

BY TELEGRAPH.

Last Night's Dispatches.

EASTERN.

Foreign Specie Coming - Fast.

Accident - A Brutal School Teacher.

Boston - Private Advice received here from abroad state that the flow of specie has commenced from the foreign financial centers, on account of indebtedness for American produce and it is stated, will tend very materially to strengthen our currency and restore confidence.

After years of importunity the Treasury Department has acknowledged the twenty claims of six Gloucester fishing vessels, which were barred by the Treasury during the war and have referred the matter to the Collector for settlement. The vessels were engaged in whaling.

Vessels arriving here from the Greenland fleet report a fine summer and a scarcity of fish in those regions.

At Garder, thirteen miles from here John G. Shaw was fatally injured by the explosion of a pistol which he was cleaning. The ball entered his brain.

Legal proceedings have been continued at Watertown, Mass., against Miss Nellie M. Braden, teacher of one of the primary schools there, on the charge of having committed a crime by the death of a child.

More Failures.

RICHMOND, Va., 24 - Isaac Taylor & Williams, bankers, have suspended, also the dollar savings bank and other banks.

Still Excited and Alarmed.

NEW YORK, 24 - Wall and Broad streets were crowded to-day, and there was considerable excitement occasioned by rumors of other failures. Howes and Macey suspended this a.m., and this added to the general alarm. The stock market was done among brokers on the street, and many members were engaged in buying and selling.

The transactions are all on a cash basis.

The total purchases of bonds by treasury, thus far is \$300,000.

The Clearing Association have agreed to issue ten million additional loan certificates to the banks.

There is more or less run on the banks in the city, but the 30 days notice rule having been generally adopted, there is no danger of the banks becoming embarrassed.

At the present rate of paying checks it is estimated that it will take three months to draw the deposits.

Mechanics in a Fix - Bored.

Frauds.

The grocery, petroleum and hardware trade is affected.

The doors of the National Trust Co. are still closed.

Hundreds of western and Southern merchants, now in town, have been seriously affected by the panic, and severely know how to pay their bills.

Importers, jobbers and retailers feel it keenly. The receipts at the custom house have fallen off greatly.

The steamship lines also feel the panic, and in order to get cargoes for their vessels some lines have lowered the rates on grain and other commodities.

Some vessels will sail with only ballast.

Assistant Treasurer Hillhouse, who asked about the probability of the government according to the request of the bank presidents to issue bonds now instead of January, said he thought the secretary would not buy the bonds, because he considered it a violation of law.

The whereabouts of Carlisle is known, but no arrest has been made in the absence of orders to that effect from the company. He was stated to-day that a student fraud in bond transactions had come to light.

Deadline in Coal.

At the auction coal sales there was slight decline for all kinds except stove grade.

Cause of Failure.

The stock exchange remains closed, but the gold room is open.

At the gold exchange there is nothing like the excitement of a few previous days. The suspension of Howes & Macey was caused by a run on them in consequence of the loss of confidence. They decline making any statement.

At an important meeting of bank officers it was resolved to purchase ten millions in loan certificates, to stand together in every measure to strengthen their position, and to telegraph the President requesting him to pay off the loan.

The members of the committee, who were gathered to gather all the \$3,000 that can be obtained for exchange into greenbacks, the loss to be assumed pro rata among the banks.

The Amount Stolen by Carlisle.

The trustees of the Union Trust Co. have concluded their investigation and find the amount of Carlisle's embezzlement to be about \$80,000.

\$15,000 Damages.

Miss Roxallina Harris, several months ago, sued Alex. Early of Brooklyn, for breach of promise, claiming \$25,000. The case was tried and the jury gave a verdict of \$18,000. Early appealed, and yesterday the Court of Appeals affirmed the judgment of the lower court.

Petition to Stop Traffic in Italian Children.

At a meeting of the delegates representing the Italian Association, a resolution was adopted petitioning Congress, the State legislature, and the municipal government to pass a law for the entire suppression of the traffic in Italian children, as it is made a criminal offense.

Episcopal Convention - Boat Race.

The annual convention of the Protestant Episcopal church began to-day, in St. John's church. After morning prayer and communion service, Bishop Whipple, of Pittsburgh, presiding, the convention adjourned till to-morrow.

Brown won the boat race at Hallowell by several lengths.

State of the Bankers - Market.

Chicago, 24 - The financial situation in Chicago is unchanged, although of course the panic has a depressing effect on the banks here, causing them to adopt a policy of extreme caution and to curtail their accommodations to the public. On Monday a large number of the Chicago banks were on a good footing. They made settlements more promptly to-day than ever. The usual time for settlement is one o'clock. At a quarter before one, the settlement of the banks was made. On Tuesday, however, the banks were not open for business.

On Wednesday, however, the banks were open for business.

On Thursday, however, the banks were open for business.

On Friday, however, the banks were open for business.

On Saturday, however, the banks were open for business.

On Sunday, however, the banks were open for business.
