relactives changing their place of resistance will always give former so well so present al-

The Rows is an asis at the principal Moisis, Rose Smalls and to all passenger trails thering the sity that he modelle.

benjihare will bindly notify J. T. Intuber.

A law weeks age, when there appeared a tambling in the prices of cheeries lighting for the orly, there was considerable present only, there was considerable present brought up the municipal efficient to accept proposed terms that were considered favorable, and certainly were not of an opposite character. At that time the News shoot above menug the newspecies in advising the eity administration to wait tilly prices for street lighting had estitled down to a minimum before estimating upon a new contract. Cur view was that the infected of the public would be better street by ant being in a hunty. The City Caunell looked at the matice in the same light, and its coforms shows the wiesless of that course. Now the city has a bid for an all-halpti service at \$12 a year for such a street lamp-this being the lowest contract price of any city to the opening. It may appear that the its is most favorable cafer that will be inned, and is the city's apportunity. There can be no question as the first proposition at \$8 per ment being a very low rate for the contract proposed. By the most carvail estimates, with the city gailing the power at a reduced figure, it was oblinated that the unontoplanty could porchase wires and lamps, and prayed lighting attention, so it is easily seen that a lon per cast mercase above their, or about \$8.00 per temp, carried by indicated expusses, world not have been a surprice with municipal lighting. The present effect, our large on the most carvail to the congratulated on reaching its present single in the matter of our reaction stands and the matter of our reaction stands and the matter of our reaction stands.

be congraturated on reaconing in pureend sings in this matter of cost "astreet lighting.

There is one feature in connection
with this business which it would not
be just to everlook, for it is a guaranty
of the good faith of the Pienser Eiretric company in its resistance with the
peep less of the city and disele. During
the past for days the circumstanceswere such that a higher rate could
have been named, and an effort made
—with sums prospect of success—tocrowd the city into its acceptance.
But the Pienser company adhered to
its policy of giving the service at the
lowest figures it could afford,
and thus to do the fair thing
by the people. If it had
been presclusible the are made the
price still lower, doubties this would
have been done, but the case of production would not allow of it. Their

in in lifet cashing with the potential in lifet cashing with the general welfare.

A comparison of the present figures for street lighting with those which were discussed only about a year ago shows a remarkable transformation to the city's sitvantage. Remembering that an all night convices is about award, and therefore that 55 per lamp per month on the former is equivalent to about \$2.00 per month for the institute service, it may be recalled that a year or exact contract for the monthight service at \$5.50 per month on the former is equivalent to about \$2.00 per month for the institute service, it may be recalled that a year or exact a contract for the monthight service at \$5.50 per month to at 15.00 per month to the fight came to a condition at less than \$10.00 per month on the fight came. The City Council deciding to pay that figure, and the city was plunged into dealmons. Them satcher lighting company mainfar dies year an arrangement reached that \$5.00 per an arrangement reachers and all night service what it was declared impossible to give an a monight enhanced that \$0.00 the per year ago it was merched that \$0.00 to a monoriight enhanced that \$0.00 to a monoriight cont \$20.000 was revised. Now the tity will cove \$25,000; whereas a pear ago it was merched that \$0.00 to a monoriight cont \$20.000 was revised. Now the tity will cave 100 knows per year, all things, as one of \$1,000 here than not called bet thou.

In the mater of lighting, the present City Will mater at lighting, the present City Council certainty has

reduced raise it has been able to corre; and it is only right to sy that the Consoll imprevence countries, especially Chalrans. Callibre, is deserving of high public lot laking line less will bearing the sunt of a bard contest on the lighting proposition, which has resulted in cand a great edvantage to the judding as in may achieved. The City Council has done well in this lighting hustmess.

A CONGRESS OF HEHREWS.

Concerning the uniference of Hs. brews to be held at Manuel us Jisus 20.3—an event to which reference perviously has been made in these columns—the influence perviously has been made in these columns—the influence and the national property of the period of the period of the period of the period over by the editor of the Nune Price Press, Dr. Herst. The secrety was formed in Russia twenty years ago for the purpose of an argunization to Falsettre to the Jews, and it now has phraches all over the ward. A more than the period of the form of Falsettre to the Jews, and it now has phraches all over the ward. A the conting congress it is expected that 400 elegates will be present.
