NEW YORK, 15.—The New York Tribune says: The Pacific Mail Steamship Company has given notice to the Union Pacific Railroad Company that in 60 days from August 1st the contract for carrying freight and passengers between the two companies will be canceled. Henry Hart, one of the directors of the Pacific Mail Company, said last evening that about two years ago, soon after Clyde became. years age, soon after Clyde became resident of the Pacific Mail Company, a contract was entered into between the two companies, by which it was agreed that the steamships were to decline all light freight by demanding high rates, the consideration being that if vesthe consideration being that if ves-sels did not fill on each voyage within 600 tons of their capacity, the Union Pacific Railroad Com-pany was to make up the defi-ciency. This the Union Pacific in-variably did by filling our vessels with heavy freight at low figures retaining all the higher prices of freight. In this way we got all the milk and the other company all the cream.

Another feature of the contract Another feature of the contract was that we were to keep up the high rates of passenger tariff, the consideration being that we were to receive \$5 head money for every passenger carried by the railroad company. Each month the railroad company would present a statement of the number of passengers carried, accompanied by a cheek for the amount due. We had no account of our own to show precisely how many passengers were cisely how many passengers were and the most serious apprehension carried by the Union Pacific Com- are felt by all classes of the people the railroad company since Novem-

companies owed the Panama Rail-road and the Pacific Mail Steam-ship Company Jointly over \$300,-000, and that all attempts to secure a settlement had failed. We found that the Central Pacific Railroad owed the Pacific Mail, on an old account, over \$40,000, for the payment of which no arrangement could be made. Our directors therefore, decided to take advantage of the section in the contract which provides that either company can cancel it on giving 60 days notice. When asked how this would effect the operations of the steamship line, Hart said: 'Not in the least The present arrangement does not pay, even if we could get a settlement. We do not need the aid of either the Union Pacific or the Central Pacific roads, and we pro-pose hereafter to arrange a schedule of freight and passenger rates to suit public necessities, without being trammeled with a pooling compact. All out freight will be carried by steamer to Aspinwall,
where it will be transferred to Panama by the Panama Railroad. From Panama it will be carried to eral horses on the field. The vol-San Francisco, China, and else-
