jury at the seat of the disorder. He said he had been a prosecuting official for seventeen years, and was especially appointed in this case by the attorney general of Idaho.

The witness said the coroner's investigation, which was much criticized ducted in the usual way and in accordon the direct examination, was con ance with the law. The jury not only investigated the deaths resulting from the riot of April 29, but also the conspiracy leading up to that demonstra-tion. The theory that a conspiracy existed gave the inquiry a broad scope. Mr. Forney said, however, that no force, violence, or intimidation, was used toward the witness. Concerning the prisoners in the "bull pen," Mr Forney said they were not held under any specific charges, but by virtue of the governor's proclamation declaring that the county was in a state of in-

Last Month.

The arrest was made by Deputy Sheriffs Harries and McDuff, and is the result of some clever sleuthing on the part of those officers.

When taken in Goldhorn was playing a game of stud poker in the Branch gambling house on Commercial street. When told that he was wanted at the county jail Goldhorn objected to going, but finally consented to accompany the officers. At the jail he was searched and upon his person was found a valuable gold watch, the case number of which is 646,468 and the movement 38,252. He was also found to be in posgession of a Deseret National bank deposit check for \$50, and \$35, in cash.

Goldhorn says he got the watch about a month or six weeks ago from a man named "Shorty," who formerly worked at Corey's camp in Parley's canyon. "He soaked it with me for \$3, and that's all I know about it," said Goldhorn. When asked if he had seen "Shorty" since he left the watch with him the suspect said he had and believed he was now in one of the hos-pitals. "Why do you think he's in the hospital?" enquired Chief Howells. "Because a night or two before the "Sheep Ranch" was held up, a man answering his description was shot in an alleyway "replied Coldborn

Sugar Company Board Passes on Manager's Reports for the Year-Mr. Cutler Says Outlook is Excellent.

Year Hereafter.

UTAH SUCAR CO.

The board of directors of the Utah Sugar Company held an extended meeting this morning, the main business being the consideration of the annual reports of Manager Cutler, which are to be submitted to the stockholders at

their meeting on April 6th. At the close of the directors' meeting, it was announced that the regular quarterly dividend of 2% per cent had been increased to 3 per cent beginning with the dividend due on the 31st inst. Manager Cutler said after the meeting that the increase in the dividend had been the main item of business transacted. The financial reports were of a very satisfactory character, and the board considered the condition of the company was such as to entirely warrant the payment of 12 per cent dividends regularly to the stockholders instead of 10 per cent as heretofore. Mr. Cutler stated that the report to the stock-holders would show that the past year had not only been the best in the history of the company, but that new records had been made in the extraction of the sugar from the beets and the total number of pounds produced, the latter being 13,385,875 pounds as against 3,899,000 pounds for the year prior. The outlook for the coming seaon was also excellent, contracts with the farmers having all been signed for

a largely increased acreage. There was a scurry in sugar stock on the street yesterday afternoon when it was runnored that the board might order an increase in the dividends. About 1.000 shares changed hands, the closing price being \$14.45. Brokers reported after this morning's meeting that the stock is scarce.

#### HOME FIRE INCREASE.

The board of directors of the Home Fire Insurance Company met on Wednesday afternoon and ordered an in-crease in their regular quarterly dividend from 1% per cent to 2 per cent, making the stock pay 8 per cent per annum instead of 6. The next payment will be at the end of the present month. The reports to the board showed that the company is in a highly prosperous condition. conservative party surrounding the em-

press dowager, in satisfying their ani-mosity against the reformers, will ex-

masses of Chinese to a degree that will

make the "open door" impos-sible of attainment. It is a curious fact that our minister to China. Mr. Conger, has so far made

no representations to the state depart-

ment touching this subject. He has reported to the department that serious

attacks have been made upon the American missions in Shan-Tung by

the "boxers," a powerful and numerous

this same organization which has at-tacked some of the French mission-

aries in that quarter of China, and has

even carried operations to the very doors of Klao Chou, the German hold-

ing in north China. Upon the minister's representation

the state department has decided that

an American warship shall be dis-patch from the fleet at Manila to the

nearest convenient port to the seat of discord, probably in this case Taku at

Hai-Wei. It is expected, however, that the Chinese government will be able to repress the "boxers" without any ac-tion on the part of the American war-

ship. It is distinctly understoood that this little naval demonstration will have

no connection with the struggle now go-ing on between the empress dowager's

party and the reformers, for this may

be regarded as a matter of purely in-ternal politics, with which our govern-
