ing some of the principal ore exposures on the property. Development work is being done by contract on the Pride of the West claim, and although it will be necessary to continue the tunnel more than 100 feet to get into the ledge, a number of stringers have been cut. Progress has been rather slow here on account of the extreme hardness of the ore encoun-tered. The Golden Gate shaft is down 105 feet, but at present energy is being nergy h centered in a drift being run on the 100

share to turn in enough stock to give the merger promoters a control. The attention of Mr. Newhouse was called to this bit of information, and while he did not care to discuss the matter, he a much as admitted that overtures along the lines indicated had been made to him very recently.

him very recently. A private message from the east has conveyed the intelligence that Mr. New-house, since his arrival in Salt Lake from his late Nevada trip, had been

are but hogies—myths which disappear when the rising sun of a determined purpose turns on its rays. If the rail-roads discriminate, through fear of the Guggenheims and the Standard Oll roo-her barons, let us fight them. One man, Angustus Heinze, a poor mining en-gineer, whipped the whole Standard Oil crowd in Montana. Are the men of Nevada such puling infants that they are content to remain slaves? Did over they get of nature's treasures without a struggle? Are the glants who discovered mines and builded cities on the desert to turn to pigmies at sight of a galling combination of mere dol-lars?"

#### ON MINING EXCHANGE.

#### Trading Brisk Today-Closing Quotations and Sales.

tations and Sales. Stocks went up and then went down again during the early calls of the min-ing exchange today. That is, some of them did. Beek Tannel, Black Jack, Colorado, Uncle Sam Con. Lower Mann-meth and even Wabash made substan-tial gains during the regular call, while on the open board these same stocks lost all they had gained. Little attention was given to the un-listed issues. The closing quotations and sales were:

REGULAR P. M. SALES.

Altogether, Mr. Burton explains, there are at least 15 exposures where pay ore can be obtained and that sufficient

Amount.

ore can be obtained and that sufficient ore has been developed to warrant the erection of a milling plant. Before do, ing so, however, the company proposes to spend a little time in developing an ample water supply. This work is in progress now. A shaft is being put down in the valley, between two and three miles from the Monster claim, and where Manager Burton believes an abundant supply of water will be ob-tained. The Monster claim alone is capable of keeping a mill of large ca-pacity supplied with ore for a long time to come, as the vehn is more than 50 feet wide and the entire mass carries mill values. mill values. The Utah Arizona company has begun the construction of a telephone line to Chloride, the nearest railroad point, a distance of 20 miles, which will give the camp wire communication with the

miside world. Arrangements have also been made with the owners of the stage line operating between Chloride and White Hills to change its route via the mine, to call for and discharge mail and passengers. The Gold Bug mine, seven miles from the Line Arizona, the Hall property

the Utah Arizona; the Hall property, two miles away, and the Mocking Bhd mine, four miles distant, have recent-ly resumed operations; while about 30 miles north on the Colorado river an electric power plant is being installed to generate power and light for surrounding mining camps. A large gold dredging plant is also working on the Colorado near what is known as Tem. ple bar.

#### CONCENTRATES.

General Superintendent R. C. Gem-mell of the Utah Copper company is expected to return from southern California tomorrow.

The material for the Yampa smelter converter building has been shipped from Minneapolis.

The East Heiena smelter of the Amorican Smelting and Refining com-pany is being operated with one ad-ditional furnace. The plant has been running on a light tennage for some

George Z. Edwards departed yesterday for Tecoma, Nevada, where he has gone on mining business.

The "News" mining department ac-knowledges the receipt of a map of the Clitton mining district out in the Deep Creek country from Wilson Brothers, the owners of the Lucy L, and other mining properties in that readon. rgia

ORDERS PROMPTLY EXECUTED ON ALL MARKETS.

urged by wire to come on to New York on business in connection with the amalgamation scheme in so far as it applied to the Boston Consolidated. The message also indicated that the stock bought in during the past 10 days had been for the account of those interested

in the Copper Mines company, which has been organized as the holding com-pany for the mines that are put into the combination. There is no doubt in the minds of many that the Utah Copper and Bos-ton Consolidated properties could be operated very advantageously if united. Probably that will be the case, some day, but how soon remains to be seen
