settles the Russian demands in the

ture to the People.

Kansas City, Mo., April L .- A Journal special from Washington says: action at Karoe Kloof, north of Glen, last Thursday, was not of great import-ance, the military censor has dealt lightly with the copy of the various war correspondents describing it, Gen-Hon. Webster Davis of Kansas City will tomorrow tender his resignation to the President as assistant secretary of the interior. Mr. Davis decided to take this course as the result of his visit to South Africa. He has decided to deliver a public address touching the entire scope of the present war, and believes that he can best do so while free from any restraint which his pres-ent position would impose upon him. When taking his departure for home from Pretoria 2,000 people gathered to take leave of him at the station. They appealed to him in tears to state their ause to the American people, and Mr. Davis says his conscience would haunt im if he proved recreant to that piti-

ful appeal. He believes the American people are not truly informed on the situation. He will therefore avail himself of an early opportunity to relate his experi-ence and observations at a public meeting that shall be free to all. Mr. Davis has decided on this course after much mature deliberation and free con-sultation with his friends.

Located Magnetic Pole.

that effect. The most northerly point that effect. The most northerly point that any British force is known to have reached from the south is War-Wellington, N. Z., April 1.—The ex-ploring steamer Southern Cross, beasing Mr. C.E. Borchgrevink and the survivors of the South Polar expedi-tion difference in 1998 by Sir George Wellington, N. Z., April 1 .- The exThese unwelcome visitors usually appear in the spring or summer, when the blood is making an extra effort to free itself from the many impurities that have accumulated during the winter months.

BOILS A CARBUNCLES

Carbuncles, which are more painful and dangerous, come most frequently on the back of the neck, cating great holes in the flesh, exhaust the strength and often prove fatal. Boils are regarded by some people as blessings, and they patiently and uncomplainingly endure the pain and inconvenience under the mistaken idea that their health is being benefitted, that their blood is too thick anyway, and this is Nature's plan of thinning it. The blood is not too rich or too thick, but is diseased—is full of poison—and unless relieved the entire system will suffer. The boil or carbuncle gives waruing of serious internal troubles, which are only waiting for a favorable opportunity to develop. Many an old sore, running ulcer, even cancer, is the result of a neglected boil,

Baneful Keep the blood pure, and it will keep the skin clear of all the irritating impurities that cause these painful, disfiguring diseases. Boils

Carbuncles S. S. S. cures boils and carbuncles easily and permanently by relaforcing, purifying and Mr. R. M. Frait, Cave, S. C., writes: | building up the blood and ridding the system of all accumulated waste matter. S. S. S. is made of roots and herbs which act directly on the blood, and all poisons, no matter how deep-seated, are soon overcome and driven out by this powerful purely vegetable medicine.

Mr. R. M. Pratt, Cave, S. C., writes: "For twenty years I was sorely affleted with boils and carbuncles caused by inpure blood. It is impos-sible to describe my suffering ; part of the time being unsule to work an sleep. Several doctorstrenied ine, and I tried all the so-called blood remedies, but mothing seemed to do me any good. During the summer of 1888 I was per-suaded to try S. S. and after taking several bottles was entirely cured, and have had no return of these paisful pests up to the present time.". S. S. S. is not a new, untried remedy, but for fifty years has been curing all kinds of blood and skin diseases. It has cured thousands, and will cure you. It is a pleasant tonic as well as blood purifier - improves the appetite and digestion, builds up your general health and keeps your blood in order. Our physicians have made blood and skin dis-

eases a life study-write them fully about your case, and any information or advice wanted will be cheerfully given. We make no charge whatever for this service. Send for our book on Blood and Skin Diseases-free. Address, The Swift Spec

WORK HARD ON BORROWERS

Hope in London that Financial Situation Has

Floorer"-It Allows About 860,-000 a 2111e for the Railway.

New York, April 2 .- The Times' London financial correspondent cables: Last week was hard on borrowers, but the worst is now probably over for a short spell. The market, however, at the end of the quarter is some £10,000,. 000 in debt to the Bank of England, so that it all depends on the liberality of government disbursements as to whether this money can be paid back or not. At present the government is pouring out money at the rate of seven or eight million pounds a week, and the

quarterly dividends will be paid this week, both on the British and Indian debts. Also about £1,300,000 in treasury bills will be paid off. With these various helps, and with currency soon coming back from circulation as well as the release of, say, £5,000,000 in credits, accumulated by the joint strike banks for their monthly balance sheet Although the opinion is freely ex-, pressed in official circles that Mafeking is quite safe, the uncertainty as to the state of the food supply in the beleag-uered town causes great anyiety here shows-"window grossings," we call them-the market may shake itself free from control. This freedom, however, cannot be maintained, and I consequently, as much as ever, expect contrary money rates all the spring.

Up to last Tuesday discount kept hard at four per cent, but in anticipation of at but per cent, but in anticipation of greater ease soon the rate was yester-day about 3.78 per cent. In another direction also this hope is revealing its influence. We had more bids for sup-port by new enterprises, and more money asked for existing corporations last week than it any weak before due last week than in any week before dur-ing this year, and as a matter of course colony South Anerralia this time, has come for the regulation mil lion. But credit is still shy and sub-scriptions by no means enhusiastic, as the fact that a good electric lighting company has to offer four per cent commission for underwriting a small issue of debentures sufficiently Even colonial loans are now all under-

York, represented by A. L. Arpin and William D. Noble, who applied for the revocation of the concession and who it is said, are endeavoring to acquire it for persons for whom they are acting as agents. The Drexels and other business interests of Philadelphia, have vigorously fought the attempts of the New York firm. Secretary Root's decision, however

not only deprives Mr. Valdes of his li-cense, but prevents Tracey, Bordman & Platt's clients or any other person from obtaining its issuance in their favor. It is learned that this action was taken in accordance with a recommend-ation of Brigadier General Davis, gov-ernor general of the island, who has made an extensive investigation. The issuance of the license to Valdes last

issuance of the needse to values last summer was made when Secretary Root received an opinion from Charles E. Magoon, solicitor of the division of customs and insular affairs, whose won-derful reversal of ideas on the status of the new American dependencies has summing Congress surprised Congress. The files of the insular division con-

tain numerous applications for conces-sions or licenses, some from prominent people in the United States and others from natives of Puerto Rico.

Buffalo a Training Ship.

New York, April 2 .- The auxiliary cruiser Euffalo, which has been lying in the Brooklyn navy yard since she returned from Manila, last summer, is to be commissioned again tomorrow as a training ship for the second batch of landsmen, of whom the United States is trying to make able seamen. She will sail later in the week for Norfolk, where she will take on part of her crew, and then start for a Mediterranean cruise. The Buffalo will have 200 young men on board when she leaves the Brooklyn navy yard, and will plek up 250 at Nor-folk. She will follow the route of the

Dixie, which took out the first lot of "rookies," as the blue-jackets call them, The young men have all been enlisted inland. Most of them come from the

farms, and many have hever seen a ship before. They are a healthy lot, however, and the government has found that they pick up seamen' lore pretty quickly.

Charged With Embezzlement.

Tacoma, Wash., April 2,-J. B. Thompson, chief city detective under ex-Mayor Fawcett, and A. J. Hosher, his nephew, were arrested jast night by Sheriff A. T. Van Devanter, Deputy Sheriff Wilson and Detective Wappen-WALKER BROS., BANKERS stein of Seattle, on a charge of embez-sling \$20,000 from H. G. Orders have been cabled to the gdv-

they will make good their retreat.

New York, April 2 .- Perry Belmont, who supported Palmer and Buckner in 1896, thinks that the Democrats have a great opportunity to elect a President. He said last night:

"The Republican party is assailing and Democrats are defending the Constilution and the Supreme court. On that issue the Democratic party can , provided it selects candidates in whom the country can have confidence Those who have themselves attacked the integrity of the Supreme court, standing on the Chicago platform, are disqualified from leading in such an issue. The most violent criticism of the administration that is being made is the assertion that even the unsuccess-ful candidate of 1896 is preferable now. If that is the case, how assured is Democratic success upon new issues with a candidate representing them.

"The Republican contention is that Congress, when legislating for any part of the United States outside of the forty-five States, is free to prescribe such laws as it pleases, and that the recent treaty with Spain has given sovereignty over Puerto Rico and the Philippines unrestrained by the provisions of the Constitution. The Demo-cratic party is on firm ground. The treaty making power as well as Con-gress must obey the Constitution. That is the decision of the Supreme court, and is the law of the land until reversed by the court

"The treaty with Spain must be made to conform thereto. The Republican leaders are repeating a party shibboleth that 'the Constitution was made for the people, not the people for the Con-stitution.' The Constitution was or-dained for liberty and justice-both denied to the Puerto Ricans by the Mc-Kinley party. They are entitled to im-

mediate recognition whether creating a precedent for the Philippines or not. "Even under Spanish rule the Puerto Ricans had deputies in the cortes at Madrid. Why should they not have territorial representation at Washing-ton? The prospects of the Democratic party are growing brighter daily on this great constitutional issue."

Organize Girls Into Labor Unions

New York, April 2 .- "We must organize the giris. When that is done it will be easy to get the boys into labor Unions.

This was the advice given by Isaac This was the advice given by share Cowen, of the Amalgamated Society of Engravers, in an address to the Cen-tral Federated Union last night. "When the girls tell me," he said.

"that they don't expect to remain long chance in fifteen to get married, and il you are the lucky fifteenth one the chances are even that you will have to support your hasband instead of your husband supporting you." The Rev. Leighton Williams took the same line in an address before the So-

cial Progress League. "The weakness of the labor move-ment." he said, " is in its lack of women, just as the strength of the church is in its women."

Democrats Want Instruction.

Chicago, April 2.-The Tribune says: The Democratic national committee has issued a circular urging that all dele-gates to the Kansas City convention be "instructed for the reaffirmation of the Chicago platform, and the selection of candidates loyal to it in 1896 and loyal now on the sliver question."

The Delagoa Bay railway award has been a regular floorer, and the lan-guage addressed in the direction of the arbitrators is quite unfit for publica-tion. No wonder, for the holders of the ompany's securities regard an award of £2,000,000 as a sort of minimum, and behold, the court says: "You are only entitled to about £992,000, including accumulated interest."

"No more Swiss arbitration courts for e," the angry stockholders cry. and promise themselves fun, if not revenge, when your people begin to speak. The award is undoubtedly inadequate,

that no damages are given against in that to damages are given against the Portuguese, or may be both the Portuguese and Transvaal govern-ments, for a shameless confiscation, without a shadow even of decent pre-text. Before, however, condemning the ourt, it is necessary to know the exact erms of reference. If limited to finding out the amounts spent on the line, then the award is ample, since it works out at over £12,000 a mile, and the blame for the inadequacy must lie at the door of those who settled the terms

of reference. Portugal is reported to be pleased and alleged to have the money ready to pay. If so, political complications may not arise, which is so far good. Bears of Tinto copper shares still exist here, strange to say, and have been getting badly punished lately. Paris and New York are complete mas-ters of the position, not only in shares but metal advices, thence declare quobut metal advices, thence declare quo-tations are going much higher. Possibly, but a longish experience leads me to distrust most when manipulator's confidence is most unbounded.

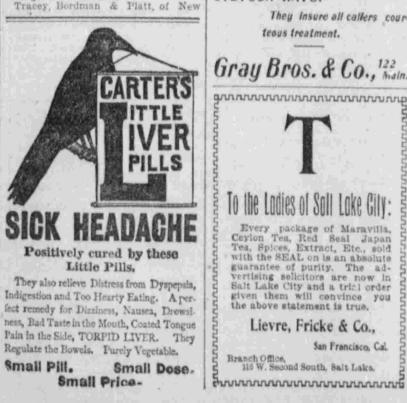

VALDES LICENSE REVOKED.

No Puerto Rican Electric Railway at Present.

New York, April 2 .- A special to the Herald from Washington says:

Secretary Root has issued an order revoking the license granted to Mr. Ramon Valdes for the use of the water of the river La Plata of Puerto Rico to create electric power for a railroad. He has also announced that the department will grant no franchises or licenses in the island until the establishment of

civil government there, Tracey, Bordman & Platt, of New
