EVENING NEWS.

Saturday, - - Sept. 11, 1880.

BY TELEGRAPH.

THE WESTERN UNION TELEGRAPH LINE.

AMERICAN.

Havoc in San Francisco.

SAN FRANCISCO, 10.—The President and party visited Mechanics' Fair this evening, arriving at the pavilion about 9.30 p.m. The building was packed, probably not less than 15,000 being present. The President was met at the door by a committee of the Institute and escorted about the building, although owing to the press of the people it was impossible to take a note of any particular feature of the exhibition. The President and General Sherman exhibited themselves for a few minutes on the south gallery and were warmly greeted, but did not address the audience on account of fatigue.

A Petaluma dispatch says: President Hayes left Rafael City at 9.20 for Petaluma in the steamer *Sun*, accompanied by General Sherman, Secretary Ramsay and his son. The ladies of the party were so much fatigued they could not attend. Governor Perkins and General McCombe were in the party. On reaching the steamer, the President was greeted by J. G. Wickersham, E. S. Lippitt and A. P. Overton, of Petaluma, and escorted on board. At San Quentin the director's car of the Northern Pacific was waiting to receive the guests. As the train moved off, the President stood on the rear platform and waved his hat to the enthusiastic assemblage, which cheered vociferously. The party was transferred at the junction to a special train of S. F. & N. P. R. R. Knots of San Rafael people cheered the President and General Sherman as they left the station. The train proceeded without stopping to Petaluma. The reception here is under the auspices of the directors of Martin and Sonoma District Agricultural Fair. Large crowds were assembled at the station. F. W. Shattuck delivered the address of welcome in behalf of the directors of the fair. The President replied simply by thanking the committee for the welcome. Carriages were in waiting and preceded by the band. The Hewston Guards, St. Patrick Cadets and Swiss Society paraded through the principal streets and into the fair ground. The streets were thronged with people, who cheered to echo as the Presidential carriage passed. There was a handsome display of bunting along the line. A salute of 21 guns was fired, and the bells of the town rang a welcome. All Petaluma and all the neighboring country was represented. At the fair grounds a parade of stock was started immediately before Hayes reached the grand stand.

A Petaluma dispatch says: After the stock parade, J. M. Shafter, director of the association, introduced the President who, after the applause had subsided, addressed the crowd at some length in a pleasant manner with some good humored reference to the enthusiasm attendant upon the reception on entering the State and San Francisco and closed with the following words:

The people of this country are united with the Nation and I now wish the perpetuity and stability of the government may continue and that for all time it may be the home of freedom and refuge of the oppressed of every age and every clime.

Secretary Ramsay, General Sherman and Governor Perkins spoke briefly, after which the party inspected the display at the pavilion, returning to the city late in the afternoon.

Christianized Chinese.

BOSTON, 10.—The Chinese government has abandoned all attempts to enforce the return to China of Yung Kwai, the Chinese student who graduated at the high school at Springfield, and he has since been admitted to Harvard, but he was ordered home by his father for having embraced the Christian religion. Kwai started for Hartford with a number of companions, who had been ordered home, for San Francisbo, by way of Sprinfield. A few evenings since, while the agent in charge was securing through tickets, young Kwai and a Harvard Sophomore named Taw, who had been ordered home for the same reason, disappeared, taking their baggage checks with them. They readily found friends who kept them secreted for a day. Meanwhile employing a distinguished Boston lawyer to confer with Secretary Evarts to ascertain their exact statutes as relates to their home government. The reply of Evarts, giving extracts of the treaty between our Government and China, is just received, and sets at rest all fears of the friends of these young men concerning their liability to be forced back to China, and persecuted and perhaps beheaded for their religion. The extracts are as follows; Chinese subjects shall enjoy all the privileges of the public educational institutions under the control of the United States, which are enjoyed in the respective countries by the citizens and subjects of the most favored nation. Chinese subjects in the United States shall enjoy entire liberty of conscience and shall be exempt from all liability or persecution on account of their religious faith or worship in the country. Both governments consequently agree to pass laws making it a penal offense for a citizen of the United States or Chinese subjects to take Chinese subjects either to the United States or to any other foreign country without their and voluntary consent respectively. The Chinese Commissioner at Hartford has already notified Kwai's friends that they shall not molest him, and the young man is quietly awaiting the opening of the college term.

The Contest Last Night.

CHICAGO, 10.—The attendance today at the fast race has been greater than any previous day and the contest grows close and exciting between Byrne and Betsy Baker. The former has the sympathy of the crowd and has made 90 miles to-day without apparently exhausting himself. At midnight the score was:

Horses—Betsy Baker, 490; Bateman's entry, 463; Rose of Texas, 463; Dunn's entry, 446.

Men—Byrne, 499; Krohne, 451; Celeton, 437; Scotch, 398; Jackson, 180.

O'Leary rode his horse 75 miles. White Eagle concluded his five miles in 32.04.

Barnum's Strategy.

The *Inter-Ocean* has a dispatch from Minneapolis stating that Barnum, of the national democratic committee, has written a letter to a prominent and wealthy democrat now there, in which he declares the purpose of centering the great mass of democratic orators in Ohio immediately after the Indiana election, and making a feint of attempting to carry Garfield's own State, and having got the republicans thoroughly alarmed, to draw off their forces and go to Indiana and New York, leaving the republicans demoralized.

Gold from Hot Springs.

SAN FRANCISCO, 10.—A dispatch from Calistoga says: Great excitement has existed in this vicinity for the past two weeks over the report that the Hot Springs at this very place carry large quantities of gold in solution. A. C. Chener, who recently bought the Hot Springs Hotel property, has been at work for the past two weeks extracting gold from water by a process known only to himself. A clean up yesterday afternoon showed that he had succeeded in extracting $1,060 from 10 barrels of water. The gold is of the highest grade of fineness, and as the springs in the locality are very numerous and the volume of water exceedingly large, it would be useless to attempt to estimate their value if they continue to yield as rich returns as experiments have proved so far.

Democratic Danger from the Solid South.

NEW YORK, 10.

The *World's* leading editorial condemns the folly of southern democrats maintaining a solid South and says: "We tell the southern men plainly the probabilities are just now largely in favor of republican success and the 'solid south' is helping towards this more than any other element of the canvass. If the South were broken up into its natural political divisions now, and if it were seen that Louisiana, Arkansas, Tennessee and Virginia would probably go republican, the chances of Hancock's election would be greatly increased, for, remove the justly irritating effect of the northern mind of southern solidity, and the democrats could hope to carry such States as Illinois, Indiana, Wisconsin and New Hampshire, which under present conditions they are sure to lose. It advises the southern men to encourage independence everywhere in their States, and send Bayard, Hampton, Butler and Lamar into doubtful northern States.

Failure of a Mining Broker.

The failure of A. W. Whitney, mining broker, 61, Broadway, was announced at the American Mining Stock Exchange yesterday. Eighteen thousand five hundred shares of various stocks were sold out, under the rule, for his account and were bought in by the seventeen brokers with whom he had contracts, each taking his own stock back and pocketing the differences, which in the eight thousand aggregated, amounted to about $10,000. Whitney has disappeared, and is said to be on his way to Chicago. Had he remained, it is said everything would have been settled satisfactorily and he would have been assisted to resume business.
