LOGAN, June 10th, 1871.

Preston presiding, our object being to organize a society, to be called, "The Cache Valley Choral Society." It was unanimously agreed to adopt a uniform system of instruction in our choirs throughout this County, to facilitate our uniting together as choirs at interchanges of friends visits of the settlements; also to meet in convention, at appointed times, for mutual instruction and improvement in the divine art.

The following officers were elected: President, Bishop S. Roskelley, of Smithfield; Vice-President, G. L. Farrell, Logan; Secretary, C. Wright, Smithfield; Leader, A. C. Smyth, Mendon; Assistant Leaders, Wm. Knowles, Logan, and Brother Haslem, Wellsville; Copyists, B. Roper, J. H. Martineau, J. E. Hyde, R. Deakin, H. Petersen, I. Nash, Wm. Lewis and J. Fogg. TENOR.

MALAD CITY, June 12, 1871.

Editor Deseret News:—The following will show the present condition of Malad Valley: "Grasshoppers and crickets are in abundance; all the grain has been eaten up and the farming land is consequently all bare. A great number of the brethren will have to leave here this Summer to seek employment to secure their next year's bread and seed.

We have opened a road into the mountains to the Summit of Round Valley, where there is a very extensive range of timber of every description. We are dividing up the former big field into three divisions. The hay land is enclosed by itself, 5,000 acres, and the farming land into two separate fields. We have an abundance of poles to make the enclosures.

Our Sunday School, under the supervision of Bro. Arnold Goodliff, is in a prosperous condition, and our Sunday meetings are fully attended.

The Co-operative store, under the management of Bro. Edwin Curtis, is doing a good business.

The DESERET NEWS comes regularly every Thursday. Our Post Master, E. J. Danes, Esq., is very prompt in the distribution of all letters and papers to their respective addresses without delay.

Yours, etc.

DANIEL DANIELS.

SALT LAKE CITY, June, 17th.

Editor News:—It may be well, according to the notion of some, to pay the full penalty of taking water from the ditches for irrigating purposes when it does not belong to them and, indeed, in some parts of the city it is commendable. But if you will take a walk down North Temple St., two or three blocks, you would be surprised to see the amount of water that is wasted. Along this street are large hollows made by the City Creek in former years, and on this street there are also about a score or more of little children from five to fifteen years whose sole occupation seems to consist in turning the water into these hollows for the purpose of bathing, playing, &c., and flooding the streets. It would be a good thing if some of those who are so much in need of water would turn this surplus down their lots and save the waste.

Respectfully, WATER.

CASH FOR WOOL.—Mr. Alfred Randall, of the Excelsior Mills, Ogden, has made an arrangement with Messrs. Riggs & Lechtenburg, East Temple St., to sell the cloth manufactured at his factory; and to buy wool for him. The cloth of these mills bears a high reputation. Messrs R. & L. will pay cloth at cash price, goods out of their store, or greenbacks at the option of those having wool to sell, for their wool. We understand that parties from the East are endeavoring to buy up wool in this country, for the purpose of shipping it to the East. We need this wool here, and there is a market in the Territory for every pound that is produced; our manufacturers are willing to purchase it. Every wool-producer, therefore, who has the interest of the country at heart should pause before selling his wool to be shipped away. It certainly is an unwise policy, under the circumstances, to place it in the hands of those who will take it out of the country. A large amount of capital has been invested in machinery and buildings and a great many hands are employed in this manufacture, and it is no more than right that manufacturers should receive the cordial support of the community. There is not the excuse that formerly existed for not patronizing home-manufactured woolen goods. In former days, under primitive methods, they were thought coarse and unfinished; but now they compare very favorably with the best Eastern manufactured goods in their line; and, in fact, are admitted to be superior by good judges of cloth. A large woollen factory has been built at Provo at immense expense, machinery to fill it will soon be here, and the wool which will be required to supply it alone, will exceed any demand of the kind ever before made in this Territory, and it would be a great loss to have it short of a supply of wool, because the wool produced in the Territory had been shipped off. Every citizen who has the welfare of the Territory at heart should do all in his power to sustain our manufactures; for our future wealth and independence, as a community, depend to a very great extent upon their receiving proper support.

A DESIRABLE RESORT.—One of the finest mountain retreats in the world is Bear Lake Valley. Business men who wish to pass a few summer months away from the hurry and bustle, cares and anxieties of the counting room could scarcely find a better locality in which to rusticate. Those whose constitutions are worn out by disease and overwork would find it an excellent place to recuperate their strength. The advantages of Bear Lake as a suitable resort for health and pleasure seekers are almost too numerous to mention. In the first place, the climate for salubrity can scarcely be excelled in any portion of the globe, the absence of disease and the rare occurrence of deaths among the settlers there being sufficient evidence of this fact. Those who admire the beauties of nature could not fail to be charmed with the magnificent scenery of that region. There is the fruitful valley dotted with thrifty settlements; the beautiful lake surrounded by imposing ranges of high mountains, whose majestic forms are reflected in the clear waters; there are timber clad slopes in the grand mountain gorges or canyons. There is any amount of wild game such as ducks, rabbits, &c., and for those who delight in angling there is ample scope to gratify their taste in the numerous streams, which are well filled with mountain trout and other fish, besides the lake which abounds with a variety of the finny tribe. A commodious pleasure boat has lately been built so that those who are fond of sailing can gratify their desires. In fact all that could be reasonably desired in a quiet country retreat is to be found in that locality; and, doubtless, tourists and pleasure seekers will find this out and, at no distant day, will wend their way to Bear Lake Valley, where the beauties and advantages to be attained in a trip to Switzerland can be enjoyed without having to travel so far to reach them.

INFORMATION wanted of the whereabouts of Samuel Price, who emigrated from Birmingham in 1855, and crossed the plains in the hand-cart company which came into the valley the same year. Any one knowing of his whereabouts, will confer a favor on his mother by addressing Ann Price, Deseret News office, Salt Lake City.

SCIPIO, Millard Co., June 11th, 1871.

Editor Deseret News:—We commenced a store here two years ago, on the principle of co-operation, with a capital of five hundred dollars. We have been doing a good business and the capital is increased to two thousand dollars. The shares are five dollars each thus giving the poor a chance, as well as those that are better off. The people have confidence in the institution, which is under the wise management of the President, Brother D. Thompson, and the directors.

The Female Relief Society was organized on the 29th of last July by Bathsheba and Hannah Smith, with Sophronia Martin, Presidentess; Lorinda Thompson and Marion Hawley, counselors, and Ann Martin, Secretary. They lately paid fifty-two dollars for the gathering of the poor. The Society are united in the good work to which they are called.

Respectfully, J. B. MARTIN.

TERRITORIAL ITEMS.—Received by Deseret Telegraph:

Silver ledges have been discovered eight miles west of Pine Creek hill, by a party from Salt Lake, and a district has been organized, called the Washington District.

FILLMORE, June 16th.

The Probate Court with Judge Partridge presiding, is busy issuing certificates for warantee deeds to our citizens for their city property.

The grasshoppers have done but little damage in this county. The prospects are tolerable for good crops of grain and fruit. The frost at Scipio has damaged their fruit and grain very much.

The house of G. Huntsman which was recently damaged by wind, has been thoroughly repaired. The health of the citizens is generally good.

Some fine rock for the erection of the basement to our Court House, is now being hauled.

HUNTSVILLE.—H. C. Wardleigh writes from Huntsville, Weber County, June 17th, that the grasshoppers are there in large numbers, but does not state whether they were doing much damage, but as he says "all is well," we should judge that the crops were, so far, safe.

DOUBLE DAILY SERVICE.—In a communication from Col. J. W. Wickizer, Special Mail Agent, received to-day, he says: "I have just established twice daily service between Salt Lake City and Ogden, each way."

DIED.

Notice to Consumers.—The increasing popularity of Dooley's Yeast Powder has induced a certain firm who manufacture a Baking Powder to copy verbatim, our advertisements, simply substituting their name in place of ours. While this proves the standard excellence and worth of our Yeast Powder it is calculated to deceive the consumers, and reflects the character of the parties, as well as the goods which they are endeavoring to force upon the unwary. Be sure that you call for Dooley's Yeast Powder, and take no other. Dooley & Brother, Proprietors, 69 New Street, New York.
