a number of the prominent brethren and sisters in a special meeting to consider the advisability of starting a stake academy again. All present ex-pressed themselves in favor of the pro-position and agreed to help support and maintain the same. Wheat and Beets on the Increase-Base-

less Rumors Scored.

Raymond, Canada, April 2.-The spring has burst, nature's hibernation is ended, the earth is putting forth ther voice, the grass is taking on its green. the birds twitter in the bright sun-shine, the gopher has appeared in the fall wheat, the croak of the bullfrog is abroad in the land, and we will contribute our voice to the general awakening.

You may have heard that we had a cold snap during the winter, the ru-mor was not entirely foundationless, but spring is again with us and really it is so magnificent that it is well worth the waiting for. Everywhere great black squares are appearing over these vast prairies, where the sod is being turned in preparation for fall wheat, in other places hundreds of acres of straight green rows bespeak a heavy harvest the coming season. Workday mornings sees the exodus of the bulk of our male population farmward, men, teams and wagons melt into the horizon, and the long days see them busy preparing the ground for the sowing of hundreds of acres of grain, garden truck and sugar beets.

BEET ACREAGE INCREASES,

BEET ACREAGE INCREASES, Speaking of the local beet culture, the sugar company alone will plant somewhere about 4,000 acres, this acre-age, vast as it is, will be greatly aug-mented by what will be sown by pri-vate parties, swelling to immense pro-portions that profitable and staple crop. We are in the public eye, as a center of a great wheat and beet producing disa great wheat and beet producing dis-

BASELESS RUMORS.

There is also quite a crop of rumors concerning us and as is usual in yel-low journalism, the public outside is better informed of what is going on here, than we are who are resident at the storm center, Our local paper passes some rather severe strictures on the "News," be-cause there has no denial appeared in its columns of what is purported to

have occurred here. If the Associated Press should print a dispatch that Andree's baloon had passed over Raymond, possibly the "News" would publish no denial of it, "News" would publish no denial of it, and yet the one would be about as near the truth as to what is reported had oc-curred here, as the other. The dignity of true journalism does not steop to notice every form of mendacity, but goes quietly on knowing that time and events will vindleate its silence. If the history of the Church proves anything it proves that the calumnies of vicious men have had their refutation in the spiendid success the Church has achieved.
