FOR FIFTY MILES OF WALKS

Between 500 and 600 Men to Go to Work at Once-Telephone Ordinance Passed.

Two important measures before the city council at its meeting last evening were the acceptance of the bid of James Kennedy for the completion of sidewalk extension No 108, previously accepted by the board of works, and the passing of an ordinance regulating the revenue that the municipality shall receive from telephone compan-

The contract stipulates that at least 15 miles shall be completed before the end of this year, and the remainder before Oct 1, 1909. The contract price is \$203,000, of which amount the city will pay \$49,000, none of which, how-ever, will have to be paid this year. Within a few days from 500 to 600 men will be at work on the project. It is said that this contract is the largest of its kind ever let at one time in of its kind ever let at one time in the United States.

TELEPHONE ORDINANCE.

The telephone ordinance provides that after Jan. 1, 1909, each telephone company operating in this city shall take out a quarterly license and pay into the city treasury 25 cents for each listrument whose rental is \$60 or over, and 12½ cents for each instru-ment renting at less than \$60. If the mayor approves the ordinance, the companies have 10 days in which to accept its provisions. As to the Rocky Mountain Bell Telephone company, it is conceded that should the ordinance become effective it would end the controversy as to whether that company has a franchise, and would grant it a lawful existence until the year 1933.

CHECK IS RETAINED.

City Auditor Alff apprised the coun-cil that he had received a check for the sum of \$7,516.61 from the Utah Light & Railway company, as its por-tion of the paving of First avenue, but he was of the opinion that it should be returned, as the company's doings were with the contractors rather than with the city. Several councilmen were were with the contractors rather than with the city. Several councilmen were of the opinion, however, that the check should be retained, as the city had paid the contractors in full, and should be reimbursed by the railway company. Part of the amount named aboye was intended by the street railway com-pany to pay its portion of the paving from State street to B street on First avenue, and the remainder was the fulfilment of the company's agreement to pay a share of the paving still farfulfillment of the company's agreement to pay a share of the paving still far-ther east on the same thoroughfare, al-though it no longer has tracks beyond B street on First avenue. The adver-tising for paving, however, had been done before the company tock up its tracks east of B street on First avenue, and it agreed to pay the assessment that had already been levied against it, just as though it still 'used a fran-chise along the entire street.
