

AGED COUPLE IN DIVORCE COURT

After More Than Forty Years of
Wedded Life Kemps
Will Part.

WIFE CHARGES DRUNKENNESS.

Husband Threatened to Cut Her
Throat Last Sunday, She Says—
Wife Supported Family.

After forty-one years of wedded life, Emma Kemp yesterday filed suit in the Third district court for divorce from her husband, William C. Kemp, alleging that he had become a habitual drunkard and that she could no longer tolerate him. In her complaint, Mrs. Kemp asserts that when her husband comes home full of the liquid which enebriates while it cheers, he is of a very quarrelsome and mean disposition, and that at such times he uses indecent language toward her and even threatens her life. Last Sunday, Mrs. Kemp alleges, he came home drunk and threatened to cut her throat. She immediately left him and instituted proceedings for divorce.

There are no children mentioned in the complaint. Mrs. Kemp says she has contributed the greater part of the family expenses during many years past, and asks that a piece of real property owned by the couple described as lot 7, block 19, plat B, which she claims she purchased with her own money, be awarded to her, besides an attorney's fee of \$50. The couple were married at Hereford, England, June 17, 1867.

ARTHUR BROWN GUILTY.

Second Verdict in Case of Young Man
Charged With Forgery.

Arthur Brown has for the second time been found guilty of forgery by a jury. His case occupied the greater portion of two days in Judge Armstrong's court, and was given to the jury at 5 o'clock yesterday afternoon. At 6:30 the jury returned the verdict, pronouncing the defendant guilty as charged. Brown was defended by Judge Powers, who made a forceful plea for his client's discharge on the ground of insanity. Brown will be sentenced Thursday.

The case was tried about a year ago, and the jury at that time found Brown guilty, but an appeal was taken and the supreme court ordered a new trial of the case on technical grounds. The defense urged in both trials was that defendant was insane from drugs.

The offense for which Brown was convicted was the forging of the name of W. C. Orem, manager of the Utah Apex mine, to a check for \$6,150, which he cashed and secured the money.

WIFE DESERTED HIM.

Joseph Poole has filed suit in the Third district court asking annulment of the marriage bonds existing between himself and wife, Carrie B. Poole, alleging desertion. The Pooles were married at Des Moines, Ia., Oct. 1, 1904, and that on Nov. 30, 1904, about two months after their marriage, defendant willfully deserted him, against his will and without cause, and refuses to return to him. By reason of which plaintiff prays for absolute decree of divorce.

MARRIED TWENTY YEARS.

Complaining that her husband has for more than a year past been guilty of habitual drunkenness, Mrs. Louise E. White today filed suit in the Third district court for divorce from her husband, William L. White. Mrs. White alleges that they were married in Cache county, Dec. 23, 1886, and that there are six children, the oldest 20 years of age and the youngest 11 years of age. She also alleges that her husband is a strong, able bodied man, and earns about \$200 per month, although she says there is no property belonging to the couple. She asks that she be given a decree of divorce, the custody of the six children, \$75 per month for the support of herself and children and \$75 attorney's fees and costs of court.

MORR GETS ONE YEAR.

Paul Morr, charged with burglary in the second degree, pleaded guilty yesterday before Judge Armstrong and was sentenced to serve one year in the state penitentiary at hard labor. Morr was charged in an information filed by District Atty. Leonard with entering a building at the corner of Twelfth East and Eleventh South streets on the 23rd of March, 1908, the building being occupied by the Granite Grain company.

TWO BOYS IN COURT.

Judge Gowans of the juvenile court yesterday sent Ben Bishop, aged 17, and Albert Mondine, aged 13, to the Utah detention home for incorrigibility.

STEWART COMMITTEE.

Elmer Stewart, charged with battery upon Special Officer White, committed on an incoming Saltair train, was arraigned before Justice Anton Lund-

BERG YESTERDAY AFTERNOON AND THE TIME FOR PLEADING WAS SET FOR THURSDAY. IN DEFAULT OF \$300 BAIL STEWART WAS PLACED STEWART YESTERDAY ASSAULTED THE OFFICER WHEN HE WAS ASKED TO GO INTO THE SMOKING CAR TO SMOKE.

SUIT ON A NOTE

Suit was filed in the Third district court this morning by the Equitable Loan & Investment company, a corporation of Wyoming, against Joseph Elton and Sarah Elton and Alfred C. Elton to recover the sum of \$306.30, alleged to be due on a promissory note of date of Jan. 19, 1907, and bearing interest at the rate of \$7.50 per month, or about 40 per cent. The note given was secured by real estate owned by defendants in Waterloo addition, and by reason of defendant's failing to make certain payments on the premises plaintiff claims to have paid \$180 on a contract to hold the land, and plaintiff therefore asks for judgment for \$306.30, with interest at the rate of \$7.50 per month on the note from June 19, 1907, to the date of payment, with legal interest thereon from the date of payment, and \$50 attorney's fees and for costs of suit.

ROCHESTER DISCHARGED.

E. S. Rochester, charged with exhibiting a dangerous weapon in an angry and threatening manner, was given a preliminary hearing before Judge Diehl this morning and discharged without argument. Rochester was accused of drawing a pair of revolvers on W. J. Chambers, a railroad employee, several weeks ago during a fight between union and non-union men. The witness for the prosecution told of conflicting stories this morning and at the end of taking testimony the matter was submitted without argument. The court held that the state had failed to make out a case and ordered the defendant discharged. Rochester was represented by Atty. Soren X. Christensen.

FROM FRUITFUL ARIZONA.

Anders Montensen Tells of What Government is Doing for Farmers.

A Mesa, Ariz., citizen enjoining in Salt Lake as a visitor for some time is Anders Montensen, who came principally to tell of the great improvement in the condition of the land, without more water flowing into it.

The dam is several hundred feet wide at the bottom and 16 feet on top, and is almost entirely of cement. A spillway or overflow is on either side, each about 100 feet wide, and the dam making the dam absolutely safe. The water from the reservoir runs down a concrete dam 150 feet high, the waters of the river are impounded to such an extent as to form a reservoir, 10 miles long and five miles wide. When once filled, the basin would, it is estimated, contain 40,000 acres of land, without more water flowing into it.

SERVE THEIR TIME BEFORE SENTENCED

Peculiar Circumstances in Lar-
ceny Cases Against Walsh
And Morgan.

ARE NOW LEAVING TOWN.

The Two Men Have Been in Jail 102
Days and Were Discharged in
Court Today.

It may seem strange to say that a man accused of crime served his sentence before it was pronounced, or imposed, by the court, yet such a case, or rather two of them, were in Judge Diehl's court this morning.

They were the cases of the state vs. F. M. Walsh and George Morgan, alleged grafters and sure thing men originally charged with grand larceny. They were accused of swindling a young southerner named H. P. Lee out of about \$100 last March. They worked the old matching nickels game on him near the postoffice. Walsh and Morgan were arrested and were positively identified by young Lee. The case was continued from time to time since March, the day they were arrested and placed in the county jail. They were unable to give bonds and remained in jail since that date.

When the matter was called this morning in Judge Diehl's court, Assistant County Attorney Aaron Myers cleared that it would be difficult to secure a conviction in the district court owing to the fact that there was but one material witness for the prosecution. Attorney Myers also stated that the defendants are willing to plead guilty to the charge of petit larceny and take a sentence of 100 days in the county jail, the sentence to date from March 23, the day they were incarcerated in the county jail. This sentence was imposed.

From March 8 to June 17, inclusive, is 102 days. The accused have served the sentence and have two days coming, or rather have served two days more than the time imposed in the sentence. They were released from custody and it is understood will leave the city just as fast as they possibly can.

RECORD FOR JUNE.

Rainfall So Far Passes All Previous
Marks for the Month.

The heavy storm area that has been covering the entire Intermountain country for the last few days is passing away, so that by tomorrow the skies ought to be smiling, although tonight showers are expected. The local weather bureau recorded .98 of an inch precipitation for last night—that is, for the last day of the month. But the rainfall through the month and along the foothills was much heavier. During the morning the showers were very heavy, .20 of an inch; but the clouds cleared away by noon, and this afternoon is balmy and pleasant.

The total rainfall for the month of June so far is 1.59 inches, which breaks the record, as generally June is a light month for rain, with a normal precipitation of .77. So it will be seen that this June runs a long way ahead of the standard. The excessive rainfall has so injured the tomatoes in the fields and in the garden, and the alfalfa and the milk producer averages \$1 per hundred pounds for his milk. By June nearly all the grain was harvested, and the yield was bounteous.

At Mesa there is a large ostrich farm, and Mr. Montensen brought to this city a number of ostrich eggs, highly polished and adorned with illustrations peculiar to Arizona. One-half of the shell depicts native life as it formerly existed there, while upon the other side is painted scenes wrought by the white man. One egg was specially designed and presented as a souvenir to President Joseph Smith by the Mutual Improvement association. Others were distributed among Salt Lake workers with the compliments of the land company at Mesa.

A number of Arizona people accompanied Mr. Montensen, and all speak in praise of the country. They were met by officials of the Santa Fe railroad.

SHOOTING SCRAPE AGAIN IN COURT

Nick Pappadopolis Charged With
Assault With Intent to
Commit Murder.

ON PERSON OF A. ARRANITES

George Cordas Was Sentenced to One
Year in Pen for Same Offense—
Williams in Pen for Two

The attention of Judge Armstrong's court is today being occupied by the trial of the case of Nick Pappadopolis, charged with assault with a deadly weapon with intent to do murder, on the person of Andron Arranites, at a saloon in Bingham Junction on last New Year's day. Arranites had just stepped up to the bar, to talk to the bartender when a number of men rushed in upon him, and among them George Cordas, who approached him from behind and stuck a knife into his back, and Nick Pappadopolis, who entered the saloon at the same moment from the front door, and drawing a revolver shot Arranites in the side. A brother of Pappadopolis is also said to be implicated in the assault, but in the melee following the assault, the brother made his escape. The trouble was said to have been caused by the resentment of Arranites of the chase—assaulting Arranites on May 22, and was sentenced by Judge Armstrong to one year's imprisonment for the offense.

Williams Gets Two Years.

Nick Williams, charged with burglary in the second degree, appeared before Judge Armstrong this morning, entered a plea of guilty and was sentenced to serve two years at hard labor in the state penitentiary. Williams, on the 11th day of the present month, entered the building at 75 west First South street, occupied by Zion's Bakery and Lunch room, with intent to steal and carry away the goods and chattels therein contained. He was captured and his arraignment and sentence for his crime all took place within one week from the date of his offense.

AUTOISTS, PLEASE NOTICE.

Meeting Called for Friday Evening in
Commercial Club Rooms.

The following letter is self-explanatory. It is being circulated among auto owners:

"Are you interested in the organization of an automobile club for Salt Lake City? If you are, please meet with us Friday evening at the Commercial club rooms at 8 o'clock."

W. E. Macarion, who is here helping to organize this club, has already procured the names of 60 of our most prominent automobile owners, and he has not seen you it is for lack of time, and we trust that you will meet with us and help to organize this club, at which time its purposes will be explained.

"J. E. JENNINGS,
"C. R. PEARSON,
"Acting Secretary."

BLUEPRINTS OF GROUNDS.

Map Showing Plans of Seattle Exposition in Governor's Office.

An artistically executed blue print, showing the plan of the grounds and arrangement of buildings at the Alaska-Yukon-Pacific exposition to be held in Seattle, in 1909, has been received at the office of Governor Cutler. The grounds occupy a commanding site just south of the campus of the Washington state university, and just between Lake Washington and Lake Union on the southeast and northwest respectively.

The "Artic Circle" around which all the attractions are grouped, and the agricultural and manufacturing circle, such as the Rainier Vista, Klondike Olympic, Cascade Court, Kootenai avenue, Olympic and Rainier, are made use of, and are applied to roads, paths and avenues running through the grounds.

Insanity Board in Session—The state insanity board is holding a session at Provo this afternoon, and Gov. Cutler, State Auditor Edwards and State Treasurer Christiansen left for that city this morning to be present at the meeting.

Second South Transfer—B. F. Grant has transferred to M. B. Howard his interest in 82½ by 220 feet on Second South street, between First and Second streets, situated on N. 10th, with the transfer is in division of hitherto undivided properties held jointly by the parties.

Callahan Visits Kade—D. A. Callahan will leave tomorrow to attend the Yale regatta at New Haven, Conn., and the boat races at New London, Mr. Callahan was in the class of '89 at Yale, and will take a keen delight in seeing the blue triumph over the crimson.

Nauvoo Legion—The next monthly meeting of the association will be held Friday evening at 8 o'clock in the bishop's office. Utting ward, several having expressed their wish to join the association, an invitation is given for anyone to come to the meeting and ascertain the benefits that may be derived from joining the association.

New Ogden Concern—The Electric Supply & Fixture company of Ogden filed articles of incorporation, with the secretary of state today. The capitalization of the company is fixed at \$10,000, and its officers are as follows: R. W. Noel, president; A. E. Wright, vice president; C. J. Humphries, secretary and D. C. Eccles, treasurer.

PERSONALS.

Manager G. C. Castle of the Graham Mercantile company at Ely, Nev., is a guest at the Cullen.

Judge W. H. Dusenberry of Provo will remove to this city to live, and practice law here.

Will Harris is home from Cornell, where he has just completed his sophomore year, and is now a full fledged upper class man.

Bloni, Miss, where she has been in school for the past two years.

TALKS WITH CONSUMERS

UTAH MANUFACTURERS spend thousands of dollars every year sending out traveling salesmen to place their goods in the country.

WHY NOT talk directly with the consumers and induce them to ask country merchants FOR YOUR GOODS?

You can do it, through the Semi-Weekly News

PERSONALS.
