

devil; for the people here, have the failings natural to man, the same as you have; look well to yourselves, that the enemy does not get the advantage over you; see that your own hearts are pure and filled with the Spirit of the Lord, and you will be willing to overlook the faults of others; and endeavor to correct your own.

With regard to your circumstances and connections here, I am little acquainted; but this I can say, you are in the midst of plenty. No person here, is under the necessity of begging his bread, except the natives; and they beg more than they care for, or can use. By your labor, you can obtain an abundance; the soil is rich and productive. We have the best of wheat, and the finest of flour, as good as was ever produced, in any other country in the world. We have beets, carrots, turnips, cabbage, peas, beans, melons; and I may say, all kinds of garden vegetables, of the best quality.

The prospects are cheering for fruits of different kinds. The grapes that we have raised this season, are doubtless, as fine as were ever exhibited for sale in the London market. The peach we expect will do well also. We had but few last year; this season we have more. We are under the necessity of waiting a few years before we can have much fruit; but of the staple articles of food, we have a great abundance.

With regard to your obtaining habitations to shelter you in the coming winter—all of you will be able to obtain work, and by your industry, you can make yourselves tolerably comfortable in this respect, before the winter sets in. All the improvements that you see around you, have been made in the short space of four years; four years ago this day, there was not a rod of fence to be seen, nor a house, except the Old Fort, as we call it, though it was then new. All this, that you now see, has been accomplished by the industry of the people; and a great deal more that you do not see; for our settlements extend 250 miles south, and almost 100 miles north.

We shall want some of the brethren to repair to some of the other settlements; such as mechanics and farmers; no doubt they can provide themselves with teams, &c., to bear them to their destinations. Those who have acquaintances here, will be able to obtain dwellings, until they can make accommodations of their own.

Again with regard to labor—don't imagine unto yourselves that you are going to get rich, at once, by it. As for the poor, there are none here; and neither are there any who may be called rich; but all obtain the essential comforts of life. Let not your eyes be greedy. When I met you this afternoon, I felt to say, this is the company that I belong to—the "poor company," as it is called; and I always expect to belong to it, until I am crowned with eternal riches in the celestial kingdom. In this world I possess nothing, only what the Lord has given to me, and it is devoted to the building up of his kingdom.

Do not any of you suffer the thought to enter your minds, that you must go to the gold mines, in search for riches. That is no place for the saints. Some have gone there and returned; they keep coming and going, but their garments are spotted, almost universally. It is scarcely possible for a man to go there, and come back to this place, with his garments pure. Don't any of you imagine to yourselves that you can go to the gold mines to get anything to help yourselves with; you must live here; this is the gathering place for the saints. The man who is trying to gain to himself the perishable treasures of this world, and suffers his affections to be staid upon them, may despair of ever obtaining a crown of glory. This world is only to be used as an apartment, in which the children of men may be prepared for their eternal redemption and exaltation in the presence of their Savior; and we have but a short time allotted to us here, to accomplish so great a work.

I will say to this company, they have had the honor of being escorted into the city, by some of the most distinguished individuals of our society, and a band of music, accompanied with a salutation from the cannon. Other companies have not had this mark of respect shown to them; they belong to the rich, and are able to help themselves. I rejoice that you are here; and that you will find yourselves in the midst of abundance of the common necessities of life, a liberal supply of which you can easily obtain by your labor. Here is the best quality of food; you are in the best atmosphere that you ever breathed; and we have the best water that you ever drank. Make yourselves happy, and do not let your eyes be like the fool's eye, wandering after the things of this world, but inquire what you can do that shall be for the best interest of the kingdom of God.

No man or woman will be hurried away from the wagons, but you may have the privilege of living in them, until you get homes. I hope the brethren who live near by, or those who live at a distance, will send our brethren and sisters some potatoes, and melons, or anything else they have, that they may not go hungry; and let them have them free of charge, that they may be blessed with us, as I exhorted the people last Sabbath.

I have not anything more to say to you at this time, as my presence is wanted in another place. I pray the Lord God of Israel to bless you; and I bless you in the name of Jesus; amen.

DESERET NEWS.

SATURDAY, SEPT. 18, 1852.

WE have some communications before us, from respectable sources in this city, which we have been invited to publish—requesting the friends from the country, who may attend the 6th of October Conference, to bring their provisions ready cooked, so as not to cause the sisters in the city, to stay at home during the Conference, to cook for them; also in reference to those who are in the habit of bringing their butter, cheese, eggs, &c., to market, at Conference, selling them to their friends, and then stopping with their friends to help eat them. If we could believe for a moment, that any saint, who wanted to attend a Conference, could be guilty of such meaness as is represented above, unless it were for the want of thought, that in this new city, we are often destitute of those little chicken fixings, and butter comforts which older cities are continually supplied with; and that bakers' ovens are not as plenty here as in New York; the communication referred to, would be more admissible; but as it is, want of room must plead our apology for the absence of such communications in the News; and our excuse from taking any notice of them, only this, our apology.

DESERET NEWS, EXTRA.—Just issued from the press, in PAMPHLET FORM, 48 pages, solid matter, sufficient for a book of 200 pages in popular style, including in full the minutes of the Special Conference, Business, Speeches, Sermons and Addresses on Matrimony, the great "REVELATION," given to JOSEPH SMITH, Nauvoo, July 12, 1833, concerning Marriage for Time and ETERNITY; President Young's SERMONS of August 8 and 15, and other important items, which will not soon be found again embodied in one work; for sale at the News Office price 50 cents, cash; and those who do not apply soon, will apply in vain: they are fast going.

NEWS DELAYED.—A press of business in the office, occasioned by the departure of the mission, &c., has occasioned a few days' unavoidable delay in the issue of this number.

MISSIONS.—The elders going to Europe, Africa, West India, and Eastern America, left on and about the 15th instant, and are now en-route for their several destinations, probably via Kansasville, St. Louis, &c.

Melons.—The season for eating melons, and cucumbers in their native state, in Deseret, for 1852, is past. So says the Doctor. If you don't want the Cholera morbus, Cholera cramps, and Rheumatism, let water melons, and cucumbers alone, after frosty or cool nights make their appearance: an occasional, fully ripe cantelope may not do so much harm: but, be temperate in all things, says the preacher.

Snow fell on the Twin Peak and the tops of surrounding mountains, on the 15th instant, the first in sight this fall, and continues to lie.

Frost made its appearance in the lower parts of the city, doing some damage to vines, about a week since; and we have heard of none in the interior, or more elevated parts of the city, and but few nights very cool as yet.

Our Business Office for the News is at the Post Office, and we again request our friends not to disturb our Printers and Bookbinders, but call at our office, THE POST OFFICE, when they wish jobs, or to transact business.

EXTRAORDINARY PHENOMENON.—On Sunday morning (May 30th), about one o'clock, a most wonderful and extraordinary phenomenon appeared in a south easterly direction in the heavens, in the shape of an immense bar or rod of fire, which, though at so early an hour in the morning, drew the attention of many hundreds of persons, more than those who were in the streets; the effect being, so glaring, resembling a tremendous conflagration, as to call a considerable number of people from their beds to gaze on this novel and unusual appearance in the works of nature. The object in question appeared to those on terra firma to be upwards of five feet in length, and two inches in breadth, and looked as though it were suspended at one end to the heavens, with the other end hanging downwards in a perpendicular position, pointing towards the earth. It was first seen about one o'clock, and remained stationary for upwards of an hour, and on its first appearance resembled an enormous mass of blood-red fire, but at intervals of a few minutes, continued changing from its bright red hue to a light yellow, or straw colour flame. After these changes took place, up to considerably past two o'clock, the brightness of the glare became somewhat dull, and gradually faded away, until the just before crimson and glaring object was buried in obscurity; and the heavens assumed their previous dark and sombre aspect; for at the time of this wonderful appearance, neither stars nor moon were visible.—London Weekly Paper.
