanges exhibit the following gains and losses as compared with the corresponding week last year:

The Public says: These figures of the exchanges last week show a de-crease at 15 cities, including every commercial city of any importance except Cincinnati and St. Louis, and at the latter the increase is insigufficant. In our last it was said that the comparative decrease in so many as 12 cities, including nearly all of the chief points of distribution, is a describes the scene of the cavalry decidedly unfavorable symptom, but the returns this week are much found two acres thickly strewn with

two deaths. The disease is confined to one district, embracing four squares in the lower part of the city. The city is otherwise very healthy The board of health has adopted the most stringent sanitary measures to prevent the spread of the fever.

That Reperted Murder.

Chicago, 30.—Washington Hessing this afternoon received a letter from his father, dated August 18th, which, from the nature of the contents, decides conclusively, to his mind, that it was not his father but the two employes who were murdered while making their passage from the mine to the ranch. The Vice-Consul is not the partner of the elder Hessing, but simply a personal friend.

the Seventh Dragoon Guards were seriously engaged in the fight at Kassassin lock. The former had three troopers killed and eight wounded. Major Townshend received a sabre cut. The Guards had two two twelve year old daughters of John Putman and Isaac Talmadge. figures show a greater number of miles of railway constructed during the month of August than ever be-fore in any similar period in the his-tory of the country. The total is 1,274 miles of new main track, exusive or side tracks laid on 70 different lines, exceeding by more than 300 miles the construction during July, which it was thought would not be again equalled. The con-struction for the eight months of the present year; on 238 lines, in 32 States has been 7,048 miles of main track. The construction for the year is estimated at 10,500 miles. New York, 30.—The cable announces the death of Frederick Godfrey, the musician. He was for many years band master of the Coldstream Guards. He was a brother of Dan Godfrey, band master of the Grenadiers, and wrote walter, polkas and other light pieces of music, which were nearly as popular as those of his brother.

In short the reports this week are exceptionally unfavorable, and they can't be explained, as many others have been by the natural shrinkage in the movement of the products of last year's growth, neither can the phenomena be attributed to any monetary deficiency or disturbance, though such a disturbance may be apprehended hereafter. There is something else the matter, and the symptoms do not show industrial or commercial health.
