THE COOK CATTLE-STRALING CASE .-Our report of this case yesterday concluded with the forenoon session of the Court. The examination was resumed at 2 o'clock, when Mr. Whitney said he had come into Court in good faith to show what Mr. Smith's connection was with the case on hand, as aspersions had been thrown upon him in former proceedings. In order to do so he was well aware that facts would have to be introduced that could not be considered legal evidence, instead, however, of being sble to make the matter clear, as he expected he was wedged around by difficulties thrown in the way in the shape of objections of counsel on both sides. This being the case he declined having anything further to do with the present case, but would show the matter up in its proper light when the proper time should arrive, for doing so. He said it was evident there was a put up job against Mr.

for granted that he did. By the prosecution. Witness was not interested in Mr. Smith's business further than being his hired hand. After the recalling and re-examination of Mesars. Alexander and Seaman, Mr. Hoge briefly addressed the Court on the part of the defense and Mr. Snow for the prosecution, when the evidence was sum-med up by Justice Clinton, who desided that the prisoner be held in \$200 bonds to appear at the next regular sitting of the appear at the next regular sitting of the Probate Court. The Court said the small-base of the bonds' was in consideration of the ill health of Cook, who was not in a condition to bear confinement, and had the bonds been placed at a higher figure, he probably could ust have reached them.
