Battler Combining Business With Pleasure-Interview in London.

HIS OPINION OF FIGHTERS.

Thinks Jabez White is About as Good As Any of the English Boxers -Willing to Fight.

London, Jan. 20 .- "I'm in this business o make money, and I intend to make it." This is the way Battling Nelson expressed inself when the question was put to

"Of course," he remarked, "I have obtained a great measure of success al-ready, but I am not going to retire. I'm this good, if not better, than ever, and think myself capable of at least doubling my present estate." Asked by the Press representative what

plans were, Nelson replica he meant to have "a jolly good "I intend staying in England for at

little town of Goldneld, in Neckalis, on day of my fight with Gans, in Sep-ber". Sources a photograph of the fight, sources a photograph of the fight, son sad: "Look at the calleo means fight was supported." (Calleo means blouses of the ladles present). "understand," continued the Dane, u have big buildings, such as the pmia, the Agricultural hall and so on; can't you run big fights there? Ens-t is the home of boxing, and it only its a little enterprise on the part of though not really on fighting busi-s bent. Nelson is open to meet any er in the world at 9 stone? Pounds, the stipulates that the money must big. Nobody is barred. Asked if he uile on creat by ong at 10 stone, as re probably was not a lad in England able of extending him. Nelson re-reked: "No! I shall not go out of my as to meet any one. Many a cham-in has been nipped by giving away ight and trying too mucn. Something by met al Jabez White erred in that peci, which was the reason of his an-ng by Jack Goldswain. I really think we in the only man you have good uph to fight me at the prescribed phot. The Birmingham lad, who, by

na equal to any ightweight I had even one." It is interesting to hear the opinion of Nelson on the relative abilities of Eng-lish and American boxers. Nelson is of opinion that England is as well, if no better, served than America in the ban-tamweight class. He regards Abe Attel as the greatest lad in the bantam clas-in America, and the man to oppose either Joe Bowker or Owen Moran at 8 stone 6 poinds. A witness of the recent battle between Attell and Jimmy Welsh, Nelso said: "Attell displayed remarkable ac-tivity, and Walsh, who had hitherto en-joyed a great reputation, was outclassed from the start." Asked, as a parting shot, what he thought of Young Corbett and Terry Mc Govern. Nelson replied that he though there was little fight left in either of these inen now." BERT IS OUT. San Francisco, Jan. 28.-J. Cal. Ewing today received a telegram from Eugen F. Bert, tendering his resignation as president of the Coast league. Mr. Bert has been successful in his enorts to mak-good legal connections in Chicago, and for this reason wishes to sever his con-nection with the baseball organization.

"YOUNG CORBETT" HERE.

### Ex-Champion Featherweight on His Way to Nevada Looking for Fight.

Way to Nevada Looking for Fight. Harry Pollock and "Young Corbett" (William Rothweil), ex-featherweigh champion of the world, arrived in the city from Denver yesterday afternoon and last evening occupied a box at the Or pheum. The pair are going to Nevada where Young Corbett hopes to secure a hattle with Kid Herman. It is under-stood that Joe Gans has come to Corbett's rescue and proposes to train the little fellow and get him in good condition. Gans thoroughly believes that the Den-verite has a good fight left in him and says the only thing needed is for Corbett to get in proper shape. If Gans can ac-complish this he will be doing wonders. Ence Britt got the shady decision over Corbett the latter seemed to lose heart and would not train properly. It now re-mains to be seen whether or not he will train, and if he can make a good fight.

# THE COMING MARE.

Believed That Sonoma Girl Will be Believed That Sonoma Girl Will be Champion.
It is likely that another world's champion mare may be produced from the Pacific coast. It has been remarkable the number of fast mares that owe their origin to California, among the more recent being the peerless Lou Dillon, 1:53%, and the wonderful race mare, Sweet Marie, 2:02.
There is yet another mare that has shown her ability to become a very fast mare and possibly a world's champion. This mare has had but little preparation, although two years ago she showed a wonderful burst of speed for a mile, but met with a slight accident and was laid up.
Be now, however, has again demonstrated her ability to trot fast and without apparent effort. The latest developments are recorded in regard to Sonoma Girl, driven by her owner, J. D. Springer, who trotted a mile in 2:07 at the Christmas mathnee of the Los Angeles Driving club at Agricultural park, scoring the lowest mark ever made at a matinee in the state.
Bonoma was unpaced, either by runner or trotter, and not once in the journer of the low and fir could have stepped the mile in 2:06 under improved conditions. The inack was slightly cuppy and in addition the mare lost her stride in scoring for the word because the gratekeeper allowed a double team to cross the track in front of her.
Bat her mare been paced she could have taken off the two seconds with ease. Mrs. Margaret Robertson Ker and Prof. J. J. McClellan, assisted by Jugh Dougall, soloist, will give a piam re-cital at the Salt Lake Theatre, Feb. 2nd, 8:15 p. m. Tickets 50c to be had at Clayton's Music Store. HOTEL GOSSIP. Demand For Calendars-"The bermand For Calendars — "The de-mand for calendars is running more than ever to the higher standards in art," remarked George S. Bell, repre-sentative of a prominent eastern manufacturing house, at the Kenydn today. "The crude and the nude are giving place to reproductions in pot-traits, landscapes, marine views, his-torical, idylic and poetic scenes from famous painters. The coloring ef-fects are made more striking and beautiful by reason of the recenty perfected process of applying four colors in developing a picture, which marks a great step in advance for chromolithography. In fact the de-velopment of finish has reached such a stage that at a little distance the chromolithograph of the best type cal-not easily be distinguished from a fine oil painting, water color, or pas-tel. American manufacturing houses are doing the best work in this specia-line. At the same time, the German manufacturing establishments abe furnishing styles that are very fakinf. The owner of Danube allowed that horse to start in the event and only last-ed one heat, when drawn. In the second heat Sonoma Girl trot-ted her record mile, showing that th previous heat had been mere play for her. The half in the exhibition was made in 1.04, and the mare plaked up a second in the last half in 1:06 and was not all in. ininishing as she pleased in 2:07. During her earlier performance she showed her ability to trot easy miles better than 2:10 over poor tracks, and it is believed that should she fall into the hands of an ex-perienced trainer and pointed especially for a record over a good track it would he possible for her to shade her recent trial at least three seconds.
