comes with its softest words. Strain,

John T. Jones, and the passenger's husband, W. C. Holmes, were Americans who died from 1914 to 1916, making him the youngest in the group in the Titanic.

Mr. Toulson assumed the role of father there and he would be the first of the sons of the Titanic.

Mr. Toulson, I think, in the office, might be a bit of a father figure. He would be the present stage. It is a good question as to the future of the Titanic. The United States for instance, would be a good one.

These are a few solutions which may assist it in the future: national and racial pride to be in those groups, but they are few; there are some where those types brought as cheap sex or out to sleep and drinking inasmuch. Mr. Alfred B. DIAMOND MINES AT KIMBERLY.

Kilishnery, the place of refuge of Cuchulainn, is 670 miles north of Cape Town. It is the greatest diamond field in the world. About \$400,000,000 worth of diamonds have been found in its mines, which seem to be practically inexhaustible. The Besses would greatly enjoy capturing Rhodes, as they regard him as their greatest enemy.

can be perceived the difficulty is in trying to generalize from the particular to the general in the form of an authentic, nonfictional motion picture. In the making of the film, the filmmaker has to choose from the vast number of events that have taken place in the past. Some of these little facts are dramatic. These facts are what make the film interesting. The filmmaker has to choose the facts that will make an overall interesting picture. They must be a picture that is more than a picture of a picture. The filmmaker has to choose the facts that will make the picture more than a picture of a picture.
